KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of a unit trust constituted in Singapore that aims to generate capital appreciation over the long term by investing primarily in a diversified portfolio of active funds and ETFs. The Sub-Fund targets a below average level of portfolio risk and will be invested in a mix of asset classes that aims to suit an investor with a below average tolerance for risk.

The Sub-Fund will comprise 1 Class, namely SGD Class (Accumulation).

We currently do not intend to make distributions for the Sub-Fund. Distribution payments shall, at our sole discretion, be made out of either (a) income; or (b) net capital gains; or (c) capital of the Sub-Fund or a combination of (a) and/or (b) and/or (c). The declaration and/or payment of distributions (whether out of income and/or capital) may have the effect of lowering the net asset value of the Sub-Fund. Moreover, distributions out of capital may amount to a reduction of a Holder’s original investment.
