KAMES
CAPITAL

Kames Ethical Equity Fund

a sub-fund of Kames Capital ICVC

Sterling Class B - Accumulation shares (ISIN: GB0007450884)

This fund is managed by Kames Capital plc.

Objectives and investment policy

Objective: to maximise total return (income plus capital).

Policy: all investments will meet the Fund's ethical criteria. This means the Fund avoids investing in companies that it decides harm people, society, animals or the environment. Further details of the ethical criteria are set out in the Prospectus at Appendix D.

The Fund invests predominantly in the shares of UK companies. It is likely to invest in the shares of smaller companies because of its ethical criteria.

The Fund may use derivatives (financial contracts whose value is linked to an underlying asset) to manage risks and costs.

Within its ethical criteria and the limits set out above, the Fund is not restricted by market sector. It may also hold a limited range of other investments and it is not constrained by any benchmark or index.

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because share prices can change quickly and unpredictably, for example due to political or economic events.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Liquidity: The Fund's value may fall if shares, especially those of smaller companies, become more difficult to trade or value due to market conditions or lack of supply and demand.
