Features of the Company

UBS (Lux) Equity SICAV (hereinafter called the “company”) offers investors various subfunds (“umbrella structure”) which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in the sales prospectus, which will be updated on the launch of each new subfund.

The Company was established on 7 October 1996 as an open-ended investment fund in the form of a SICAV pursuant to Part I of the Luxembourg Law of 30 March 1988 relating to undertakings for collective investment and was adapted in March 2005 to conform to the provisions of the Law of 2002; it has been subject to the amended Law of 2010 since 1 July 2011.

Effective 15 June 2011, the company has appointed UBS Fund Management (Luxembourg) S.A. as its Management Company.

The Articles of Incorporation were published in the “Mémorial, Recueil des Sociétés et Associations”, hereinafter called “Mémorial”, of 8 November 1996. The consolidated version of the Articles of Incorporation of the Company is deposited at the Trade and Companies Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection. Any amendments areshall be published in the “Recueil Electronique des Sociétés et Associations” (“RESA”) by meansway of a notice of deposit in the Mémorial, in a Luxembourg daily newspaper and, if necessary, in the manner described in the official section entitled “Regular reports and publications of the individual distribution countries.” of the sales prospectus. Amendments become legally binding following their approval by the general meeting of shareholders.

“I-B”

Shares in classes with “I-B” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS AG or one of its authorised counterparties. A fee covering the costs for fund administration (comprising the costs of the Company, administration and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“I-X”

Shares in classes with “I-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS AG or one of its authorised counterparties. The costs for asset management, fund administration (comprising the costs of the Company, administration and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“U-X”

Shares in classes with “U-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS AG or one of its authorised counterparties. The costs for asset management, fund administration (comprising the costs of the Company, administration and the Depositary) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. fund of funds or other pooled structures in accordance with various legislation). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NZD 10,000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000 or ZAR 100,000.

Additional characteristics

Currencies

The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, EUR, GBP, HKD, JPY, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the respective subfund, the respective currency will not be included in the share class name. The currency of account features in the name of the relevant subfund.

“hedged”

For share classes whose reference currencies are not identical to the currency of account of the subfund, and which have “hedged” in their name (“share classes in foreign currencies”), the fluctuation risk of the reference currency price for those share classes is hedged against the currency of account of the subfund. Provision is made for the amount of the hedging to be in principle between 90% and 110% of the total net assets of the share class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of share classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund’s currency of account.

“BRL hedged”

The Brazilian real (currency code pursuant to ISO 4217: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory

developments in Brazil. As a result, the hedging may not be between 90% and 110% of the total net assets. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the reinvestment risk due to liquidation of a share class and/or the subfund in accordance with the section "Liquidation of the Company and its subfunds; merger of subfunds" of the sales prospectus.

"RMB hedged"

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the "PRC"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Shares in classes with "RMB hedged" in their name are shares whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

RMB convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore regulatory or governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the reinvestment risk due to liquidation of a share class and/or the subfund in accordance with the section "Liquidation of the Company and its subfunds; merger of subfunds" of the sales prospectus.

"PF"

Share classes with "PF" in their name differ from the other share classes in that, in addition to the flat management fee, a performance fee is paid to the Portfolio Manager if the conditions set out in the section "Expenses paid by the Company" are met.

"acc"

For share classes with "-acc" in their name, income is not distributed unless the Company decides otherwise.

"dist"

For share classes with "-dist" in their name, income is distributed unless the Company decides otherwise.

"qdist"

Shares in classes with "-qdist" in their name may make quarterly distributions, excluding fees and expenses. Distributions may also be made out of the capital (this can contain, inter alia, realised and unrealised net gains in the net asset value) ("**capital**"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some

investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed on income and capital arising from accumulating (-acc) share classes at a later point in time than is the case with distributing (-dist) share classes. Investors should seek their own tax advice.

"mdist"

Share classes with "-mdist" in their name may make monthly distributions, excluding fees and expenses. Distributions may also be made out of the capita. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed on income and capital arising from accumulating (-acc) share classes at a later point in time than is the case with distributing (-dist) share classes. Investors should seek their own tax advice. The maximum issuing commission for shares in classes with "-mdist" in their name is 6%.

"UKdist"

For share classes with "UKdist" in their name, the Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the share classes are subject to the reporting fund rules. The Company does not intend to make available taxable values in other countries for these share classes, as they are intended for investors whose investment in the share class is liable to tax in the UK.

"2%", "4%", "6%", "8%"

Shares in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income. Distributions may thus also be made out of the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund.

Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared to distributing (-dist, -qdist, -mdist) share classes. Investors should seek their own tax advice.

The entirety of the subfunds' net assets forms the total net assets of the company, which at any time correspond to the share capital of the company and consist of fully paid in and non-par-value shares (the "shares").

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares in the respective subfunds. Shares of a particular subfund carry the right of one vote per share held when voting at meetings affecting this subfund.

The company forms a legal entity. With respect to the shareholders, each subfund is regarded as being independent from the others. The assets of a subfund can be used to offset only the liabilities which the subfund concerned has assumed.

The Board of Directors of the Company is empowered, at all times, to liquidate existing subfunds and/or to establish new subfunds as well as different share classes with specific characteristics within these subfunds. The current sales prospectus shall be updated following the establishing of a new subfund or new share class.

The company is unlimited with regard to duration and total assets.

The financial year of the company ends on 31 May.

The ordinary general meeting takes place annually on 24 November at 11.30 a.m. at the registered office of the company. If 24 November happens to be no working day in Luxembourg, the ordinary general meeting takes place on the next following working day.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

Information on whether a company subfund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of shares of UBS (Lux) Equity SICAV are subject to the regulations prevailing in the country concerned.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue, redemption and conversion price per share of each subfund or share class are expressed in the reference currency of the subfund or share class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each share class by the number of shares in this share class of the subfund.

In this context, “business day” refers to normal banking days in Luxembourg (i.e. each day on which the banks are open during normal business hours) with the exception of individual, non-statutory rest days as well as days on which exchanges in the main countries in which the subfund invests are closed or 50% or more of the subfund’s investments cannot be adequately valued.

The percentage of the net asset value which is attributable to each respective share class of a subfund is determined, taking into account the commission charged to that share class, by the ratio of the shares in circulation in each share class to the total number of shares in circulation in the subfund, and will change each time shares are issued or redeemed.

If the total subscriptions or redemptions of all the share classes of a subfund on a single trading day come to a net capital inflow or outflow, the respective subfund’s net asset value per share may be increased or reduced accordingly (single swing pricing). The maximum adjustment amounts to 2% of the net asset value. Estimated transaction costs and tax charges that may be incurred by the subfund as well as the estimated bid/offer spread of the assets in which the subfund invests may be taken into account. The adjustment leads to an increase in the net asset value per share if the net movements result in a net inflow of capital in the subfund concerned. However, this adjustment leads to a fall in the net asset value per share if the net movements result in a net outflow of capital. The Board of Directors of the Management Company can set a threshold value for each subfund. This may consist in the net movement on a trading day in relation to the net fund assets or to an absolute amount in the currency of the subfund concerned. The net asset value per share would be adjusted only if this threshold were to be exceeded on a trading day.

This adjustment is in favour of the subfund and mentioned in the Statement of Operations as “Other income”.

b) Valuation principles

- Liquid funds - whether in the form of cash, bank deposits, bills of exchange, sight securities, debt claims, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received - are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- Securities, derivatives and other assets listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives or other assets are listed on several stock exchanges, the latest available price on the stock exchange that represents the major market for these investments will apply. In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange but which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on this market.
- Securities and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Derivatives not listed at a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation obtained will be verified by means of calculation methods recognised by the Company and the Company’s auditors, based on the market value of the underlying instrument from which the derivative originates.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) are valued at their last-known net asset value. Certain units or shares of other UCITS and/or UCI can be valued on the basis of an estimation of their value that has been provided by reliable service providers, which are independent from

the portfolio manager or the investment advisor (value estimation).

- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower. Interest income earned by subfunds between the order and settlement dates concerned is included in the valuation of the assets of the relevant subfund. The asset value per share on a given valuation date therefore includes projected interest earnings.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the reference currency of the relevant subfund and not hedged by foreign-exchange transactions, are valued at the middle-market rate of exchange (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available by Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the applicable UBS Valuation Policy.

The Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

As some of the Company's subfunds may be invested in markets which are closed at the times when the assets are valued, the Board of Directors of the Company may – by way of derogation from the aforementioned provisions – allow the net asset value per share to be adjusted in order to more accurately reflect the fair value of the subfunds' assets at the time of valuation. In practice, the securities in which the subfunds are invested are generally valued on the basis of the most recently available prices at the valuation time at which the net asset value per share as described above is calculated. There may, however, be a substantial time difference between the close of the markets in which a Fund invests and the valuation time.

As a consequence, developments which may influence the value of these securities and which occur between the closure of the markets and the valuation time are not normally taken into account in the net asset value per share of the subfund concerned. If, as a result of this, the Board of Directors of the Company deems that the most recently available prices of the securities in a subfund's portfolio do not reflect their fair value, it may order the net asset value per unit to be adjusted in order to reflect the assumed fair value of the portfolio at the time of valuation. Such an adjustment is based on the investment policy determined by the Board of Directors of the Company and a number of practices. If the value is adjusted as described above, this will be applied consistently to all unit classes in the same subfund.

The Board of Directors of the Company reserves the right to apply this measure to the relevant subfunds of the Company whenever it deems this appropriate.

Evaluating assets at fair value calls for greater reliability of judgement than when evaluating assets at times when readily available market quotations can be referred to. Fair value calculations may also be based on quantitative models used by price reporting providers to determine the fair value. No guarantee can be given that the Fund will be in a position to accurately establish the fair value of an asset when it is about to sell the asset around the time at which the Fund determines the net asset value per unit. As a consequence, if the Fund sells or redeems shares at the net asset value at a time when one or more participations are valued at fair value, this may lead to a dilution or increase in the economic participation of the existing unitholders.

Furthermore, in exceptional circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be authoritative for subsequent issues, redemptions and conversions of shares. New valuations only take place before publishing the only net asset value for that day. Issues, redemptions and conversions are only processed based on the only net asset value.

c) Net realized gains (losses) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. Options which are not listed on an official stock exchange (OTC options) are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents. The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

h) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

i) Fair Value pricing principle

The fair value pricing principle applies for funds with main investments in Asian markets. The fair value principle takes into account important movements not reflected in the last available Exchange closing prices, by reevaluating all underlying assets of the Fund portfolio with snapshot prices at a specified time. The net asset value is then calculated based on these re-evaluated prices. The fair value principle is applicable only in case the deviation of a Fund specific benchmark exceeds 3%.

j) Consolidated financial statements

The consolidated financial statements are expressed in USD. The various items of the consolidated statement of net assets and the consolidated statement of operations as of 30 November 2016 are equal to the sum of the corresponding items in the financial statements of each subfund.

The following exchange rates were used for the conversion of foreign consolidated financial statements as of 30 November 2016:

Exchange rates		
USD 1 =	EUR	0.942685
USD 1 =	CHF	1.018650

For the liquidated or merged subfunds, the exchange rate used for the conversion of the consolidated financial statements is the one as at liquidation or merger date.

k) Receivable on securities sales,

Payable on securities purchases

The account "Receivable on securities sales" can also include receivables from foreign currency transactions. The account "Payable on securities purchases" can also include payables from foreign currency transactions.

l) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

m) Cross-subfund investments

As per 30 November 2016 the subfund UBS (Lux) Equity SICAV – European Opportunity Unconstrained (EUR) was invested for 81 068 543.75 EUR in the subfund UBS (Lux) Equity SICAV – Global Opportunity Unconstrained (USD).

Out of the aforementioned maximum Flat fee the following is included:

1. For the management, administration, portfolio management and distribution of the Company (if applicable), as well as for all the tasks of the Depositary, such as the safekeeping and supervision of the Company's assets, the handling of

payment transactions and all other tasks listed in the section "Depository and Main Paying Agent" of the prospectus, a maximum flat fee based on the net asset value of the Company is paid from the Company's assets, in accordance with the following provisions. This fee is charged to the Company's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee).

The relevant maximum flat fee will not be charged until the corresponding share classes have been launched. An overview of the maximum flat fees can be seen in "The subfunds and their special investment policies" section of the prospectus.

2. The maximum flat fee does not include the following fees and additional expenses which are also charged to the Company:

- a) all additional expenses related to management of the Company's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the single swing pricing principle pursuant to the section "Net asset value, issue, redemption and conversion price" of the sales prospectus;
- b) fees of the supervisory authority for the establishment, modification, liquidation and merger of the Company, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed;
- c) auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Company, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;
- d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Company, as well as for the general safeguarding of the interests of the Company and its investors, insofar as this is not expressly prohibited by law;
- e) costs for the publication of the Company's net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Company's legal documents (prospectuses, KIID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);

- g) costs for the Company's registration with any foreign supervisory authorities, if applicable, including fees, translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Company, including fees for external advisers;
- i) costs and fees related to any intellectual property registered in Company's name or usufructuary rights of the Company;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depository for protecting the interests of the investors;
- k) if the Management Company participates in class-action suits in the interests of investors, it may charge the Company's assets for the expenses arising in connection with third parties (e.g. legal and Depository costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Company's total expense ratio (TER).

3. The Management Company may pay retrocessions in order to cover the distribution activities of the Company.

Out of the management commission sales fees are paid to distributors and asset managers of the company.

The Depository, administrative agency and management company are nevertheless entitled to be reimbursed the costs of non-routine arrangements made by them in the interests of the shareholders; otherwise such expenses will be charged direct to the investment company.

The Company will also bear all transaction expenses arising in connection with the administration of the Company's assets (brokerage commission in line with the market, fees, fiscal charges, etc.).

All taxes levied on the income and assets of the Company, particularly the *taxe d'abonnement*, will also be borne by the Company.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

All costs which can be allocated to individual subfunds will be charged to these subfunds. Costs which can be allocated to share classes will be charged to these share classes. If costs pertain to several or all subfunds/share classes, however, these costs will be charged to the subfunds/share classes concerned in proportion to their relative net asset values.

Details on the ongoing charges of the Company can be found in the KIID.

In the subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The upper limit for management fees of target funds in which the assets of the subfunds are invested amounts to a maximum of 3%, taking into account any trail fees.

In the case of investments in units of funds managed directly or indirectly by the Management Company or another company related to it by common management or control, or by a substantial direct or indirect holding, the subfunds making the investment may not be charged with any of the target fund's issue or redemption commissions.

If, in accordance with the above paragraph, the company invests in a related fund that charges a lower flat fee than the flat fee charged by the subfund making the investment, the company may, instead of the aforementioned lower flat fee, charge the volume invested in this target fund with the difference between the flat fee charged by the subfund making the investment on the one hand and the flat fee of the target fund on the other hand.

Note 3 – Taxe d'abonnement

In accordance with the law and the regulations currently in force, the company is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced tax d'abonnement amounting to 0.01% p.a. for some share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

The tax d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the tax d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Income distribution

Distribution Policy

The general meeting of shareholders of the respective subfunds shall decide, at the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund or share class. The payment of distributions must not result in the net assets of the company falling below the minimum amount of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalization amount will be calculated so that the distribution corresponds to the actual income entitlement.

Note 11 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which company shares were bought and sold.

The German version of these financial statements is the authoritative version. However, in the case of company shares sold to investors from the other countries in which company shares can be bought and sold, the company and the Depositary may recognize approved translations (i.e. approved by the company) into the languages concerned as binding upon itself.

Note 12 – Securities Lending

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS (Luxembourg) S.A. acts as securities lending agent.
