

DB Platinum IV CROCI Japan R1C-E

Style: Japan Large-Cap Equity

Fund Inception Date: 22.06.2004 Fund Assets under Management: ¥ 15,098,898,914

The aim of the Fund is to invest in a portfolio of shares issued by large companies in Japan, selected using the CROCI Japan Strategy (Strategy). The Strategy selects shares on the basis of an economic valuation using the Deutsche Bank CROCI^{®(1)} methodology. The selection universe contains the 100 largest companies by market capitalisation in Japan, excluding companies from the financial sector. The Strategy selects the thirty companies with the lowest positive CROCI economic price-earnings ratio (CROCI Ratio) from the selection universe. The CROCI methodology enables the comparison of company valuations across sectors and regions on an equal basis by making certain adjustments to company reported financial statements providing the CROCI Ratios used to select the shares with the lowest valuations due to their price potential. The shares comprising the Strategy are reviewed quarterly (March, June, September, December) and weighted equally upon each rebalancing. The Strategy has a selection buffer, which will prevent the replacement of an existing share unless its CROCI Ratio is sufficiently higher than that of the proposed replacement share.

Austria, Belgium, France, Germany, Luxembourg, Netherlands, Norway, Spain, Switzerland, UK

Important Notice

Investments in funds involve numerous risks including, among others, general market risks, credit risks, foreign exchange risks, interest rate risks and liquidity risks

Key risk factors to consider before investing:

- The value of an investment in a Deutsche Bank fund may go down as well as up and can result in losses, up and including a total loss of the amount initially invested.
- Past performance is not a reliable indicator of future results.
- Movements in exchange rates can impact the value of your investment. If the currency of your country of residence is different from the currency in which the underlying investments of the fund are made, the value of your investment may increase or decrease subject to movements in exchange rates.
- The Strategy has been built on the premise that stocks with lower CROCI Economic P/E ratios may outperform stocks with higher CROCI Economic P/E ratios over time. Such a premise may not be correct and prospective investors should evaluate this assumption prior to investing.

Other important information

DB Platinum[®], DB Platinum is a registered trademark of Deutsche Bank AG. The registered office of DB Platinum IV (RCS no.: B-85.828), a company registered in Luxembourg, is located at 11-13, Boulevard de la Foire, L-1528 Luxembourg, Luxembourg, and is registered as an undertaking for collective investment pursuant to Part I of the law of 17 December 2010 and therefore qualifies as a UCITS under all relevant laws and regulations.
