

This Products Highlights Sheet is an important document

- It highlights the key terms and risks of the Sustainable Global Thematic Portfolio (the "Portfolio"), a portfolio of AB¹ (the "Fund"), and complements the prospectus for the Fund (the "Prospectus") and the Singapore prospectus (the "Singapore Prospectus", together with the Prospectus, the "Singapore Offering Documents").²
- It is important to read the Singapore Offering Documents before deciding whether to purchase shares in the Portfolio ("Shares"). If you do not have a copy, please contact us to ask for one.
- You should not invest in the Portfolio if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase Shares³, you will need to make an application in the manner set out in the Singapore Prospectus.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a portfolio of an open-ended investment company with variable capital domiciled in Luxembourg, that is regulated by the Commission de Surveillance du Secteur Financier and qualifies as a

Refer to "Investment Objective, Focus and Approach" in Singapore Prospectus and "Other Portfolio Information:

¹ AB SICAV I (referred to as "AB" or the "Fund" in this document) is an open-ended investment company with variable capital (*société d'investissement à capital variable*) under the laws of the Grand Duchy of Luxembourg. Prior to 5 February 2016, the Fund's legal name was ACMBernstein SICAV and its trading name in Singapore was AllianceBernstein.

² The Singapore Offering Documents are available at the office of the Singapore Representative during its normal business hours or are accessible at www.abfunds.com.

³ Effective 15 December 2016, Class B Shares will no longer be offered but may be made available for exchange to Singapore shareholders holding Class B Shares (or a variation thereof) in another portfolio or other AB fund that is available for offer in Singapore. Share Classes denoted with an "X" or "N" are only available to existing shareholders in such classes respectively.

KEY PRODUCT FEATURES	
<p>UCITS under European Union directives.</p> <ul style="list-style-type: none"> The investment objective of the Portfolio is to achieve long-term growth of capital. For Class SD Shares, the Board intends to declare and pay monthly distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the Class. The Board currently does not intend to declare a dividend with respect to any other Share Class and therefore any net income and net realised profits attributable to the Shares will be reflected in the respective NAV of the Shares. 	<p><i>Distributions</i>" in Prospectus relating to Portfolio for key product features.</p>
Investment Strategy	
<p>STRATEGY</p> <ul style="list-style-type: none"> The Portfolio pursues opportunistic growth by investing in a global universe of companies in multiple industries that are positively exposed to environmentally- or socially-oriented sustainable investment themes. Under normal circumstances, the Portfolio expects to invest at least 80% of its net assets in equity or equity-related securities of issuers located throughout the world that the Investment Manager believes are positively exposed to sustainable investment themes. The Investment Manager employs a combination of "top-down" and "bottom-up" investment processes with the goal of identifying the most attractive securities worldwide, fitting into sustainable investment themes. The Investment Manager identifies sustainable investment themes that are broadly consistent with achieving the United Nations Sustainable Development Goals. Examples of these themes include Health, Climate, and Empowerment. Such sustainable themes are expected to change over time based on the Investment Manager's research. The Portfolio may use financial derivative instruments ("FDIs") for efficient portfolio management ("EPM"), hedging or investment purposes. 	<p>Refer to "<i>Investment Objective and Policies</i>" in Prospectus relating to Portfolio for further information on the investment strategy.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> The Investment Manager for the Portfolio is AllianceBernstein L.P., a Delaware limited partnership. Brown Brothers Harriman (Luxembourg) S.C.A. has been appointed to act as Administrator and Depositary. Refer to "<i>Other Important Information</i>" of the Singapore Prospectus for information on what happens if these entities become insolvent. 	<p>Refer to "<i>Management and Administration</i>" of Prospectus for further information on roles and responsibilities.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of investments and the income from them, and therefore the value of, and income from, Shares relating to the Portfolio can go down as well as up and you may not get back the amount you invest.</p> <p>These risk factors, among others, may cause you to lose some or all of your investment:</p>	<p>Refer to "<i>Risks</i>" of Singapore Prospectus for the risks of investing in the Portfolio.</p>
Market and Credit Risks	
<p>You are exposed to Emerging Markets Risk. Investments in securities of issuers situated in emerging markets may experience greater price volatility and significantly lesser liquidity than investments solely in equity securities or issuers located in more developed countries. Such securities are also subject to higher risks of political or economic instability; fluctuations in exchange rates, differing legal and accounting systems, national policies limiting investment opportunities, and higher investment costs.</p> <p>You are exposed to global Country Risks. Investments in issuers located in a particular country or geographic region may have more risk because of particular market factors affecting that country or region.</p> <p>You are exposed to Currency Risks. Investing in global securities exposes the Portfolio to fluctuations in currency exchange risk, which may negatively affect the value of the investment or reduce returns.</p>	
Liquidity Risks	

<p>The Shares are not listed and can only be realised on Business Days. There is no secondary market for the Shares. All realisation requests should be submitted in the manner set out in the Singapore Prospectus.</p> <p>Your may not be able to redeem when a redemption limit is imposed or when redemption is suspended. A redemption limit may be imposed if requests are received to redeem more than 10% of the Shares of the Portfolio outstanding. Further, your right to redeem may be temporarily suspended under certain circumstances as set out in the Singapore Prospectus.</p>	
Product-Specific Risks	
<p>You are exposed to Derivatives Risks. The Portfolio is entitled to use FDIs for hedging and EPM purposes which may involve additional risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. Some of the risks associated with FDIs are market risk, management risk, credit risk, liquidity risk and leverage risk. In adverse situations, the Portfolio's use of FDIs may become ineffective in hedging or EPM and the Portfolio may suffer significant losses. The Portfolio will also use FDIs for investment purposes and for the purpose of meeting its investment objective. The Portfolio's investment in FDIs may involve additional risks, for example, counterparty default risk or insolvency risk, risk involved with effective management of derivative strategies, risk of mispricing or improper valuation of derivatives, risk of embedded leverage through investment in a derivative that is itself leveraged, risk of higher volatility, risk of illiquidity in the market for certain derivative strategies and risk of loss greater than the amount invested in the FDI, and may expose the Portfolio to significant losses. The failure of a counterparty to a derivative contract to comply with the terms of the derivative contract could cause the Portfolio to suffer a loss.</p> <p>You are exposed to Focused Portfolio Risk. The Portfolio may invest in a limited number of issuers, industries or sectors or countries and may therefore be subject to greater volatility than a portfolio invested in a larger or more diverse array of securities. Such concentration could expose such investors to losses disproportionate to market movements in general if there are disproportionately greater adverse price movements in securities in which the Portfolio is invested.</p>

⁵ The financial adviser is required to disclose to you the amount of trailer fee it receives from the Investment Manager.

⁶ The consecutive fee levels listed apply with respect to (1) the first \$1,250,000,000 of the net assets of the Portfolio and (2) the amount of the net assets of the Portfolio over \$1,250,000,000.

⁷ Based on figures as of 31 May 2019 for the Portfolio. These fees may decrease or increase depending on the assets of the Portfolio and transaction volume or other reasons.

⁸ The charges stated apply to all Classes of the Portfolio save for Classes S and S1 (where charges are below 0.1% of the asset value).

⁹ This example assumes that the Class B Shares are being redeemed between three and four years after issuance and a CDSC of 1% is chargeable on the lesser of the current NAV or original cost of such Shares being redeemed (in this example, US\$10).
