For the year ended December 2018, Class A (Acc) SGD, Class A (Dist) SGD and Class B (Acc) SGD of the Fund **returned 0.05%, 0.04% and 0.34%** respectively on a net-asset-value basis, underperforming its benchmark 6-month Singapore Interbank Bid Rate (SIBID) return of 1.63% in Singapore Dollar terms, while Class A (Acc) USD (Hedged) and Class A (Dist) USD (Hedged) of the Fund **returned 0.66% and 0.61%** respectively against its benchmark return of -0.35% in United States Dollar terms.

The Fund adopted key strategies: (1) investing in fixed rate bonds of up to three years in maturity profile for portfolio yield enhancement; (2) buying cheaper Eurodollar-denominated bonds while hedging foreign currency risk and (3) moved up the credit quality given market volatilities during the year.

As at December 2018, 98.77% of the Fund was invested in corporate bonds and balance in cash and others. The Fund had a yield-to-maturity of 4.91% and effective duration of 1.69 years.

Economic and Market Review

Investors had almost nowhere to hide in 2018 as few asset classes managed to provide a positive absolute return for the year. These include fixed income assets where performance was dismal from both spreads and a total return perspective.

2-year US Treasury (UST) yields climbed relentlessly to hit intra-year high of 2.97% in November (+109 basis points /bps from 2017) on fears of hawkish rate hikes. The JACI Investment Grade Corporate Blended Spread widened 53 bps to close the year at 228 bps on concerns over vulnerability of emerging markets due to tighter global liquidity. Market sentiment gyrated amidst US-China rhetoric on trade tariffs and demand for better terms of trades. The subtle shifts in investors' preference towards the attractiveness of cash on higher risk-free rate also added to the outflows from risk assets.

United SGD Fund

(Constituted under a Trust Deed in the Republic of Singapore)

A) Fund Performance (continued)

A total of US\$267 billion of Asia ex-Japan G3 bonds were issued this year. While this is a decline of 20.3% from last year, it is still the second highest after US\$335 billion recorded in 2017. Issuances from **China** continued to account for the largest share at 61%, followed by **South Korea** (10%) and **Indonesia** (8%). Given that investors turned more credit selective this year, 76% of these issuances were rated investment grade compared to 68% last year.

Outlook and Fund Strategy

The Federal Open Market Committee (FOMC) signalled after its 4th Fed rate hike in December 2018 that further rate hikes remain appropriate with updated dot-plot, implying 2 hikes in 2019 and one more hike in 2020. This was contrary to the dovish shift in market expectations on the back of: (a) sharp correction in oil prices that mitigated inflationary concerns; (b) uncertainty of US-China trade resolutions and (c) fresh data pointing to slowing global economic growth. Coupled with heightened financial market volatilities, the Fed may have limited room to manoeuvre especially in a risk-off environment.

While uncertainty is likely to remain in the first quarter of next year, not all is lost. Though US-China tensions may continue to linger, it is not in the interest of both to tilt the balance of risks to undermine their own economic growth momentum. China has already begun to issue supportive policies to support its economy and more may be expected in 2019. The Asian credit market is supported by attractive valuations and solid fundamentals despite a small uptick in defaults. In the event of a possible pause in US rate hikes, this may halt the US Dollar's rise and stem the outflow of funds from emerging markets' risk assets.

As we approach a maturing economic growth cycle, credit differentiation will be a key theme into 2019. We will continue to maintain our defensive positioning with a preference for quality credits with leading market share, those that are of systemic importance, in defensive sectors and which are professionally managed.

Disclosures

As the Fund is in SGD and invests in non-SGD denominated securities, the Fund uses financial derivatives such as FX Forward contracts for hedging purposes. The Fund uses Commitment Approach with Netting Arrangements in determining compliance with the CIS (in respect of clause 8.4 of Appendix 1) to calculate global exposure. This is done by adding the exposure of each financial derivative (for those with and without netting arrangement) and cash collateral values under certain cases.

M) Soft dollar commissions/arrangements

UOB Asset Management has entered into soft dollars arrangements with selected brokers from whom products and services are received from third parties. The products and services relate essentially to computer hardware and software to the extent that they are used to support the investment decision making process, research and advisory services, economic and political analyses, portfolio analyses including performance measurements, market analyses, data and quotation services, all of which are believed to be helpful in the overall discharge of UOB Asset Management's duties to clients. As such services generally benefit all of UOB Asset Management's clients in terms of input into the investment decision making process, the soft credits utilised are not allocated on a specific client basis. The Manager confirms that trades were executed on a best execution basis and there was no churning of trades.

(Constituted under a Trust Deed in the Republic of Singapore)

REPORT OF THE TRUSTEE

The Trustee is under a duty to take into custody and hold the assets of the sub-fund of United Choice Portfolios II, namely United SGD Fund (the "Sub-Fund") in trust for the unitholders. In accordance with the Securities and Futures Act (Cap. 289), its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Fund during the financial year covered by these financial statements, set out on pages 18 to 59, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF UNITED CHOICE PORTFOLIOS II

Our Opinion

In our opinion, the accompanying financial statements of the sub-fund of United Choice Portfolios II, namely United SGD Fund (the "Sub-Fund"), is properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants, so as to present fairly, in all material respects, the financial position and portfolio holdings of the Sub-Fund as at 31 December 2018, and of the financial performance and movements of unitholders' funds for the financial year ended on that date.

What we have audited

The financial statements of the Sub-Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2018;
- the Statement of Financial Position as at 31 December 2018;
- the Statement of Movements of Unitholders' Funds for the financial year ended 31 December 2018;
- the Statement of Portfolio as at 31 December 2018; and
- the notes to the financial statements, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

We are independent of the Sub-Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Other Information

The Sub-Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF UNITED CHOICE PORTFOLIOS II

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Fund or to cease the Sub-Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF UNITED CHOICE PORTFOLIOS II

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1 General

United Choice Portfolios II is a Singapore-registered umbrella fund, which offers one sub-fund, United SGD Fund (the “Sub-Fund”). The Sub-Fund is constituted under a Trust Deed in Singapore dated 18 May 1998 between UOB Asset Management Ltd (the “Manager”) and BNP Paribas Trust Services Singapore Limited (the “Retired Trustee”). The Trust Deed is governed by the laws of the Republic of Singapore.

With effect from 1 April 2017, the Trustee of the Sub-Fund has changed from BNP Paribas Trust Services Singapore Limited to State Street Trust (SG) Limited (the “Trustee”), and the global custodian of the Sub-Fund has changed from BNP Paribas Securities Services, Singapore Branch to State Street Bank and Trust Company, Singapore Branch.

The investment objective of the Sub-Fund is to invest substantially all its assets in money market and short term interest bearing debt instruments and bank deposits with the objective of achieving a yield enhancement over Singapore Dollar deposits.

The Sub-Fund offers the following classes of units for subscription:

- Class A (Acc) SGD
- Class A (Dist) SGD
- Class A (Acc) USD (Hedged)
- Class A (Dist) USD (Hedged)
- Class B (Acc) SGD

“Acc” refers to Accumulation classes which do not declare or pay distributions but accumulate investment gains and income in their net assets values.

“Dist” refers to Distribution classes which declare and pay distributions in accordance with the applicable distribution policies of the Sub-Fund.

Class B (Acc) SGD units are available for subscription only by institutional clients and such other persons as the Manager may determine in their sole discretion from time to time.

Class A and Class B units are subject to management fee of 0.63% and 0.33% per annum respectively.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

2 Significant accounting policies

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets held at fair value through profit or loss, and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants.

(b) Recognition of income

Interest income is recognised on a time proportion basis using the effective interest method.

(c) Investments

Investments are classified as financial assets at fair value through profit or loss.

(i) Initial recognition

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

(ii) Subsequent measurement

Investments are subsequently carried at fair value. Net changes in fair value on investments are included in the Statement of Total Return in the year in which they arise.

(iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sale of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

(d) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on market mid prices for the quoted debt securities on the financial year end date. Accrued interest or discount or premium on debt securities at financial year end date is included in the fair value of debt securities. Interest income on debt securities is presented within "Net gains/losses on investments" on the Statement of Total Return.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

2 Significant accounting policies (continued)

(d) Basis of valuation of investments (continued)

The fair value of investments held in underlying funds is the quoted net asset value of the underlying funds as determined by the underlying funds' administrator. Net changes in fair value of investments are included in the Statements of Total Return in the year in which they arise.

(e) Foreign currency translation

(i) Functional and presentation currency

The Sub-Fund's investors are mainly from Singapore with the subscriptions and redemptions of the units denominated in the Singapore Dollar and the United States Dollar.

The performance of the Sub-Fund is measured and reported to the investors in the Singapore Dollar. The Manager considers the Singapore Dollar as the currency of the primary economic environment in which the Sub-Fund operates. The financial statements are presented in the Singapore Dollar, which is the Sub-Fund's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Total Return. Translation differences on non-monetary financial assets and liabilities are also recognised in the Statement of Total Return within "Net gains/losses on investments".

(f) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(g) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

2 Significant accounting policies (continued)

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value.

(i) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(j) Expenses charged to the Sub-Fund

All direct expenses relating to the Sub-Fund are charged directly to the Statement of Total Return against the values of the Sub-Fund. In addition, certain expenses shared by all unit trusts managed by the Manager are allocated to the Sub-Fund based on the Sub-Fund's net asset value.

(k) Management fee rebates

The management fees charged on investments in underlying funds managed by the Manager are rebated to the Sub-Funds.

(l) Financial derivatives

Financial derivatives including forwards and swaps may be entered into for the purposes of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provision of the Trust Deed and the Code on Collective Investment Schemes.

Financial derivatives outstanding on the financial year end date are valued at the forward rate or at the current market prices using the "mark-to-market" method, as applicable, and the resultant gains and losses are taken up in the Statement of Total Return.

(m) Distributions

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account, to be paid out on the distribution date. The amount shall not be treated as part of the property of the Sub-Fund. Distributions are accrued for at the financial year end date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

2 Significant accounting policies (continued)

(n) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Sub-Fund or the counterparty.

(o) Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes: (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Sub-Fund considers all of their investments in other fund ("Investee Fund") to be investments in unconsolidated structured entities. The Sub-Fund invests in an Investee Fund whose objective is to maximise long term return capital appreciation and/or income for investors by investing primarily in fixed income or debt securities. The Investee Fund is managed by related asset managers and the Investee Fund applies various investment strategies to accomplish its respective investment objectives. The Investee Fund finances its operations by issuing redeemable shares which are puttable at the holder's option and entitles the holder to a proportional stake in the respective fund's net assets. The Sub-Fund holds redeemable shares in the Investee Fund.

The changes in fair value of the Investee Fund are included in the Statement of Total Return within "Net gains/losses on investments".

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

3 Income tax (continued)

The Sub-Fund was granted the status of Designated Unit Trust ("DUT") in Singapore. The Trustee of the Sub-Fund ensures that the Sub-Fund fulfills its reporting obligations under the DUT Scheme.

Under the DUT Scheme, subject to certain conditions and reporting obligations being met, certain income of the DUT Fund is not taxable in accordance with Sections 35(12) and 35(12A) of the Income Tax Act. Such income includes:

- (i) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (ii) interest (other than interest for which tax has been deducted under Section 45 of the Income Tax Act);

9 Financial risk management

The Sub-Fund's activities expose them to a variety of market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Sub-Fund's overall risk management programme seeks to minimise potential adverse effects on the Sub-Fund's financial performance. The Sub-Fund may use financial futures contracts, financial options contracts and/or foreign currency contracts subject to the terms of the Trust Deed to moderate certain risk exposures. Specific guidelines on exposures to individual securities and certain industries are in place for the Sub-Fund at any time as part of the overall financial risk management to reduce the Sub-Fund's risk exposures.

The Sub-Fund's assets principally consist of financial instruments such as fixed interest investments, investments in open-ended collective investment schemes which are also managed by the Manager and cash. They are held in accordance with the published investment policies of the Sub-Fund. The allocation of assets between the various types of investments is determined by the Manager to achieve their investment objectives.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

9 Financial risk management (continued)

(a) Market risk

Market risk is the risk of loss arising from uncertainty concerning movements in market prices and rates, including observable variables such as interest rates, credit spreads, exchange rates, and others that may be only indirectly observable such as volatilities and correlations. Market risk includes such factors as changes in economic environment, consumption pattern and investor's expectation etc. which may have significant impact on the value of the investments. The Sub-Fund's investments are substantially dependent on changes in market prices and are monitored by the Manager on a regular basis so as to assess changes in fundamentals and valuation. Although the Manager makes reasonable efforts in the choice of investments, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the asset value of the Sub-Fund. Guidelines are set to reduce the Sub-Fund's risk exposures to market volatility such as diversifying the portfolio by investing across various geographies, alternatively, the Sub-Fund may be hedged using derivative strategies.

(i) Foreign exchange risk

The Sub-Fund has monetary financial assets and liabilities denominated in currencies other than the Singapore Dollar and it may be affected favourably or unfavourably by exchange rate regulations or changes in the exchange rates between the Singapore Dollar and such other currencies. The Manager may at his discretion, implement a currency management strategy either to reduce currency volatility or to hedge the currency exposures of the Sub-Fund.

(i) Foreign exchange risk (continued)

Investments, which is the significant item in the Statement of Financial Position, is exposed to currency risk and interest rate risk. Currency risk sensitivity analysis is prepared and disclosed only for monetary assets and liabilities. The table below summarises the sensitivity of the Sub-Fund's monetary assets and liabilities to changes in foreign exchange movements at 31 December 2018 and 2017. The analysis is based on the assumptions that the functional currency increased/decreased to the relevant foreign exchange rates as disclosed below. This represents the Manager's best estimate of a reasonable possible shift in the foreign exchange rates, having regard to historical volatility of those rates.

(ii) Price risk (continued)

The table below summarises the impact of increases/decreases from the Sub-Fund's investments in Investee Fund on the Sub-Fund's net assets attributable to unitholders at 31 December 2018 and 2017. The analysis is based on the assumption that the index components within the benchmark and the price of the Investee Fund increased/decreased by a reasonable possible shift, with all other variables held constant and that the price of the Investee Fund moved according to the historical correlation with the index. For Investee Fund with an absolute return benchmark, the analysis is based on the assumption that the price of the Investee Fund increased/decreased by a reasonable possible shift.

United SGD Plus Fund	9,940	1	n/a	n/a

(iii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow. The Sub-Fund holds interest bearing securities that expose the Sub-Fund to fair value interest rate risk. The Sub-Fund holds securities of varying maturities and interest rate sensitivities. Movement in market interest rates will affect the valuation of the Sub-Fund's securities by varying degrees. The Sub-Fund's policy requires the Manager to manage this risk by measuring the mismatch of the interest rate sensitivity gap of financial assets and liabilities and calculating the average duration of the portfolio of fixed interest securities. The average effective duration of the Sub-Fund's portfolio is a measure of the sensitivity of the fair value of the Sub-Fund's fixed interest securities to changes in market interest rates.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

9 Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

The Sub-Fund has direct exposure to interest rate changes on the valuation and cash flows of its interest bearing assets and liabilities. However, it may also be indirectly affected by the impact of changes on the earnings of certain companies in which the Sub-Fund invests and impact on the valuation of certain over-the-counter derivative products that use market interest rates as an input. Therefore, the above sensitivity analysis may not fully indicate the total effect on the Sub-Fund's net assets attributable to unitholders of future movements in interest rates.

(b) Liquidity risk

The Sub-Fund is exposed to daily cash redemptions and disbursements for the settlements of purchases. The Manager therefore ensures that the Sub-Fund maintains sufficient cash and cash equivalents and that they are able to obtain cash from the sale of investments held to meet its liquidity requirements. Reasonable efforts will be taken to invest in securities which are traded in a relatively active market and which can be readily disposed of.

The Sub-Fund's investments in listed securities are considered to be readily realisable as they are listed on established regional stock exchanges. The Sub-Fund's investments in Investee Fund are considered to be readily realisable as the net asset value is struck daily, and units are redeemable on demand at the published price.

(c) Credit risk

Credit risk is the risk that counterparty will fail to perform contractual obligations, either in whole or in part, under a contract.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties, together with the respective credit limits, are approved,
- ensuring that transactions are undertaken with a large number of counterparties, and
- ensuring that the majority of transactions are undertaken on recognised exchanges.

9 Financial risk management (continued)

(c) Credit risk (continued)

As such, the Sub-Fund does not have a concentration of credit risk that arises from an exposure to a single counterparty. Furthermore, the Sub-Fund does not have a material exposure to group of counterparties which are expected to be affected similarly by changes in economic or other conditions.

The table below analyses the Sub-Fund's investments by credit ratings as rated by Moody's expressed as a percentage of net assets attributable to unitholders. The credit ratings are reviewed regularly.

All transactions in listed securities are settled/paid upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

(c) Credit risk (continued)

Credit risk also arises from cash and bank balances and derivative positions held with financial institutions. The table below summarises the credit rating of banks and custodians in which the Sub-Fund's assets are held as at 31 December 2018 and 2017.

The credit ratings are based on the Viability ratings published by Fitch.

The custodian of the Investee Fund is also State Street Bank and Trust Company, with credit ratings disclosed in the table above.

The maximum exposure to credit risk at the financial year end date is the carrying amount of the portfolio of investments and cash and bank balances as presented in Statement of Financial Position.

(d) Capital management

The Sub-Fund's capital is represented by the net assets attributable to unitholders. The Sub-Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Sub-Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

(e) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

(e) Fair value estimation (continued)

Except for cash and bank balances which are classified as Level 1, the Sub-Fund's assets and liabilities not measured at fair value at 31 December 2018 and 2017 have been classified as Level 2. The carrying amounts of these assets and liabilities approximate their fair values as at the financial year end date.

(f) Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the Statement of Financial Position are disclosed in the first three columns of the tables below.

The Sub-Fund's investment in the Investee Fund is subject to the terms and conditions of the Investee Fund's offering documentation and is susceptible to market price risk arising from uncertainties about future value of the Investee Fund. The Manager makes investment decisions after extensive due diligence of the Investee Fund, its strategy and the overall quality of the Investee Fund's manager. The Investee Fund's portfolio manager is compensated by the Investee Fund for their services. Such compensation generally consists of an asset based fee and is reflected in the valuation of the Sub-Fund's investment in the Investee Fund.

The Sub-Fund has the right to request redemption of its investment in the Investee Fund on a daily basis.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

10 Structured entities (continued)

The exposure to investment in the Investee Fund at fair value is disclosed under the Statement of Portfolio. The investment is included within "Portfolio of Investments" in the Statement of Financial Position.

The Sub-Fund's holdings in an Investee Fund, as a percentage of the Investee Fund's total net asset value, will vary from time to time, dependent on the volume of subscriptions and redemptions at the Investee Fund level. It is possible that the Sub-Fund may, at any point in time, hold a majority of an Investee Fund's total units in issue.

The Sub-Fund's maximum exposure to loss from its interests in the Investee Fund is equal to the total fair value of its investment in the Investee Fund.

Once the Sub-Fund has disposed of its shares in an Investee Fund, the Sub-Fund ceases to be exposed to any risk from it.

11 Related party transactions

(a) The Manager and the Trustee of the Sub-Fund are UOB Asset Management Ltd and State Street Trust (SG) Limited respectively. State Street Trust (SG) Limited replaced BNP Paribas Trust Services Singapore Limited as the Trustee with effect from 1 April 2017. The Manager is a subsidiary of United Overseas Bank Limited while the Trustee is a subsidiary of State Street Bank and Trust Company.

Management fee and valuation fee are paid to the Manager for the financial year. Management fee rebates are received from the Manager in respect of Investee Funds that are managed by the Manager. Registrar fee was paid to the Retired Trustee for the period from 1 January 2017 to 31 March 2017. With effect from 1 April 2017, registrar fee is paid to the Trustee and State Street Bank and Trust Company, Singapore Branch respectively.

Custody fee was paid to BNP Paribas Securities Services, Singapore Branch, a related party of the Retired Trustee, for the period from 1 January 2017 to 31 March 2017 and is paid to State Street Bank and Trust Company, Singapore Branch with effect from 1 April 2017.

These fees paid or payable by the Sub-Fund shown in the Statements of Total Return and in the respective Notes to the Financial Statements are on terms set out in the Trust Deed. All other related party transactions are shown elsewhere in the financial statements.

¹ The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the Sub-Fund's expense ratio at financial year end was based on total operating expenses divided by the average net asset value respectively for the financial year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net asset value is based on the daily balances.

² The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments divided by the average daily net asset value.
