Objectives and investment policy

OBJECTIVE

To increase the value of your investment, through income and investment growth.

REFERENCE INDEX

FTSE WBGI All Maturities (EUR), an index that does not take into account environmental, social and governance (ESG) factors. Used for risk monitoring, performance objective and performance measurement.

PORTFOLIO ASSETS

The Compartment mainly invests in a broad range of corporate and government bonds, including convertible bonds. The compartment invests worldwide, including emerging markets, and can invest across any sector, currency and credit quality. The Compartment may also invest in money market instruments.

DERIVATIVES AND STRUCTURED PRODUCTS

The Compartment may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use derivatives and structured products to gain exposure to portfolio assets.

COMPARTMENT CURRENCY

INVESTMENT PROCESS

In actively managing the Compartment, the investment manager uses a combination of market and issuer analysis to build a diversified portfolio of securities it believes offer the best risk-adjusted returns relative to the benchmark. The Compartment's management approach uses strict risk controls. The investment manager considers ESG factors a core element of its strategy by adopting a tilted approach which seeks to increase the weight of securities with low sustainability risks and/or to decrease the weight of securities with high sustainability risks, subject to good governance practices. Activities that adversely affect society or the environment are also avoided. Voting rights are methodically exercised and there may be engagement with companies to positively influence ESG practices. For further information, please refer to our exclusion framework in the Responsible Investment policy*, SFDR product category Article 8. The performance of the Compartment is likely to be significantly different from that of the benchmark, because the Investment Manager has significant discretion to deviate from its securities and weightings.

Terms to understand

Bonds Securities that represent an obligation to repay a debt, along with interest.

Convertible bonds Bonds that offer the holder the option of receiving the payment of principal in a predetermined number of equity shares.

Derivatives Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

Emerging markets Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

Money market instruments Financial instruments designed to provide stable value, interest and a very low risk of loss, as well as being readily convertible into cash.

Structured products Securities similar to derivatives, but with defined risk or performance characteristics.

Other characteristics

Designed for investors who understand the risks of this Compartment and plan to invest for 3 year(s) or more. This is an accumulation share class, meaning any income earned is retained in the share price. Orders to buy, switch or redeem shares are ordinarily processed on any day that is a full bank business day in Luxembourg.

Risk and reward profile

The Share Class is assigned to this risk category because of the price variations resulting from its currency and the nature of the Compartment's investments and strategy. The risk category shown is based on historical data and may not be a reliable indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time. The lowest category does not mean a risk-free investment. The Compartment offers no capital guarantee or asset protection measures.

The Compartment may be exposed to the following risks which are not adequately captured by the synthetic risk indicator and may negatively impact its value:

- **Financial Derivatives risk:** the leverage resulting from derivatives amplifies losses in certain market conditions.
- **Liquidity risk:** markets with low volumes result in difficulties valuing and/or trading some assets.
- **Counterparty risk:** losses occur when a counterparty does not honour its obligations related to contracts such as over-the-counter derivatives.
- **Credit risk:** sudden losses may occur when issuers of debt securities default on their payment obligations.
- **Investments in emerging markets** are generally more sensitive to risk events, such as changes in the economic, political, fiscal and legal environment, as well as fraud.
- **Investments in Mainland China** may be subject to capital restrictions and trading quotas (e.g. QFII and RQFII regimes). The Compartment may encounter difficulties or delays in enforcing its rights in the event of disputes.
- **Contingent Convertible ("CoCo") investments** may result in losses when regulatory or issuer-motivated triggering events cause a total loss of the investment or a conversion to equity.
- **Operational risk:** losses resulting from human errors, system failures, incorrect valuation and safekeeping of assets.
- **Sustainability risk:** ESG related risk events or conditions could cause a material negative impact on the value of the investment if they were to occur.

Further information can be found in the prospectus.

Charges

The charges you pay are used to cover the costs of running the Compartment, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry, conversion** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your financial adviser or fund distributor.

The **ongoing charges** figure is based on expenses for the period ending on 31 December 2021. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Compartment when buying or selling units/shares in another collective investment undertaking.

For more information on charges, please refer to the "Fund Expenses" section of the Fund's prospectus available on assetmanagement.pictet

One-off charges deducted before or after you invest

Entry charge (in favour of the distributor)	Up to 5.00%
Exit charge (in favour of the distributor)	Up to 1.00%
