Note: In this report the abbreviated names of the sub-funds will be used, i.e. without the prefix 'Robeco Capital Growth Funds'.

This partial semi annual report over the first half year of 2023 is an excerpt from the full June 2023 semi-annual report of Robeco Capital Growth Funds. It only contains data from the Robeco Capital Growth Funds sub-funds, whose distribution is permitted in Switzerland. This report is part of a consolidation of all assets, liabilities, income and expenses of all sub-funds of Robeco Capital Growth Funds, which are authorized for distribution in Switzerland. A copy of the semi-annual report is recommended to people as this report is only an excerpt from the semi-annual report of Robeco Capital Growth Funds, which includes details of all sub-funds.

# General Information

## Robeco Capital Growth Funds

(hereafter the “**Company**” or the “**Fund**”)

Undertaking for collective investment in transferable securities incorporated as a ‘Société d’Investissement à Capital Variable’ (“**SICAV**”) under Luxembourg law.

### **Register of the Company**

RCS Luxembourg B 58 959

### **Registered Office**

6, route de Trèves  
L-2633 Senningerberg  
Grand Duchy of Luxembourg

### **Board of Directors**

Mr. J.H. van den Akker (Director/Chairman)

Mr. I.R.M. Frielink (Director)

Mr. C.M.A. Hertz (Director)

Mr. P.F. van der Worp (Director)

Mrs. J.F. Wilkinson (Director)

Mr. J.H. van den Akker, Mr. I.R.M. Frielink and Mr. P.F. van der Worp are employees of Robeco Nederland B.V. (Affiliated Entity)  
Mr. C.M.A. Hertz and Mrs. J.F. Wilkinson are independent directors

### **Management Company**

Robeco Institutional Asset Management B.V.

Weena 850

3014 DA Rotterdam

The Netherlands

Sub-fund	Share class	Effective date
Robeco European High Yield Bonds	ZH EUR	30/05/2023

# Report of the Board of Directors (continued)

## Report of the Investment manager

### General market review

The first half of 2023 saw a continued late cycle expansion in economic activity in the US, UK and Japan, while the Euro area entered a technical recession, led by Germany. Leading macro-indicators like the inverted yield curve and producer confidence surveys in the manufacturing sector had been flagging a looming slowdown phase of the business cycle in the G7 economies before the start of 2023. Yet year to date, economic growth in developed economies proved more resilient compared to prior consensus expectations, sustained by a continued expansion in global services activity, notably healthcare and air transportation. Especially Japan enjoyed a strong first half with the July leading Tankan indicator for large enterprises in the services sector indicating further expansion. Also, the European continent weathered the winter better than expected despite being largely cut-off from Russian gas resulting in elevated energy prices. Overall, rising geopolitical tensions in an increasingly multipolar world have elevated economic policy uncertainty and macro-economic volatility. The tightening cycle in developed economies is maturing with policy rates up by 4% since early 2022. The failure and rescue in March 2023 of three US small to midsized banks showed that the ongoing central bank monetary tightening cycle has started to bite. Yet, G7 labor markets remain tight, allowing a pass-through of past inflation into higher wages. Western economies still struggle with sticky core inflation of about 5%, with central banks signaling further policy tightening.

China's economic growth performance proved lackluster with persistent housing market weakness undermining consumer sentiment. China is experiencing a different macro cycle compared to G7 members as Consumer Price Index (CPI) inflation fell to 0.0% (year-over-year) in June. While China has eased monetary policy, leading to a stronger credit impulse, the effectiveness of additional stimulus so far has been below the historical track record.

## Global Equity sub-funds (continued)

### Performance analysis

#### **Robeco BP Global Premium Equities**

Over the reporting period, Robeco BP Global Premium Equities generated a return of 4.4% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (net return in EUR).

The sub-fund underperformed the benchmark in the first half of the year as market performance was primarily concentrated to Meta (fka Facebook), Amazon, Apple, Netflix, Alphabet (fka Google), Microsoft, Nvidia and Tesla stocks, in a market with some of the narrowest performance on record. Throughout the first six months of the year, both stock selection and sector allocation have negatively contributed on a relative basis. Stock selection was weakest in health care, communication services and financials, while industrials and consumer staples provided a bit of relief, helping to offset disadvantages in other sectors. Sector allocation weakness was driven by the sub-fund's underweight exposure to information technology and overweight to health care. The sub-fund's overweight to consumer staples benefitted slightly, though not enough to eclipse shortcomings elsewhere. Regionally, stock picking negatively contributed the most to portfolio returns driven primarily by names in North America. Across the market capitalization spectrum, value has been added across large, mid and small-size capitalizations exposure with nearly all of the detraction coming in mega cap names. With respect to sustainability investing, the sub-fund qualitatively captures a range of ESG issues which directly and indirectly affect our decision making during the course of our characteristics-based investment process.

#### **Robeco QI Global Conservative Equities**

Over the reporting period, Robeco QI Global Conservative Equities generated a return of 2.5% (gross of fees in EUR), against a return of 11.5% for its reference index, the MSCI All Country World Index (net return in EUR). During this period, the fund underperformed against the benchmark. The low-risk factor was the primary detractor from relative performance, while the momentum and value factors also dragged on relative returns.

#### **Robeco Sustainable Global Stars Equities**

Over the reporting period, Robeco Sustainable Global Stars Equities generated a return of 12.6% (gross of fees in EUR), against a return of 12.6% for the MSCI World Index (net return in EUR).

The performance is in line with the reference index as a result of a very strong contribution from stock selection in the communication services, financial and healthcare sectors, while stock-picking consumer discretionary and industrials sectors negatively contributed to the overall performance. The performance of the market has been very much skewed by the fact that seven of the largest information technology and communication services names have posted very strong year-to-date return on the back of the Artificial Intelligence theme, while the rest of the market has continued to lag on macro-economic concerns. During the first half of the year, the sub-fund focused significantly on further strengthening its environmental profile. Sustainability is incorporated into the investment process by focusing on material information with regards to environmental, social and governance (ESG) factors. During the reporting period, the sub-fund's overall sustainability risk rating (based on Sustainalytics ESG Risk Rating) remained lower than the sustainability risk rating of the benchmark, indicating a lower risk profile from an ESG point of view. In addition, the environmental profile of the sub-fund was further improved by reducing the overall exposure in terms of water use, waste generation and greenhouse gas emissions of the sub-fund relative to the benchmark. The sub-fund has an environmental profile that is more than 70% better than the benchmark average.

#### **Robeco Emerging Stars Equities**

Over the reporting period, Robeco Emerging Stars Equities generated a return of 12.0% (gross of fees in EUR), against a return of 2.6% for its reference index, the MSCI Emerging Markets Index (net return in EUR).

The main positive contributors to the relative performance were an overweight position in Korea and Hungary, an underweight position in China, and positive stock selection results in China, Taiwan and Korea. The sub-fund maintained its investment policy, which combines active country allocation and stock selection based on fundamental research and supported by quantitative models, while ESG factors are fully integrated into the investment process. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile and through engagement the sub-fund tries to improve the sustainability profile of the companies it invests in.

#### **Robeco Emerging Markets Equities**

Over the reporting period, Robeco Emerging Markets Equities generated a return of 10.4% (gross of fees in EUR), against a return of 2.6% for its benchmark, the MSCI Emerging Markets Index (net return in EUR).

The main positive contributors to the relative performance were an overweight position in Brazil, Greece and Hungary, an underweight position in China, Malaysia and Thailand, and positive stock selection results in China, South Korea and Taiwan. The sub-fund maintained its investment policy, which combines active country allocation and stock selection based on fundamental research and supported by quantitative models, while ESG factors are fully integrated into the investment process. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile and through engagement the sub-fund tries to improve the sustainability profile of the companies it invests in.

### Performance analysis (continued)

#### **Robeco QI Emerging Markets Active Equities**

Over the reporting period, Robeco QI Emerging Markets Active Equities generated a return of 8.9% (gross of fees in EUR), against a return of 2.6% for its reference index, the MSCI Emerging Markets Index (net return in EUR).

For the period, the sub-fund outperformed the benchmark. The quality factor was the primary contributor to relative performance, while the analyst revisions, momentum, trade timing and value factors also added to relative returns.

#### **Robeco QI Global Developed Sustainable Enhanced Index Equities**

Over the reporting period, Robeco QI Global Developed Sustainable Enhanced Index Equities generated a return of 11.9% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index.

For the period, the sub-fund slightly underperformed the benchmark. The momentum factor was the primary detractor from relative performance, while the sustainability, trade timing and value factors also dragged on relative returns. On the other hand, the analyst revisions and quality factors contributed positively to relative performance.

#### **Robeco QI Emerging Conservative Equities**

Over the reporting period, Robeco QI Emerging Conservative Equities generated a return of 9.1% (gross of fees in USD), against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in USD).

For the period, the fund outperformed the benchmark. The low-risk factor was the primary contributor to relative performance, while the momentum and value factors also added to relative returns.

#### **Robeco QI Global Value Equities**

Over the reporting period, Robeco QI Global Value Equities generated a return of 7.6% (gross of fees in EUR), against a return of 11.5% for its reference index, the MSCI All Country World Index (net return in EUR).

For the period, the sub-fund underperformed the benchmark. The value factor was the primary detractor from relative performance, while the low-risk and momentum factors also dragged on relative returns. On the other hand, the quality factor contributed positively to relative performance.

#### **Robeco QI Global Developed Multi-Factor Equities**

Over the reporting period, Robeco QI Global Developed Multi-Factor Equities generated a return of 6.6% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (net return in EUR).

For the period, the sub-fund underperformed the benchmark. The value factor was the primary detractor from relative performance, while the low-risk and momentum factors also dragged on relative returns. On the other hand, the quality factor was broadly neutral.

#### **Robeco QI Emerging Markets Sustainable Active Equities**

Over the reporting period, Robeco QI Emerging Markets Sustainable Active Equities generated a return of 6.5% (gross of fees in EUR), against a return of 2.6% for its reference index, the MSCI Emerging Markets Index (net return in EUR).

For the period, the sub-fund outperformed the benchmark. The quality factor was the primary contributor to relative performance, while the analyst revisions, sustainability and value factors also added to relative returns. On the other hand, the momentum and trade timing factors negatively contributed to the relative performance.

#### **Robeco QI Global Developed Conservative Equities**

Over the reporting period, Robeco QI Global Developed Conservative Equities generated a return of 1.9% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (net return in EUR).

For the period, the sub-fund underperformed the benchmark. The low-risk factor was the primary detractor from relative performance, while the momentum and value factors also dragged on relative returns.

#### **Robeco QI Global Developed Enhanced Index Equities**

Over the reporting period, Robeco QI Global Developed Enhanced Index Equities generated a return of 12.5% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (net return in EUR).

For the period, the sub-fund slightly underperformed the benchmark. The momentum factor was the primary detractor from relative performance, while valuation and the trade timing factors also dragged on relative returns. On the other hand, the quality and analyst revisions factors contributed positively to relative performance.

# Report of the Board of Directors (continued)

## Global Equity sub-funds (continued)

### Performance analysis (continued)

#### **Robeco QI Emerging Markets Sustainable Enhanced Index Equities**

Over the reporting period, Robeco QI Emerging Markets Sustainable Enhanced Index Equities generated a return of 7.3% (gross of fees in USD), against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in USD).

For the period, the sub-fund outperformed the reference index. The quality factor was the primary contributor to relative performance, while the valuation, analyst revisions, and sustainability factors also added to relative returns. On the other hand, the momentum factor negatively contributed to relative returns while the trade timing factor was neutral.

#### **RobecoSAM Global SDG Equities**

Over the reporting period, RobecoSAM Global SDG Equities generated a return of 8.7% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (total return in EUR).

The main reason for the underperformance came from negative stock selection and the lower risk profile of the sub-fund versus the overall market, with a beta of around 0.9. Among the largest detractors were primarily mega-cap stocks which are considered to have a negative or too low positive contribution to the sustainable development goals. A negative contribution was also made by the large overweight position in healthcare. This was offset somewhat by strong contribution from stock picking in the Industrials and Materials sectors.

#### **RobecoSAM Global SDG Engagement Equities**

Over the reporting period, RobecoSAM Global SDG Engagement Equities generated a return of 14.3% (gross of fees in USD), against a return of 13.9% for the MSCI All Country World Index (net return in USD).

The main reason for the outperformance was good results from stock-selection in the communication services, consumer staples and financials sectors, while stock-selection in the consumer discretionary and healthcare sectors negatively contributed to the overall performance. During the first half of the year, there was a very strong performance from Artificial Intelligence related names, which propelled names in the communication services and information technology sectors, while the return of the market overall was relatively subdued. After a strong year in 2022, more defensive healthcare names in the pharmaceutical- and healthcare insurance segment have given up some performance and are lagging this year. During the first half of the year, the sub-fund has closed its engagements with Elanco Animal Health in the animal health segment of the healthcare sector, as well as with Union Pacific in the industrials sector.

RobecoSAM Global SDG Engagement Equities focuses on companies that generate a positive social/environmental impact by contributing to the achievement of the UN Sustainable Development Goals (SDGs) as defined by the United Nations. The companies eligible for the sub-fund are selected using Robeco's proprietary SDG framework and are considered to contribute strongly to one or more of the SDGs, without doing significant harm to any of the others.

#### **RobecoSAM QI Global SDG & Climate Beta Equities**

Over the reporting period, RobecoSAM QI Global SDG & Climate Beta Equities generated a return of 10.4% (gross of fees in EUR), against a return of 11.5% for its reference index, MSCI All Country World Index (net return in euros).

The sub-fund underperformed its reference index. The relative performance compared to the reference index can be attributed to differences in the eligible investment universe, due to sustainability goals of the sub-fund

#### **Robeco Quantum Equities**

Over the reporting period, Robeco Quantum Equities generated a return of 10.4% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (net return in EUR).

For the period, the sub-fund underperformed the benchmark. The short-term revisions indicator was the primary contributor to relative performance. On the other hand, the short-term momentum, flows, and reversal indicators negatively contributed to relative returns.

## Performance analysis

### Robeco Asia-Pacific Equities

Over the reporting period, Robeco Asia-Pacific Equities generated a return of 6.8% (gross of fees in EUR), against a return of 3.9% for its reference index, the MSCI All Country Asia Pacific (net return in EUR).

The sub-fund generated a strong outperformance due to positive stock selection and by avoiding overvalued stocks and sectors. Many names derated in the internet related business areas where the sub-fund had minimal exposure. Healthcare was another significant contributor owing to strong bottom-up stock selection in Japan. Lack of exposure in the defensive utilities sector however did detract. From a country perspective Japan, China and Singapore were the standouts for alpha generation. From a stock perspective, Japanese financial names SMFG and T&D were top contributors, as was Swire Pacific in Hong Kong. The underweight in TSMC also helped as high historical valuations reverted on declining demand. The sub-fund has continued to engage with companies on more transparency particularly on environmental data. The sub-fund limits investments in companies with an elevated sustainability risk profile and takes sustainability risks into account in company valuations, but the focus is on engagement and improvement rather than exclusion.

### Robeco Sustainable European Stars Equities

Over the reporting period, Robeco Sustainable European Stars Equities generated a return of 11.9% (gross of fees in EUR), against a return of 11.1% for its reference index, the MSCI Europe Index (Total Return in EUR).

This outperformance is the result of positive contribution from various sectors. The allocation effect was positive, overcompensating a negative selection effect. The communication services, consumer discretionary and staples sector contributed positively to the relative performance only partly offset by poor relative returns in financials, utilities, and health care. With a high active share of around 80%, the sub-fund's risk was lower compared to the index. The tracking error remained at around 4%. As the strategy seeks to have a lower environmental footprint and a better ESG risk rating (using Sustainalytics ESG Risk Score) than the index, investment decisions are considering the effect of adding or exiting positions on these factors. Consequently, the strategy's carbon (scope 1 and 2), water and waste footprint is materially lower and the aggregate ESG risk rating better than that of the benchmark.

# Report of the Board of Directors (continued)

## Regional & Country Equity sub-funds (continued)

### Performance analysis (continued)

#### Robeco QI European Conservative Equities

Over the reporting period, Robeco QI European Conservative Equities generated a return of 4.5% (gross of fees in EUR), against a return of 11.1% for its reference index, the MSCI Europe Index (net return in EUR).

For the period, the sub-fund underperformed the benchmark. The low-risk factor was the primary detractor from relative performance, while the value and momentum factors also dragged on relative returns.

#### Robeco QI US Conservative Equities

Over the reporting period, Robeco QI US Conservative Equities generated a return of 3.4% (gross of fees in USD), against a return of 16.4% for its reference index, the MSCI North America Index (total return in USD).

For the period, the fund underperformed the benchmark. The low-risk factor was the primary detractor from relative performance, while the value and momentum factors also dragged on relative returns.

#### Robeco BP US Premium Equities

Over the reporting period, Robeco BP US Premium Equities generated a return of 4.6% (gross of fees in USD), against a return of 5.0% for its reference index, the Russell 3000 Value Index (Total Return in USD).

The sub-fund has slightly underperformed the benchmark in the first half of the year as market performance was primarily concentrated to Meta (fka Facebook), Amazon, Apple, Netflix, Alphabet (fka Google), Microsoft, Nvidia and Tesla stocks, in a market with some of the narrowest performance on record. Stock selection has driven underperformance, while sector allocation has nearly offset all of this detraction. Stock selection in financials, health care and communication services negatively contributed to the overall performance, while names in industrials and information technology help offset this through the first six months of the year. From a sector allocation perspective, the sub-fund's overweight exposure to information technology and underweight to consumer staples and utilities drove outperformance, while underweight exposure to communication services and overweight to health care negatively contributed. With respect to sustainability investing, the sub-fund qualitatively captures a range of ESG issues which directly and indirectly affect our decision making during the course of our characteristics-based investment process.

#### Robeco Chinese Equities

Over the reporting period, Robeco Chinese Equities generated a return of -12.4% (gross of fees in EUR), against a return of -7.7% for its reference index, the MSCI China 10/40 (net return in EUR).

The Robeco Chinese Equities strategy underperformed the index mainly due to the underweight in the financials and energy sectors and adverse stock selection in health care and materials sectors. The focus on offline retail recovery and stock picks in value state-owned enterprises (SOE) worked well. The MSCI China market went through a volatile period in first half of 2023. The year started with a strong rally on China's reopening and subsequent expectations of a cyclical upturn. But soon the weaker than expected post-Covid demand recovery in property and retail sales led to profit taking. Quality Chinese stocks, including internet and consumer names, were sold-off heavily, and investors went to chase stocks in artificial intelligence and SOE reform themes. ESG integration is fully incorporated in our investment process and the sub-fund maintained better Sustainability Risk Score than the reference index.

#### Robeco Indian Equities

Over the reporting period, the sub-fund generated a return of 8.1% (gross of fees in EUR), against a return of 2.8% for its reference index, the MSCI India Index (net return in EUR).

Selection constituted over 65% of the total attribution while allocation constituted the balance, underscoring the robustness of the focused bottom-up stock selection strategy. Large caps and mid-caps, both contributed meaningfully to portfolio performance. Performance was aided by a large overweight in consumer discretionary and financials and through underweight position in utilities. A neutral position in consumer staples detracted performance marginally. A large underweight in utilities enhanced portfolio performance, due to sharp underperformance of the Adani group stocks, where the sub-fund does not have any exposure. Apart from exclusions of weapons, tobacco and coal utility companies, the sub-fund's ESG focus stresses on integration, focusing on key sustainability parameters and how they impact the company's income statements, through both risk and opportunity factors. The sub-fund's ESG lens stresses on companies that practice good governance, and which have articulated a coherent strategy on moving towards decarbonization.

# Report of the Board of Directors (continued)

## Regional & Country Equity sub-funds (continued)

### Performance analysis (continued)

#### Robeco Asian Stars Equities

Over the reporting period, Robeco Asian Stars Equities generated a return of 7.0% (gross of fees in USD), against a return of 3.0% for its reference index, the MSCI All Country Asia ex Japan (net return in USD).

This strategy delivered strong relative returns in the first half of 2023. Technology stocks in Asia, especially hardware and semiconductor stocks in Korea and Taiwan related to the AI theme, soared with ChatGPT frenzy. The sub-fund held several key positions trading at attractive valuation in this space as the market began to recognize their strong market position and pricing power, which contributed to performance. The exposures in Indonesia delivered strong earnings and improved shareholder returns as the economy further recovered from re-opening and the benefits of higher commodity prices trickled through. Sustainability is integrated in every investment decision with special focus on identifying attractive investment opportunities. The sub-fund selects stocks with attractive valuation and exciting fundamentals while maintaining positive earnings and price momentum. It is a high conviction strategy with a concentrated portfolio of 41 stocks. The sub-fund limits investments in companies with an elevated sustainability risk profile.

#### Robeco Sustainable Asian Stars Equities

Over the reporting period, Robeco Sustainable Asian Stars Equities generated a return of 6.7% (gross of fees in USD), against a return of 3.0% for its reference index, the MSCI All Country Asia ex Japan (net return in USD).

The sub-fund delivered strong relative performance in the first half of 2023. The main driver was stocks selection in tech-enabling and smart mobility thematic. The belief that the Asian technology supply chain is critical in enabling the sustainability transition globally is reflected in the portfolio. These stocks saw multiple expansion as the market began to recognize their revenue potentials in higher power, higher temperature and more demanding applications of AI and EV both in Asia and globally. Financial inclusion exposure in Indonesia enjoyed economic recovery and benefits of higher commodity prices trickling through. The sub-fund invests in underappreciated and undiscovered beneficiaries of the Asian pivot towards a sustainable future and maintained a carbon footprint ownership of 79% below and better than the benchmark in first half 2023. Robeco's global sustainability expertise is leveraged to identify the most attractively valued ideas in Asia. Through engagement efforts, portfolio companies are actively helped to learn more and do more to improve their sustainability.

#### Robeco BP US Large Cap Equities

Over the reporting period, Robeco BP US Large Cap Equities generated a return of 4.5% (gross of fees in USD), against a return of 5.1% for its reference index, the Russell 1000 Value Index (Total Return in USD).

The sub-fund has slightly underperformed the benchmark in the first half of the year as market performance was primarily concentrated to Meta (fka Facebook), Amazon, Apple, Netflix, Alphabet (fka Google), Microsoft, Nvidia and Tesla stocks, in a market with some of the narrowest performance on record. The sub-fund slightly trails the index through the first six months of the year, with sector allocation driving underperformance, and stock selection coming in flat. The first six months of the year have been mixed with both strong and weak performance across the sector spectrum. Just a few sectors have driven performance for the index, namely communication services and Information Technology. The sub-fund has outperformed the index in Information Technology, while falling behind in communication services. Strong performance in the materials and industrials sectors helped the sub-fund stay relatively in line with the index. With respect to sustainability investing, the sub-fund qualitatively captures a range of ESG issues which directly and indirectly affect our decision making during the course of our characteristics-based investment process.

#### Robeco BP US Select Opportunities Equities

Over the reporting period, Robeco BP US Select Opportunities Equities generated a return of 7.7% (gross of fees in USD), against a return of 5.2% for its reference index, the Russell Mid Cap Value index (Total Return in USD).

The sub-fund outperformed the benchmark in the first half of the year in a market with some of the narrowest performance on record. Sector allocation drove outperformance through the first six months of the year, adding value in 8 of 11 sectors, while stock selection also contributed, adding value in 7 of 11 sectors. From a sector allocation perspective, the sub-fund's overweight (by almost 10%) to industrials and consumer discretionary climbed higher, adding significantly to relative performance. In stock selection, the sub-fund's positions in health care, information technology and consumer staples drove outperformance, while consumer discretionary names struggled, weighing on relative performance as recessionary fears stemmed spending. The sub-fund continues to find new investment opportunities across a wide variety of areas with wide valuation spread still present in the market. With respect to sustainability investing, the sub-fund qualitatively captures a range of ESG issues which directly and indirectly affect our decision making during the course of our characteristics-based investment process.

# Report of the Board of Directors (continued)

## Regional & Country Equity sub-funds (continued)

### Performance analysis (continued)

#### **Robeco Chinese A-share Equities**

Over the reporting period, Robeco Chinese A-share Equities generated a return of -14.7% (gross of fees in EUR), against a return of -8.1% for its reference index, the MSCI China A International Index (net returns in EUR). The China A shares market had a volatile first half of 2023. Market continued the rally started last November when China abandoned zero covid policy, and then the market declined in February and March, after the balloon incident causing concerns on geopolitical escalation. It rebounded in April, supported by strong first quarter data, but started correction in mid-April because of US plans to limit US investments into semiconductors and AI in China. The market remained weak in the following months as China's recovery disappointed. The Chinese A Shares Equities strategy underperformed its index. The focus on theme such as technology and innovation, in particular the information technology sector performed well driven by the Artificial Intelligence theme. Industrials, consumer discretionary and materials were main detractors as cyclical and consumption recovery was below the expectation. ESG integration is fully incorporated in our investment process and the sub-fund maintained better Sustainability Risk Score than the reference index.

#### **Robeco QI Chinese A-share Conservative Equities**

Over the reporting period, Robeco QI Chinese A-share Conservative Equities generated a return of 6.6% (gross of fees in EUR), against a return of -8.1% for its reference index, the MSCI China A International Index (net returns in EUR).

For the period, the sub-fund outperformed the benchmark. The low-risk factor was the primary contributor to relative performance, while the valuation and momentum factors also added to relative returns.

### Performance analysis

#### Robeco New World Financials

Over the reporting period, Robeco New World Financials generated a return of 5.1% (gross of fees in EUR), against a return of 1.4% for its reference index, the MSCI All Country Financials (net return in EUR). As investors started to come to grips with a higher interest rate environment, the sub-fund benefitted from the sharp reversal of the Digital Finance trend which showed strong performance across several sub-segments. Financial Management outperformed due to Brazilian neo-bank Nu Holdings and US fintech Upstart. Payments saw a strong recovery in Mercado Libre and StoneCo, while in Data Analytics London Stock Exchange and S&P contributed positively. In Emerging Finance, the sub-fund benefitted from its exposure to emerging market banks, especially in Mexico, Indonesia, Philippines, India and Brazil. The Aging Finance trend detracted slightly, as some of the life insurance exposure got caught up in the fall out from the US regional bank crisis. Alongside the implementation of Robeco's Good Governance policy the sub-fund limits investments in companies with an elevated sustainability risk profile, excluding the 10% bottom ranked companies on ESG from the investment universe. Through engagements like 'Climate Transition of Financial Institutions' the manager tries to improve the sustainability profile of the invested companies.

#### Robeco Sustainable Property Equities

Over the reporting period, Robeco Sustainable Property Equities generated a return of -0.2% (gross of fees in EUR), against a return of -1.2% for its reference index, the S&P Developed Property Index (net return in EUR).

The sub-fund outperformed the benchmark driven mainly by positive stock selection in Asia Pacific and Europe. Inflation and rising (real) interest rates combined with structural trends have driven performance differences in the first half of 2023. Real estate operating companies underperformed, where high leveraged Scandinavian and German stocks are overrepresented. Datacenter REITs and residential REITs were amongst the best performing sub industries as underlying fundamentals remain strong. While fundamentals remain supportive for property stocks, financing costs are rising, affecting investment markets. With an implied dividend yield of 4% plus listed real estate offers an attractive entry point, particular in a low-growth, high-inflation environment.

The sub-fund integrates ESG factors (RobecoSAM, Sustainalytics, GRESB) into its investment process and actively monitors and engages companies on GHG emissions. The sub-fund has an above-average ESG score and actively steers towards a carbon intensity below the benchmark average. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile.

#### Robeco Global Consumer Trends

Over the reporting period, Robeco Global Consumer Trends generated a return of 20.8% (gross of fees in euros), against a return of 11.5% for its reference index, the MSCI All Country World Index (net return in EUR).

Global markets performed well, and growth stocks rebounded as the pace of interest rate hikes is moderating and inflation has fallen from the peak. Last year's losers in sectors like technology, communication services and consumer discretionary rebounded strongly, while energy stocks dropped. The sub-fund's outperformance was mostly driven by a recovery in growth stocks in general and technology stocks in particular, in part due to excitement about the future prospects for artificial intelligence applications. Companies exposed to emerging markets contributed positively on the back of strength in the luxury goods segment as Chinese travel is slowly recovering from the pandemic induced lockdowns. Finally, the exposure to defensive sectors like healthcare and consumer staples had a negative contribution as defensive stocks lagged. The strategy has integrated ESG factors into its investment process by adhering to our binding elements like limiting exposure to elevated risk investments, voting in line with Robeco's Proxy Voting Policy and comply with Robeco's exclusion policy.

#### Robeco MegaTrends

Over the reporting period, Robeco MegaTrends generated a return of 20.4% (gross of fees in EUR), against a return of 11.5% for its reference index, the MSCI All Country World Index (net return in EUR).

After a difficult 2022, the first half of 2023 was a very satisfying period for the sub-fund in terms of investment returns and volatility. The big growth stocks which fell sharply last year, bounced back strongly, and these companies are over-represented in the portfolio. Three of the five trends that the sub-fund invests in – i.e. Digital World, Connected Enterprise and Resource Stewardship, registered significant increases over the first six months and outpaced the reference index by a wide margin. Healthy aging and emerging middleclass did rise in absolute terms but lagged the reference index.

With respect to sustainable investing, the sub-fund uses insights from both Sustainalytics and proprietary SI research in its investment process. The sub-fund limits investments in companies with an elevated sustainability risk profile and the most recent ESG risk score for the portfolio was 18.1 ("low") versus 21.6 ("medium") for the reference index.

# Report of the Board of Directors (continued)

## Theme Equity sub-funds (continued)

### Performance analysis (continued)

#### **Robeco Digital Innovations**

Over the reporting period, Robeco Digital Innovations generated a return of 25.6% (gross of fees in EUR), against a return of 11.5% for its reference index, the MSCI All Country World Index (net return in EUR).

During the reporting period, the sub-fund managers continued to implement their long-standing strategy of gradually increasing the portfolio weight of software- versus hardware-based businesses, as long-term economic value creation is concentrated in software-based companies. The digital transformation of enterprise, the overarching investment theme of the sub-fund, remains very much on track, which boosted performance during the first half of 2023. All trends that the sub-fund invests in, digital enablers, robotics and automation, and secure digital transformation, outpaced the reference index by a wide margin.

With respect to sustainable investing, the sub-fund uses insights from both Sustainalytics and proprietary SI research in its investment process. The sub-fund limits investments in companies with an elevated sustainability risk profile and the most recent ESG risk score for the portfolio is 16.3 (“low”) versus 21.6 (“medium”) for the reference index.

#### **Robeco FinTech**

Over the reporting period, Robeco FinTech generated a return of 9.8% (gross of fees in EUR), against a return of 11.5 for its reference index, the MSCI All Country World Index (net return in EUR).

The year 2023 so far has been a challenging year for Financials as well as technology companies related to the financial sector, ie FinTechs. While the payments part of the FinTech investment universe delivered very strong relative positive performance, financial infrastructure and digital assets had the worst negative contributions. The US regional bank crisis in March was the most important reason for the negative performance contributions as banks reconsidered their IT investment plans as four US regional banks and Credit Suisse needed rescue plans. During the reporting period several management meetings were held in which, through active cooperation with Robeco’s SI Research team and Robeco’s Active Ownership team, the companies were supported to improve their sustainability profiles and corporate governance structures. The sub-fund has a substantial weight allocated to improving financial inclusion.

#### **RobecoSAM Circular Economy Equities**

Over the reporting period, RobecoSAM Circular Economy Equities generated a return of 14.2% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund outperformed the benchmark despite strong underweight to the mega cap technology/communication companies that drove the benchmark return. In a turbulent start of the year for financial companies, the sub-fund benefited from not having any exposure to the sector. The industrials sector was a large positive contributor to the outperformance. The distributors of maintenance, repair and operations services also performed strongly in the quarter after reporting good Q4 results.

#### **RobecoSAM Smart Energy Equities**

Over the reporting period, RobecoSAM Smart Energy Equities generated a return of 16.6% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund outperformed the benchmark, benefiting especially from a strong start to the year. Power semi-conductor companies, strong contributors, benefited from continuous demand in the electric vehicle and renewable industry segments, and did not show any signs of weakness. Performance was also fueled by big data and AI-related product names. In contrast, momentum in renewable energy names, especially solar and solar storage companies, has slowed down somewhat, owing to anticipation of expected further regulatory guidance.

#### **RobecoSAM Smart Materials Equities**

Over the reporting period, RobecoSAM Smart Materials Equities generated a return of 14.1% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund outperformed the benchmark slightly, largely driven by the performance of efficient building materials companies throughout the first half of the year. These companies benefited from better-than-expected 1Q23 results and improved sentiment in the US housing market, including increasing homebuilder sentiment and a significant uptick in housing starts. Outperformance was further aided by AI-related opportunities in the semiconductor sector and general positive performance of manufacturing software companies.

# Report of the Board of Directors (continued)

## Theme Equity sub-funds (continued)

### Performance analysis (continued)

#### RobecoSAM Smart Mobility Equities

Over the reporting period, RobecoSAM Smart Mobility Equities generated a return of 22.9% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund outperformed the benchmark over the reporting period. Vehicle manufacturers recorded a markedly positive performance as did semiconductor companies with exposure to automotive end-markets, as the automotive markets remained resilient. Lithium names had a mixed performance owing to various regional developments. End of the period saw an increase in the outperformance of charging solution names, as the structural demand for electrical infrastructure to support EV charging and the energy transition continues to drive growth.

#### RobecoSAM Sustainable Healthy Living Equities

Over the reporting period, RobecoSAM Sustainable Healthy Living Equities generated a return of 1.2% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund underperformed the benchmark during the reporting period due to both to the index's strong IT sector performance and general healthcare stocks underperformance. On an individual position basis, one of the biggest positive performance contributions came from a plasma collections and products company, quarterly results of which confirmed that the plasma business is starting to deliver the expected growth, and from an athletic wear company, which owns a highly demanded running shoe brand.

#### RobecoSAM Sustainable Water Equities

Over the reporting period, RobecoSAM Sustainable Water Equities generated a return of 8.3% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund performed positively but did not keep up with the benchmark's IT and AI stock rally. Building material companies, especially those with residential construction revenues, benefited from better-than-expected 1Q23 results and increasing homeowner sentiment. China-related names continued to underperform, given the overall weak Chinese investment sentiment, outweighing benefits from post-Covid reopening. Companies active in water analytics moved more or less sideways, underperforming the more cyclical clusters, but rebounding slightly at the end of the period.

#### RobecoSAM Global Gender Equality Equities

Over the reporting period, RobecoSAM Global Gender Equality Equities generated a return of 7.6% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

Stock-picking in technology – particularly semiconductor companies – with favorable gender scores yielded the largest positive contribution to return. However, the narrow market breadth YTD is the main detractor accounting for over half the relative underperformance as AI-mania companies that the sub-fund won't own due to poor gender and DE&I characteristics performed strongly (e.g. Apple, Meta and Tesla). A US regional bank severely impacted by rapid Fed rate hikes and liquidity crisis also negatively contributed to the performance. While under-allocation to energy and utilities companies positively contributed to return.

#### Robeco Next Digital Billion

Over the reporting period, Robeco Next Digital Billion generated a return of 5.8% (gross of fees in USD), against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in USD).

As investors started to come to grips with a higher interest rate environment, the sub-fund benefitted from the sharp reversal in Latin American fintech exposure. Brazilian neo-bank Nu Holdings and payment companies StoneCo and Pagseguro recovered on the prospects of peaking domestic rates. Also exposure to digital platform companies like MercadoLibre, Sea and Prosus helped. The over-exposure to Latin America positively contributed to performance while stock picking in China was mixed with a few winners like Shenzhen Transsion and Baidu, and a few detractors like Alibaba and Meituan. The sub-fund includes ESG factors in the analysis of investments, and plans to actively engage with companies that are invested in. The portfolio has a better Sustainability score compared to the reference index and limits investments in companies with an elevated sustainability risk profile. Many of the businesses that the sub-fund is invested in, are mission driven, facilitating individuals and businesses to have access to useful and affordable products and services that meet their needs.

#### RobecoSAM Biodiversity Equities

Over the reporting period, RobecoSAM Biodiversity Equities generated a return of -1.9% (gross of fees in EUR), against a return of 12.6% for its reference index, the MSCI World Index (Total Return in EUR).

The sub-fund underperformed the benchmark as the index benefited from very strong IT sector surge, to which the sub-fund has zero exposure. Several Consumer Staples positions in the sub-fund performed strongly, locking in profits across the sector, however salmon farming names endured a pressure from rising feed costs and price peak expectations.

# Report of the Board of Directors (continued)

## Theme Equity sub-funds (continued)

### Performance analysis (continued)

#### **RobecoSAM Net Zero 2050 Climate Equities**

Over the reporting period, RobecoSAM Net Zero 2050 Climate Equities generated a return of 17.2% (gross of fees in EUR), against a return of 19.1% for its reference index, the MSCI World Climate Change Index (net return in EUR).

During the reporting period, the sub-fund had a negative relative return versus the MSCI World Climate Change Index that serves as its benchmark. Positive contributions to the relative return of the portfolio came from strong stock-selection in the consumer discretionary, consumer staples, financials and materials sectors, while the sub-fund had negative contributions from stock-selection in the information technology, healthcare, and industrials sectors. The main theme during the first half of the year was the strong performance from Artificial Intelligence related names, such as Nvidia, Microsoft, Alphabet and also Tesla, all of which are portfolio holdings, though they are only small active positions. The sub-fund did have negative contribution from Apple in Information Technology, which is not a holding, but was up 46%, and therefore contributed negatively to overall performance. The sub-fund did have good contribution from its holdings in building insulation installer TopBuild, chip maker STMicroelectronics and energy efficiency player Schneider Electric. Positions that negatively contributed to the performance included software play Aspen Technology, solar equipment maker SolarEdge, life science instrumentation company Thermo Fisher, and Chinese solar thin film producer Hangzhou First Applied Material.

### Performance analysis

#### Robeco High Yield Bonds

Over the reporting period, Robeco High Yield Bonds generated a return of 3.4% (gross of fees hedged into EUR), against a return of 4.2% for its reference index, the Bloomberg US Corporate High Yield + Pan Euro HY ex Financials 2.5% Issuer Cap (hedged into EUR).

Central banks in Europe and the US continued to tighten monetary policy in their fight against inflation. With economic data generally surprising to the upside the tone of central banks remained firmly hawkish. The negative sentiment on rates markets, short-end government bond yields in the US and Germany moved up around 50bps, did not spill over to high yield. Recession fears abated and this helped propel high yield markets higher. Some lower rated credits that had underperformed strongly in 2022 recovered in the reporting period. The cautious positioning of the sub-fund resulted in some underperformance of the sub-fund versus its benchmark. Its long position in the financial sector negatively contributed to the performance in March as problems in US regional banks occurred, but the sector recovered nicely in the second quarter. With respect to sustainable investing, the sub-fund has integrated ESG factors into the investment process. The prime goal of integrating ESG factors into the analysis is to strengthen the ability to assess the downside risk of the credit investments.

#### Robeco Global Credits

Over the reporting period, Robeco Global Credits generated a return of 2.5% (gross of fees hedged into EUR), against a return of 1.8% for its reference index, the Bloomberg Global Aggregate Corporates (hedged into EUR).

The total return of the portfolio was for the largest part driven by the underlying government bond yield movement. Government bond yields moved higher in Europe while yields on longer dated US Treasuries remained stable. European spreads remained relatively stable while US spreads moved lower in the first six months. The sub-fund's top-down positioning added to performance as the sub-fund started the year with a beta above 1, taking profits in February. The sub-fund added risk again in March after the widening caused by the defaults of three US regional banks and Credit Suisse in Europe. Issuer selection had a positive contribution to performance, with key contributors being Carnival Cruises, Cellnex and ZF Friedrichshafen. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers.

#### Robeco QI Dynamic High Yield

Over the reporting period, Robeco QI Dynamic High Yield generated a return of 6.5% (gross of fees hedged into EUR), against a return of 3.7% for its reference index, the Bloomberg Global High Yield Corporate (hedged into EUR).

The sub-fund provides liquid exposure to high yield through credit default swap (CDS) and indices on top of a portfolio of government bonds. The position in CDS indices is based on a quantitative model: the position is increased to 150% when the model is positive and vice versa reduced to 50% when negative. The sub-fund held an overweight position during the first half of 2023, briefly interrupted by short lived neutral positions in March and May. The overweight credit beta positions contributed positively to the performance. The overweight in Europe and underweight in the US also made a positive contribution over the period, as well as the new duration overlay that was introduced in February 2023. The 2.8% outperformance is explained by a positive contribution of 1.3% from the model-based active positions and a 1.5% contribution from CDS indices outperforming high yield bonds. In the long run structural return differences between CDS indices and bonds are not expected. Given the type of instruments used to implement the investment strategy, ESG integration does not play a role in the investment strategy.

## Global Bond sub-fund (continued)

### Performance analysis (continued)

#### Robeco QI Global Multi-Factor Credits

Over the reporting period, Robeco QI Global Multi-Factor Credits generated a return of 1.8% (gross of fees hedged into EUR), exactly equal to the return of its index, the Bloomberg Global Aggregate Corporates index (hedged into EUR).

Issue(r) selection delivered a positive contribution and beta allocation also contributed slightly positively. The value factor delivered the largest positive contribution, followed by a much smaller positive contribution from size. The largest detractor was the low-risk/quality factor, driven by both the underweight in longer-dated bonds and the defensive company selection. The momentum factor also negatively contributed and so did duration hedging inaccuracies at the long end of the due to curve flattening. Sector allocation delivered a positive contribution, mainly due to the overweights in the technology and consumer cyclical sectors; the off-benchmark position in agencies contributed negative. Currency allocation slightly contributed negative, primarily due to the overweight in EUR bonds. Country allocation delivered a small positive contribution, with the largest positive contributions from the overweights in Switzerland and Luxembourg. The allocation to subordination groups contributed slightly positively, mostly due to the overweight in senior corporates. Rating allocation contributed somewhat negative, primarily due to the underweight in BAAs. The portfolio construction ensured that the portfolio's Sustainability ESG Risk Rating is better than the benchmark, that the carbon footprint is lower than the benchmark and also that the water consumption and waste disposal footprints are lower than the benchmark.

#### Robeco QI Global Multi-Factor Bonds

Over the reporting period, Robeco QI Global Multi-Factor Bonds generated a return of 2.3% (gross of fees hedged into EUR), against a return of 1.7% for its reference index, the Bloomberg Global Aggregate Index (hedged into EUR).

The systematic duration overlay contributed most to the performance, mainly with duration underweights in the US and Germany and overweights in Japan. The factor-based credit selection contributed positively as well, mainly thanks to the value factor. The factor-based government bond selection contributed positively mainly by selecting bonds from the right maturities. The sub-fund offers balanced exposure to the value, momentum, low-risk, quality, and size factors. The bottom-up selection of bonds aims to systematically harvest factor premiums with a risk profile similar to the index and with the weighted average ESG scores and CO2 emissions of the government bonds and the credits in portfolio better than in the index. The sub-fund incorporates an active duration overlay, which is fully driven by the outcomes of the manager's quantitative duration model.

#### Robeco Global Credits - Short Maturity

Over the reporting period, Robeco Global Credits - Short Maturity generated a return of 1.4% (gross of fees hedged into EUR), against a return of 0.9% for its reference index, the Bloomberg Global Aggregate Corporate 1-5 yr (hedged into EUR).

Beta positioning of the sub-fund has been the largest driver of outperformance. After a credit rally in January and February the long beta position was reduced to just above 1. After the spread-widening in March the beta was increased to benefit from higher spreads. Issuer selection also had a positive contribution with positions in Syngenta and Banco Comercial Portugues contributing positively, while positions in Barclays and ABN AMRO contributed negatively. In March a long duration position was implemented which had a positive contribution. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers. The sub-fund also invests in green bonds, the exposure in the portfolio at reporting date was circa 8%.

#### Robeco Corporate Hybrid Bonds

Over the reporting period, Robeco Corporate Hybrid Bonds generated a return of 2.5% (gross of fees in EUR), against a return of 2.6% for its index, the Bloomberg Global Corporate Hybrids 3% Issuer Cap (hedged into EUR). The total return was driven by a decrease in credit spreads, while the underlying treasury yield curves inverted further.

The sub-fund underperformed its index, mainly driven by a negative result from issuer-selection while beta positioning made a modest positive contribution. The sub-fund's beta position was above neutral during most of the reporting period. However, the beta was slightly defensive at the start of the period when spreads rallied significantly. Issuer selection made a negative contribution to the sub-fund's performance. Several overweight positions in issuers from the energy and utility sectors were a drag on performance. With the exception of a few core holdings, most of these issuers underperformed the corporate hybrid market. Despite some large gains on senior debt holdings which outperformed the market, the net result on issuer selection was negative. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers.

# Report of the Board of Directors (continued)

## Global Bond sub-fund (continued)

### Performance analysis (continued)

#### Robeco QI Global Multi-Factor High Yield

Over the reporting period, Robeco QI Global Multi-Factor High Yield generated a return of 4.1% (gross of fees hedged into EUR) compared to 4.0% for its index, the Bloomberg Global High Yield Corporates ex Financials index (hedged into EUR).

Issue(r) selection strongly contributed negative. The value factor delivered the largest positive contribution, followed by a much smaller positive contribution from the size factor. The largest detractor was the low-risk/quality factor. The momentum factor also negatively contributed. Sector allocation delivered a small positive contribution, mainly due to the underweights in the communications and utility other sectors. Currency allocation delivered a positive contribution, due to the underweight in USD bonds and the overweight in EUR bonds. Issuer country allocation delivered a large positive contribution, primarily due to the underweight in emerging market issuers and the overweights in the United Kingdom and Ireland. The allocation to subordination groups made a large negative contribution, primarily due to the overweight in corporate hybrids. Rating allocation delivered a positive contribution, due to the underweight in CAAs and CAs, while the underweight in Bs contributed negative. Beta allocation delivered a large positive contribution: the beta position of the bond portfolio delivered a strong negative contribution, while the CDS index beta hedge delivered a larger positive contribution. Duration hedging inaccuracies on the long end of the curve negatively contributed due to curve flattening. The portfolio construction ensured that the portfolio's Sustainalytics ESG Risk Rating is better than the benchmark, that the carbon footprint is lower than the benchmark and also that the water consumption and waste disposal footprints are lower than the benchmark.

#### RobecoSAM SDG Credit Income

Over the reporting period, RobecoSAM SDG Credit Income generated a return of 2.9% (gross of fees hedged into USD). The sub-fund is managed on a total return basis and not versus an index.

There was a positive contribution from spread returns. After the widening in spreads in March the sub-fund increased its credit exposure, mainly via adding CoCo positions. Positions in CaixaBank, Banco Comercial Portugues and IHO Verwaltungs GmbH were the strongest contributors to the sub-fund's credit return. The sub-fund maintained a duration position of 5 years during the first half of 2023. The duration position had a negative impact on total return as underlying government bond yields increased. The sub-fund focusses on issuers that are contributing positively to the UN Sustainable Development Goals. That means that companies that contribute negatively to one or more SDGs, like brewing companies or oil companies are excluded from the portfolio. All portfolio companies have good governance practices.

#### RobecoSAM Global SDG Credits

Over the reporting period, RobecoSAM Global SDG Credits generated a return of 2.2% (gross of fees hedged into EUR), against a return of 1.8% for its reference index, the Bloomberg Global Aggregate Corporates Index (hedged into EUR).

The total return of the portfolio was for the largest part driven by the underlying government bond yield movement. Government bond yields moved higher in Europe while remaining stable in the US. European corporate credit spreads remained relatively stable while US spreads moved lower in the first 6 months. Volatility during the first half of 2023 was substantial. The sub-fund's top-down positioning added to performance as the sub-fund started the year with a beta above 1, taking profits in February. The sub-fund added risk again in March after the widening caused by the defaults of three US regional banks and the Credit Suisse turmoil in Europe. Issuer selection had a positive contribution to performance with key contributors being ZF Friedrichshafen, Cellnex and Tennet. Positions in for example in emerging markets such as TSMC, Orbia and SK Hynix added to performance. In the investment process, the sub-fund focusses on issuers that are contributing positively to the UN Sustainable Development Goals. That means that companies that contribute negatively to one or more SDG's, from for example the energy, alcohol, and unhealthy food sectors, are excluded from the portfolio.

#### RobecoSAM SDG High Yield Bonds

Over the reporting period, RobecoSAM SDG High Yield Bonds generated a return of 3.6% (gross of fees hedged into EUR), against a return of 3.7% for its reference index, the Bloomberg Global High Yield Corporate Index (hedged into EUR).

Central banks in Europe and the US continued to tighten monetary policy in their fight against inflation. With economic data generally surprising to the upside the tone of central banks remained firmly hawkish. The negative sentiment on rates markets, short-end government bond yields in the US and Germany moved up around 50bps, did not spill over to high yield. Recession fears abated and this helped propel high yield markets higher. Some lower rated credits that had underperformed strongly in 2022 recovered in the reporting period. The long position in the financial sector negatively contributed to the performance in March as problems in US regional banks occurred, but the sector recovered nicely in the second quarter. The sub-fund benefited from not being invested in some underperforming issuers from the real estate sector. With respect to sustainable investing in the investment process, the sub-fund focusses on issuers that are contributing positively to the UN Sustainable Development Goals. That means that companies that contribute negatively to one or more SDGs, like tobacco companies, certain mining companies and coal powered utilities, are excluded from the portfolio.

### Performance analysis (continued)

#### RobecoSAM Global Green Bonds

Over the reporting period, RobecoSAM Global Green Bonds generated a return of 0.7% (gross of fees hedged into EUR), against a return of 2.0% for its reference index, the Bloomberg MSCI Global Green Bond Index (hedged into EUR).

Duration and yield curve positioning subtracted from relative performance as the sub-fund was positioned for lower yields and steeper curves. These positions benefitted returns substantially in March as front-end rates rallied and curves steepened when several US local banks collapsed and, in Europe, Credit Suisse had to be taken over by UBS. Nonetheless these positions subtracted considerably when banking issues ebbed, and short-dated yields rose sharply, and curves inverted again. The curve inversion is now at extremes. Inverted curves over time always normalize as the impact of tighter monetary policy manifests. Credit issuer selection and overweight beta policy made a positive return contribution. Top-down positioning added to performance of the sub-fund. During the first two months of the year exposure to subordinated financials was reduced, benefitting from the market rally. The exposure was increased again after spreads had widened significantly during the banking stress. The beta was again reduced throughout the second quarter of the year as spreads had tightened back again. Issuer selection made a positive contribution; the overweight banking, consumer cyclicals, electric utilities and technology positions all contributed positively. Notably, senior, and subordinated banking credits added to the performance.

#### RobecoSAM Climate Global Credits

Over the reporting period, RobecoSAM Climate Global Credits generated a return of 2.9% (gross of fees in GBP), compared to 2.4% for its index the Solactive Paris Aligned Global Corporate Index.

The total return was driven by a modest decrease in credit spreads, while underlying treasury yield curves inverted further. The sub-fund outperformed its index, as a positive contribution from beta positioning was enhanced by a modest positive result on issuer selection. The sub-fund's beta position was above neutral at the start of the year, and credit markets subsequently outperformed government bonds. The offensive beta position was increased further as spreads widened. This position paid off towards the end of the period as spreads tightened. Issuer selection made a small positive contribution to the portfolio's performance. The largest contributions came from overweights in non-financial corporates, while several overweights in the banking sector underperformed. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers. The average carbon intensity of the sub-fund was below that of its Paris Aligned benchmark throughout the period. The sub-fund also invests in green, social, and sustainable bonds, with exposure around 16% at period-end.

#### RobecoSAM Climate Global Bonds

Over the reporting period, RobecoSAM Climate Global Bonds generated a return of -0.6% (gross of fees hedged into EUR), against a return of 1.6% for its reference index, the Solactive Paris Aware Global Corporate Index (hedged into EUR).

Main drivers of the underperformance were the underweight credit and emerging debt positions, duration policy, curve and FX positioning. Central banks continue to tighten policy beyond expectations as inflation proves to be stickier than expected. Indeed, interest rates increased further in tandem with credit spreads as higher interest rates led to a number of financial accidents in the banking sector. Overall volatility remained high during the reporting period. The sub-fund achieved its sustainable investment objective by having a lower (better) carbon intensity not only versus a broad market index but also versus its sustainable reference index. Furthermore, the sub-fund met its carbon reduction target by having less exposure to the worst performing polluting countries and corporates whilst having an overweight in aggregate to issuers which are outperforming based on their carbon intensities. The sub-fund also invests in green, social, and sustainable bonds, with exposure around 15% at period-end.

#### Robeco Sustainable Emerging Credits

Over the reporting period, Robeco Sustainable Emerging Credits generated a return of 3.8% (gross of fees in USD), against a return of 3.6% for its reference index, the JPM Corporate EMBI Broad Diversified Index (in USD).

The total return of the portfolio was by driven by the movement of underlying government bond yields and lower spreads. Longer dated government bond yields remained stable in the US, despite plenty of volatility, while shorter dated yields increased. Spreads on emerging market corporates moved lower during the first six months of the year despite a considerable widening in March. The sub-fund's top-down positioning added to performance as the sub-fund started the year with a beta above 1, taking profits in February. Most positions in Chinese real estate bonds were sold after they recovered strongly. The sub-fund added risk again in March after the widening caused by the defaults of three US regional banks and the Credit Suisse turmoil in Europe. Issuer selection had a positive contribution to performance with key contributors being Lenovo, Greenko and HSBC. In the investment process, the sub-fund focusses on issuers that are contributing to or transitioning towards the UN Sustainable Development Goals. The sub-fund does not invest in issuers that have and SDG score of -2 or lower.

### Performance analysis

#### Robeco Euro Government Bonds

Over the reporting period, Robeco Euro Government Bonds generated a return of 2.1% (gross of fees in EUR), against a return of 2.5% for its reference index, the Bloomberg Euro Aggregate: Treasury (in EUR).

Duration and yield curve positioning subtracted from relative performance as the sub-fund was positioned for lower yields and steeper curves. These positions benefitted returns substantially in March as front-end rates rallied and curves steepened when several US local banks collapsed and, in Europe, Credit Suisse had to be taken over by UBS. Nonetheless these positions subtracted considerably when banking issues ebbed. As inflation is only gradually declining while economic growth data has not weakened enough, short-dated yields rose sharply, and curves inverted. The curve inversion is now at multi-decade extremes. Inverted curves over time always normalize as the impact of tighter monetary policy manifests. ESG factors are considered when assessing the fundamental credit quality of individual issuers. The sub-fund participated in green bond issuance from both government and government-related issuers. As of the end of June around 27% of the sub-fund is invested in green, social and sustainable bonds.

#### Robeco Euro Credit Bonds

Over the reporting period, Robeco Euro Credit Bonds generated a return of 2.8% (gross of fees in EUR), against a return of 2.2% for its reference index, the Bloomberg Euro Aggregate: Corporates (in EUR).

Spread performance explained most of the positive index return, a small decline in underlying government bond yields contributed positively to the index return too. The sub-fund outperformed its index, mainly driven by the top-down beta positioning. The sub-fund started the year with a fairly cautious positioning, but following the spread widening in March the beta of the fund was increased to a larger overweight positioning. As spreads recovered from the March peaks, the overweight contributed positively. The contribution of issuer selection was neutral in the first half of 2023. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers. The sub-fund also invests in subordinated green, social and sustainable bonds, the exposure in the portfolio is circa 11.2%.

## Regional Bond sub-funds (continued)

### Performance analysis (continued)

#### Robeco All Strategy Euro Bonds

Over the reporting period, Robeco All Strategy Euro Bonds generated a return of 0.7% (gross of fees in EUR), against a return of 2.3% for its reference index, the Bloomberg Euro Aggregate index (in EUR).

Duration and yield curve positioning subtracted from relative performance as the sub-fund was positioned for lower yields and steeper curves. These positions benefitted returns substantially in March, as front-end rates rallied and curves steepened when several US local banks collapsed and in Europe, Credit Suisse had to be taken over by UBS. Nonetheless these positions subtracted again when banking issues ebbed. Short-dated yields rose particularly sharply and curves inverted even further as inflation was only gradually declining while economic growth data has not weakened enough. The curve inversion is now at extremes both in the US and in Europe. Inverted curves normalize over time as the impact of tighter monetary policy manifests. Credit allocation subtracted from performance, while credit issuer selection contributed. ESG factors are considered when assessing the fundamental credit quality of individual issuers. As of the end of June around 21% of the fund is invested in green, social and sustainable bonds.

#### Robeco European High Yield Bonds

Over the reporting period, Robeco European High Yield Bonds generated a return of 4.6% (gross of fees hedged into EUR), against a return of 4.8% for its reference index, the Bloomberg Pan-European HY Corporate ex Financials 2.5% Issuer Cap (hedged into EUR).

Central banks in Europe and the US continued to tighten monetary policy in their fight against inflation. With economic data generally surprising to the upside the tone of central banks remained firmly hawkish. The negative sentiment on rates markets, short-end German government bond yields moved up around 50bps, did not spill over to high yield. Recession fears abated and this helped propel high yield markets higher. Its long position in the financial sector negatively contributed to the performance as problems in US regional banks put some pressure on the entire sector in March. The sub-fund benefited from being underweight in the communications sector.

With respect to sustainable investing, the sub-fund has integrated ESG factors into the investment process. The prime goal of integrating ESG factors into the analysis is to strengthen the ability to assess the downside risk of the credit investments.

#### Robeco Sustainable Asian Bonds

Over the reporting period, Robeco Sustainable Asian Bonds generated a return of 4.2% (gross of fees hedged into USD), against a return of 2.9% for its reference index, the JP Morgan Asia Credit Index (hedged into USD).

The sub-fund outperformed its index primarily through issuer selection in banking, communication, consumer cyclical and technology sectors due to the positive momentum from China's reopening story in January. The sub-fund's underweight to sovereign and local authorities negatively contributed to the performance. The sub-fund overweight in India and South Korea positively contributed to the performance. India is benefiting from a positive macro headwind whilst South Korea issued several green and sustainable bonds that have been well received in the market. The sub-fund's underweight to frontier sovereign Pakistan and Sri Lanka negatively contributed to the performance as IMF negotiations turned more positive this quarter. The fund's strategic underweight to Macau gaming due to the sector's negative SDG contribution also negatively contributed to the performance as the sector benefited from China's reopening. The investment process is focused on choosing companies that enable Asia to transition in towards a more sustainable future and as a result, the sub-fund is predominately invested in corporates with a neutral or positive SDG score.

#### RobecoSAM Euro SDG Credits

Over the reporting period, RobecoSAM Euro SDG Credits generated a return of 2.7% (gross of fees in EUR), against a return of 2.2% for its reference index, the Bloomberg Euro Aggregate Corporate (in EUR).

Spread performance explained most of the positive index return, a small decline in underlying government bond yields contributed positively to the index return too. The sub-fund outperformed its index, mainly driven by the top-down beta positioning. The sub-fund started the year with a fairly cautious positioning, but following the spread widening in March the beta of the sub-fund was increased to a larger overweight positioning. As spreads recovered from the March peaks, the overweight contributed positively. The contribution of issuer selection was neutral in the first half of 2023. In the investment process, the sub-fund focusses on issuers that contribute positively to the UN Sustainable Development Goals. That means that companies that contribute negatively to one or more SDG's are excluded from the portfolio. The allocation effect of this SDG investment policy was slightly negative in the first half. The sub-fund also invests in green, social and sustainable bonds, the exposure in the portfolio is circa 16.2%.

# Report of the Board of Directors (continued)

## Regional Bond sub-funds (continued)

### Performance analysis (continued)

#### Robeco Financial Institutions Bonds

Over the reporting period, Robeco Financial Institutions Bonds generated a return of 2.8% (gross of fees in EUR), against a return of 2.4% for its reference index, the Bloomberg Euro Aggregate: Corporates Financials Subordinated 2% Issuer Cap (in EUR).

Spread performance driven by the high carry of subordinated debt explained most of the positive index return. The sub-fund outperformed its index, mainly driven by the top-down beta positioning. The sub-fund started the year with a fairly cautious positioning, but following the spread widening in March the beta of the sub-fund was increased to a larger overweight positioning. Adding to, the off-benchmark, position in contingent convertible bond (CoCo) helped to increase the portfolio beta after the widening in March, on a risk-adjusted basis CoCo lagged the rest of the market though. This means that the CoCo exposure contributed negatively to issuer selection. On the other hand, the underweight position in real estate hybrids contributed positively. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers. The sub-fund also invests in green, social and sustainable bonds, the exposure in the portfolio is circa 7.2%.

#### Robeco Investment Grade Corporate Bonds

Over the reporting period, Robeco Investment Grade Corporate Bonds generated a return of 2.5% (gross of fees in EUR), compared to 2.3% for its index the Bloomberg Euro Aggregate: Corporates ex Financials 2% Issuer Cap (in EUR).

The total return was driven by a modest decrease in credit spreads, while the underlying treasury yield curve inverted further. The sub-fund outperformed its index, mainly driven by bottom-up issuer selection while beta positioning made a neutral contribution. The sub-fund's credit beta position was close to neutral at the start of the year when credits outperformed government bonds. The beta was slightly increased as spreads widened in March, but spreads remained volatile in the second quarter. Issuer selection made a positive contribution to the portfolio's performance. The largest contributions came from overweights in lower rated bonds, such as cyclical names and corporate hybrids. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers. The sub-fund also invests in green, social, and sustainable bonds, with exposure around 10% at period-end.

#### RobecoSAM US Green Bonds

Over the reporting period, RobecoSAM US Green Bonds generated a return of 1.3% (gross of fees in USD), against a return 2.3% for its reference index, the Bloomberg MSCI USD Green Bond Index (in USD).

Duration and yield curve positioning subtracted from relative performance as the sub-fund was positioned for lower yields and steeper curves. These positions benefitted returns substantially in March as front-end rates rallied and curves steepened when several US local banks collapsed and, in Europe, Credit Suisse had to be taken over by UBS. Nonetheless these positions subtracted considerably when banking issues ebbed, and short-dated yields rose sharply, and curves inverted. The curve inversion is now at extremes. Inverted curves over time always normalize as the impact of tighter monetary policy manifests. Throughout the volatile credit markets, top-down positioning was close to one or below one. The overall beta contribution had a small negative contribution for the first half of the year, as credit spreads rallied. This was more than offset by issuer selection. Financial bonds were added as spreads had widened significantly. In addition, underweights in REITS and developers added to performance.

#### Robeco QI Multi Factor Absolute Return

Over the reporting period, Robeco QI Multi Factor Absolute Return generated a return of -5.7% (gross of fees in EUR), against a return of 1.3% for its reference index, the ICE BofA ESTR Overnight Rate Index (in EUR).

The sub-fund harvests factor premiums through bottom-up credit and equity selection and at market level through top-down factor-based allocation. The sub-fund targets a low correlation with equity and bond markets and market agnostic returns.

The momentum, quality, low-risk and value factors all contributed negatively. The carry factor added positively to performance while the flow factor was neutral. Government bond allocation was the main positive contributor, followed by credit allocation. Credit selection and commodity allocation were roughly neutral, while equity selection, currency allocation and equity allocation contributed negatively.

Environmental footprint and ESG factors are integrated. The equity sleeves realized their targets of reducing the environmental footprint metrics, greenhouse gas emissions, water usage and waste generation by 30%, 20% and 20% respectively relative to the benchmark. In addition, the Sustainalytics ESG Risk rating was at least 10% better than that of the index. The credit sleeve incorporates better ESG than the index and lower carbon/water/waste than the index.

## Sustainable Investing

All Robeco's investment activities comply with the Principles for Responsible Investing (PRI). Responsibility for implementing Sustainable investing lies with Robeco's CIO, who has a seat on Robeco's Executive Committee.

Fulfilling the responsibilities in the field of stewardship forms an integral part of Robeco's approach to Sustainable investing. Robeco publishes its own stewardship policy on the website. This policy describes how Robeco deals with possible conflicts of interest, how the companies in which the sub-funds invest are monitored, how the activities in the field of engagement and voting are conducted, and how the stewardship activities are reported.

Constructive and effective activities under active ownership encourage companies to improve their management of risks and opportunities in the field of ESG which in turn establish a better competitive position and improve profitability and moreover have a positive impact on the community. Active ownership involves voting and engagement. Robeco exercises its voting rights for the shares in its investment funds all over the world. Robeco uses this engagement to address strategic ESG issues that might affect value creation in the long term.

Robeco has research available from leading sustainability experts, including own proprietary research from the sustainable investing research team. This dedicated Sustainable Investing research team works together very closely with the investment teams to provide them with in-depth sustainability information. The investment analysis focuses on the most material ESG factors and the connection with the financial performance of a company. Robeco can then focus on the most relevant information in performing the investment-analysis and can reach enhanced investment decisions.

To help customers contribute to their sustainable investment objectives, Robeco has developed a methodology that analyses the contribution of investee companies to the Sustainable Development Goals (SDGs) and has developed SDG investment solutions. Furthermore, Robeco contributes to the SDGs by integrating ESG factors in its decision-making process for investments and encourages companies to act in support of these goals by means of a constructive dialogue.

Robeco's climate change policy is focused on integrating climate issues in investments when financially material and engaging with companies. Furthermore Climate risks for the funds are assessed and monitored by Robeco's financial risk management department.

Robeco pursues an exclusion policy for companies that are involved in the production of or trade in controversial weapons such as cluster munitions and anti-personnel mines, for tobacco companies and for companies that seriously and habitually violate either the United Nations Global Compact (UNGC) or the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises. Robeco applies strict criteria for this last category and if a dialogue fails, the company can be excluded. Robeco publishes its exclusion policy and the list of exclusions on its website.

The SFDR classifications of the Robeco Capital Growth sub-funds are shown in the table below. More information is available in the precontractual and periodical SFDR disclosures of the fund on our website.

# Notes to the financial statements as at 30 June 2023

## 1. General

Robeco Capital Growth Funds (the 'Company') was incorporated on 2 May 1997 for an undetermined period of time as an open ended investment company based in Luxembourg, issuing and redeeming its shares on demand at prices based on the respective Net Asset Values per share. Its Articles of Incorporation were published in the 'Memorial, Recueil des Societes et Associations' of the Grand Duchy of Luxembourg (the 'Memorial') on 6 June 1997. The Articles of Incorporation were last amended effective as per 1 January 2022. Robeco Capital Growth Funds is a 'Societe d'Investissement a Capital Variable' (SICAV) pursuant to the law of 10 August 1915, as amended, on commercial companies and to part I of the law of 17 December 2010, on undertakings for collective investment of the Grand Duchy of Luxembourg.

The Company takes the form of an umbrella fund. It is made up of several sub-funds each representing an investment portfolio and other assets and liabilities corresponding to a different investment policy. Each sub-fund is therefore represented by different types of shares with one or more classes of shares. The Board of Directors has authority to issue different categories of shares within each of the sub-funds. The Directors of the Company may at any time establish new sub-funds and/or may decide upon the issue of class A, AH, D, D2, D2H, D3H, DH, DHL, DL, F, FH, FHL, FL, I, IH, IHL, IL, IM, IMH, J, K, KH, M, M2, M2H, MH, ML, S, SEH, SH, XH, XG, XGH, Y, Z, Z2, Z2H, 0DH, 0MH, 0FH, 0IH, 2FH, 2IH and IHHi shares (accumulating classes) and class A1, A1H, B, Ba, BaH, BH, Bx, BxH, C, CH, Cx, CxH, D3, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEx, IExH, KE, M2, M3, M3H, MB, MBx, MBxH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares (distributing classes) in existing or new sub-funds. The reference currency of the classes of shares may be the Euro (EUR), the US Dollar (USD), the British Pound (GBP), the Swiss Franc (CHF), the Japanese Yen (JPY), the Canadian Dollar (CAD), the Chinese Renminbi (RMB), the Mexican Peso (MXN), the Hong Kong Dollar (HKD), the Singapore Dollar (SGD), the Swedish Crown (SEK), the Norwegian Crown (NOK), the Danish Crown (DKK), the Australian Dollar (AUD), the South African Rand (ZAR), the Brazilian Real (BRL) and the Israeli Shekel (ILS).

### Legal entity

The Company as a whole constitutes a single legal entity but the assets of any one sub-fund will only be available to satisfy the rights of investors in relation to that sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation or liquidation of the sub-fund. For the purpose of the relations as between shareholders, each sub-fund is deemed to be a separate entity.

### Dividend policy

The general policy regarding the appropriation of net income and capital gains is as follows:

Class D, D2, DH, DL, F, FH, FL, I, IH, IL, IM, IMH, J, K, KH, M, M2, MH, ML, Z, Z2H, 0DH, 0MH, 0FH, 0IH, 2FH, 2IH and IHHi shares (accumulating).

Income is reinvested and added to the relevant sub-funds and contributes to a further increase in value of the total net assets.

Class A1, A1H, B, Ba, BaH, BH, Bx, BxH, C, CH, Cx, CxH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IEx, IExH, KE, M3, MB, MBx, MBxH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares (distributing).

After the end of the reporting period, the Company can recommend what distribution shall be made from the net investment income and net capital gains attributable to the Class A1, A1H, B, Ba, BaH, BH, Bx, BxH, C, CH, Cx, CxH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IEx, IExH, IMB, KE, M3, MB, MBx, MBxH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares. The Annual General Meeting of Shareholders will determine the dividend payment. The Board of Directors of the Company may decide to distribute interim dividends, in accordance with Luxembourg law.

### General remarks

As provided by the 2010 law, the Company may decide to distribute dividends with no other limit than the obligation that any such dividend distribution does not reduce the net asset value of the Company below the legal minimum amount. Similarly, the Company may distribute interim dividends and may decide to pay dividends in shares. If dividends are distributed, payments of cash dividends to registered shareholders will be made in the currency of the relevant share class to such shareholders at the addresses they have given to the Registrar Agent. Dividend announcements (including names of paying agents) and all other financial notices concerning Robeco Capital Growth Funds shall be published on [www.robeco.com/riam](http://www.robeco.com/riam) and published in those newspapers as the Board of Directors shall determine from time to time. Dividends not collected within five years will lapse and accrue for the benefit of the Company in accordance with Luxembourg law.

### Open-ended fund

Robeco Capital Growth Funds is an open-ended investment Company, meaning that, barring exceptional circumstances, Robeco Capital Growth Funds issues and purchases its shares on a daily basis at prices at net asset value per share. The Company reserves the right to refuse any subscription request at any time.

# Notes to the financial statements as at 30 June 2023 (continued)

## 1. General (continued)

### Swing pricing

Shares are issued and redeemed on the basis of the net asset value per share. However, the actual costs of purchasing or selling assets and investments for a sub-fund may deviate from the latest available prices, as appropriate, in calculating the net asset value per share. This deviation can be caused by duties and charges and spread from buying and selling prices of the underlying investments ('spreads'). These costs have an adverse effect on the value of a sub-fund and its underlying share classes and are known as dilution. To mitigate the effects of dilution, the company may, at its discretion, make a dilution adjustment to the net asset value per share on any valuation day. The company will retain the discretion in relation to the circumstances under which to make such a dilution adjustment. At the end of the reporting period, no swing adjustments were made.

The dilution adjustment will involve adding to, when the sub-fund is in a net subscription position, and deducting from, when the sub-fund is in a net redemption position, the Net Asset Value per Share such figure as the Company considers representing an appropriate figure to meet the Cash Flow Costs. The resultant amount will be the Price rounded to such number of decimal places as the Company deems appropriate. The dilution adjustments may vary depending on the order type (net subscription or net redemption), on the underlying asset classes for any sub-fund or on the market conditions. The dilution adjustments as well as the dealing levels from which they become applicable may be amended from time to time depending on market conditions or any other situation where the Company is of the opinion that the interests of the Shareholders require such amendment(s).

For any given valuation day, the swing factor adjustment is limited to a maximum of 2% of what the Net Asset Value would otherwise be. In exceptional circumstances, the Board of Directors may, in the best interest of Shareholders, decide to temporarily increase the swing factor above the maximum stated level. Such exceptional circumstances can be triggered by (but not limited to) high market volatility, disruption of markets or slowdown of the economy caused by terrorist attack or war (or other hostilities), serious pandemic or a natural disaster (such as a hurricane or a super typhoon).

Additional details on the anti-dilution/swing pricing adjustments and actual swing factors can be found on [www.robeco.com/riam](http://www.robeco.com/riam).

For the avoidance of doubt, shareholders placed in the same situation will be treated in an identical manner.

### Affiliated parties

The Directors of the Company have appointed the affiliated entity Robeco Institutional Asset Management B.V. ("RIAM") as the management company of the Company to be responsible on a day-to-day basis, under supervision of the Directors of the Company, for providing administration, marketing, portfolio management and investment advisory services in respect of all Sub-funds. The Management Company may, from time to time, carry out its portfolio management activities through one or more of its European branches, which will in such case not be fully in charge of the day-to-day management of the relevant Sub-fund. The Management Company has delegated the administration, registrar and transfer functions to J.P. Morgan S.E., Luxembourg Branch. The different sub-funds and share-classes will incur an annual management fee which reflects all expenses related to the management of the Company which is payable to the Management Company. The Directors of the Company are also Directors of Robeco QI Global Dynamic Duration, Robeco Global Total Return Bond Fund, Robeco All Strategies Funds, Robeco (LU) Funds III, Robeco Institutional Solutions Funds, RSSLF GP S.à.r.l., Robeco Sustainable Senior Loan Feeder Fund SCA SICAV-RAIF and Robeco Sustainable Senior Loan Fund SCSp.

The delegated portfolio managers, Boston Partners Global Investors Inc., Robeco Hong Kong Ltd, Robeco Schweiz AG and Robeco Singapore Private Ltd are affiliated entities. The delegated portfolio managers are charged with the day-to-day management of the assets and receive a fee for that service.

Robeco Capital Growth Funds is affiliated to the entities belonging to ORIX Corporation Europe N.V. The affiliation with ORIX Corporation Europe N.V. is the result of the possibility of having decisive control or a substantial influence on the Company's business policy. ORIX Corporation Europe N.V. is part of ORIX Corporation. The management structure of ORIX Corporation Europe N.V. is such that ORIX Corporation does not have any meaningful say in or influence on the Company's business policy. ORIX Corporation Europe N.V. pursues an independent investment policy on behalf of its affiliated investment companies, taking into account the interest of the investors involved. Besides services of other market parties, Robeco Capital Growth Funds may also utilize the services of one or more of these affiliated entities including transactions relating to securities, treasury, derivatives, securities lending, and subscriptions and redemptions of its own shares, as well as management activities. Transactions are executed at market rates.

# Notes to the financial statements as at 30 June 2023 (continued)

## 1. General (continued)

### Financial instruments

#### Risks

Transactions in financial instruments may lead the sub-funds to be subject to the risks described below or to the sub-funds transferring these risks to another party.

#### General investment risk

The value of the investments may fluctuate. Past performance is no guarantee of future results. The net asset value of the sub-funds is affected by developments in the financial markets and may both rise and fall. Shareholders run the risk that their investments may end up being worth less than the amount invested or even worth nothing. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities and any amounts paid on such securities. This may in turn affect the NAV per share. General investment risk can be broken down into market risk, concentration risk, counterparty risk and currency risk:

#### Market risk

The net asset value of the sub-funds is sensitive to market movements. In addition, investors should be aware of the possibility that the value of investments may vary as a result of changes in political, economic or market circumstances. No assurance can, therefore, be given that the sub-fund's investment objective will be achieved. It cannot be guaranteed either that the value of a share in a sub-fund will not fall below its value at the time of acquisition.

#### Concentration risk

Based on its investment policies, each sub-fund may invest in financial instruments from issuing institutions that (mainly) operate within the same sector or region, or in the same market. If this is the case, the concentration of the investment portfolio of the sub-fund may cause events that have an effect on these issuing institutions to have a greater effect on the sub-fund's assets than would occur with a less concentrated investment portfolio.

#### Currency risk

All or part of the investment portfolio of a sub-fund may be invested in currencies or financial instruments denominated in currencies other than its reference currency. As a result, fluctuations in exchange rates may have both a negative and a positive effect on the investment result of the sub-fund. The Equity sub-funds minimize the risks by investing mainly in well-known companies and by making a balanced selection with regard to distribution across regions, sectors, individual stocks and currencies. The risk relative to their index is minimized by using quantitative techniques. The Bond sub-funds minimize the risks by making a balanced selection with regard to distribution across regions, sectors, individual bonds and currencies and by investing in bonds with a minimum rating depending on the sub-funds investment policy. The risk relative to their index is minimized by using quantitative techniques.

#### Counterparty risk

A counterparty of a sub-fund may fail to fulfil its obligations towards that sub-fund. In case of hedging transactions in classes of shares, the relevant sub-fund carries the counterparty risk. This risk is limited as much as possible by taking every possible care in the selection of counterparties. Wherever it is customary in the market, the sub-funds will demand and obtain collateral. The sub-funds minimize this risk by trading exclusively with reputable counterparties with a minimum rating of A in the Standard & Poor's or other recognized credit rating agencies lists. The positions that each Sub-fund takes in terms of interest-rate swaps and credit default (index) swaps (where possible) are centrally cleared at a clearing house. This means that the Sub-fund has a single central counter party (CCP) for derivative instruments with which the required collateral (Margin) is exchanged on a daily basis. To hedge the initial required collateral (Initial Margin) and for the variable required collateral (Variation Margin), the Sub-funds use cash.

#### Risk of lending financial instruments

In the case of financial instrument lending transactions, the Company and its respective sub-funds concerned run the risk that the borrower cannot comply with its obligation to return the financial instruments on the agreed date or furnish the requested collateral. The lending policy of the Company is designed to control these risks as much as possible.

The credit worthiness of counterparties in securities-lending transactions is assessed on the basis of how independent rating agencies regard their short-term credit worthiness and on the basis of their net assets. Guarantees given by parent companies are also taken into account. The fund only accepts collateral from OECD countries in the form of:

- government bonds with a minimum credit rating of BBB;
- the bonds of supranational bodies with a minimum credit rating of BBB-;
- stocks listed on the main indexes of stock markets in OECD countries; and to a limited extent in the form of
- index trackers;
- stocks issued by financial institutions;
- cash.

#### Risks (continued)

##### Risk of lending financial instruments (continued)

As of balance-sheet date, the fund had received collateral ensuing from securities-lending transactions. More information can be found on page 132.

##### Liquidity risk

The actual buying and selling prices of financial instruments in which the sub-funds invest partly depend upon the liquidity of the financial instruments in question. It is possible that a position taken on behalf of a sub-fund cannot be quickly liquidated in a good time at a reasonable price due to a lack of liquidity in the market in terms of supply and demand. The sub-funds minimize this risk by mainly investing in financial instruments that are tradable on a daily basis.

##### Euro currency risk

All or part of the assets of sub-funds may be invested in securities denominated in Euro. In the event of any adjustments, including a full break-up, an exit of individual countries or other circumstances that may result in the emergence or reintroduction of national currencies, each sub-fund runs the risks that the value of its investments is reduced and/or the liquidity of its investments is (temporarily) reduced, regardless of the measures the Company may seek to reduce this risk.

##### Sustainability risk

RIAM systematically incorporates sustainability factors, to the extent these present a material risk to a sub-fund, into its investment and portfolio construction processes, alongside traditional financial risk factors. This is done through ESG scoring methodologies using proprietary sustainability research and external resources which are built into the portfolio construction process.

Processes and controls for sustainability risk integration are embedded in a designated Sustainability Risk Policy which is maintained by the risk management function and governed by the Risk Management Committee (RMC). The Sustainability Risk Policy is built on three pillars. The environmental or social characteristics promoted by a Sub-fund or sustainable investment objective of a sub-fund is used to identify and assess the relevant material sustainability risk topics. Based on these characteristics or investment objectives sustainability risk is monitored. Sensitivity and scenario analyses are conducted on a frequent basis to assess any material impact climate change risk may have on the portfolio of a Sub-fund.

##### Operational risk

The operational risk is the non inherent risk remaining after determining the risks as detailed above (general investment risk, counterparty risk, liquidity risk, Euro currency risk or risk of lending financial instruments). It mainly includes risks resulting from breakdowns in internal procedures, people and systems.

##### Insight into actual risks

The report of the Board of Directors, the Statement of net assets, the Notes to the financial statements and the Schedule of Investments, which include currency classification of the investments, give an insight into the actual risks at the end of the reporting period.

##### Risk management

Managing risk is a part of the investment process as a whole and with the help of advanced systems, the risks outlined above are limited, measured and monitored on the basis of fixed risk measures.

##### Policy regarding the use of derivatives

Investing implies that positions are taken. As it is possible to use various instruments, including derivative instruments, to construct an identical position, the selection of derivatives is subordinate to the positioning of an investment portfolio. In our published information, attention is given primarily to the overall position, and secondarily to the nature and volume of the financial instruments employed.

##### Derivative instruments

The unrealized results of derivative instruments are reported in the Statement of net assets. Commitments to derivatives are not included in the Statement of net assets. They are, however, explained in the Schedule of Investments. The unrealized results presented in the Statement of net assets are disclosed by contract in the Schedule of Investments. The derivative instruments listed in the Notes are transacted through third party brokers. Those brokers hold/paid collateral as described on page 129 to 131. The Company is exposed to counterparty risk in respect of all amounts including collateral due to it from such brokers.

# Notes to the financial statements as at 30 June 2023 (continued)

## 2. Summary of significant accounting principles

### General

Unless stated otherwise, the items shown in the financial statements are included at their nominal value and expressed in the reference currency of the sub-fund. This semi-annual report covers the reporting period from 1 January 2023 until 30 June 2023.

### Preparation and presentation of financial statements

The financial statements are prepared on the basis of the last NAV calculated during the period (30 June 2023 for all sub-fund) and presented in accordance with Luxembourg generally accepted accounting principles for investment funds. The going concern basis was applied for the preparation of the financial statements of the Fund and its sub-funds.

### Combined figures

The combined figures are expressed in Euro and are presented for information purpose only. The combined figures are the sum of the statements of each sub-funds. The Combined Statement of net assets is presented in EUR at the exchange rates prevailing at the end of the reporting period, while the Combined Statement of operations and changes in net assets is presented in EUR at the average exchange rates during the year. Cross sub-funds investments (where one sub-fund invested within sub-fund of the Company) have not been eliminated from the Combined Statement.

### Foreign currencies

Transactions in currencies other than the reference currency of the relevant sub-fund are converted into the reference currency at the exchange rates prevailing at the time of the transaction. The market value of the investments, assets and liabilities expressed in currencies other than the reference currency of the sub-fund are converted into the sub-fund's reference currency at the exchange rates prevailing at the end of the reporting period. Any positive or negative exchange differences arising are accounted for in the Statement of operations and changes in net assets. The table on page 194 shows the exchange rates as at 30 June 2023.

### Valuation of investments

Transferable securities, money market instruments and financial derivative instruments listed on an official stock exchange listing

These instruments are valued at their last available market price; in the event that there should be several such markets, on the basis of the last available price of the main market for the relevant security or asset. Should the last available market price for a given transferable security, money market instrument or financial derivative instrument not truly reflects its fair market value, then that transferable security, money market instrument or financial derivative instrument is valued on the basis of the probable sales price which the Board of Directors deems prudent to assume. Fixed income securities not traded on such markets are generally valued at the last available price or yield equivalents obtained from one or more dealers or pricing services or any other source in accordance with the valuation policy that has been ratified by the Board of Directors. According to the valuation policy which is approved by the Fund Board a fair value adjustment will be made to reflect the current market values for securities traded in markets with a different timezone (mainly Asia Pacific) where new market information surfaces after the close of the local market but before the calculation of the NAV.

Transferable securities and/or money market instruments dealt in on another regulated market

These instruments are valued on the basis of their last available market price. Should the last available market price for a given transferable security and/or money market instrument not truly reflects its fair market value, then that transferable security and/or money market instrument in accordance with the valuation policy that has been ratified by the Board of Directors.

Transferable securities and/or money market instruments not listed or dealt in on any stock exchange or on any regulated market

In the event that any assets are not listed or dealt in on any stock exchange or on any regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or on any regulated market as aforesaid, where the above valuation methods are inappropriate or misleading, the Board of Directors may adopt any other appropriate valuation principles for the assets of the Company.

### Investment transactions and investment income

Securities are initially recorded at cost, and where applicable on the basis of exchange rates prevailing on the date they are purchased. Results on sales of securities are determined on the basis of the average cost method (for futures first in first out method). Investment transactions are accounted for on the trade date. Dividends are accounted for on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts/Premiums on zero coupon bonds are accreted as adjustments to interest income. Interest and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

### Valuation of Russian Investments as at financial year-end:

As at 30 June 2023, the securities issued by Russian companies are valued at 'Nil' in the Schedules of Investments of the respective Sub-Funds exposed to such securities. This Nil value may not reflect the intrinsic value of those companies but rather reflect the fact that those securities are not tradable as of 30 June 2023.

# Notes to the financial statements as at 30 June 2023 (continued)

## 3. Open forward exchange transactions

Open forward exchange transactions are valued with market practice valuation models using forwards rates based on exchange and interest rates applicable at 30 June 2023. The unrealized results of these transactions have been recorded gross in the Statement of net assets under the heading 'Unrealised gain/loss on forward currency exchange contracts' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on forward currency exchange contracts'. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments. Information on the collateral received or paid on these positions is stated in the table on page 129 to 131. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

## 4. Interest rate swaps

Interest rate swaps are valued with market practice valuation models using exchange and interest rates applicable at 30 June 2023. The unrealized gains/losses on interest rate swaps are recorded gross in the Statement of net assets under the heading 'Swap contracts at fair value' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on page 129 to 131. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

## 5. Credit default swaps

Credit default swaps are valued at fair value under procedures approved by the Board of Directors. The valuation is based on recognised market models with observable market inputs used to perform the valuation. The unrealized gains/losses on credit default swaps are recorded gross in the Statement of net assets under the heading 'Swap contracts at fair value' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on page 129 to 131. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

## 6. Financial futures contracts

Regulated futures contracts are valued at their exchange quoted settlement price. Initial margin deposits are made upon entering into futures contracts. Variation margin payments are made or received, depending on the daily fluctuation in market value of the contract and are recorded by the fund as unrealized appreciation or depreciation. When the contract is closed, the Company records a realized gain or loss equal to difference between the value of the contract at the time it was opened and the value at the time it was closed. All margin deposits are included in the Statement of net assets under the heading 'Cash at bank and at brokers'.

Changes in unrealized results and realized results during the year are both recorded in the Statement of operations and changes in net assets. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments.

## 7. Collateral

Several sub-funds received or paid collateral to cover the unrealized results on derivative instruments. Collaterals are calculated and settled on a daily basis per counterparty. The collateral is primarily cash held at the broker in the name of the sub-fund. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'. No cash collateral has been reinvested. The amounts per sub-fund and counterparty are shown in the table below.

## 8. Schedule of Investments

The Schedule of Investments of the sub-funds are included at the end of this report.

## Notes to the financial statements as at 30 June 2023 (continued)

### 9. Securities lending

J.P. Morgan S.E. is a lending agent for all Robeco Capital Growth Funds securities lending transactions. J.P. Morgan SE is authorized to retain a fee in an amount equal to (A) 25% of the income from securities lending transactions for any loans which generate a return of 0.5% or less and (B) 10% of the income from securities lending transactions for any loans which generate a return greater than 0.5% of the sum of (i) earnings derived from Authorised Investments (as adjusted for any Rebate paid or received by J.P. Morgan SE) (ii) any fee, paid or payable by Borrower with respect to loans (including any loan fee but excluding any compensation payable by borrower under the Master Securities Lending Agreement (MSLA) in connection with a loan (net, however, of any other amount payable by Lender in connection with such loan). Gains and losses on Cash Collateral investments shall not be taken into account in calculating earnings for the purpose of J.P. Morgan's fees. The following table shows the position of the collateralized securities lending transactions with first-class financial institutions as described in the prospectus at the end of the reporting period as well as the income from securities lending over the reporting period for the Company and the income for J.P. Morgan SE. Income on securities lending transactions is recorded under the heading 'Securities lending income' in the Statement of operations and changes in net assets. Collateral received in the frame of the lending activity, primarily securities, is held in the name of the fund on an escrow account with external agents. In exceptional cases, the collateral is received in cash, which is not subject to reinvestment. More information on collateral received can be found on pages 771 and further.

## 10. Taxes

The classes of shares of the sub-funds are liable in Luxembourg to an annual duty (“taxe d’abonnement”/“subscription tax”) at the rate of 0.05% of their net assets calculated and payable at the end of each quarter. This rate is 0.01% per annum for institutional classes of shares such as class I, IB, IBH, IBxH, IH, OIH, 2IH, IE, IEH, OIEH, IHHi, IL, IExH, IMH, IMBxH, J, K, KE, KH, Y, YH, Z2H, ZB, ZBH, and ZH shares. To the extent that the assets of the sub-funds are invested in investment funds which are established in Luxembourg, no such tax is payable, provided that the relevant investment funds have been subject to this tax. The sub-funds will receive income from their investments after deduction of applicable withholding taxes in the country of origin. There are no Luxembourg income, withholding, capital gains, estate or inheritance taxes payable by the sub-funds.

### **Taxation of Chinese A shares:**

Capital gains derived from the transfer of Chinese A shares on or after 17 November 2014 are (temporarily) exempt from the 10% capital withholding tax (‘CWT’).

### **Taxation Indian listed stocks**

Capital gains realized on the disposal of Indian listed stocks within 12 months after purchase (short term gains) are subject to a 15% Indian capital gains tax. The disposal of Indian listed stocks after 12 months after purchase (long term gains) were exempt until April 1st 2018. Starting April 1st 2018 India also introduced a capital gains tax on long term gains at a rate of 10%. The capital gains taxes are taken into account on an arisen basis at the applicable rates for a short term gain or a long term gain without taking a provision into account. Since 17 December 2019, the capital gains taxes are accrued in the Net Asset Value and included in the Statement of net assets under the heading ‘Other liabilities’ and included in the Statement of Operations and Changes in Net Assets under ‘Net realized gain/(loss) on currency exchange’ for the capital gain taxes linked to realized gains and under ‘Net Change in unrealised appreciation/depreciation on : currency exchange ‘ for the unrealized appreciation of investments during the year.

## 11. Management Company

The Board of Directors of the Company has appointed Robeco Institutional Asset Management B.V. as the Management Company to be responsible on a day-to-day basis for providing administration, marketing and investment management services in respect of the sub-funds.

Robeco Institutional Asset Management (“RIAM”) is incorporated under the laws of The Netherlands on 21 May 1974 and at that time called Rotrusco B.V. On 25 February 1997, the name was changed into RIAM. RIAM holds an AIFMD license as referred to in Section 2:65 Wft. In addition, RIAM is licensed as a manager of UCITS (2:69b Wft, the Dutch Financial Supervision Act). RIAM is moreover authorized to manage individual assets and give advice with respect to financial instruments. RIAM is subject to supervision by the Dutch Authority for the Financial Markets (Stichting Autoriteit Financiële Markten, “AFM”).

The Management Company has delegated the administration functions and registrar agent functions to J.P. Morgan SE.

RIAM is part of ORIX Corporation Europe N.V. and also acts as the Management Company for other Luxembourg and Dutch domiciled funds.

## 12. Portfolio Manager

Robeco Institutional Asset Management B.V. (RIAM), an investment management company forming part of the Robeco Group in Rotterdam, the Netherlands, manages the assets of the sub-funds on a day-to-day basis. The Portfolio Management Agreement between the Management Company and RIAM was concluded on 1 June 2019 for an undetermined period.

The Management Company Adviser has appointed Boston Partners Global Investors Inc. as its Sub Delegated Portfolio Manager for the sub-funds Robeco BP Global Premium Equities, Robeco BP US Premium Equities, Robeco BP US Large Cap Equities and Robeco BP US Select Opportunities Equities.

The Sub Delegated Portfolio Manager for the sub-funds Robeco Asia-Pacific Equities, Robeco Chinese Equities, Robeco Indian Equities, Robeco Asian Stars Equities, Robeco Sustainable Asian Stars Equities and Robeco Chinese A-Share Equities is Robeco Hong Kong Ltd.

The Sub Delegated Portfolio Manager for the sub-funds Robeco Sustainable European Stars Equities, RobecoSAM Circular Economy Equities, RobecoSAM Smart Energy Equities, RobecoSAM Smart Materials Equities, RobecoSAM Smart Mobility Equities, RobecoSAM Sustainable Healthy Living Equities, RobecoSAM Sustainable Water Equities, RobecoSAM Global Gender Equality Equities and RobecoSAM Biodiversity Equities is Robeco Schweiz AG.

The Portfolio Manager for Robeco Sustainable Asian Bonds is Robeco Singapore Private Ltd.

# Notes to the financial statements as at 30 June 2023 (continued)

## 13. Cross investment between sub-funds

The Company is permitted to engage in cross investment between sub-funds within the umbrella structure. In case there are management fees or service fees charged on the cross investments, these fees are returned to the investor sub-fund. The following information pertains to the cross-investment between sub-funds within the Company as at 30 June 2023:

Investment	Sub-fund Currency	Market Value	% of net assets
<b>Robeco QI Global Conservative Equities</b>			
Robeco QI Chinese A-share Conservative Equities - Z EUR		5,103,709	1.34
	<b>EUR</b>	<b>5,103,709</b>	<b>1.34</b>
<b>Robeco QI Emerging Markets Active Equities</b>			
Robeco QI Chinese A-share Active Equities - Z EUR		38,538,676	4.29
	<b>EUR</b>	<b>38,538,676</b>	<b>4.29</b>
<b>Robeco Chinese Equities</b>			
Robeco Chinese A-share Equities - I EUR		406,532	0.21
	<b>EUR</b>	<b>406,532</b>	<b>0.21</b>
<b>Robeco High Yield Bonds</b>

	<b>EUR</b>	<b>49,365,449</b>	<b>0.75</b>
<b>Robeco Global Credits</b>			
Robeco Sustainable Emerging Credits - Z USD		104,019,775	3.65
	<b>EUR</b>	<b>104,019,775</b>	<b>3.65</b>
<b>Robeco QI Multi Factor Absolute Return</b>			
Robeco QI Global Multi-Factor High Yield - IH EUR		81,915	2.16
Robeco QI Global Multi-Factor Credits - ZH EUR		158,054	4.16
	<b>EUR</b>	<b>239,969</b>	<b>6.32</b>

If the sub-funds invest in UCITS/UCI's that are not part of the Robeco Group, all costs at the level of these UCITS/UCI's (including the non recoverable management fees, service fees, performance fees and/or transactions costs) shall be borne by the sub-funds ultimately and therefore by the shareholders. The management fee and service fee paid in the Robeco funds is restituted to the sub-funds and recorded in the Statement of operations and changes in net assets. During the year, the cross investments between the sub-funds mainly occurred in share-class Z of Robeco sub-fund which does not pay any management fees.

# Notes to the financial statements as at 30 June 2023 (continued)

## 14. Management, service and performance fees

The different sub-funds or classes of shares incur an annual management fee payable to the Management Company, which reflects expenses<sup>1</sup> related to the management of the sub-funds. Furthermore the different sub-funds or classes of shares incur an annual service fee payable to the Management Company reflecting expenses<sup>1</sup> such as the fees of the administration agent, the registrar agent, auditors and legal advisers, the costs of custody (including custody fees and bank charges), the costs of depositary services, the costs of preparing, printing and distributing all prospectuses, memorandums, reports and other necessary documents concerning the Company, any fees and expenses involved in the registration of the Company with any governmental agency and stock exchange, the costs of publishing prices and operational expenses, and the cost of holding shareholders' meetings.

<sup>1</sup> Additional expenses may be charged to the Fund on an exceptional basis as disclosed in the prospectus.

The annual charges, both management fee and service fee, are expressed as a percentage of the net asset value. The charges, paid quarterly, are based on the net asset value of the relevant period and are reflected in the share price.

The share classes Z do not pay management fees. For some sub-funds, the Management Company is entitled to a performance fee, payable annually in arrears after the end of the reporting period. A performance fee for the relevant class of shares of the sub-fund is only due at the end of the financial year when the relevant class of shares of the sub-fund outperforms the relevant index or hurdle rate as indicated in the prospectus. Note that an outperformance of the relevant class of shares of the sub-fund does not imply a positive return of the of the relevant class of shares of the sub-fund, a performance fee is also due when the relevant class of shares of the sub-fund has a negative return but an outperformance over the relevant index or hurdle rate as indicated in the prospectus. This outperformance must have taken place since inception of the relevant class of share of the sub-fund or since the time that a performance fee was due. In the event that payment of the performance fee is due, the basis for the performance fee calculation for the next financial year will start at 0 (reset). In the event that no payment of the performance fee is due, no reset will take place. In addition if a shareholder redeems or switches all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallize on that Valuation Day and will then become payable to the Management Company. The basis for the performance fee calculation will not reset on those valuation days at which performance fees crystallize following the redemption or switch of shares.

The following table shows the maximum percentages for the different outstanding classes of shares on an annual basis.

# Notes to the financial statements as at 30 June 2023 (continued)

## 14. Management, service and performance fees (continued)

If the net asset value per share class exceeds EUR 1 billion the service fee will be reduced by 0.02% for the portion above 1 billion. If the net asset per share class value exceeds EUR 5 billion, the service fee will be reduced by a further 0.02% for the portion above EUR 5 billion.

## 15. Depositary fees

The Depositary bank is remunerated in accordance with the agreement between J.P. Morgan S.E. (acting as the depositary) and the Company. The depositary fees are paid by RIAM out of the service fee.

## 16. Other operating expenses

The banking fees relating to the assets of the sub-funds or expenses incurred thereof, such as proxy voting are paid by RIAM out of the service fee. The costs of establishing the Company have been paid entirely. If additional sub-funds are created in the future, these sub-funds will bear, in principle, their own formation expenses.

# Notes to the financial statements as at 30 June 2023 (continued)

## 17. Transaction costs

The sub-funds and their classes of shares pay directly commissions, brokerage fees and taxes resulting from financial transactions. Transaction costs are included in the purchase/sale price of the securities.

## 18. Total Expense Ratio (TER)

The Total Expense Ratio ('TER') expresses the operational costs (e.g. management fee, service fee, performance fee, taxe d'abonnement and bank charges) charged to the sub-funds as a percentage of the average assets entrusted, calculated on a daily basis, during the reporting period. The TER as shown below do not include transaction costs. The other costs concern mainly bank charges, depositary fees and tax d'abonnement. Total Expense Ratio are annualized for periods less than one year.

The total expense ratio (TER) was calculated based on the version currently applicable of the "Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes" of the Swiss Funds & Asset Management Association (SFAMA).

## 19. Broker commission

Robeco will ensure that the selection of counterparties for trade execution ('Brokers') will take place according to defined procedures and criteria to ensure best execution, taking into account execution capability and - where applicable - quality of investment research ('Research').

Under the influence of the MIFID II regulation RIAM decided to bear the research costs for most of the sub-funds of Robeco Capital Growth Funds from 2018. Only for the funds for which the American based asset manager Boston Partners is the Sub Delegated Portfolio Manager, the research costs are charged to the fund. Below text on research costs is only applicable to the funds in the table below.

Brokers may charge execution only fees (excluding a fee for Research) and brokers may also charge a transaction fee consisting of two elements: a fee for the execution of an order and a fee for Research. Robeco will only pay a fee for Research if such Research is directly instrumental for improving the investment decision-making process within Robeco (via full service fees and via Commission Sharing Agreements ('CSA')). Having CSAs enables Robeco to unbundle research and execution services to fulfill best execution criteria. By using CSAs, we can obtain research services from those providers who do not have an execution business or do not fit our best execution criteria. It is Robeco's policy that the abovementioned arrangements are only allowed as long as the research services under consideration research, securities advice, etc.) are related to the enhancement of our investment process. Robeco makes use of:

1. Execution only fees for quantitatively managed equity sub-funds;
2. Full services fees for fundamentally managed equity sub-funds; and
3. CSAs for fundamentally managed equity sub-funds.

### Research costs paid

Robeco BP US Large Cap Equities	USD	281,143
Robeco BP US Select Opportunities Equities	USD	89,709

## 20. Portfolio Turnover Ratio (PTR)

This is the turnover ratio of the investments, against the average assets entrusted and this is a measure of the incurred transaction costs resulting from the investment portfolio policies pursued and the ensuing investment transactions. In the calculation method that is used the amount of turnover is determined by the sum of purchases and sales of investments, excluding derivative and liquidity instruments, less the sum of issuance and repurchase of own shares, divided by the daily average of the net assets. The portfolio turnover ratio is determined by expressing the amount of turnover as a percentage of the average assets entrusted. Following table shows the portfolio turnover ratios of the sub-funds.

# Notes to the financial statements as at 30 June 2023 (continued)

The bond sub-funds of the Company are subject to the EU savings directive.

### Stock exchange listing

All the Robeco Capital Growth Funds share-classes D and DH, the IExH of Robeco High Yield Bonds, the B EUR of Robeco QI Emerging Conservative Equities, the IH USD of Robeco Financial Institutions Bonds, the Z EUR of Robeco QI Chinese A-Share uities, the D2 USD of Robeco Global Consumer Trends and the F EUR of Robeco Mega Trends are listed on the Luxembourg Stock Exchange.

### Auditors

No external audit of this semi-annual report has been conducted.

### Remuneration policy and remuneration paid

The fund itself does not employ any personnel and is managed by Robeco Institutional Asset Management B.V. ('RIAM'). The remuneration for persons working for RIAM comes out of the management fee.

#### **Remuneration policy**

RIAM's remuneration policy, which applies to all staff working under its responsibility, complies with the applicable requirements laid down in the European framework documents of the UCITS Directive and the ESMA guidelines for a responsible remuneration policy under the UCITS Directive.

The remuneration policy of RIAM can be obtained free of charge at the offices of the Company.

This remuneration policy applies to all staff of RIAM, including individuals who may have a material impact on the risk profile of the fund. These persons are designated to be 'Identified Staff'.

#### **Responsibility for and application of the policy**

RIAM's Remuneration Policy is determined, applied and annually reviewed by and on behalf of RIAM with the approval of its shareholder, the (Board of) Robeco Holding B.V. For each review (the Board of) Robeco Holding B.V. shall obtain prior advice from the Supervisory Board of RIAM, which acts as its Supervisory Board. In the application and evaluation of the remuneration policy, RIAM occasionally makes use of the services of various external advisers.

#### **Maturity tenor of securities lending transactions**

All securities on loan can be recalled at any point. The Fund's securities lending transactions have open maturity.

#### **Settlement and clearing**

The Company's securities lending transactions, including related collateral, are settled and cleared on a tri-party basis.

#### **Re-use of collateral**

Non cash collateral, received in a securities lending transaction may not be sold, re-invested or pledged. Cash collateral received from such transactions is re-used in a reverse repurchase transaction.

## Other data (continued)

### Additional information Securities Financing Transaction (continued)

#### Securities Lending (continued)

##### Safekeeping of collateral

##### Collateral received

J.P. Morgan Bank Luxembourg S.A., as securities lending agent of the Funds, is responsible for the safekeeping of the collateral received in respect of securities lending transactions as at the reporting date. The Custodian J.P. Morgan Bank Luxembourg S.A. is ultimately liable for any loss of instruments held in custody or by a third party to whom custody had been delegated (the sub-custody).

##### Collateral granted

No collateral is granted by the Company as part of their securities lending activities.

##### Return and cost

The total income earned from securities lending transactions is split between the fund and the securities lending agent. Details of this split are disclosed in notes to the financial statements on pages 146. Income earned during the year by the Funds from securities lending transactions is disclosed in the statement of operations and changes in net assets from pages 76 to 96.
