Investment Objective

The investment objective of the Fund is to achieve long term capital growth. The Fund will invest, under normal market conditions, primarily in global equity securities of companies that are relevant to the investment theme of disruptive innovation - defined as the introduction of a technologically enabled new product or service that potentially changes the way the world works. The Investment Manager believes that companies relevant to this theme are those that rely on or benefit from the development of new products or services, technological improvements and advancements in scientific research relating to:

Genomic Revolution Companies - the study of genes and their functions and related techniques

Industrial Innovation Companies - in energy, automation and manufacturing

Web x.0 Companies - the increased use of shared technology, infrastructure and services

FinTech Innovation Companies - technologies that make financial services more efficient
