Schroder International Selection Fund Global Gold

A Accumulation SGD Hedged | Data as at 30.09.2020

Fund objectives and investment policy

The fund aims to provide capital growth by investing in equities of companies in the gold industry.

The fund invests at least two-thirds of its assets in equities of companies worldwide involved in the gold industry. It will also invest directly in equities relating to other precious metals and indirectly in gold and other precious metals through funds. The fund may hold up to 40% of its assets in cash. The fund will not be exposed to any physical commodities directly, nor enter into any contracts relating to physical commodities. The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors.

Past performance and any forecasts are not necessarily a guide to the future or likely performance. The value of investments and income from them can go down as well as up and is not guaranteed.

Source: Morningstar, bid to bid, net income reinvested, net of fees. The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.
