#### KEY PRODUCT FEATURES

##### WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of an umbrella type open-ended investment company incorporated with limited liability under the laws of Ireland, authorised by the Central Bank of Ireland as a UCITS.
- The primary investment objective of the Fund is to seek high current income, consistent with prudent investment management. Long-term capital appreciation is a secondary objective.
- The current dividend policy is to pay to holders of Income Shares the Net Income and/or capital (where applicable) of the Fund, if any. Income II Shares distribute the net investment income of the Fund and seek to provide an enhanced yield. The Net Income allocated to Accumulation Shares will not be declared nor distributed but will be reinvested. Please note that where Shares distribute capital, this may reduce the NAV.
