

This Products Highlights Sheet is an important document.

- It highlights the key terms and risks of the Select US Equity Portfolio (the "Portfolio"), a portfolio of AB¹ (the "Fund"), and complements the prospectus for the Fund (the "Prospectus") and the Singapore prospectus (the "Singapore Prospectus", together with the Prospectus, the "Singapore Offering Documents").²
- It is important to read the Singapore Offering Documents before deciding whether to purchase shares in the Portfolio ("Shares"). If you do not have a copy, please contact us to ask for one.
- You should not invest in the Portfolio if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase Shares, you will need to make an application in the manner set out in the Singapore Prospectus.

<ul style="list-style-type: none"> • The Portfolio is <u>only</u> suitable for higher risk-tolerant investors seeking the medium to long term rewards of equity investment. 			
KEY PRODUCT FEATURES			
WHAT ARE YOU INVESTING IN?			Refer to

¹ AB SICAV I (referred to as "AB" or the "Fund" in this document) is an open-ended investment company with variable capital (*société d'investissement à capital variable*) under the laws of the Grand Duchy of Luxembourg. Prior to 5 February 2016, the Fund's legal name was ACMBernstein SICAV and its trading name in Singapore was AllianceBernstein.

² The Singapore Offering Documents are available at the office of the Singapore Representative during its normal business hours or are accessible at www.abfunds.com.

<ul style="list-style-type: none"> You are investing in a portfolio of an open-ended investment company with variable capital domiciled in Luxembourg, that is regulated by the <i>Commission de Surveillance du Secteur Financier</i> and qualifies as a UCITS under European Union directives. The investment objective of the Portfolio is to realise superior investment returns throughout various market cycles while maximising risk-adjusted returns relative to the broad US equity market. The Board currently does not intend to pay dividends with respect to any Share Class and therefore any net income and net realised profits attributable to the Shares will be reflected in the respective NAV of the Shares. 	<p><i>"Investment Objective, Focus and Approach"</i> in the Singapore Prospectus and <i>"Other Portfolio Information: Distributions"</i> in the Prospectus relating to the Portfolio for further information on the key product features.</p>
<p>Investment Strategy</p>	
<p>STRATEGY</p> <ul style="list-style-type: none"> The Portfolio invests primarily in U.S. exchange traded equity securities. Under normal circumstances, the Portfolio expects to invest at least 80% of its net assets in these types of securities. The Portfolio may also, to a more limited extent, invest in equity securities listed on non-U.S. exchanges and in other similar eligible assets or instruments including U.S. and non-U.S. equity related securities such as publicly-traded convertible preferred stocks, options, stock purchase warrants (whether exchange traded or over-the-counter) and rights as well as UCITS-eligible open-ended exchange traded funds, swaps, contracts for differences and other eligible similar instruments. The Portfolio may only purchase call or put options and write covered call options, provided that such transactions will not be entered into if it would result in the Portfolio holding a net short portion with respect to the security. A significant portion of the Portfolio's investments will be allocated to medium and large market capitalisation companies, although the Portfolio will invest in stocks of small market capitalisation companies. The Portfolio will not purchase fixed income securities or, except as otherwise described in the Prospectus, non-exchange traded instruments. The Portfolio generally has a bias toward highly liquid investments, but may invest up to 10% of the Portfolio's net assets in less liquid equities when it believes the opportunity is warranted. The Portfolio uses a multi-dimensional portfolio construction process diversified across a range of industries and companies and generally selects investments for long-term growth potential and attractive valuations, and may hold such stocks for months or longer. The Portfolio is entitled to use financial derivative instruments ("FDIs") for hedging, efficient portfolio management ("EPM") or other risk management purposes, and may infrequently enter into FDIs for investment purposes. 	<p>Refer to <i>"Investment Objective and Policies"</i> in the Prospectus relating to the Portfolio for further information on the investment strategy.</p>
<p>Parties Involved</p>	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> The Investment Manager for the Portfolio is AllianceBernstein L.P., a Delaware limited partnership. Brown Brothers Harriman (Luxembourg) S.C.A. has been appointed to act as Administrator and Depositary. Refer to <i>"Other Important Information"</i> of the Singapore Prospectus for information on what happens if these entities become insolvent. 	<p>Refer to <i>"Management and Administration"</i> of the Prospectus for further information on their roles and responsibilities.</p>
<p>KEY RISKS</p>	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of investments and the income from them, and therefore the value of, and income from, Shares relating to the Portfolio can go down as well as up and you may not get back the amount you invest. These risk factors, among others, may cause you to lose some or all of your investment:</p>	<p>Refer to <i>"Risks"</i> of the Singapore Prospectus for further information on the risks of investing in the Portfolio</p>

Market and Credit Risks	
<p>You are exposed to Country Risks in the US. Investments in issuers located in the US may have more market, political and economic risk because of particular market factors affecting that country or region.</p> <p>You are exposed to Currency Risks. Investing in global securities exposes the Portfolio to fluctuations in currency exchange risk, which may negatively affect the value of the investment or reduce returns.</p>	
Liquidity Risks	
<p>The Shares are not listed and can only be realised on Business Days. There is no secondary market for the Shares. All realisation requests should be submitted in the manner set out in the Singapore Prospectus.</p> <p>You may not be able to redeem when a redemption limit is imposed or when redemptions are suspended. A redemption limit may be imposed if requests are received to redeem more than 10% of the Shares of the Portfolio outstanding. Further, your right to redeem may be temporarily suspended under certain circumstances as set out in the Singapore Prospectus.</p>	
Product-Specific Risks	
<p>You are exposed to Derivatives Risks. The Portfolio is entitled to use FDIs for hedging and EPM purposes which may involve additional risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. Some of the risks associated with FDIs are market risk, management risk, credit risk, liquidity risk and leverage risk. In adverse situations, the Portfolio's use of FDIs may become ineffective in hedging or EPM and the Portfolio may suffer significant losses. The Portfolio will use FDIs for investment purposes and for the purpose of meeting its investment objective. The Portfolio's investment in FDIs may involve additional risks, for example, counterparty default risk or insolvency risk, risk involved with effective management of derivative strategies, risk of mispricing or improper valuation of derivatives, risk of embedded leverage through investment in a derivative that is itself leveraged, risk of higher volatility, risk of illiquidity in the market for certain derivative strategies and risk of loss greater than the amount invested in the FDI, and may expose the Portfolio to significant losses. The failure of a counterparty to a derivative contract to comply with the terms of the derivative contract could cause the Portfolio to suffer a loss.</p> <p>You are exposed to Equity Securities Risks. The value of underlying equity investments of the Portfolio may fluctuate in response to the activities and results of individual companies, or because of general market and economic conditions and changes in currency exchange rates.</p>	
FEES AND CHARGES	
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p><u>Payable directly by you*</u></p> <p>Initial Sales Charge (as a percentage of the purchase price): Class A Shares (and corresponding H Shares): Up to 5.00%. Class I Shares (and corresponding H Shares): Up to 1.50%. Not applicable to other Share Classes.</p> <p>Contingent Deferred Sales Charge ("CDSC") (reflected as a percentage of the lesser of the current NAV or original cost of the Shares being redeemed and based upon the duration that such Shares are held): Class C Shares: Currently waived, but where applicable, up to 1.0%. Not applicable to other Share Classes.</p> <p><u>Payable by the Portfolio from invested proceeds (expressed as an annual percentage of the average daily NAV)</u></p> <p>Management fee (excluding Management Company fee below) per annum: Class A Shares (and corresponding H Shares): 1.80% (Retained by Investment Manager: 25-100%; Trailer fee paid by Investment Manager to financial adviser³: 0-75%) Class C Shares: 2.25% (Retained by Investment Manager: 20-100%; Trailer fee paid by Investment Manager to financial adviser³: 0-80%) Class I Shares (and corresponding H Shares): 1.00% (Retained by Investment Manager: 75-100%; Trailer fee paid by Investment Manager to financial adviser³: 0-25%)</p>	<p>Refer to "Fees and Charges" of the Singapore Prospectus and the headings "AB SICAV I – Select US Equity Portfolio: Share Class Fees and Charges" and "Additional Information – Fees and Expenses" of the Prospectus for further information on fees and charges.</p>
