2 PRINCIPAL ACCOUNTING CONVENTIONS

■ PRESENTATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities and generally accepted accounting principles.

The financial statements reflect the Net Asset Values ("NAV") as calculated on the last business day of the period based on latest available market prices of the investments.

Valuation of investments and other instruments

The following pricing policy applies:

- **Valuation of investments** - Investments which are quoted or dealt in on an official stock exchange or on a Regulated Market or any Other Regulated Market are valued at the last available prices at close of business of the relevant Valuation Day.
 In the event that any assets held in a Sub-Fund's portfolio on the relevant day are not quoted or dealt in on any stock exchange or on any Regulated Market, or on any Other Regulated Market or if, with respect of assets quoted or dealt in on any stock exchange or dealt in on any such markets, the last available price (as determined pursuant to the previous paragraph) is not representative of the fair market value of the relevant assets, the value of such assets is based on a reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the SICAV.
- **Open-ended and closed-ended UCIs** - Units or shares of open-ended UCIs are valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price is determined prudently and in good faith by the Board of Directors of the SICAV. Units or shares of a closed-ended UCI are valued at their last available market value.
- **Forward foreign exchange contracts** - Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the period until their maturity. Net unrealised gains and losses on forward foreign exchange contracts are recorded in the "Statement of Net Assets".
 The SICAV also offers Hedged Share Class. All gain/(losses) on forward exchange contracts used for Hedged Share Classes are allocated solely to the relevant Share Class.
- **Financial futures contracts** - Financial futures contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of Investments"). Initial margin deposits are made in cash upon entering into futures contracts. Subsequent payments, referred to as variation margins, are made or received by the Sub-Fund periodically and are based on changes in the market value of open futures contracts. Net unrealised gains and losses on financial futures contracts are recorded in the "Statement of Net Assets". When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.
- **Upfront premium Options contracts** - When the Sub-Fund purchases an option contracts with an upfront premium, it pays a premium and an amount equal to that premium is recorded as an asset. When the Sub-Fund writes an option with an upfront premium, it receives a premium and an amount equal to that premium is recorded as a liability.
 The asset or liability is adjusted daily to reflect the current market value of the options contracts.
 Options contracts which are quoted or dealt in on a stock exchange or on a Regulated Market or any Other Regulated Market are valued at the exchange quoted price (following the pricing policy described above under "Valuation of Investments"). OTC options are marked-to-market based upon daily prices calculated by third party agents and verified against the value received from the counterparty.
 If the last known prices are not representative, the valuation will be based on the potential realisation value estimated by the Board of Directors of the SICAV with prudence and in good faith.
 If an option expires unexercised, the Sub-Fund realises a gain or loss to the extent of the premium received or paid. Premiums received or paid, net unrealised gains and losses from options contracts are recorded in the "Statement of Net Assets" under the account balances "Upfront premium Options contracts purchased at market value" or "Upfront premium Options contracts written at market value".
- **Futures-Style Options contracts** - Futures-style options contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of Investments"). Initial margin deposits are paid in cash upon entering into the contract. Subsequent positive or negative cashflows, referred to as variation margins, are paid or received by the Sub-Fund periodically and are based on changes in the market value of open option contracts. When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.
 Net unrealised gains and losses on futures-style options contracts are recorded in the "Statement of Net Assets".

- Swaps contracts** - Sub-Funds may enter into different types of swaps agreements such as interest rate swaps, swaptions, inflation-linked swaps, credit default swaps and total return swaps. Net unrealised gains and losses on swaps contracts are recorded in the "Statement of Net Assets". Swaps contracts are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV. Swaps contracts are marked-to-market at each Net Asset Valuation calculation date. The market value is based on the valuation of elements laid down in the contract, and it is obtained from third party agents, market makers or internal models, pursuant to the procedures established by the Board of Directors of the SICAV.
- Combined financial statements** - The figures of each Sub-Fund are presented in their respective Base Currency. The combined financial statements are expressed in euros and the sum of the Sub-Funds' net assets which are in another currency are converted in euros at the exchange rates prevailing at period end. The combined financial statements are presented for information purposes only.

3 EXCHANGE RATES USED AS OF 30 JUNE 2018

5 DEPOSITARY AND PAYING AGENT, ADMINISTRATOR, REGISTRAR AND TRANSFER AGENT

The Depositary and Paying Agent, the Administrator and the Registrar and Transfer Agent receive out of the assets of the relevant Sub-Fund, a fee for their services as detailed below.

- Depositary and Paying Agent:** The fee is a percentage of portfolio value at each month end of the Sub-Fund. It ranges from 0.003% to 0.50% p.a. depending on where the assets of the relevant Sub-Fund are held. The fee is calculated and accrued on each Valuation Day and is payable monthly in arrears.
- Administrator:** The fee for the main services provided, amounts to an annual rate of 0.01%, is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Sub-Fund. It is payable monthly in arrears.
- Registrar and Transfer Agent:** The main components of the compensation for the services provided are the number of the existing active share Classes, the number of clients' accounts and the number of transactions processed.

6 TAXATION OF THE FUND - TAXE D'ABONNEMENT

In accordance with the legislation currently prevailing in Luxembourg, the SICAV is not subject to any taxes on income or capital gains. The Sicav is subject to a subscription tax *Taxe d'abonnement*, which amounts to an annual rate of 0.05% based on the Net Asset Value of each Sub-Fund at the end of each calendar quarter, calculated and paid quarterly. However, this tax is reduced to 0.01% for Net Asset Value related to share classes only aimed at eligible institutional investors and for Sub-Funds whose sole object is collective investment in money market instruments and in deposits with credit institutions.

Pursuant to Article 175 (a) of the amended law of 17 December 2010, the net asset invested in UCIs already subject to *Taxe d'abonnement* is exempted from this tax. Interest and dividend income received by the SICAV may be subject to non-recoverable withholding tax in the countries of origin.

12 PROXY VOTING POLICY

The Management Company has implemented a Proxy Voting Policy to enable the exercise of voting rights attached to the portfolio securities.

The Management Company aims to cast votes in a manner consistent with the best interest of the investors. In voting proxies, consideration is given to the economic effect of the proposal on the value of portfolio holdings on both the short and long-term impact. In general, the Management Company believes that supporting the company's strategy and voting "for" management's proposals builds portfolio value. In some cases, however, proposals set forth by management may have a negative effect on that value, and consideration of this may affect the votes cast by the Management Company.

The Management Company exercises voting rights and, where it has authorised delegated investment managers to vote on portfolio securities, it requires that they do so in accordance with the Proxy Voting Policy or another authorized policy. Together, the Management Company and/or the Investment Managers may engage the services of an independent third party to assist in analysing proxies, Shareholder meeting recommendations, record keeping and voting services provided that the service provider provides its services in accordance with the Proxy Voting Policy.

13 CLASS ACTION

A class action is an action that allows to a group of investors to claim from a company or public institution to obtain financial compensation in the event of losses.

The Management Company has engaged the services of two independent companies to assist in the class action activities and ensure a global coverage.

The proceeds received from these class actions, if any, are booked in the respective Sub-Funds' Net Asset Values.

SFT REGULATION

During the period, the SICAV did not engage in transactions which are the subject of EU regulation No 2015/2365 on the transparency of securities financing transactions and of reuse. Accordingly, no global, concentration or transaction data, or information on the reuse or safekeeping of collateral is required to be reported.
