WHAT IS THIS PRODUCT?

Type: An umbrella fund constituted as a unit trust established pursuant to the Unit Trusts Act, 1990.

Term: The Fund does not have a targeted closure date and may be liquidated at any time, as further detailed in the Prospectus

Objectives: To provide long-term capital appreciation.

Investment Policy: The Fund invests at least 70% of total assets (excluding cash and cash-equivalent assets) in shares of companies from European emerging market countries (e.g. Armenia, Hungary and Turkey) or companies where the predominant part of their income and assets are derived from European emerging market countries. In investment terms, emerging markets are regions of the world that are still developing their economies. There is no limit to the proportion of the assets which may be invested in any one country.

The Fund is also permitted to invest to a lesser extent in shares of companies outside of emerging markets including developed and frontier markets as well as in fixed income securities and cash.

The Fund may use derivative instruments for both investment and hedging purposes. The return on a derivative is linked to movements in an underlying instrument referenced by the derivative such as currency or interest rates. The base currency of the Fund is USD.

Share Class Currency Hedging: This Share Class is not hedged. Therefore the performance of this Share Class will be impacted by foreign exchange rate fluctuations between the Share Class currency and the base currency of the Fund.

Distribution Policy: Income will be declared and distributed as a dividend annually.

Dealing Frequency: Daily. Investors can buy and sell their shares on demand on each Business Day (as defined in the Prospectus).

Benchmark: MSCI EM Europe 10/40 (Total Net Return) Index'. The Fund is actively managed and is not designed to track the Benchmark so its performance may deviate materially from the Benchmark. The investment manager has complete discretion in making investments and is not constrained by the Benchmark. The Fund may invest significantly in instruments which are not included in the Benchmark. The Benchmark is used only for risk management and performance comparison purposes. The investment manager may consider, for example, issuer exposures, sector weights, country weights and tracking error in each case relative to the Benchmark but does not use the Benchmark as an investment limitation.

Depositary: Northern Trust Fiduciary Services (Ireland) Limited

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for 5 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less than your initial investment. You may have to pay significant extra costs to cash in early. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.

In addition to market risk other risks could be triggered i.e. counterparty risk, currency risk, interest rate risk, operational risk and liquidity risk. Refer to the Prospectus for full details.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
