Notes to the Financial Statements as at 30 June 2017

Note 1 General

a) Fund's details

AXA IM Fixed Income Investment Strategies (the "Fund") has been established in Luxembourg as a mutual investment fund ("Fonds Commun de Placement") with separate Sub-Funds each constituting a separate portfolio of assets and liabilities. The Fund was created for an indefinite term in Luxembourg on 12 March 2004. The Fund is registered pursuant to Part I of the Law of 17 December 2010 (the "Law") on undertakings for collective investment for transferable securities ("UCITS"), as amended.

The Management Company (AXA Funds Management S.A.) was incorporated on 21 November 1989 for an undetermined period of time and is registered in the register of commerce and companies of Luxembourg under the number B-32.223. Its Articles of Association were published in the "Recueil électronique des sociétés et associations" of 26 January 1990. The latest Consolidated Articles of Association have been filed in the register of commerce and companies of Luxembourg on 7 March 2015. The VAT number is LU 197 76 305.

The Management Company is registered pursuant to chapter 15 of the law of 17 December 2010, as amended.

The Board of Directors of the Management Company has confirmed its adherence to the ALFI's Code of conduct and to the standards of corporate governance described in this code.

Since 29 November 2016, in accordance with the Luxembourg Law of 27 May 2016, the Fund is registered at the Trade and Companies Register of Luxembourg under the number K1479.

b) 2017 Fund's Summary

During the period ending 30 June 2017, the following event occurred:

- **AXA IM Fixed Income Investment Strategies – US Libor Plus** has been liquidated on 29 June 2017.

During the period ended 30 June 2017, unit classes have been liquidated in the above Sub-Fund:

Notes to the Financial Statements as at 30 June 2017

Note 1 General (continued)

d) Unit Classes list

The classes of units presented below correspond to the type of classes that may be available for Sub-Funds of the Fund. The section “Statistics - Number of Units and Net Asset Value per Unit” indicates for each Sub-Fund the available classes of units on the reporting date.

The Distribution and Capitalisation Units are as follows:

- Class « A » are dedicated for large Institutional Investors,
- Class « B » are dedicated for smaller Institutional Investors,
- Class « E » are dedicated for all investors,
- Class « F » are dedicated for all investors,
- Class « I » are dedicated for all other Institutional Investors, including funds of funds,
- Class « M » are dedicated for AXA Investment Managers or its subsidiaries,
- Class « Z » are dedicated for all investors.

Capitalisation and Distribution Units

Unit classes can be further divided into capitalisation units and distribution units. These units differ by their distribution policies, the first by accumulating income, and the other by distributing dividends. The assets of these two categories are gathered together.

Redex (Reduction of Duration Exposure) Classes of Units

The underlying investment objective of the Redex class of units is, as for the other unit classes of the Sub-Fund, to achieve the investment objective of the Sub-Fund, while, only in the case of the relevant unit class to mitigate the Fund’s exposure to an increase or decrease of interest rates curves. Such an overlay strategy will be managed through the tracking of listed derivatives.

Following the opinion of the ESMA 34-43-296 on share classes of UCITS (the “Opinion”), the Board has formed the opinion that the Redex share classes do not comply with the principles set out in the Opinion and does not intend to convert the Redex share classes in other share classes available. As a consequence the Directors have further decided to close for subscription from any new investor the Redex share classes as from 31 July 2017. The Board furthermore decides to close to any investor, including existing investors, such share classes as from 31 July 2018.

Note 2 Significant Accounting Policies

a) Presentation of the Financial Statements

The financial statements have been prepared in accordance with generally accepted accounting principles in the Grand Duchy of Luxembourg.

b) Foreign Currency Translation

The accounting records and the financial statements are denominated in the reference currency of the relevant Sub-Fund.

Values expressed in a currency other than the reference currency of the Sub-Fund are translated into the reference currency of the Sub-Fund at the average of the last available buying and selling price for such currency.

Notes to the Financial Statements as at 30 June 2017

Note 2 Significant Accounting Policies (continued)

b) Foreign Currency Translation (continued)

Assets and Liabilities denominated in other currencies are translated into the respective currency of the portfolio at the rate of exchange at each balance sheet date.

For all Sub-Funds, the exchange rates applied for the Net Asset Value calculation and to combine all Sub-Funds Net Asset Value at period end are as follows:

As at	30/06/2017		
1 USD =	0.95765	CHF	
1 USD =	0.87677	EUR	
1 USD =	0.76985	GBP	

c) Combined Figures

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets are expressed in USD and are presented for information purposes only.

d) Valuation of Investments

The assets of the Fund will be valued as follows:

The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

Transferable securities which are admitted to an official exchange listing or dealt on another regulated market are valued at the closing price on such markets. If the investments are listed or traded on several markets, the closing price at the market, which constitutes the main market for such investments, will be determining.

Transferable securities not admitted to an official listing nor dealt on another regulated market are valued at the latest available price.

The financial statements are presented on the basis of the Net Asset Value calculated on 30 June 2017 with securities valued on 30 June 2017.

The value of money market instruments not listed or dealt in any regulated market, stock exchange in another state or any other regulated market and with remaining maturity of less than 12 months and of more than 90 days is deemed to be the nominal value thereof, increased by any interest accrued thereon. Money market instruments with a remaining maturity of 90 days or less are valued by the amortised cost method, which approximates market value. These amortisation/accretion interests are disclosed in interests on investment portfolio.

In managing the daily priced funds, the Board of Directors of the Management Company' principle is to ensure that portfolios are appropriately valued to give equal treatment to Unitholders.

Notes to the Financial Statements as at 30 June 2017

Note 2 Significant Accounting Policies (continued)

e) Acquisition Cost of Investments

The acquisition cost of Investments expressed in currencies other than the reference currency of the Sub-Fund is translated into the reference currency of the Sub-Fund on the basis of the exchange rates prevailing on the purchase date.

f) Realised Gains /(Losses) on Sales of Investments

Realised gain/(loss) on sales of Investments are determined on the basis of the average cost of the Investments sold.

g) Valuation of the Forward Foreign Exchange Contracts

Outstanding forward foreign exchange contracts are valued at the closing date using the forward rates of exchange applicable to the outstanding life of the contract. All unrealised appreciation and depreciation are included in the Statement of Net Assets.

The Sub-Funds may use Forward Foreign Exchange Contracts as part of their investment policy for efficient portfolio management and/or for hedging purposes, under the conditions laid down in the prospectus and under the regulatory limits.

h) Valuation of Financial Futures

Outstanding futures contracts are valued at the closing date using the last available market price of the instrument. All unrealised appreciation/(depreciation) are included in the Statement of Net Assets.

i) Interest Income

Interests are recognised on a daily accrual basis, net of withholding tax, including recovered/confirmed withholding tax reclaims (interest on investment portfolio, interest on deposits and interest on call accounts and security lending income).

Note 3 Taxation

The Fund is subject to Luxembourg law in respect of its tax status. Under legislation and regulations currently prevailing in Luxembourg, the Fund is subject to a capital tax on the net assets of each of its Sub-Funds at an annual rate of 0.05% for the assets related to units reserved for retail investors. This tax rate is reduced to 0.01% for the assets related to units reserved for institutional investors, calculated and payable quarterly on the basis of the value of the aggregate Net Value of the Sub-Fund or class at the end of the relevant quarter.

Note 4 Distribution Fees

The distribution fees are recorded under the caption "Distribution fees" within the Statement of Operations and Changes in Net Assets. They are calculated as a percentage of the Net Asset Value per unit class.

Notes to the Financial Statements as at 30 June 2017

Note 4 Distribution Fees (continued)

As at 30 June 2017, the maximum distribution fees applied are the following:

	Class A	Class B	Class E	Class F	Class I	Class M	Class Z

Note 5 Management Fees

The Management Company is entitled to receive, from the assets of the relevant Sub-Funds, a management fee in an amount to be specifically determined for each Sub-Fund or class of units. The annual management fee is calculated as a percentage of the Net Asset Value of each Sub-Fund. The details and the percentage of this fee, per class of units, are described in the Full Prospectus and in the table here below. This fee is calculated and accrued daily and is payable monthly. The Management Company will remunerate the Investment Managers out of the management fee in accordance with the contracts signed with the different parties. The management fees are used also in part to pay remuneration (trailer fees) for distribution activities concerning the Fund.

As at 30 June 2017, the effective rates are the following:

Note 6 Redex Fees

The Redex fees are payable to the Investment Manager in charge of the management of the Redex class and calculated as a percentage of the net assets of the relevant class.

Notes to the Financial Statements as at 30 June 2017

Note 6 Redex Fees (continued)

The maximum annual fees linked to the reduction of the duration exposure of the Redex unit classes applied is 0.05%.

Note 7 Applied Service Fee

In order to pay its ordinary operating expenses, the Fund pays an Applied Service Fee to the Management Company out of the assets of the relevant Sub-Fund. The yearly total amount of these expenses to be charged with respect to each Class of Units by the Management Company (the "Applied Service Fee"), will be at a maximum level of 1.00% of the Net Asset Value in respect of each Class of Units (the "Maximum Level"). The level of effective Applied Service Fee might be set-out below this Maximum Level with different fixed effective Applied Service Fee rates applicable across Classes of Units. The level of the Applied Service Fee per Sub-Fund and per Class of Units is defined taking into account different criteria. These criteria are including, but not limited to, the costs charged to the Class of Units and the variation of costs linked to a change of the Net Asset Value in respect of the relevant Class of Units that might be due to market effects and/or dealing in shares.

The effective level of those fees is disclosed in the Additional Unaudited Appendix.

By way of a board of directors resolution, the Management Company (i) may modify the level of effective Applied Service Fee and (ii), may amend at any time upon prior notice to relevant unitholders, the Maximum Level of the Applied Service Fee applicable to all Classes of Units.

The Applied Service Fee is fixed in the sense that the Management Company will bear the excess in actual ordinary operating expenses to any such Applied Service Fee charged to the Classes of Units. Conversely, the Management Company will be entitled to retain any amount of Applied Service Fee charged to the Classes of Units exceeding the actual ordinary operating expenses incurred by the respective Classes of Units.

In counterparty of the Applied Service Fee received by the Fund, the Management Company then provides and/or procures, on behalf of the Fund the following services and bears all expenses (including any reasonable out of pocket expenses) incurred in the day to day operations and administration of the Classes of Units, including but not limited to:

- Depository fees except transaction related fees;
- Auditor's fees;
- The Luxembourg 'Taxe d'abonnement';
- Class of Units currency hedging cost;
- the fees of the registrar agent and administrator (including the calculation of the Net Asset Value), any paying agent and of any representatives in jurisdictions where the Units are qualified for sale, and of all other agents employed on behalf of the Fund; such remuneration may be based on the net assets of the Fund or on a transaction basis or may be a fixed sum;
- the cost of preparing, printing and publishing in such languages as are necessary, and distributing offering information or documents concerning the Fund (including unitholder notification), annual and semi-annual reports and such other reports or documents, as may be required under the applicable laws or regulations of the jurisdictions or the authorities where the Units are qualified for sale;
- the cost of printing certificates and proxies;
- the cost of preparing and filing the Management Regulations and all other documents concerning the Fund, including registration statements and offering circulars with all authorities (including local securities dealers' associations) having jurisdiction over the Fund or the offering of Units;
- the cost of qualifying the Fund or the sale of Units in any jurisdiction or of a listing on any stock exchange;
- the cost of accounting and bookkeeping;
- legal fees;

Notes to the Financial Statements as at 30 June 2017

Note 7 Applied Service Fee (continued)

- insurance, postage, telephone and telex and any communication mean;
- distribution and sales support costs (including costs charged by local routing order platforms, local transfer agent costs, local representative agent and the translation costs);
- and all similar charges and expenses.

Note 8 Transaction Fees

The transaction fees are disclosed for each Sub-Fund in the Statement of Operations and Changes in Net Assets under the caption "Transaction fees". Those fees are detailed in the Additional Unaudited Appendix.

Note 9 Forward Foreign Exchange Contracts

The unrealised appreciation/(depreciation) on forward foreign exchange contracts are disclosed in the Statement of Net Assets under the headings "Unrealised appreciation/(depreciation) on forward foreign exchange contracts".

(1) The TERs above represent, as indicated in the prospectus, a weighted average of administrative expenses which shareholders could normally have expected to pay when being invested in the chosen share class as indicated in the prospectus. This methodology is in line with accepted standard market practices and represents a fair view of publications to be made in the market.

(2) Please refer to note 7 for more details on the Applied Service Fee.

(3) The Ongoing charges are based on known budgets for 2017 which are typically based on historical expense data, as well as anticipated budget changes for the period. For certain classes of units and Sub-Funds where there is no relevant expense history, Ongoing charge figures are based on estimates. The figures represent the situation as assessed per 30 June 2017. The Ongoing charges calculation excludes the Performance fees.

Remuneration policy

Information about the remuneration policy that was applied during the accounting year 2016 can be obtained from the Management Company: AXA Funds Management S.A., 49, avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Securities Financing Transactions Regulation

Securities lending

The SICAV may lend positions of its securities portfolio to third parties through different techniques whereas:

- Bilateral should be understood as trading executed directly with the counterparty and the collateral, managed by AXA Investment Managers GS Limited, is safe-kept at State Street Luxembourg S.C.A..
- Triparty should be understood as trading executed directly with the counterparty and collateral managed by a triparty agent who manages and safe-keep the collateral.
- CCP should be understood as Central Counterparties Clearing House.

Data on cost and return

The return from securities lending transactions is split between the relevant Fund and the agent lender. The Funds receive 65% while the agent lender receive 35% of the income, with all operational costs supported by the agent lender. The income earned by the Funds from securities lending transactions is disclosed in the stock lending note (note 13).

Eligible collateral

Collateral received by a Sub-Fund may be used to reduce its counterparty risk exposure with a counterparty if it complies with the criteria listed in circulars issued by the CSSF from time to time in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation.
- It should be valued on a daily basis on a mark-to-market price basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place. Margin calls will be implemented in accordance with the terms negotiated in the collateral arrangements.
- It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- It should be sufficiently diversified in terms of country, markets and issuers and shall not entail on an aggregate basis an exposure to a given issuer for more than 20% of its Net Asset Value. By way of derogation, a Sub-Fund may be fully collateralised in different Transferable Securities or Money Market Instruments issued or guaranteed by any of the Member States, one or more of their local authorities, a third party sovereign country such as Canada, Japan, Norway, Switzerland and the United States of America, or any public international body to which one or more Member State(s) belong(s) such as the European Investment Bank, provided that it receives such securities from at least six different issues and that securities from any single issue should not account for more than 30% of such Sub-Fund's Net Asset Value. The collateral shall further comply with the limits set forth above under section "b) Limitations on Control".
- The financial guarantees received by the Sub-Fund will be kept by the Depositary or, failing that, by any third party depositary (such as Euroclear Bank SA/NV) which is subject to a prudential supervision and that has no link with the guarantee provider. It should be capable of being fully enforced by the Company for the account of the Sub-Fund at any time without reference to or approval from the counterparty.

Eligible assets

As long as it complies with the above mentioned conditions, the collateral may consist of (i) sovereign OECD bonds; and/or (ii) direct investment in bonds issued or guaranteed by first class issuers offering an adequate liquidity or shares listed or dealt on a Regulated Market of a Member State of the European Union or on a stock exchange of a member state of the OECD provided that they are included in a main index.
