HSBC Global Inflation Linked Bond Pooled Fund

Portfolio Advisor Overview

Additional Information

Sub-advisor: HSBC Global Asset Management (UK) Limited

Disclosure

HSBC Global Asset Management (Canada) Limited ("AMCA") is the manager and primary investment advisor of the HSBC Pooled Funds, a family of public mutual funds. These mutual funds are sold only to investors as part of a discretionary investment management service, which requires an investor to enter into an investment management agreement with AMCA or HSBC Investment Funds (Canada) Inc. ("HIFC"), or another approved advisor or dealer. Commissions, trailing commissions, management fees, investment management fees and expenses all may be associated with mutual fund investments. Please read the prospectus and Fund Facts before investing. Except as otherwise noted, the indicated rates of return are historical annual compounded total returns including changes in unit values and reinvestment of all distributions and do not take into account sales, redemptions, distributions or optional charges or income taxes payable by any unit holder that would have reduced returns. Any compounded rates of returns used only to illustrate the effects of the compound growth rate and are not intended to reflect the future values of the HSBC Pooled Funds or returns on investments. Mutual funds are not guaranteed or covered by the Canada Deposit Insurance Corporation, HSBC Bank Canada, or any other government deposit insurer or financial institution, their values change frequently and past performance may not be repeated.

The management expense ratio ("MER") is the total management and operating expenses (excluding brokerage commissions on securities transactions and foreign withholding taxes) of each fund expressed as a percentage of the average net asset value of that fund for that year. Please see the prospectus, Fund Facts, and other disclosure documents for further details.

The MER does not include investment management fees that are paid directly by investors to HIFC. Operating expenses are paid by the HSBC Pooled Funds.

Where applicable, we, our affiliates and our officers, directors and employees may hold a position in any securities mentioned in this document (or in any related investment) and may from time to time add to or sell any such securities or investment. As well, we and our affiliates may act as market maker or have assumed an underwriting commitment in the securities of companies discussed in this document (or in related investments), may sell them to or buy them from customers on a principal basis and may also perform or seek to perform investment banking or underwriting services for or relating to those companies.

All information related to quartile rankings is supplied by Morningstar. This information is provided for informational purposes only. Past performance is not indicative of future performance. This information is not an offer to sell or the solicitation of an offer to purchase or subscribe for any investment. Although AMCA believes the information is reliable, AMCA has not independently verified such information. Accordingly, AMCA, its affiliates and subsidiaries, make no guarantee, representation or warranty and accept no responsibility or liability as to its accuracy or completeness, or for any action taken in reliance thereon. The information is that of Morningstar only and is subject to change without notice. Investors are strongly recommended to consult their investment advisor before considering a specific investment.

Quartile rankings are determined by Morningstar Research Inc., an independent research firm, based on categories maintained by the Canadian Investment Funds Standards Committee (CIFSC). Quartile rankings are comparisons of the performance of a fund to all other funds in a particular category. The quartiles divide the data into four equal segments expressed in terms of rank (1, 2, 3 or 4). Morningstar quartile rankings show how well a fund has performed compared to all other funds in its peer group. Each fund within a peer group is ranked based on its performance, and these rankings are broken into quarters or quartiles. Within a group, the top 25% (or quarter) of the

HSBC Global Inflation Linked Bond Pooled Fund

Disclosure

funds are in the first quartile, the next 25% are in the second quartile, the next group in the third quartile, and the bottom 25% of funds with the poorest relative performance are in the fourth quartile.

The ratings are subject to change every month. The ratings are calculated for funds with a minimum of 3 years of performance, from a weighted average of the funds' 3, 5 and 10 year average annual returns (as available) measured against a 91-day Treasury Bill return with appropriate fee adjustments and peer group returns. The top 10% of the funds in a category receive 5 stars (high); if the funds fall in the next 22.5%, they receive 4 stars (above average); a place in the middle 35% earns a fund 3 stars (neutral or average); those in the next 22.5% receive 2 stars (below average); and the lowest 10% get 1 star (low). Ratings are just one factor to consider when investing. For more information, please see www.morningstar.ca.

As primary investment advisor, AMCA may hire sub-advisors for the HSBC Pooled Funds, including sub-advisors that are affiliated with them. AMCA may hire or replace a sub-advisor at any time.

HIFC is a direct subsidiary of AMCA and an indirect subsidiary of HSBC Bank Canada, and provides its services in all provinces of Canada except Prince Edward Island. AMCA is a wholly owned subsidiary of, but separate entity from, HSBC Bank Canada.
