Features of the Company

UBS (Lux) Strategy SICAV (hereinafter called the "Company") offers investors various subfunds ("umbrella construction") which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in the sales prospectus, which will be updated on the inception of each new subfund.

The Company was established on 24 May 1993 as an open-ended investment fund in the form of a SICAV pursuant to Part I of the Luxembourg Law of 30 March 1988 on undertakings for collective investment and adapted in October 2006 in line with the requirements of the Law of 2002. As of 1 July 2011, the Company shall be subject to the amended Law of 17 December 2010. With effect from 15 April 2011, the Company has appointed UBS Fund Management (Luxembourg) S.A. as its Management Company.

The consolidated version is held by the Commercial and Company Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection. Any amendments are published by means of a notice of deposit in the "Mémorial", in a Luxembourg daily newspaper and, if necessary, in the official publications of the individual distribution countries. Amendments become legally binding following their approval by the General Meeting of Shareholders.

As at 31 May 2017, the following subfunds are active:

"K-X"

Shares in classes with "K-X" in their name are exclusively reserved for investors who have signed a written agreement with UBS AG or UBS Asset Management (a business division of UBS AG) on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"F"

Shares in classes with "F" in their name are exclusively available to UBS AG and its subsidiaries. These shares may only be acquired by UBS AG or its subsidiaries, either for their own account or as part of discretionary asset management mandates concluded with UBS AG

or its subsidiaries. In the latter case, the shares will be returned to the Company upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"Q"

Shares in classes with "Q" in their name are only available

- i) to investors in an eligible country as defined by "List A"; or
- ii) to contractual partners of UBS AG acting through their Asset Management division and other regulated financial service providers duly authorised by their supervisory authority, investing in their own name and
 - (a) on their own behalf; or
 - (b) on behalf of their clients within the framework of written contracts for pecuniary interest constituting (i) asset management mandates, (ii) advisory agreements, or (iii) similar long-term contracts that specifically provide for investments in share classes without remuneration; or
 - (c) on behalf of a collective investment scheme; or
 - (d) on behalf of another regulated financial service provider that acts within the above framework on behalf of its clients.

In cases falling under (b), investors are domiciled in one of the eligible countries covered by "List B" if the conditions of (i) above are met, or in one of the eligible countries covered by "List C" if the conditions of (ii) or (iii) are met.

Admission of investors in further distribution countries (changes to lists A, B and C) shall be decided at the sole discretion of the Board of Directors of the Company. Any information in this regard will be disclosed at www.ubs.com/funds.

The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-A1"

Shares in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-A2"

Shares in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The minimum subscription amount for these shares is CHF 10 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above, or
- (ii) based on a written agreement between the institutional investor and UBS AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

"I-A3"

Shares in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000. The minimum subscription amount for these shares is CHF 30 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above, or
- (ii) based on a written agreement between the institutional investor and UBS AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

"I-B"

Shares in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS AG or one of its authorised contractual partners on investing in one or more subfunds of this Umbrella Fund. A fee covering the costs for fund administration

(comprising the costs of the Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-X"

Shares in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS AG or one of its authorised contractual partners on investing in one or more subfunds of this Umbrella Fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"U-X"

Shares in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS AG or one of its authorised contractual partners on investing in one or more subfunds of this Umbrella Fund. The costs for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10'000, BRL 40'000, CAD 10'000, CHF 10'000, CZK 200'000, EUR 10'000, GBP 10'000, HKD 100'000, JPY 1 million, NZD 10'000, PLN 50'000, RMB 100'000, RUB 350'000, SEK 70'000, SGD 10'000, USD 10'000 or ZAR 100'000.

Additional characteristics:

Currencies

The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, EUR, GBP, HKD, JPY, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the subfund, this currency will not be included in the share class name. The currency of account features in the name of the relevant subfund.

"hedged"

For share classes with "hedged" in their name and denominated in a currency other than the subfund's currency of account, foreign exchange transactions and currency forwards are conducted in order to hedge the net asset value of the subfund, calculated in the currency of account, against the net asset values of the share classes denominated in other currencies.

Although it will not be possible to fully hedge the total net asset value of a share class against currency fluctuations of the currency of account, the aim is to secure a currency hedge for the currency of account against the corresponding currency of the share classes equivalent to between 90% and 110% of the net asset value. Changes in the value of the hedged sections of the portfolios and the volume of subscription and redemption orders for shares not denominated in the currency of account may, however, result in the level of currency hedging temporarily surpassing the stated limits. The Management Company and the Portfolio Manager will take all the necessary steps to bring the hedging back within the aforementioned limits.

"BRL hedged"

The Brazilian real (currency code pursuant to ISO 4217: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. As a result, the hedging may not be between 90% and 110% of the total net assets. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section "Liquidation of the Company and its subfunds; merger of subfunds" of the sales prospectus.

"RMB hedged"

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the "PRC"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Shares in classes with "RMB hedged" in their name are shares whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and

USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Company.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section "Liquidation of the Company and its subfunds; merger of subfunds" of the sales prospectus.

"acc"

The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

"dist"

The income of share classes with "-dist" in their name is distributed unless the Company decides otherwise.

"qdist"

Shares in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of shares. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Shares in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of shares. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum issuing commission for shares in classes with "-mdist" in their name is 6%.

"UKdist"

The aforementioned share classes can be issued as those with "UKdist" in their name. In these cases, the Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the share classes are subject to these reporting fund rules.

The Company does not intend to make taxable values for these share classes available in other countries, as they are intended for investors whose investment in the share class is liable to tax in the UK.

"2%", "4%", "6%", "8%"

Shares in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

The entirety of the individual subfunds' net assets forms the total net assets of the Company, which corresponds, at all times, to the share capital of the Company and consists of fully paid in and non-par-value shares (the "shares").

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares in the respective subfunds. Shares of a particular subfund carry the right of one vote per share held when voting at meetings affecting this subfund.

The Company forms a legal entity. With respect to the shareholders, each subfund is regarded as being independent from the others. The assets of a subfund can be used to offset only the liabilities which the subfund concerned has assumed.

The Company is empowered at all times, to liquidate subfunds and/or to establish new subfunds as well as different share classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional share class is launched.

The Company is unlimited with regard to duration and total assets.

The financial year of the Company ends on 31 May.

The ordinary general meeting takes place annually on 30 November, at 11:00 a.m. at the registered office of the Company. If 30 November happens to be no working day in Luxembourg, the ordinary general meeting takes place on the next following working day.

Information on whether a subfund of the Company is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of shares of the Company are subject to the regulations prevailing in the country concerned.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the Company and the depositary.

Audit report

To the Shareholders of

UBS (Lux) Strategy SICAV

We have audited the accompanying financial statements of UBS (Lux) Strategy SICAV and of each of its subfunds, which comprise the statement of net assets and the statement of investments and other net assets as at 31 May 2017 and the statement of operations and the statement of changes in net assets for the year then ended and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the “Réviseur d’entreprises agréé”

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier”. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgment of the “Réviseur d’entreprises agréé”, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the “Réviseur d’entreprises agréé” considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of UBS (Lux) Strategy SICAV and of each of its subfunds as of 31 May 2017 and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. Yields on US government bonds continued on their downward trend until the end of the 3rd quarter 2016. However, after the US election in autumn 2016, they rose sharply, as many investors hoped for economic stimulus measures in the US economy. The performance of the European bond market was based on the hope of strong economic growth, but turned out to be much weaker than in the USA. Corporate bonds and, in particular, high-yield bonds, were able to benefit the most from the rising risk tolerance.

In this challenging environment for bond investors, the subfund generated a positive return in the reporting year, not least thanks to the diversification in corporate bonds.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. Yields on US government bonds continued on their downward trend until the end of the 3rd quarter 2016. However, after the US election in autumn 2016, they rose sharply, as many investors hoped for economic stimulus measures in the US economy. The performance of the European bond market was based on the hope of strong economic growth, but turned out to be much weaker than in the USA. Corporate bonds and, in particular, high-yield bonds, were able to benefit the most from the rising risk tolerance.

In this challenging environment for bond investors, the subfund generated a positive return in the reporting year, not least thanks to the diversification in corporate bonds.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. Yields on US government bonds continued on their downward trend until the end of the 3rd quarter 2016. However, after the US election in autumn 2016, they rose sharply, as many investors hoped for economic stimulus measures in the US economy. The performance of the European bond market was based on the hope of strong economic growth, but turned out to be much weaker than in the USA. Corporate bonds and, in particular, high-yield bonds, were able to benefit the most from the rising risk tolerance.

In this challenging environment for bond investors, the subfund generated a positive return in the reporting year, not least thanks to the diversification in corporate bonds.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. At the beginning of the reporting year, the uncertainty surrounding the Brexit referendum unsettled everything, in particular the European stock markets for a short time. In November 2016, Donald Trump's victory boosted the markets, with many investors hoping for economic stimulus measures in the US-Market. This euphoria continued until the end of the reporting period. Yields on US government bonds increased significantly after the US presidential election and the hope of strong economic growth even affected the European equity market.

In this environment, which was challenging for bond investors and generally friendly for equity investors, the subfund generated a positive return in the reporting year.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. At the beginning of the reporting year, the uncertainty surrounding the Brexit referendum unsettled everything, in particular the European stock markets for a short time. In November 2016, Donald Trump's victory boosted the markets, with many investors hoping for economic stimulus measures in the US-Market. This euphoria continued until the end of the reporting period. Yields on US government bonds increased significantly after the US presidential election and the hope of strong economic growth even affected the European equity market.

In this environment, which was challenging for bond investors and generally friendly for equity investors, the subfund generated a positive return in the reporting year.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. At the beginning of the reporting year, the uncertainty surrounding the Brexit referendum unsettled everything, in particular the European stock markets for a short time. In November 2016, Donald Trump's victory boosted the markets, with many investors hoping for economic stimulus measures in the US-Market. This euphoria continued until the end of the reporting period. Yields on US government bonds increased significantly after the US presidential election and the hope of strong economic growth even affected the European equity market.

In this environment, which was challenging for bond investors and generally friendly for equity investors, the subfund generated a positive return in the reporting year.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. At the beginning of the reporting year, the uncertainty surrounding the Brexit referendum unsettled everything, in particular the European stock markets for a short time. In November 2016, Donald Trump's victory boosted the markets, with many investors hoping for economic stimulus measures in the US-Market. This euphoria continued until the end of the reporting period. Yields on US government bonds increased significantly after the US presidential election and the hope of strong economic growth even affected the European equity market.

In this environment, which was challenging for bond investors and generally friendly for equity investors, the subfund generated a positive return in the reporting year.

Report of the Portfolio Manager

The reporting year from 1 June 2016 to 31 May 2017 was marked by the diverging monetary policies of some central banks. At the beginning of the reporting year, the uncertainty surrounding the Brexit referendum unsettled everything, in particular the European stock markets for a short time. In November 2016, Donald Trump's victory boosted the markets, with many investors hoping for economic stimulus measures in the US-Market. This euphoria continued until the end of the reporting period. Yields on US government bonds increased significantly after the US presidential election and the hope of strong economic growth even affected the European equity market.

In this environment, which was challenging for bond investors and generally friendly for equity investors, the subfund generated a positive return in the reporting year.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue, redemption and conversion price per share of each subfund or share class are in the currency of account of the subfund or share class concerned and are calculated every business day by dividing the total net assets of the subfund attributable to each share class by the number of shares issued in this share class of the subfund.

In this context, “business day” refers to normal banking days in Luxembourg (i.e. each day on which the banks are open during normal business hours) with the exception of individual, non-statutory rest days as well as days on which exchanges in the main countries in which the subfund invests are closed or 50% or more of the subfund’s investments cannot be adequately valued.

The percentage of the net asset value attributable to each share class of a subfund changes each time shares are issued or redeemed. It is determined by the ratio of the shares issued in each share class to the total number of shares issued in the subfund, taking into account the fees charged to that share class.

If the total subscriptions or redemptions affecting all the unit classes of a subfund on a single trading day come to a net capital inflow or outflow, the net asset value of the subfund may be increased or reduced respectively (so-called single swing pricing). The maximum adjustment amounts to 2% of the net asset value. Estimated transaction costs and tax charges that may be incurred by the subfund as well as the estimated bid/offer spread of the assets in which the Fund invests may be taken into account. The adjustment leads to an increase in net asset value if the net movements result in a rise in all units of the affected subfund. It results in a reduction of net asset value if the net movements bring about a fall in the number of units. This may consist in the net movement on a trading day in relation to the net Fund assets or to an absolute amount in the currency of the subfund concerned. The net asset value would be adjusted only if this threshold were to be exceeded on a trading day. This adjustment is in favour of the subfund and mentioned in the Statement of Operations as “Other income”.

b) Valuation principles

- Liquid funds – whether in the form of cash, bank deposits, bills of exchange and sight securities and receivables, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received – are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- Securities, derivatives and other investments listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives or other assets are listed on several stock exchanges, the latest available price on the stock exchange that represents the major market for these investments will apply. In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange but which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on this market.
- Securities and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation obtained will be verified by means of calculation methods recognised by the Company, based on the market value of the underlying instrument from which the derivative originates.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) are valued at their last-known net asset value. Certain units or shares of other UCITS and/or UCI can be valued on the basis of an estimation of their value that has been provided by reliable service providers, which are independent from the portfolio manager or the investment advisor (value estimation).
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves.

The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.

Interest income earned by subfunds between the order date concerned and the value date concerned is included in the valuation of the assets of the subfund concerned. The asset value per share on a given valuation date therefore includes projected interest income.

- Securities, money market instruments, derivatives and other assets denominated in a currency other than the reference currency of the relevant subfund and not hedged by foreign-exchange transactions, are valued at the middle-market rate of exchange (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available by Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

The Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

In extraordinary circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be authoritative for subsequent issues and redemptions of shares.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Net realized gains (losses) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

g) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

h) "Mortgage-backed securities"

The Company, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi-governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal. This gain or loss has been included in "Net realized gain or loss on sales of securities" in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the Company's expected yield.

For "Mortgage-backed securities", if the factor to be applied to the nominal of the security is greater than one at the valuation date, then the nominal shown in the financial statements is adjusted to reflect this factor. In the other cases the nominal shown reflects the effect of a factor equal to one.

i) Consolidated financial statements

The consolidated financial statements are expressed in EUR. The various items of the consolidated statement of net assets and the consolidated statement of operations as of 31 May 2017 of the Company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the exchange rates prevailing at closing date.

The following exchange rates were used for the conversion of the consolidated financial statements as of 31 May 2017:

Exchange rates	
EUR 1 = CHF	1.088010
EUR 1 = USD	1.124500

*j) Receivable on securities sales,
Payable on securities purchases*

The account "Receivable on securities sales" can also include receivables from foreign currency transactions. The account "Payable on securities purchases" can also include payables from foreign currency transactions.

k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

l) Swaps

The Company may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows.

In some specific cases, internal calculations (based on models and market data made available from Bloomberg), and/or broker statement valuations may be used.

The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

This valuation method is recognised by the Company.

Changes in unrealized profits and losses are reflected in the statement of operations under the changes in "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

Note 2 – Flat fee

The Company charges a monthly flat fee for the various subfunds, calculated on the average net asset value of the subfunds as set out in the table below:

In the aforementioned maximum Flat fee the following is included:

1. For the management, the administration, portfolio management and distribution of the Company (if applicable), as well as for all the tasks of the Depositary, such as the safekeeping and supervision of the Company's assets, the handling of payment transactions and all other tasks listed in the section "Depositary and main paying agent" of the sales prospectus, a maximum flat fee based on the net asset value of the Company is paid from the Company's assets, in accordance with the following provisions: This fee is charged to the Company's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee).

The relevant maximum flat fee will not be charged until the corresponding share classes have been launched. An overview of the maximum flat fees can be seen in "The Subfunds and their special investment policies" section of the sales prospectus.

2. The maximum flat fee does not include the following fees and additional expenses which are also charged to the Company:
 - a) all additional expenses related to management of the Company's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the single swing pricing principle pursuant to the section entitled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
 - b) fees of the supervisory authority for the establishment, modification, liquidation and merger of the Company, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed;
 - c) auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Company, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;

- d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Company, as well as for the general safeguarding of the interests of the Company and its investors, insofar as this is not expressly prohibited by law;
- e) costs for the publication of the Company's net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Company's legal documents (prospectuses, KIID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
- g) costs for the Company's registration with any foreign supervisory authorities, if applicable, including fees, translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Company, including fees for external advisers;
- i) costs and fees related to any intellectual property registered in the Company's name or usufructuary rights of the Company;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary for protecting the interests of the investors;
- k) if the Management Company participates in class-action suits in the interests of investors, it may charge the Company's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Company's total expense ratio (TER).

3. The Management Company may pay retrocessions in order to cover the distribution activities of the Company.

Out of the management commission sales fees are paid to distributors and asset managers of the Company.

The Depositary, Administrative Agent and Company are nevertheless entitled to be reimbursed the costs of non-routine arrangements made by them in the interests of the investors; otherwise such expenses will be charged directly to the Company.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

All costs which can be allocated to individual subfunds will be charged to these subfunds. Costs which can be allocated to the individual share classes will be charged to these share classes. If costs pertain to several or all

subfunds/share classes, however, these costs will be charged to the subfunds/share classes concerned in proportion to their relative net asset values.

In the subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The upper limit for management fees of the target fund in which the subfund's assets are invested amounts to a maximum of 3%, taking into account any trail fees.

In the case of investments in units of funds managed directly or indirectly by the Management Company or another Company related to it by common management or control, or by a substantial direct or indirect holding, the subfund making the investment may not be charged with any of the target fund's issue or redemption commissions.

Details on the ongoing charges of the Company can be found in the KIID.

Note 3 – Taxe d'abonnement

In accordance with the law and the regulations currently in force, the Company is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced tax d'abonnement amounting to 0.01% p.a. for some share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

The tax d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the tax d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Income Distribution

The general meeting of shareholders of the respective subfunds shall decide, at the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the Company falling below the minimum amount of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalization amount will be calculated so that the distribution corresponds to the actual income entitlement.

Note 5 – Soft commission arrangements

During the financial year from 1 June 2016 until 31 May 2017, no "soft commission arrangements" were entered into on behalf of UBS (Lux) Strategy SICAV and "soft commissions" amount to nil.

Note 6 – Commitments on Financial Futures and Swaps

Transaction costs and any other costs incurred in connection with currency hedging are not included in the TER.

The TER for classes of shares which were active less than a 12 month period are annualised.

Note 8 – Transaction costs

Transaction costs include brokerage fees, which also include costs from Commission Sharing Arrangements, as well as stamp duty, local taxes and other foreign charges if incurred during the fiscal year. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 May 2017, the fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, as follows:

UBS (Lux) Strategy SICAV	Transaction costs
– Fixed Income (CHF)	1 127.62 CHF
– Fixed Income (EUR)	329.11 EUR
– Fixed Income (USD)	150.80 USD
– Income (CHF)	22 923.40 CHF
– Income (EUR)	16 679.66 EUR
– Income (USD)	16 862.79 USD
– Xtra Balanced (EUR)	3 161.62 EUR
– Xtra Yield (EUR)	12 005.53 EUR

Furthermore, in accordance with the standard market practices on bond markets, purchases and redemptions underlies the “Bid-Offer-Spread”. According to this principle a difference results between the purchase/redemption price and the market value which corresponds to the wage of the Broker.

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts

and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each fund.

Note 9 – Pooling

The Company may invest and manage all or part of the portfolio assets of two or more subfunds (for this purpose referred to as “participating subfunds”) in the form of a pool. Such an asset pool is created by transferring cash and other assets (if these assets are in line with the investment policy of the pool concerned) from each participating subfund to the asset pool. The Company can then make further transfers to the individual asset pools. Equally, assets up to the amount of its participation can also be transferred back to a participating subfund.

The share of a participating subfund in the respective asset pool is evaluated by reference to notional units of the same value. When an asset pool is created, the Company shall specify the initial value of the notional units (in a currency that the Company considers appropriate) and allot to each participating subfund notional units in the total value of the cash (or other assets) it has contributed. The value of the notional units will then be determined by dividing the net assets of the asset pool by the number of existing notional units.

If additional cash or assets are contributed to or withdrawn from an asset pool, the notional units assigned to the participating subfund concerned increase or diminish by a number, which is determined by dividing the contributed or withdrawn cash amount or assets by the current value of the holding of the participating subfund in the pool. If cash is contributed to the asset pool, for calculation purposes it is reduced by an amount that the Company considers appropriate in order to take account of any tax expenses as well as the closing charges and acquisition costs relating to the investment of the cash concerned. If cash is withdrawn, a corresponding deduction may be made in order to take account of any costs related to the disposal of securities or other assets of the asset pool.

Dividends, interest and other income-like distributions, which are obtained from the assets of an asset pool, are allocated to the asset pool concerned and thus lead to an increase in the respective net assets. If the Company is liquidated, the assets of an asset pool are allocated to the participating subfunds in proportion to their respective share in the asset pool.

Currently, the participating subfunds are:

UBS (Lux) Strategy SICAV – Xtra Yield (EUR)

Note 10 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company and the depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company and/or the depositary can elect to make themselves subject to the jurisdiction of the countries in which the Company shares were bought and sold.

The German version of these financial statements is the authoritative version and only this version was audited from the independent auditor. However, in the case of shares sold to investors from other countries in which Company shares can be bought and sold, the Company and the depositary may recognize approved translations (i.e. approved by the Company and the depositary) into the languages concerned as binding upon itself.

Note 11 – OTC Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or can not meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

1) Global Exposure

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

2) Remuneration Policy and quantitative disclosure

The Board of Directors of the UBS Fund Management (Luxembourg) S.A. has adopted a remuneration policy (the "Policy") on 9 March 2016, whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under (i) the Articles 111bis and 111ter of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the UCITS Law) transposing the UCITS Directive 2014/91/EU (the UCITS V Directive), (ii) the Alternative Investment Fund Managers (AIFM) Directive 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time, (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 published on 14 October 2016 and ESMA's guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 published on 14 October 2016 amending the ESMA's guidelines on sound remuneration policies under the UCITS Directive and AIFMD published on 31 March 2016 - ESMA/2016/411 (the ESMA Guidelines) and (iv) the

CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010; and on the other hand, to comply with the UBS AG Remuneration policy framework. The Policy is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management and to be consistent with the UBS Group business strategy, objectives and values.

Further information in relation to UBS AG Remuneration Policy is available in the UBS Group AG Annual Report 2016 and in the compensation report 2016. More details about the remuneration policy of the Management Company, which describes, but not limited to, how remuneration and benefits are determined, are available at http://www.ubs.com/lu/en/asset_management/investor_information.html.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law, the Management Company is required to disclose at least annually certain information concerning its remuneration policy and the practices for its identified staff.

The Management Company complies with the aforementioned regulatory provisions in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

As at the end of the Company's financial year on 31 May 2017, the Management Company has not completed its first annual performance period in which it has to comply with the UCITS Law remuneration rules.

As a consequence, the aggregate amount of remuneration broken down by categories of employees or other members of staff as well as the other information required to be disclosed by the UCITS Law in the annual report of the Company is not yet available and will be disclosed once a full performance year has been completed.
