

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Sustainable Euro Corporate Bond, a subfund of the SICAV BNP Paribas Funds, short named as BNP Paribas

Class "N Capitalisation" - ISIN code LU0265289339

This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

Objectives and investment policy

The Fund seeks to increase the value of its assets over the medium term by investing in investment grade bonds issued in any currencies by European companies or companies operating in the European Union that respect sustainable development criteria (social responsibility and/or environmental responsibility and/or corporate governance).

After hedging, the sub-fund's exposure to currencies other than the EUR will not exceed 5%.

It is actively managed and as such may invest in securities that are not included in the index which is Bloomberg Barclays Euro Aggregate Corporate (RI).

The investment team applies also BNP PARIBAS ASSET MANAGEMENT's sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria such as but not limited to reduction of emissions of greenhouse gas, respect of human rights, respect of minority shareholders rights, at each step of the investment process of the Fund.

The Fund follows the Enhanced ESG approach which means that the Fund implements more explicit ESG tilts (Invest in the most sustainable companies according to specific criteria and/or incorporating a wider range of exclusions) leading to more stringent ESG and/or Carbon performance targets.

The approach is implemented in order to consistently eliminate at least 20% of the index prior to applying ESG filters.

An extra-financial strategy may comprise methodological limitations such as the ESG Investment Risk as defined by the asset manager.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?
The risk category is justified by the investment mainly in Interest Rate instruments. The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments and more generally fixed income instruments.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Credit Risk:** This risk relates to the ability of an issuer to honour its commitments: downgrades of an issue or issuer rating may lead to a drop in the value of associated bonds.
- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.
