

# AMUNDI FUNDS

## Bond Global Aggregate

Simplified Prospectus - June 2011

This simplified prospectus contains information about Amundi Funds Bond Global Aggregate, a sub-fund (the “Sub-Fund”) of Amundi Funds (the “Fund”), an umbrella fund currently organised as a “société d’investissement à capital variable” created as an unincorporated mutual investment fund (“Fonds commun de Placement”) on July 18, 1985 under Luxembourg law and qualifying as an undertaking for collective investment in transferable securities (UCITS) under part I of the Luxembourg law of 20 December 2002. Its registered office is situated at 5 allée Scheffer, L-2520 Luxembourg. The Fund is registered under number B 68.806 at the register of commerce at the district court of Luxembourg.

The Fund contains a large number of other sub-funds, which are described in the Fund’s full prospectus. For further details, the current full prospectus of the Fund should be consulted. Terms in capitals where not defined in this document are defined in the Fund’s full prospectus.

For details about the Sub-Fund’s holdings please see the Fund’s most recent annual or semi-annual report. The full prospectus and the latest periodical reports may be obtained on request, free of charge, from Amundi Luxembourg or, as the case may be, the local Representative in the relevant country.

Subscriptions may only be based on the latest prospectus and local offering document (if applicable), as authorised by the Supervisory Authority of the relevant country.

In the event of any inconsistency, ambiguity or discrepancy in relation to the meaning of any wording or phrasing in any translation, the English version shall prevail.

## PART A: GENERAL INFORMATION

### ■ Introduction to the Bond Sub-Funds

The investment policy of each Sub-Fund will systematically describe the investment universe defined for minimum two thirds of the Sub-Fund's assets. In absence of other/any indication as to the allocation of the remaining part of the assets, each Sub-Fund will be authorized to it in:

- Debt instruments other than those mentioned in the investment policy;
- Convertible Bonds up to 25% of its net assets (Sub-Funds investing at least two third of the assets in such securities may invest up to one third of the net assets in convertibles bonds other than those mentioned in the investment policy);
- Equities and Equity-linked Instruments up to 10% of its net assets;
- Units/shares of UCITS and/or other UCIs up to 10% of its net assets;
- Cash, and/or deposits.
- Other Transferable securities and money market instruments referred to in 1.1 and 1.2 of Chapter XX "Further Information", point A "Investment Powers and Limitations" of the full prospectus.

Each Sub-Fund may invest in financial derivative instruments for hedging purpose and for the purpose of efficient portfolio management, while following, on the level of the underlying values, the investment limit(s) led down in the investment policy of each Sub-Fund.

Each Sub-Fund is also authorized to employ techniques and instruments relating to transferable securities and money market instruments under the conditions and within the limits laid down under Chapter XX "Further Information", B "Additional Investment Restrictions", points 1.4 to 1.6 of the full prospectus.

### ■ Investment objective and policy

The objective of this Sub-Fund is to outperform the "Barclays Global Aggregate" index, hedged in USD, through strategic and tactical positions as well as arbitrages on the whole of the credit, interest rates and currency markets. Moreover, it proceeds to an active diversification through the emerging bond markets.

To invest in these various markets, the Sub-Fund invests at least two thirds of its assets in:

- Debt Instruments issued or guaranteed by OECD governments or issued by corporate entities;
- Investment Grade rated Asset Backed Securities/Mortgage-Backed Securities.

The use of derivatives will be an integral part of the investment policy and strategies. Futures, options, contracts for difference, forwards, warrants on exchange rates, swaps, credit derivatives (Single issuer and Indices Credit Default Swap) will be used for arbitraging, hedging against and/or overexposing to risks of interest rates, credit and currencies.

The Investments Grade rated securities represents at least 90% of the Sub-Fund assets.

The remaining part of the assets may be invested in the values and instruments described under "Introduction to the Bond Sub-Funds".

The "Barclays Global Aggregate Hedged" index represents the reference indicator of the Sub-Fund.

The base currency of the Sub-Fund is US Dollar.

### ■ Risk profile

Investments in Debt Instruments are primarily subject to interest rate, credit and prepayment risks linked to bonds.

The use of Derivative instruments by certain Sub-funds as part of their investment process and of specific investment strategies may lead to be exposed to Management and Investment Strategy Risk as well as Risks attached to transactions into derivatives.

Furthermore, as investments of a given Sub-Fund may be made or hedged in other currencies than its base currency, the acquisition of the Sub-Fund's Shares may lead to be exposed to an Exchange Risk.

In addition, investments in the Sub-fund may expose to an Exchange Risk as well as to a higher level of Credit Risk due to the acquisition of ABS/MBS.

It should be noted that Shares are neither guaranteed nor principal protected and that there can be no assurance that Shares are redeemed at the price for which they have been subscribed..

### ■ Typical investor profile

In the light of the Sub-Fund's investments, objectives and strategies, they are appropriate for investors who seek to protect their investments from volatile fluctuations. The aim of this Sub-Fund is to achieve a stable total return through a combination of capital

appreciation and income. More particularly, for the Bond Sub-Funds investing in government bonds, their aim is to provide investors with an overall return at least corresponding to that available from the relevant government bond markets in which the Sub-Funds invest, through investments in high quality fixed interest securities.

An investment in the Sub-Fund is not a deposit in a bank or other insured depository institution. Investment may not be appropriate for all investors. The Sub-Fund is not intended to be a complete investment programme and investors should consider their long-term investment goals and financial needs when making an investment decision about the Sub-Fund. An investment in the Sub-Fund is intended to be a long-term investment. The Sub-Fund should not be used as a trading vehicle.

## ■ Shares Classes/Allocation of earnings

Shares of the Sub-Fund are divided into several Classes available to investors according to their quality. Shares may be further sub-divided into Distribution and Accumulation Shares. Accumulation Shares automatically retain, and re-invest, all attributable incomes within the Sub-Fund when Distribution Shares pay any attributable income in the form of a dividend. This can either be paid by bank transfer into your bank account, or by cheque sent to your home address, in both cases in the currency specified (please note that bank transfer and foreign exchange costs will be borne by the investor).

Accumulation Shares in non-certificated registered form may appear as the most efficient way for investors to manage their account. Indeed they enable investors to give conversion and redemption instructions by letter, fax or telex with no need to return any Share certificates.

Share Classes	Share Categories Available *	Dividend Payment for Distribution shares	Authorised Investors	Minimum Initial Subscription	Minimum Subsequent Subscription
AU Class	A / D	In September	All investors	None	None
AE Class	A / D	In September	All Investors	None	None

MHE Class	0.40%	0.30% p.a. of the NAV	/	0.01% p.a.	
IU Class	0.45%	0.20%p.a. of the NAV	/	0.01% p.a.	
OU Class	/	0.20% p.a. of the NAV	/	0.01% p.a.	

\* see paragraph Taxation of the Fund.

As described in the above table, a performance fee has been added to the Management fee for this Sub-Fund. The structure of the Performance fee is defined as follows:

### Observation Period

The observation period (hereinafter the « Observation Period ») is at least one year and up to three years maximum.

The mechanism applied to determine the term of the Observation Period is the following:

- At the end of the first year, the performance fee accrued for the relevant Class of Shares is definitively acquired. A new Observation Period starts from scratch.
- In the absence of Performance fee accrued at the end of the first year, the Observation Period follows through a second year. At the end of this second year, the accrued performance fee is definitively made. A new Observation Period starts from scratch.
- In the absence of Performance fee accrued at the end of the second year, the Observation Period follows through a third year. At the end of this last year, a new Observation Period starts from scratch regardless of the perception or not of a Performance fee.

The Observation Period will start on December 1 and will end on November 30 of the next year.

### Performance Fee

The performance fee is calculated separately for each Class of Shares. It shall be accrued daily, deducted and paid annually for each Class of Shares.

The performance fee is calculated as follows:

The Performance Fee is calculated by comparing the NAV of the Sub-Fund relevant Class of Shares and the reference asset (hereinafter the "Reference Asset").

The initial Reference Asset of the first Observation Period corresponds to the NAV of the Sub-Fund Class of Shares on November 30, 2010. The initial Reference Asset for the subsequent Observation Periods corresponds to the NAV of the Sub-Fund Class of Shares after deduction of all fees on the last Dealing Day of the previous Observation Period.

Any subsequent Reference Asset during an Observation Period corresponds to the Reference Asset of each relevant Class of Shares calculated on the previous Calculation Day, after taking into account subscription and redemption amounts of the Dealing Day, adjusted by the daily Performance Objective of the Sub-Fund.

This means notably, the following:

- If over the Observation Period, the NAV of each relevant Class of Shares is higher than the Reference Asset, the Performance Fee will represent 20% of the difference between those assets. If over the Observation Period, the NAV of the Sub-Fund relevant Class of Shares is lower than the Reference Asset, the Performance Fee will be nil.
- If over the Observation Period, the NAV of each relevant Class of Shares is higher than the Reference Asset, a provision for Performance Fee will be accrued in the NAV calculation process. In the event that the NAV of the Sub-Fund relevant Class of Shares becomes lower than the Reference Asset, all accruals for Performance Fees previously booked will be reversed. The reversals of provisions may not exceed the sum of the prior allocations.
- In case of redemption, the proportion of the accrued provision corresponding to the number of shares redeemed shall be immediately crystallized and due to the Management Company.
- The above Performance fee shall be directly charged to the statement of operations of each Class of Shares of the Sub-Fund.
- The Auditor of the SICAV shall verify the method of calculating the Performance fee.

## Taxation of the Fund

The Fund is not subject to any taxes in Luxembourg on income or capital gains.

The only tax to which the Fund is subject is the "Taxe d'abonnement". Such tax is payable quarterly based on the value of the net assets of the Fund at the end of the relevant calendar quarter at the rate of 0.05% per annum, decreasing to 0.01% for I Classes Category, M Classes Category, O Classes Category, Money Market Sub-Funds and Reserve sub-funds.

Interest and dividend income receive by the Fund may be subject to non-recoverable withholding tax in the countries of origin.

## Taxation of the Shareholders

Under present Luxembourg law, no tax is levied neither ordinary income nor capital gains. Only Luxembourg residents are subject to Luxembourg tax. However, in accordance with the European Union Savings Directive ("EUSD") effective from 1st July 2005, certain sub-funds are subject to a withholding tax when a Luxembourg paying agent makes distributions from and redemption of shares to investors residing in another Member State. Unless the individual investors specifically request to be brought within the EUSD exchange of information regime, such distributions and redemptions will be subject to withholding tax at the rate of 20% until 31/12/2010 and 35% thereafter.

Prospective investors should inform themselves of, and where appropriate, take advice on the laws and regulations (such as those relating to taxation and exchange controls) applicable to the subscription, holding and redemption of units in the country of their citizenship, residence or domicile.

## NAV Calculation and Prices Publication

The Net Asset Value ("NAV") per Share of the Sub-Fund is calculated in Luxembourg on any Calculation Day and is dated from the Dealing Day being Business Day preceding the Calculation Day. A Business Day is defined as being any day during which banks are opened for business in Luxembourg.

The NAV per share of each Dealing Day will be available from the Administration Agent as well as on Reuters and will also be published in any national newspaper of a country in which the Fund is authorised for public distribution, if so decided by the Board.

## Subscriptions / Redemptions and Conversions of Shares

Shares may be sold or redeemed (and/or converted) on any Dealing Day, at their respective Dealing Price (Net Asset Value) in accordance with the Articles of Incorporation. To subscribe / redeem or convert shares, instructions may be given by fax, telex or by post either to the Fund or to an authorised distributor. Allotment of shares will be executed following the timing set out in the schedules below (Luxembourg time).

### DEALING TIMES

Allotment of shares is conditional upon receipt by the Custodian of cleared monies within three Business Days of the relevant Dealing Day. If timely settlement is not made an application may lapse and be cancelled. All applications will be duly confirmed by contract notes. Unless otherwise or clearly specified by the investor, shares will be purchased or redeemed at the Dealing Price calculated in the base currency of the Sub-Fund. In the absence of specific instructions, Shares will be issued as non-certificated accumulation Shares of the Classic class. If on any Dealing Day, the Fund receives request for redemptions (or conversions) of Shares equalling or exceeding 10 per cent of the number of Shares or of the assets of the Sub-Fund, it may declare that such redemptions (or conversions) are deferred until a Dealing Date such as all or certain investments of the Sub-Fund have been sold. Conversions from Shares of one Class of a Sub-Fund to Shares of another Class of either the same or different Sub-Fund are not permitted except if any investor complies with all the conditions required for the Class into which the conversion is made. Except in the case of a suspension of deferral or right to redeem or purchase Shares of the relevant Sub-Funds, a request for conversion, once made, may not be withdrawn. The Fund may temporarily suspend or restrict the issue, redemption and conversion shares if necessary in order to protect the Shareholders' interest

## ■ Prohibition of Late Trading and Market Timing

Late Trading and Market Timing practices are strictly prohibited as further detailed in the Fund's full prospectus.

## ■ Performance of the Sub-Fund

The performance of the Sub-Fund is presented in the Part B Statistics attached hereto. Performance is expressed in the Fund accounting year. (1st July to 30 June). For more recent information investors may refer to the latest periodical reports available or consult Amundi Funds web site, [www.amundi-funds.com](http://www.amundi-funds.com).
