

This document provides you with the key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

7IM ADVENTUROUS FUND, CLASS C (Income)

**A sub-fund of 7IM Investment Funds. This sub-fund is managed by Seven Investment Management LLP.
(ISIN: GB0033957704)**

OBJECTIVES AND INVESTMENT POLICY

Objective

The fund aims to provide capital growth.

Investment Policy

The fund invests at least 80% of its assets in other funds managed both by the Manager and by selected third party managers, including open-ended and closed-ended funds and exchange traded funds (ETFs), and other transferable securities, including fixed income, equities and structured products. Up to 20% of the fund will usually be invested in liquid assets such as cash, deposits, money market funds and money market instruments and warrants.

Investment will focus on growth generating assets, such as equities.

Essential features of the fund:

- The fund has no specific target market, asset class or geographic sector.
- You can buy and sell shares in the fund on each UK business day.
- The fund aims to distribute available income every six months.
- Derivatives are used for investment purposes and to manage the risk profile of the fund.
- Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Investment Strategy

The starting point for the Manager's investment process is identifying the best mix of asset classes to create a strategic asset allocation (SAA) customised for each 7IM risk profile.

The SAA is then adapted to financial markets to enhance return and reduce volatility on a tactical basis using 7IM's tactical asset allocation process (TAA) making temporary and measured departures from the SAA.

The fund's portfolio of assets is constructed by holding a blend of funds and direct investments. The funds are selected using our own expertise and can either be passively invested, where their objective is to closely track a pre-determined index, or actively managed whereby the Manager will use its own expertise in selecting particular assets.

Performance Comparator

The fund's performance may be compared to the IA Flexible Investment Shares which has been chosen because it is representative of the fund's agreed risk profile and the type of assets in which it invests. It is therefore an appropriate comparator for the fund's performance.

RISK AND REWARD PROFILE

Typically lower rewards Typically higher rewards

←—————→

Lower risk Higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of the fund's volatility. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is risk free.
- The fund has been classed as 4 because its volatility has been measured as average.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time.
- Counterparty and Derivatives Risk: As the fund may enter into derivative agreements, there is a risk that other parties may fail to meet their obligations leading to delays in receiving amounts due or less than is due. The use of derivatives may, through gearing, have a larger impact, positive or negative, than if only the underlying investments were held.
- Credit and Currency Risk: Fixed interest securities are affected by trends in interest rates and inflation. If interest rates go up the value of capital may fall and vice versa. Inflation will also decrease the real value of capital. The value of a fixed interest security is also affected by its credit rating. As the fund invests in overseas securities, exchange rate movements may increase or decrease the fund's value.
- Emerging Market Risk: Emerging markets may be less liquid and transparent, more volatile and subject to less oversight. There is a greater risk that other parties may default, causing loss to the fund.
- For full details of the fund's risks, please see the prospectus which may be obtained from the address in the 'Practical Information' section overleaf.

CHARGES FOR THIS FUND

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
Charges taken from the fund over a year	
Ongoing Charges*	1.53%
Charges taken from the fund under specific conditions	
Performance Fee	None

The entry charge shown is a maximum figure. In some cases investors may pay less. You can find out the actual charges from your financial adviser or distributor.

The ongoing charges figure is based on annualised expenses for the reporting period to 31 May 2019. This figure may vary from year to year. Where income is insufficient to pay charges the residual amount will be taken from capital. They exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see the prospectus, which may be obtained free of charge from the address in the 'Practical Information' below.

* For any funds undertaking securities lending, the fund will receive 70% of the revenue generated and the remaining 30% will be received by Northern Trust as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the fund, this has been excluded from the ongoing charges.

PRACTICAL INFORMATION

7IM Investment Funds	The key investor information document describes a fund within the 7IM Investment Funds company. The prospectus and periodic reports are prepared for the entire company.
Documents	Copies of the fund's prospectus and the latest annual and semi annual reports for the fund and 7IM Investment Funds may be obtained from www.7im.co.uk or 7IM, 55 Bishopsgate, London EC2N 3AS. These documents are available in English and are free of charge.
