

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of the American Growth Portfolio (the "Portfolio"), a portfolio of AB¹ (the "Fund"), and complements the prospectus for the Fund (the "Prospectus") and the Singapore prospectus (the "Singapore Prospectus", together with the Prospectus, the "Singapore Offering Documents").²
- It is important to read the Singapore Offering Documents before deciding whether to purchase shares in the Portfolio ("Shares"). If you do not have a copy, please contact us to ask for one.
- You should not invest in the Portfolio if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase Shares³, you will need to make an application in the manner set out in the Singapore Prospectus.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a portfolio of an open-ended investment company with variable capital domiciled in Luxembourg, that is regulated by the *Commission de Surveillance du Secteur Financier* and qualifies as a UCITS under European Union directives.
- The investment objective of the Portfolio is long-term growth of capital primarily through investment in equity securities of US issuers.
- For Class AD Shares (and corresponding H Shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a

¹ AB SICAV I (referred to as "AB" or the "Fund" in this document) is an open-ended investment company with variable capital (*société d'investissement à capital variable*) under the laws of the Grand Duchy of Luxembourg. Prior to 5 February 2016, the Fund's legal name was ACMBernstein SICAV and its trading name in Singapore was AllianceBernstein.

² The Singapore Offering Documents are available at the office of the Singapore Representative during its normal business hours or are accessible at www.abfunds.com.

³ Effective 15 December 2016, Class B Shares will no longer be offered but may be made available for exchange to Singapore shareholders holding Class B Shares (or a variation thereof) in another portfolio or other AB fund that is available for offer in Singapore.

<p>stable distribution rate per share for such share classes and therefore distributions may come from gross income (before reduction for fees and expenses), realised and unrealised gains and capital attributable to the relevant class. The Board currently does not intend to declare a dividend with respect to other Share classes and therefore any net income and net realised profits attributable to the Shares will be reflected in the respective NAV of the Shares.</p>	<p>further information on the key product features.</p>
Investment Strategy	
<p>STRATEGY</p> <ul style="list-style-type: none"> Under normal market conditions, 40-60 companies will be represented in the Portfolio, with the 25 most highly regarded of these companies usually constituting approximately 70% of the Portfolio's net assets. The Investment Manager expects that at any time at least 80% of its total assets will be invested in equity securities of US companies, and in no case will the amount of the Portfolio's total assets invested in such securities be less than two-thirds of the Portfolio's total assets. The Portfolio may use hedging techniques that may include the use of exchange-traded and "OTC" (over the counter) derivative instruments, including swaps, options, futures and currency transactions. The Portfolio may use derivatives for efficient portfolio management ("EPM"), or hedging purposes. 	<p>Refer to "<i>Investment Objective and Policies</i>" in the Prospectus relating to the Portfolio for further information on the investment strategy.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> The Investment Manager for the Portfolio is AllianceBernstein L.P., a Delaware limited partnership. Brown Brothers Harriman (Luxembourg) S.C.A. has been appointed to act as Administrator and Depositary. Refer to "<i>Other Important Information</i>" of the Singapore Prospectus for information on what happens if these entities become insolvent. 	<p>Refer to "<i>Management and Administration</i>" of the Prospectus for further information on their roles and responsibilities.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of investments and the income from them, and therefore the value of and income from Shares of the Portfolio, can go down as well as up and you may not get back the amount you invest.</p> <p>These risk factors, among others, may cause you to lose some or all of your investment:</p>	<p>Refer to "<i>Risks</i>" of the Singapore Prospectus for further information on the risks of investing in the Portfolio.</p>
Market and Credit Risks	
<p>You are exposed to Country Risks in the US. Investments in issuers located in the US may have more market, political and economic risks because of particular factors affecting that country.</p>	
Liquidity Risks	
<p>You are exposed to liquidity risks of the underlying fund's investments. Investments in illiquid assets or assets which become illiquid could prevent the Portfolio from promptly liquidating unfavourable positions and, therefore, result in losses to the Portfolio and corresponding decreases in the NAV of the Shares.</p> <p>The Shares are not listed and can only be realised on Business Days. There is no secondary market for the Shares. All realisation requests should be submitted in the manner set out in the Singapore Prospectus.</p> <p>You may not be able to redeem when a redemption limit is imposed or when redemption is suspended. A redemption limit may be imposed if requests are received to redeem more than 10% of the Shares of the Portfolio outstanding. Further, your right to redeem may be temporarily suspended under certain circumstances.</p>	

Product-Specific Risks	
<p>You are exposed to Derivatives Risks. The Portfolio is entitled to use derivative instruments for hedging and EPM purposes which may involve additional risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk and leverage risk. In adverse situations, the Portfolio's use of derivative instruments may become ineffective in hedging or EPM and the Portfolio may suffer significant losses. The failure of a counterparty to a derivative contract to comply with the terms of that contract could cause the Portfolio to suffer a loss.</p> <p>You are exposed to Equity Securities Risks. The value of underlying equity investments of the Portfolio may fluctuate in response to the activities and results of individual companies, or because of general market and economic conditions and changes in currency exchange rates.</p> <p>You are exposed to Focused Portfolio Risk. The Portfolio may invest in a limited number of issuers, industries or sectors or countries and may therefore be subject to greater volatility than a portfolio invested in a larger or more diverse array of securities. Such concentration could expose such investors to losses disproportionate to market movements in general if there are disproportionately greater adverse price movements in securities in which the Portfolio is invested.</p>	
FEES AND CHARGES	
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p><u>Payable directly by you*</u></p> <p>Initial Sales Charge (as a percentage of the purchase price): Class A and AD Shares: Up to 5.00%.
