KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund constituted in Luxembourg. The sub-fund aims to provide you with returns through medium term capital growth by investing in companies in the United States of America.
- If you hold distribution shares, you may receive monthly or yearly distributions in accordance with the particular distribution share class. This is at the discretion of the directors and subject to the approval of the shareholders. However, no distribution will be carried out if it is not in your interest nor in that of other shareholders to distribute a dividend at that particular market condition. You should note that where distributions calculated on the basis of the benchmark dividend yield exceed the sub-fund's income, such distributions will be made up of a capital component and will cause a decrease in the net asset value of the sub-fund.
- Capitalisation shares will retain their income to reinvest.

Please refer to the Luxembourg Prospectus, Book I, page 17 for further information on the SICAV and page 23 for further information on the product share classes.

Investment Strategy

- At all times, this sub-fund invests at least 75% of its assets in equities and/or equity equivalent securities issued by companies having market capitalisation below the highest market capitalisation and/or above the lowest market capitalisation (observed at the beginning of each financial year) of the Russell MidCap index and that have their registered office or conduct a significant proportion of their business in the United States of America.
- The remaining portion, namely a maximum of 25% of its assets, may be invested in any other transferable securities, money market instruments, financial derivative instruments and/or cash, provided that investments in debt securities of any kind do not exceed 15% of its assets, and up to 10% of its assets may be invested in UCITS or UCIs.
- You should note that the sub-fund may use financial derivative instruments

(“FDIs”) as part of its investment strategy and/or for efficient portfolio management and/or hedging purposes. The sub-fund may also carry out securities lending and repurchase transactions.	
Parties Involved	
WHO ARE YOU INVESTING WITH? <ul style="list-style-type: none"> SICAV/Umbrella Fund : Parvest Management Company : BNP PARIBAS ASSET MANAGEMENT Luxembourg Investment Manager : Fairpointe Capital LLC BNP PARIBAS ASSET MANAGEMENT UK Ltd. KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? <p>The value of the product and its dividends or coupons may rise or fall</p> <p>These risk factors may cause you to lose some or all of your investment:</p>	Please refer to the Luxembourg Prospectus, Book I – Appendix 3 for further information on the risks of the product.
Market Risks	
<ul style="list-style-type: none"> You are exposed to market risks in the United States region <ul style="list-style-type: none"> Your investment may go up or down due to changing economic, political or market conditions that impact the prices of the shares or other securities that the sub-fund invests in. You are exposed to inflation risk <ul style="list-style-type: none"> Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment’s purchasing power. You are exposed to currency exchange risk <ul style="list-style-type: none"> The sub-fund may hold assets denominated in currencies that differ from its Accounting Currency, and may be affected by exchange rate fluctuations between the Accounting Currency and the other currencies and by changes in exchange rate controls. If the currency in which a security is denominated appreciates in relation to the Accounting Currency of the sub-fund, the exchange value of the security in the Accounting Currency will appreciate; conversely, a depreciation of the denomination currency will lead to a depreciation in the exchange value of the security. When the manager is willing to hedge the currency exchange risk of a transaction, there is no guarantee that such operation will be completely effective. You are exposed to taxation risk <ul style="list-style-type: none"> The value of an investment may be affected by the application of tax laws in various countries, including withholding tax, changes in government, economic or monetary policy in the countries concerned. As such, no guarantee can be given that the financial objectives will actually be achieved. 	
Liquidity Risks	
<ul style="list-style-type: none"> You are exposed to liquidity risk <ul style="list-style-type: none"> This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers. The sub-fund is not listed and you can only redeem on dealing days. There is no secondary market for the sub-fund and all redemption requests should be made to the Manager 	
Product-Specific Risks	
<ul style="list-style-type: none"> You are exposed to equity markets risk <ul style="list-style-type: none"> The risks associated with investments in equity (and similar instruments) include significant fluctuations in prices, negative information about the issuer or market and the subordination of a company’s shares to its bonds. Moreover, these fluctuations are often amplified in the short term. The risk that one or more companies suffer a downturn or fail to grow can have a negative impact on the performance of the overall portfolio at a given time. There is no guarantee that investors will see an appreciation in value. The value of investments and the income they generate may 	Please refer to the Luxembourg Prospectus, Book I – Appendix 3 and page 202 for further

go down as well as up and it is possible that investors will not recover their initial investment.

- **You are exposed to efficient portfolio management techniques risk**
 - This risk is present in each sub-fund using efficient portfolio management techniques. Efficient portfolio management techniques, such as securities lending, repurchase and reverse purchase transactions, and particularly with respect to the quality of collateral received/reinvested, may lead to several risks such as liquidity risk, counterparty risk, issuer risk, valuation risk and settlement risk, which can have an impact on the performance of the sub-fund concerned.
