

# The Jupiter Global Fund – Jupiter **European Growth**

Simplified Prospectus – December 2009

## Simplified Prospectus

**This Simplified Prospectus contains key information about The Jupiter Global Fund –**

**Jupiter European Growth (the 'Fund').** This Simplified Prospectus does not comprise a description of all the sub-funds currently existing, for which separate Simplified Prospectuses are available. If you would like more information before you invest, please consult the full Prospectus.

For details about the Fund's holdings please see the most recent annual or semi-annual report and accounts (when issued) of The Jupiter Global Fund (the 'Company'). The rights and duties of the investor as well as the legal relationship with the Fund are laid down in the full Prospectus.

### Important Information

The Fund is a sub-fund of the Company, an open-ended investment fund with multiple sub-funds incorporated under the laws of the Grand Duchy of Luxembourg. The Company was incorporated on 22 September 2005 and exists for an unlimited period. The Fund was launched on 21 August 2006 and is a continuation of a sub-fund of a Luxembourg UCITS which was merged into the Company on the same date.

The Company qualifies as an undertaking for collective investment in transferable securities as a société d'investissement à capital

variable under Part I of the Luxembourg law of 20 December 2002 on undertakings for collective investment, as amended (the '2002 Law').

The base currency of the Fund is the Euro. Shares of each Class may however be purchased in any freely convertible currency at such conversion rates as may be determined by the Custodian and at the exchange rate risk of the investor, as more fully described in section headed 'How to Subscribe' in the full Prospectus.

### Investment Objective and Policy

The investment objective of the Fund is to achieve long term capital growth by exploiting special investment opportunities in Europe.

The Fund will invest at all times at least 50% of its total assets (excluding liquid assets) in equities or other equity related securities and participation rights. The Fund will also invest, at all times, at least two thirds of its total assets (excluding liquid assets) in securities of issuers which have their registered office in Europe or exercise the predominant part of their economic activities in Europe (including UK) and which are considered by the Investment Manager to be undervalued or otherwise to offer good prospects for capital growth. The Investment Manager will adopt a primarily bottom up approach to selecting investments for the Fund and the Investment Manager will not be tied to investing in constituent companies of the Benchmark Index.

Subject to the limits set out in section headed 'Investment Restrictions' in the full Prospectus, the Fund will have the ability: to hedge against directional risk using index futures and/or cash; to hold bonds and warrants on transferable securities; to use options and futures for hedging purposes and for efficient portfolio management; to enter into contracts for differences; to use forward currency contracts; to effect repurchase transactions; and to hold liquid assets on an ancillary basis.

For further details, please consult the full Prospectus.

### Specific Risk Factors

The Fund is exposed to stock markets fluctuations and depends on the financial performance of the companies in which it invests its assets. More particularly, the Fund is exposed to the following risks:

#### Risks Related to Investments in Equities

Experience has shown that equities and securities of a share-like character may be subject to strong price fluctuations. That is why they offer the possibility of considerable price gains, but also involve the corresponding risks. Share prices are influenced above all by the profits or otherwise of individual enterprises and sectors as well as macro-economic developments and political perspectives which determine the expectations of the securities markets and thus the movement of prices.

#### Risks Related to Investments in Fixed-Interest Securities

Price changes in fixed-interest securities are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. Fixed-interest securities could suffer when capital market interest rates rise, while they could increase in value when capital market interest rates fall. The price changes also depend on the term or residual time to maturity of the fixed-interest securities. In general, fixed-interest securities with shorter terms have less price risks than fixed-interest securities with longer terms. However, they generally have lower returns and, because of the more frequent due dates of the securities portfolios, involve higher re-investment costs.

#### Risks Related to Investments in Warrants

In addition to the above risks involved with securities and exchange rate changes, warrants also carry the risk, but also the opportunity,

of what is known as leverage. This leverage is produced, for example, with call warrants through the lower capital investment when the warrants are purchased compared with direct purchase of the underlying assets. The same applies for put warrants. The greater the leverage, the greater the change of price of the warrant in the event of a change in the prices of the underlying assets (in comparison to the subscription price set forth in the option conditions). The opportunities and risks of warrants increase as the leverage increases. Since warrants are generally issued only for a limited term, it cannot be ruled out that they will be valueless at the date of maturity if the price of the underlying assets falls below the subscription price fixed when the call warrants were issued or exceeds the subscription price fixed when the put warrants were issued.

#### Risks Related to Investments in Fixed-Interest Securities Without Regular Interest Payments and Zero Bonds

Particular attention must be paid to observing the credit worthiness and assessing the issuer of interest-bearing securities without regular interest payments and zero bonds. In times of climbing capital market interest rates, it may be difficult to trade in such bonds, particularly because of their comparatively long term and the absence of continual interest payments.

**There can be no guarantee that any appreciation in the value of the Fund's investments will occur and investors may not get back the full value of their investment.**

For further details, please consult the full Prospectus.

## Investment Details

### Profile of the typical investor

This Fund may be suitable for investors with a broad attitude to risk looking for a long term investment opportunity in line with its Investment Objective and Policy. An investment in the Fund will not be suitable for investors seeking solely an index-linked return on their investment. Investment in the Fund should be regarded as long term in nature and may not be suitable as a short term investment. Typical investors in the Fund are expected to be asset and wealth managers regulated or authorised by the relevant local regulator, retail private clients who will invest through suitably authorised intermediaries and private individuals who are experienced in making equity investments and who have the resources to withstand the risks associated with them.

### Classes of Shares

For the time being, the Fund is offering
Class L Euro
Class L Sterling
Class I Euro

Class I Shares will only be available from a limited number of selected Distributors chosen by the Fund and is reserved for institutional investors.

### Dividend policy

Class L Euro	Accumulation of income
Class L Sterling	Annual dividend with automatic reinvestment by default
Class I Euro	Accumulation of income

### Fees and Expenses

To be borne by the Shareholder			
	Class L		Class I
Fees	Euro	Sterling	Euro
Initial Subscription Price on activation of new Share Classes:	€10 plus Initial Charge	£10 plus Initial Charge	€10 plus Initial Charge
Initial Charge (in addition to the Initial Subscription Price): up to 5% of the Net Asset Value per Share.			
Conversion Fee: up to 1% of the gross amount being switched.			

To be borne by the Fund			
	Class L		Class I
Fees	Euro	Sterling	Euro
Management Fee (up to)*	1.50%	1.50%	0.75%
Performance Fee	None	None	None
Administrator, Custodian and Management Company costs (up to)**	0.155%	0.155%	0.155%

\*The management fee is calculated on the basis of the average daily Net Asset Value of the Fund. It is payable monthly in arrears. The fee actually charged and applicable to each Class of Shares within the limits set forth above will be published in the annual and semi-annual reports of the Company.

\*\*Management Company fees are calculated on a sliding scale not exceeding 0.075% per annum calculated on the Net Asset Value of the Fund. Fees for administration, transfer agency and depository bank services are calculated on a sliding scale not exceeding 0.08% per annum calculated on the Net Asset Value of the Fund. The Fund is also subject to custody safe keeping fees calculated by reference to basis point charges that vary depending upon the country of domicile of securities within the Fund's portfolio. In addition, the Fund is subject to transaction charges expressed as a flat fee per trade that varies according to the country of domicile of the securities traded. In addition to the fees and charges identified herein, the Fund will be

subject to normal banking and brokerage fees and commissions on transactions relating to the assets and liabilities of the Fund and any reasonable out of pocket expenses incurred in connection with the Fund and chargeable to the Fund.

### Calculation of the Net Asset Value per Share

The prices of the Shares of each Class are determined at 1.00pm Luxembourg time (the 'Valuation Point') on every Business Day (the 'Valuation Day').

### How to buy Shares

Applications must be received by the Administrator prior to 1.00pm Luxembourg time (the 'Dealing Deadline') on a Valuation Day. Shares will be purchased at the Subscription Price calculated at the Valuation Point plus an Initial Charge, if applicable. Applications received by the Administrator after the Dealing Deadline on a Valuation Day will be dealt with at the Valuation Point on the following Valuation Day.

### How to convert Shares

Conversion facilities are available to all Shareholders wishing to convert all or part of their holding from the Fund to another. Conversions between Funds are made at the relevant Subscription Price and Redemption Price and may only be made into the equivalent Class in the Fund into which the Shareholder wishes to convert. Conversion requests should be presented directly to the Administrator.

### How to redeem Shares

Redemption requests must be received by the Administrator prior to the Dealing Deadline on a Valuation Day. Shares will be redeemed at the Redemption Price of the relevant Fund calculated at the Valuation Point on such Valuation Day. Redemption requests received by the Administrator after the Dealing Deadline on a Valuation Day will be dealt with at the Valuation Point on the following Valuation Day.

### Publication of prices

The prices of the Shares of each Class will be published on [www.jupiterinternational.com](http://www.jupiterinternational.com) and at the registered office of the Company on every Valuation Day. Price information is also available on request from the Distributors and from the Administrator in Luxembourg.

### Information on Initial Subscription and minimum holding in each Class

Share Class	Minimum Initial Investment	Minimum Incremental Investment	Minimum Holding
L Euro	€1,000	€50	€1,000
L Sterling	£1,000	£50	£1,000
I Euro	€10,000,000	None	€250,000

### Taxation of the Fund

The Fund is solely liable to an annual tax in Luxembourg ('taxe d'abonnement') calculated at the rate of 0.05% per annum computed on the Net Asset Value of each Class, and at a reduced rate of 0.01% per annum computed on the Net Asset Value of the Class reserved to institutional investors within the meaning of article 129 of the 2002 Law. These taxes are calculated at the end of the quarter to which the tax relates and payable quarterly.

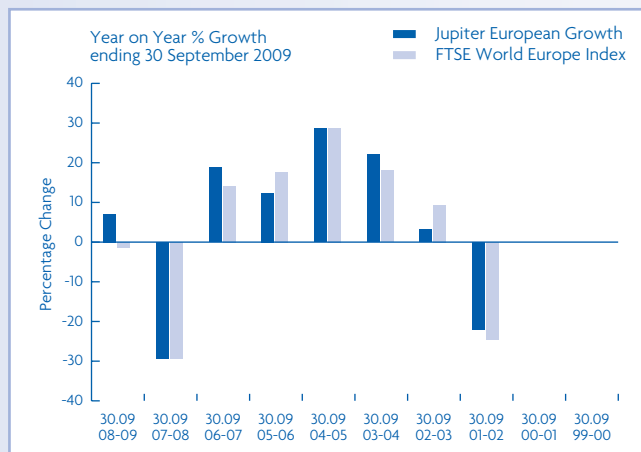

No Stamp Duty or other tax is payable in Luxembourg in connection with the issue of Shares of the Fund.

### EU Tax Considerations

The Council of the EU adopted, on 3 June 2003, Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the 'Directive'). The Directive was implemented in Luxembourg by a law of 21 June 2005 (the 'EUSD Law'). Under the EUSD Law, dividend and/or redemption proceeds from Shares of the Fund paid to individuals may be subject to withholding tax or give rise to exchange of information with tax authorities. Whether the EUSD Law will be applicable in any particular case and the implications arising therefrom depend on various factors, such as the asset class of the Fund, the location of the paying agent used and the tax residence of the shareholders concerned. Although more details on the implications of the Directive and the EUSD Law are contained in the full Prospectus, investors should also seek advice from their financial or tax legal adviser.
