(an umbrella investment company with variable capital having segregated liability between its Sub-Funds incorporated with limited liability in Ireland under registration number 267219)

### ANNUAL REPORT AND

### AUDITED FINANCIAL STATEMENTS

For the financial year ended 31 December 2017

No subscriptions should be made on the basis of the financial report alone. Subscriptions should only be made on the basis of the current Prospectus supplemented by the latest Annual Report and the latest Semi-Annual Report, if published thereafter.

Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Sub-Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

### **Background to the Company**

The following information is derived from and should be read in conjunction with the full texts and definitions section of the Prospectus.

Natixis International Funds (Dublin) I plc (the "Company") is structured as an open-ended umbrella investment company with variable capital and segregated liability between its sub-funds, incorporated under the laws of Ireland on 26 June 1997 as a public limited company pursuant to the Companies Act 2014. The Company has been authorised by the Central Bank of Ireland (the "Central Bank") as an investment company pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"). The Company commenced operations on 30 June 1997.

Key Investor Information Documents ("KIID") were submitted for noting to the Central Bank on 30 November 2017. These KIID are structured by share class type focusing on the representative share for a given class. There are currently Redeemable Participating Shares of three Sub-Funds (the "Sub-Funds") in issue, Natixis International Funds (Dublin) I - Loomis Sayles Multisector Income Fund (hereafter "Loomis Sayles Multisector Income Fund"), Natixis International Funds (Dublin) I - Loomis Sayles High Income Fund (hereafter "Loomis Sayles High Income Fund") and Natixis International Funds (Dublin) I - Loomis Sayles Global Opportunistic Bond Fund (hereafter "Loomis Sayles Global Opportunistic Bond Fund"). At 31 December 2017, the Company offered the following share classes for subscription in each of the Sub-Funds:

Loomis Sayles Multisector	Loomis Sayles High Income Fund	Loomis Sayles Global
Income Fund		Opportunistic Bond Fund
Class C/A(USD) Shares	Class C/A(USD) Shares	Class C/A(USD) Shares

Each share class is being offered to specific targeted investors:

Targeted Investors	Share Class Offered
Retail Investors	Class C, Class CW, Class F, Class J, Class N, Class N1, Class R and Class RE
Institutional Investors	Class I, Class J and Class S

The functional currency of each Sub-Fund is currently U.S. Dollar (USD).

### Background to the Company (Continued)

The share classes of each Sub-Fund were denominated as at 31 December 2017:

Currency	Share Class
U.S. Dollar (USD)	Class C, Class F, Class I, Class J, Class R, Class RE, Class N, Class N1 and Class S
Euro (EUR)	Class CW, Class H-I, Class H-N, Class H-N1, Class H-R, Class H-RE, Class H-S, Class I, Class R, Class N, Class N1, Class RE and Class S
Sterling (GBP)	Class H-I, Class H-N, Class H-S, Class I, Class R and Class S
Norwegian Krone (NOK)	Class H-S
Swedish Krona (SEK)	Class H-I, Class H-R and Class H-S
Singapore Dollar (SGD)	Class H-I, Class H-R, Class H-S, Class I, Class R and Class S
Japanese Yen (JPY)	Class I and Class S
Swiss Franc (CHF)	Class H-I, Class H-N, Class H-N1 and Class H-S
Australian Dollar (AUD)	Class H-I, Class H-S and Class H-R

As at 31 December 2017, there were no CW and J share class in issue.

As at 31 December 2017, there were no share classes listed on the Irish Stock Exchange.

### **Investment Objectives**

### Loomis Sayles Multisector Income Fund

The investment objective of Loomis Sayles Multisector Income Fund (the "Sub-Fund") is high total investment return through a combination of current income and capital appreciation. The Sub-Fund invests at least 80% of its total assets in bonds and other related fixed income securities issued or guaranteed by the U.S. Government or its authorities or instrumentalities or fixed income securities issued by supranational entities (e.g. the World Bank) as well as commercial paper, zero coupon securities, asset-backed securities, mortgage-backed securities (including collateralised mortgage obligations), when-issued securities, Regulation S Securities, Rule 144A securities, structured notes and convertible securities in accordance with the UCITS Regulations.

The Sub-Fund may invest up to 20% of its total assets in securities other than those described above, such as common stocks, preferred stocks, and closed-ended U.S. real estate investment trusts ("REITS"). The Sub-Fund may invest up to 10% of its net assets in units of undertakings for collective investment. The Sub-Fund may invest any amount of its assets in securities of U.S. and Canadian issuers (such securities being listed or traded on a global basis on the markets set out in the Prospectus) and up to 30% of its total assets in securities of other non-U.S. or non-Canadian issuers including issuers in emerging markets. The Sub-Fund may invest any amount of its assets in securities issued by supranational issuers. The Sub-Fund may invest in securities denominated in any currency including currencies of emerging markets countries. The Sub-Fund may invest in securities of any maturity. The Sub-Fund may also invest up to 35% of its total assets in securities of below investment grade quality. The Sub-Fund does not impose limits on the amount of its assets invested in cash or money market instruments.

### Loomis Sayles High Income Fund

The investment objective of Loomis Sayles High Income Fund (the "Sub-Fund") is high total investment return through a combination of current income and capital appreciation. The Sub-Fund invests at least 51% of its total assets in fixed income securities, which are listed or traded on a global basis on the markets set out in the Prospectus. The fixed income securities in which the Sub-Fund may invest include corporate securities, securities issued or guaranteed by the U.S. Government or its authorities or instrumentalities, or supranational entities (e.g. the World Bank), commercial paper, zero coupon securities, mortgage-backed securities, collateralised mortgage obligations, asset-backed securities, US REITS, Regulation S Securities, Rule 144A securities and convertible securities in accordance with the UCITS Regulations.

The Sub-Fund may invest up to 49% of its total assets in cash, money market instruments or securities other than those described above. The Sub-Fund invests no more than 20% of its total assets in preferred stocks and no more than 10% of its total assets in common stocks and up to 10% of its net assets in units of undertakings for collective investment. It may also invest any portion of its assets in securities of U.S., Canadian and supranational issuers and up to 50% of its assets in the securities of other non-U.S., non-Canadian and non-supranational issuers. The Sub-Fund may invest any portion of its assets in securities of below investment grade quality.

### Background to the Company (Continued)

### **Investment Objectives (Continued)**

### Loomis Sayles Global Opportunistic Bond Fund

The investment objective of Loomis Sayles Global Opportunistic Bond Fund (the "Sub-Fund") is high total investment return through a combination of high current income and capital appreciation. The Sub-Fund invests primarily in fixed income securities of issuers located in any country of the world, selected on an opportunistic basis. The Sub-Fund invests at least two-thirds of its total assets in investment grade fixed income securities issued by issuers on a world-wide basis, such securities being listed or traded on a global basis on the markets set out in the Prospectus and, for hedging and efficient portfolio management purposes, in global currencies including currency exchange transactions. Fixed income securities in which the Sub-Fund may invest include corporate fixed income securities, fixed income securities issued or guaranteed by sovereign governments or public international bodies as well as zero coupon securities, Regulation S Securities, Rule 144A securities, asset-backed securities and mortgage-backed securities. Investment grade fixed income securities are securities rated at least BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.), an equivalent rating by Fitch Ratings, or if unrated, determined by the Delegate Investment Manager to be of equivalent quality.

The Sub-Fund may invest in fixed income securities that may be denominated in any currency and may be issued by issuers located in countries with emerging securities markets. The Sub-Fund may invest in fixed-income securities of any maturity. The Sub-Fund may invest in currencies other than the Base Currency.

The Sub-Fund may invest up to one-third of its total assets in cash, money market instruments or securities other than those described above, such as hybrid bonds, commercial paper, collateralised mortgage obligations, convertible securities, equities and other equity-type securities in accordance with the UCITS Regulations and up to 20% of its total assets in securities of below investment grade quality as well as, up to 10% of its net assets in units of undertakings for collective investment. The Sub-Fund may not invest more than 25% of its total assets in convertible bonds and no more than 10% of its total assets in equities and other equity-type securities such as common stocks, warrants, depositary receipts for any of those equity securities.

Each Sub-Fund may engage in financial derivative instruments for the purposes of efficient portfolio management. Loomis Sayles Multisector Income Fund may also engage in repurchase agreements for the above purpose.

### Other Relevant Information

Audited annual reports and unaudited half-yearly reports are available from Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") at the address listed under "Organisation" on page 1 and are sent to shareholders upon request at their registered address. The latest version of the Prospectus is also available from the Administrator at the address listed on page 1.

### **Delegate Investment Manager's Reports**

### Loomis Sayles Multisector Income Fund

1 Year Performance	
Loomis Sayles Multisector Income Fund (Class I/D (USD))*	7.78 %
Bloomberg Barclays U.S. Government/Credit Bond Index	4.00 %

For indicative purposes, the Fund's performance is compared to the Bloomberg Barclays U.S. Government/Credit Bond Index (the "Comparative Index"). The Fund outperformed its Comparative Index in the 12 months ended 31 December 2017.

On an absolute and relative basis, high yield credit contributed to performance. Security selection in the communications industry drove performance within the sector.

The Fund's allocation to non-US-dollar-denominated issues contributed to performance, led by holdings denominated in the Mexican peso, Australian dollar and euro. Exposure to US Treasuries also generated positive return, benefiting from our relatively shorter-than-benchmark duration stance (duration refers to price sensitivity to interest rate changes). In addition, convertible securities, specifically names within technology and capital goods, strengthened return during the period.

A small allocation to municipal securities modestly detracted from performance.

\* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Sub-Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

Loomis, Sayles & Company, L.P. 12 April 2018

### Delegate Investment Manager's Reports (Continued)

### Loomis Sayles High Income Fund

1 Year Performance	
Loomis Sayles High Income Fund (Class I/D (USD))*	8.79 %
Bloomberg Barclays U.S. Corporate High-Yield Bond Index	7.50 %

For indicative purposes, the Fund's performance is compared to the Bloomberg Barclays U.S. Corporate High-Yield Bond Index (the "Comparative Index"). The Fund outperformed its Comparative Index in the 12 months ended 31 December 2017.

High yield credit was instrumental to relative return as strong security selection significantly benefited performance. Holdings within the transportation, chemicals and healthcare sectors were positive contributors. The Fund's exposure to emerging market credit also contributed to performance, benefiting from strong security selection. In addition, the Fund's non-US dollar exposure positively impacted return, aided by securities denominated in the Mexican peso and Canadian dollar.

The Fund's allocation to US Treasuries detracted from performance during the period. In particular, exposure to shorter maturities had a negative impact as that part of the yield curve was most heavily impacted by Federal Reserve interest rate hikes (a yield curve depicts the relationship among bond yields across the maturity spectrum).

\* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Sub-Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

Loomis, Sayles & Company, L.P. 12 April 2018

### Delegate Investment Manager's Reports (Continued)

### Loomis Sayles Global Opportunistic Bond Fund

1 Year Performance	345 A S S S S S S S S S S S S S S S S S S
Loomis Sayles Global Opportunistic Bond Fund (Class I/D (USD))*	8.68 %
Bloomberg Barclays Global Aggregate Index	7.39 %

For indicative purposes, the Fund's performance is compared to the Bloomberg Barclays Global Aggregate Index (the "Comparative Index"). The Fund outperformed its Comparative Index in the 12 month period ended 31 December 2017.

Spread sector allocation (spread refers to the yield differential provided by lower-quality bonds relative to the local-currency treasury curve in the relevant market) was a positive performance driver due to overweights in the banking, energy and insurance sectors, which were some of the top-performing credit sectors in 2017. However, underweights in local authorities, agency mortgage-backed securities (MBS) and euro zone treasuries, specifically in Italy and Spain, held back performance somewhat.

The Fund's duration (interest rate sensitivity) and yield curve (which depicts the relationship among bond yields across the maturity spectrum) positioning contributed to performance. Local-market positioning in emerging countries proved most beneficial, particularly within the Brazilian real-, Mexican peso-, Indonesian rupiah- and South African rand-pay markets.

Security selection was additive to performance. Holdings within the banking sector were positive contributors given their initial yield advantage as well as the spread narrowing that these issues experienced. Issuer decisions among global treasuries, agency MBS and electric securities also added value. Security selection among emerging market hard-currency issuers from Latin America also lifted results. However, these positive contributions were partially offset by negative bond selection within the consumer non-cyclical, Treasury inflation-protected security (TIPS) and home equity sectors.

Currency allocation detracted from performance, largely due to our underweight position in the euro relative to overweights in other lagging European currencies, including the Norwegian krone. An underweight position in the South Korean won also weighed on return given a recovery in the currency late in the year. Other emerging market currencies, such as the South African rand and Brazilian real, weighed on performance due to the Fund's strategy of bearing high currency hedging costs in an effort to obtain the highly favorable local bond market performance on a currency-hedged basis.

\* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Sub-Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

Loomis, Sayles & Company, L.P. 12 April 2018

### Report of the Depositary to the Shareholders

We have enquired into the conduct of Natixis International Funds (Dublin) plc ('the Company') for the financial year ended 31 December 2017, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

### Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

### **Opinion**

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Brown Brothers Harriman Trustee Services (Ireland) Limited

12 April 2018

### Directors' Report

The Directors submit their annual report together with the audited financial statements of Natixis International Funds (Dublin) I plc (the "Company") for the financial year ended 31 December 2017.

### Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and International Financial Reporting Standards as adopted by the European Union (EU).

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for that financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to a Depositary for safekeeping. In carrying out this duty, the Company has entrusted safekeeping of the Company's assets to Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary"). The Depositary is regulated by and under the supervision of the Central Bank of Ireland.

### **Directors' Compliance Statement**

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in Section 225 of the Companies Act 2014. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations and which arrangements and structures have been received. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations. These relevant obligations under Section 225 of the Companies Act 2014 are separate from and additional to the legal and regulatory requirements to which the Company is subject by virtue of its regulation by the Central Bank of Ireland.

### Accounting records

The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records are the use of appropriate systems and procedures and the appointment of experienced administrators and service providers. To this end, the Directors have appointed Brown Brothers Harriman Fund Administration Services (Ireland) Limited ("the Administrator") to provide fund accounting, fund administration and transfer agency services. The accounting records are kept by Brown Brothers Harriman Fund Administration Services (Ireland) Limited, at 30 Herbert Street, Dublin D02 W329, Ireland. The Administrator is regulated by and under the supervision of the Central Bank of Ireland.

### **Principal Activities**

The Company was originally authorised by the Central Bank as an investment company pursuant to Part 24 of the Companies Act 2014. On 24 August 2000, the Company was granted approval by the Central Bank as an investment company pursuant to the UCITS Regulations.

The investment objectives of each Sub-Fund are outlined on pages 4 to 5.

### Directors' Report (Continued)

### Review of Business and Future Developments

The value of Net Assets of Loomis Sayles Multisector Income Fund increased by USD 83 million, a percentage increase of 8%. The value of Net Assets of Loomis Sayles High Income Fund decreased by USD 3 million, a percentage decrease of 4%. The value of Net Assets of Loomis Sayles Global Opportunistic Bond Fund increased by USD 15 million, a percentage increase of 20%. The Delegate Investment Manager's Reports on pages 6 to 8 contain a review of the factors which contributed to the performance for the financial year. The Directors do not anticipate any changes in the structure or investment objectives of the Sub-Funds.

### Risk Management - Objectives and Policies

Investment in the Company carries with it a degree of risk including, but not limited to, the risks referred to in Note 13 of these financial statements and those described in the Company's Prospectus.

### Results and Dividends

It is intended that each Sub-Fund will declare and pay dividends on the distributing shares of each Sub-Fund equal to the net operating income of that Sub-Fund. Each Sub-Fund will also distribute the excess of realised capital gains over realised capital losses in respect of investments of the Company.

Details of dividends declared by the Company during the financial year are disclosed in the Statement of Comprehensive Income.

The results for the financial year are set out in the Statement of Comprehensive Income on page 24.

### Directors

The names of the persons who were Directors at any time during the financial year ended 31 December 2017 are set out below. For further information, please see Corporate Governance and Composition of the Board later in this Report.

John Gallagher (US)
Daniel Morrissey (Irish)
Jason Trepanier (US)
Lynda Wood (Schweitzer) (US)
John Nolan (Irish)

### Directors' and Secretary's Interests

The Directors and Secretary and their families did not hold any interest in the shares of the Company during the financial year ended 31 December 2017.

### Transactions Involving Directors and Secretary

Apart from the transactions disclosed in Note 12 to the financial statements, the Board of Directors is not aware of any other contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Secretary had any interest as defined in the Companies Act 2014 at any time during the financial year ended 31 December 2017.

As contemplated by the Corporate Governance Code issued by Irish Funds (see overleaf) Letters of Appointment have been entered into between the Company and each of the Directors, all terminable on three months notice.

The fees paid to Directors during the financial year are disclosed in Note 3 to the financial statements.

### **Employees**

There were no employees of the Company throughout the financial year.

### Directors' Report (Continued)

### Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- as far as he/she is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- he/she has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

### Audit committee

The Board of Directors acknowledge that they are required, under Section 167 of the Companies Act 2014, to consider the establishment of an audit committee. The Directors have decided not to establish an audit committee because in the Directors' opinion, at this time, the responsibilities of an audit committee under Section 167 (i.e. the monitoring of internal control, internal audit, risk management, the financial reporting process, statutory audit and statutory financial statements, the review and monitoring of the independence of the auditors and the provision by the auditors of additional services to the Company) are already being fulfilled by virtue of the Board's corporate governance regime and the existing arrangements and structures in place (including, in particular, those arrangements in place at the level of the Company's promoter and delegate, Natixis Investment Managers S.A.) designed to secure compliance with the extensive legal and regulatory obligations imposed on UCITS investment companies in relation to the Company's management.

### Remuneration

The European Union Directive 2014/91/EU (known as the "UCITS V Directive") came into effect on 18 March, 2016. The Company has adopted a remuneration policy in order to meet the requirements of the UCITS V Directive in a way and to the extent that it is considered to be appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities.

The total amount of remuneration paid by the Company for the financial year relates to fixed remuneration only. No variable remuneration was paid during the period.

Fixed remuneration paid by the Company to identified staff comprises Directors' fees only, paid solely to Mr Dan Morrissey and Mr John Nolan in their capacity as non-executive Directors. Directors who are also employees within Natixis Investment Managers International Distribution, (Jason Trepanier) and Loomis, Sayles & Company, L.P., the Delegate Investment Manager (John Gallagher and Lynda Wood (née Schweitzer), do not receive any remuneration from the Company. Details of the Directors' fees paid are disclosed in Note 3.

The Directors' fees are calculated on the basis of an agreed annual fee. The remuneration policy has been subject to internal review and no changes have been made to the policy during the financial year.

### **Independent Auditors**

PricewaterhouseCoopers, Chartered Accountants and Registered Auditors, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

### Material Events During the Financial Year

Share classes previously quoted on Irish Stock Exchange were formally delisted with effect from 27th January 2017.

With effect from November 20, 2017 Natixis Global Asset Management S.A. changed its name to Natixis Investment Managers S.A.

The current prospectus was approved by the Central Bank on 30 November 2017.

There were no other material events affecting the Company during the financial year.

### Directors' Report (Continued)

### Post Balance Sheet Events

On 17 January 2018, Christine Kenny was appointed as a Director of the Company.

On 27 February 2018, John Gallagher resigned as a Director of the Company.

There were no subsequent events after the financial year end other than those detailed in Note 19.

### Corporate Governance Statement

The Company is subject to and complies with Irish statute comprising the Companies Act 2014 and with the Central Bank UCITS Regulations. The Company also complies with the European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010).

Having regard to certain other key pillars of governance within the collective investment fund governance structure including:

- the role of the Promoter, unique within the collective investment fund structure (which is, or a related company of which is, normally the investment manager of the collective investment fund), as recognised by the Central Bank of Ireland, in supporting the corporate governance culture of the Company;
- the uniqueness of the independent segregation of duties as between the Investment Manager, the Delegate Investment Manager, the Administrator (with responsibility for the calculation of the Net Asset Value, amongst other duties) and the independent Depositary (with responsibility for safeguarding the assets of the Company and overseeing how the Company is managed), such segregation of duties/functions being achieved through delegation of respective responsibilities to and appointment of suitably qualified and also regulated third party entities who are subject to regulatory supervision; and
- the role of the Company's investors/shareholders in electing to have their money managed in accordance with the investment objectives and policies of the Funds of the Company as promoted by the Promoter,

the Board has adopted and operated on a voluntary basis the corporate governance code of Irish Funds ("Irish Funds Code") which came into effect on 1 January 2012, demonstrating the Company has robust governance arrangements, which include a clear organisational structure with well defined, transparent and consistent lines of responsibility, effective processes to identify, manage, monitor and report the risks it is or might be exposed to, and adequate internal control mechanisms, including sound administrative and accounting procedures that are consistent with and promote sound and effective risk management. The Irish Funds Code is available on the Irish Funds websiter.

The Company has no employees and the Directors are all non-executive. Consistent with the regulatory framework applicable to investment fund companies such as the Company (and in contrast to normal operating companies with a full time executive management and employees), the Company, consequently, operates under the delegated model whereby it has delegated investment management, administration and distribution functions to third parties without abrogating the Board's overall responsibility. The Board has in place mechanisms for monitoring the exercise of such delegated functions which are always subject to the supervision and direction of the Board. These delegations of functions and the appointment of regulated third party entities are detailed in the Company's Prospectus. In summary, they are:

1. the Company has delegated the performance of the investment management functions in respect of the Company and of its Funds to the Investment Manager and, in turn, to the Delegate Investment Manager as detailed in the Prospectus and listed in the directory to these financial statements. The Delegate Investment Manager has direct responsibility for the decisions relating to the day to day running of the Funds and it is accountable to the Board of the Company for the investment performance of the Funds. The Delegate Investment Manager has internal controls and risk management processes in place to ensure that all applicable risks pertaining to its management of the Funds are identified, monitored and managed at all times and appropriate reporting is made to the Board on a regular basis. The Investment Manager is regulated by and under the supervision of the Commission de Surveillance du Secteur Financier (the "CSSF") and the Delegate Investment Manager is regulated by and under the supervision of the Securities and Exchange Commission (US);

### Directors' Report (Continued)

### Corporate Governance Statement (Continued)

- 2. the Company has delegated its responsibility as Administrator, Registrar and Transfer Agent to Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") which has responsibility for the day to day administration of the Company and the Funds including the calculation of the net assets values. The Administrator is regulated by and under the supervision of the Central Bank of Ireland:
- 3. the Company has delegated the distribution of the Funds of the Company to the Investment Manager.

The Company has appointed Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") as depositary of its assets. The Depositary has responsibility for the safekeeping of such assets in accordance with the Central Bank UCITS Regulations and exercising independent oversight over how the Company is managed. The Depositary is regulated by and under the supervision of the Central Bank of Ireland.

The Board receives reports on a regular (at least quarterly) basis from each of its delegate service providers and the Depositary which enable it to assess the performance of the delegate service providers and the Depositary (as the case may be).

A description of the operation of the shareholder meetings, the key powers of the shareholder meetings, the shareholder's rights and the exercise of these rights can be found in the Articles of Association.

### Financial Reporting Process- description of main features

The Board of Directors (the "Board") has ultimate responsibility for overseeing the establishment and maintenance of adequate internal control and risk management systems of the Company in relation to the financial process. As the Company has no employees and all Directors serve in a non-executive capacity, and consistent with the regulatory framework applicable to investment fund companies such as the Company, the Board has appointed the Administrator to maintain the accounting records of the Company independently of the Investment Manager and the Delegate Investment Manager. The Administrator is contractually obliged to maintain proper books and records in compliance with local laws. To that end the Administrator performs regular reconciliations of its records to those of the Depositary. The Administrator is contractually obliged to design and maintain control structures to manage the risks for internal control over financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in the financial statements and the related notes in the Company's annual report.

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board's appointment of the Administrator, which is regulated by the Central Bank of Ireland and which operates independently of the Investment Manger and the Delegate Investment Manager, is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable but not absolute assurance against material misstatement or loss.

The Fund Operations Team of Natixis Investment Managers S.A. (the "Investment Manager") oversees the Company's financial statement production process through agreeing the production and review calendar, making and coordinating, from other support teams within the Investment Manager, contributions to and comments on the draft financial statements. This team is responsible for providing assurance to the Directors and the Independent Auditors that the statements accurately represent the financial position and performance of the Sub-Funds' of the Company over the period reviewed, and comply with the requirements of the financial reporting standards to which it subscribes; currently International Financial Reporting Standards ("IFRS"). Their controls in this area mainly involve exhaustive reconciliation of all the amounts and disclosures presented in the financial statements to the financial records maintained by the Company's Administrator.

The Administrator is also contractually obliged to prepare for review and approval by the Board the annual and half yearly financial statements. The statutory financial statements are required to be audited by independent auditors who report annually to the Board their findings. As part of its review procedures, the Board receives presentations from relevant parties including consideration of Irish accounting standards and changes in accounting rules and to ensure that these changes are accurately reflected in the Company's financial statements. The Board also receives presentations and reports on the audit process.

### Directors' Report (Continued)

### Corporate Governance Statement (Continued)

Financial Reporting Process- description of main features (Continued)

The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board also assesses and evaluates the Administrator's financial accounting and reporting routines and further assesses and evaluates the external auditors' performance, qualifications and independence.

The annual and half yearly financial statements of the Company are required to be filed with the Central Bank of Ireland.

Composition of the Board of Directors

With regard to the appointment and replacement of Directors, the Company is governed by its Articles of Association and Irish Statute comprising the Companies Act 2014 as applicable to investment funds. The Articles of Association themselves may be amended by special resolution of the shareholders. The Articles of Association do not provide for retirement of Directors by rotation.

However, the Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Irish Companies Act 2014. A Director may also be removed upon notice from the Company in accordance with the Letter of Appointment between themselves and the Company.

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. There are currently five Directors (refer to page 1 for details), all of whom are non-executive. Jason Trepanier is a full time executive of the Investment Manager and Promoter and Distributor and each of John Gallagher (retired) and Lynda Wood (Schweitzer) are full time executives of the Delegate Investment Manager (although John Gallagher is not directly involved in the day to day discretionary investment management of the Funds of the Company, whereas Lynda Wood (Schweitzer) is directly involved in the day to day discretionary investment management of the Loomis Sayles Global Opportunistic Bond Fund). Christine Kenny is an Executive of Loomis Sayles Investments Limited, UK (a wholly owned subsidiary of the Delegate Investment Manager). Each of Daniel Morrissey and John Nolan are regarded as an independent Director having regard to the terms of the Irish Funds Code on Independence and Independent Directors although a firm in which Daniel Morrissey has an interest is in receipt of professional fees from the Company. Consequently, Daniel Morrissey does not meet the requirements of paragraph 4.1 of the Irish Funds Code, which requirements must be met by one Director and which requirements are met by John Nolan. All Directors are fully independent of the financial statements preparation and production process. All related party transactions during the financial year are detailed in the notes to these Financial Statements.

The Board meets at least quarterly. There are no permanent sub-committees of the Board.

In addition to the requirements of the Irish Funds Code, the Company has adopted the following measures in relation to the oversight and operation of the Board:

### Monthly Executive Summary (MES)

As seven of the eight managerial functions (decision taking resting at all times with the Board) apply across all of the operational functions undertaken by the Company's service providers to which key operational functions of the Company have been delegated, the Directors are responsible for monitoring the activities of these service providers. This is achieved by receiving the various delegate reports at the quarterly Board Meetings, but also, a Monthly Executive Summary ("MES") is issued on a monthly basis to enable the monitoring of the activities of the Company at all times.

The items reported are based on information collected from the Administrator, the Depositary, the Investment Manager, and Loomis, Sayles & Company, L.P., (the "Delegate Investment Manager") and include such items as: Net Asset Values ("NAVs") and NAV variations, timeliness of NAVs, distributions declared, shareholder complaints, pricing errors, stale prices, shareholder activity, summary of expenses paid in the month, stock/cash reconciliations (aged), and any issues relating to the Administrator's internal controls that may impact on the Company. The MES received also identifies any breaches of investment guidelines and confirms compliance with the Company's Risk Management Process as filed with the Central Bank of Ireland.

The Directors may seek further explanation or information they deem appropriate. In addition, and between MES, the service providers will escalate any material exceptions or significant matters to the Directors on a timely basis.

### Directors' Report (Continued)

### Corporate Governance Statement (Continued)

### Monthly Executive Summary (MES) (Continued)

Each of the service providers engaged by the Company is subject to their own corporate governance requirements.

Further to the MES, the Investment Manager has also organised several committees that review and address various matters of the Company and report to the Board as appropriate, including immediately if necessary.

### Pricing Oversight Committee (POC)

The Administrator is responsible for coordinating the process by which the Sub-Funds' securities are priced relying upon quotations received from the external and independent pricing vendors they recommend with input from the Delegate Investment Manager. The Delegate Investment Manager is responsible for reviewing the prices provided by the Administrator and for providing the Administrator with an alternative source of prices under defined circumstances and for recommending fair valuing securities when required.

In addition, the Investment Manager has established a Pricing Oversight Committee that has the responsibility for overseeing appropriate pricing of the Company and for monitoring compliance with the related pricing policies and procedures as carried out through the combined efforts of the Sub-Funds' Administrator and the Delegate Investment Manager. This includes such activities as:

- maintain and oversee the Sub-Funds' pricing policies and procedures;
- oversee the process of selecting and approving pricing vendors for the Sub-Funds';
- oversee and monitor the Sub-Funds' use of prices sourced from or recommended by the Delegate
  Investment Manager in lieu of quotes sourced through an approved pricing vendor (including, inter alia,
  stale prices, price overrides or fair valuations);
- oversee and monitor the activities of the Administrator and Delegate Investment Manager in discharging their responsibilities related to pricing the Sub-Funds' portfolios; and
- facilitate and coordinate proposals and materials related to pricing of the Sub-Funds' securities for presentation to or approval by the Company's Board of Directors (or its delegates, if appropriate) and the Company's Independent Auditor.

The POC meetings are held at least on a monthly basis and include members of the Compliance and Fund Operations teams. It reports into the Conducting Persons Committee ("CP").

### **International Product Committee (IPC)**

This Committee is comprised of senior managers within the Investment Manager and is responsible for reviewing and approving all product launches and material changes to the existing product range.

The IPC's objective is to:

- Formalise the decision-making process for product development and fund range management initiatives;
- Ensure robust governance and oversight of the product development and fund range management function as well as an audit trail for changes made to the products in scope;
- To challenge proposals where necessary (and in the best interests of shareholders) with due skill and care;
- To approve and review the target market for products through their life cycle; and to
- Provide a forum for all senior members of Natixis Investment Managers International to assess important initiatives, provide input and insight and identify and assess operational risk, business risk and resource availability.

### Directors' Report (Continued)

### Corporate Governance Statement (Continued)

### Conducting Persons Committee (CP)

This Committee is comprised of senior managers within the Investment Manager. The Investment Manager has organised its supervision in the CP, which counts five conducting persons including two members particularly overseeing risk management. The CP meets on a monthly basis to review the activities of the Investment Manager following a standard agenda. Items being discussed each month may include, amongst others, risk management/monitoring functions such as the reviewing of the following in relation to the Company:

- Various compliance and risk reports including but not limited to reports on breaches and other errors, regulatory risk monitoring, investor compliance and oversight of the delegated functions;
- The activity of the sub-committees;
- Monthly management reports produced by the Administrator, including compliance, pricing or risk issues;
- Requests to use new financial derivative instruments, or to use existing instruments for different purposes (e.g. to move from a hedging strategy to establishing exposures); and
- Monthly financial information for the Investment Manager.

The CP reports matters affecting the Company as appropriate during the meetings of the Board of the Company, or immediately if necessary.

### Investment Risk Oversight Committee (IROC)

This Committee is comprised of senior managers within the Investment Manager. The purpose of IROC is to assist the Conducting Persons in fulfilling their oversight with regard to the risks inherent in the Sub-Funds' strategies and the assessment of market, credit, liquidity and strategic risks via, amongst other, the monitoring and analysis of Key Risk Indicators ("KRIs") in accordance with ESMA Guidelines, for each Sub-Fund.

The Committee has the vocation to challenge and validate the work done by Risk Analysis and Risk Oversight teams. The members and persons providing support to the committee come from different teams within Natixis Investment Managers S.A and its network, which brings a diverse risk culture, and knowledge.

IROC meets at least on a monthly basis. IROC report to the CP's Committee and ultimately to Natixis Investment Managers S.A's Board of Directors. Hence, the existence of IROC increases Natixis Investment Managers S.A's awareness of the risk levels of each Sub-Fund.

Members of this committee include the CCO, Risk Officer/Head of Risk and Controls, Head of Reporting, Risk Analysis and Technology, Head of Investment Risk Control, Head of Reporting and Investment Risk Analysis, as well as the COO, and a senior member of the International Product Development team.

In addition to the members' participation, other members of the International Product team attend the meetings as needed.

### New Product New Activity Committee (NPNA)

This Committee is comprised of senior members from the Holding Company of the Investment Manager's Risk Management and Compliance functions and representatives from the Investment Manager's Compliance, Legal, Product, Operations and Finance Departments as relevant. Its purpose is to consider and approve/reject new products and activities proposals. It meets as often as new requests need to be presented and reviewed; any follow-up requested by the Committee is addressed accordingly.

### **Directors' Time Commitments**

The Board has satisfied itself that the Directors have sufficient time to fully discharge their duties and disclose in writing to the Board their other time commitments, including other Collective Investment Schemes' (CIS) directorships and non-fund directorships.

### Corporate Governance Statement (Continued)

### **Shareholder Meetings**

All general meetings of the Company will usually be held in Ireland and at least one general meeting of the Company shall be held each financial year as the Company's Annual General Meeting. At least 21 days' notice shall be given to Shareholders, unless a shorter notice period is agreed by the Directors, Auditors and the Shareholders. The notice shall specify the place, time, day and hour of the meeting and terms of any resolutions to be proposed. Notice convening the Annual General Meeting in each financial year at which the audited financial statements of the Company will be presented (together with the Directors' and Independent Auditors' Reports of the Company) will be sent to Shareholders at their registered addresses not less than 21 clear days before the date fixed for the meeting. Other general meetings may be convened from time to time by the Directors in such manner as provided by Irish law. The annual financial statements and half yearly report together with all notice issued to Shareholders may be sent by electronic means where the Shareholders have elected to receive the reports by such methods. Shareholders are also entitled to receive reports and notices by hard copy on request.

Each of the Shares entitles the holder to attend and vote at meetings of the Company and of the Fund represented by those Shares. Matters may be determined by a meeting of Shareholders on a show of hands unless a poll is requested by at least three Members present (in person or by proxy) or representing not less than one-tenth of the total voting rights of all the Members having the right to vote at the meeting or unless the chairman of the meeting requests a poll. Each Shareholder has one vote on a show of hands. Each Share gives the holder one vote in relation to any matters relating to the Company which are submitted to Shareholders for a vote by poll.

The Shares entitle the Shareholder to attend and vote at general meetings of the Company and to participate in the profits and assets of the Company. There are no pre-emption rights attaching to the Shares or any rights to participate in the profits and dividends of any other share class or any voting rights in relation to matters relating solely to any other share class.

The rights attaching to any series or class of Shares may only be varied with the consent of three quarters of the holders of the Shares represented by proxy or present and voting at a general meeting of the class. The quorum for any general meeting of the class convened to consider any alteration to the class rights of the Shares shall be two or more persons holding or representing by proxy at least one third of the issued Shares in question or his proxy.

### Connected Persons

The UCITS Regulations states that, inter alia, any transaction carried out with a UCITS by the management company or depositary; and the delegates or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders of the Company. Those transactions include transactions carried out by connected persons on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from its delegates that the connected persons carrying out those transactions do carry them out on a similar basis.

Shareholders should have regard to the governance structure of the Company as more particularly described in the corporate governance section of this Directors' Report and the roles and responsibilities of the Company's respective delegates subject to the overall supervision of the Board. Further, Shareholders should refer to the Prospectus which identifies many of the connected party transactions and the general nature of the contractual arrangements with the principal connected persons but it is not exhaustive of all connected party transactions. Shareholders should also refer to the Provisions of the Prospectus dealing with conflicts of interest.

Therefore, having regard to confirmations from the Company's management and its relevant delegates, the Directors of the Company are satisfied that:

- (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the UCITS Regulation are applied to all transactions with connected persons; and
- (ii) transactions with connected persons entered into during the period complied with the obligations set out in the UCITS Regulation.

### **Corporate Governance Statement (Continued)**

### **Connected Persons (Continued)**

Note 12 details related party transactions in the financial year as required by applicable financial reporting standards. However, Shareholders should understand that not all "connected persons" are related parties as such latter expression is defined by those financial reporting standards. Details of the fees paid to related parties and certain connected persons are set out in notes 3, 6, 7, 9 and 12.

On behalf of the Board

Director Solm Wolan

12 April 2018

### Independent auditors' report to the members of Natixis International Funds (Dublin) I plc

### Report on the audit of the financial statements

### **Opinion**

In our opinion, Natixis International Funds (Dublin) I plc's financial statements:

- give a true and fair view of the Company's and Sub-Funds' assets, liabilities and financial position as at 31
   December 2017 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Statement of Financial Position of Natixis International Funds (Dublin) I plc as at 31 December 2017;
- the Statement of Comprehensive Income of Natixis International Funds (Dublin) I plc for the year then ended;
- the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders of Natixis International Funds (Dublin) I plc for the year then ended;
- the Statement of Cash Flow of Natixis International Funds (Dublin) I plc for the year then ended;
- the Schedule of Investments of Natixis International Funds (Dublin) I plc for each of the Sub-Funds as at 31 December 2017; and
- the notes to the financial statements for the Company and for each of its Sub-Funds, which include a description of the significant accounting policies.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

### Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you were:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast
  significant doubt about the Company's and Sub-Funds' ability to continue to adopt the going concern basis of
  accounting for a period of at least twelve months from the date when the financial statements are authorised
  for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's and Sub-Funds' ability to continue as going concerns.

### Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2017 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the
  audit, we have not identified any material misstatements in the Directors' Report.

### Responsibilities for the financial statements and the audit

### Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities Statement set out on page 10, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Sub-Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

### Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

### Other required reporting

### Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

### Companies Act 2014 exception reporting

### Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Sarah Murphy

for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm

Dublin

12 April 2018

### Independent auditors' report to the members of Natixis International Funds (Dublin) I Plc

We have audited the accompanying financial statements of the company and each of its sub-funds, which comprise the Statement of Financial Position for the company and sub-funds, including the Schedules of Investments for each of the sub-funds as of 31 December 2017 and 31 December 2016, and the related Statement of Comprehensive Income, Statements of Changes in Net Assets Attributable to Redeemable Participating Shareholders, Statement of Cash Flow for the company and for each of its sub-funds for the years then ended.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Irish law and International Financial Reporting Standards as adopted by the European Union; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the company and each of its sub-funds' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company and each of its sub-funds' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the company and each of the sub-funds as of 31 December 2017 and 31 December 2016 and the results of their operations, changes in their net assets, and their cash flows for the years then ended, in accordance with International Financial Reporting Standards as adopted by the European Union.

Statement of Cash Flows (Continued)

The notes on pages 30 to 79 are an integral part of these financial statements.

Notes to the Financial Statements as at 31 December 2017

### 1. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated in the following text

### a) Basis of Presentation

The financial statements have been prepared in accordance with IFRS, as adopted by the European Union (EU) and Irish statute comprising the Companies Act 2014 and the UCITS Regulations. The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 1(b).

(i) Standards and amendments to existing standards effective 1 January 2017.

There are no new standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 January 2017.

(ii) New standards, amendments and interpretations effective after 1 January 2017, have not been early adopted.

A new standard is effective for annual periods beginning after 1 January 2017, and has not been applied in preparing these financial statements.

IFRS 9, "Financial Instruments", specifies how an entity should classify and measure financial assets and liabilities and it is expected to be effective for annual accounting periods beginning on or after 1 January 2018.

IFRS 15, "Revenue from contracts with customers", is based on the principle that revenue is recognised when control of a good or service transfers to a customer and it is expected to be effective for annual accounting periods beginning on or after 1 January 2018. IFRS 15 is not expected to have a significant impact on the Company's Financial Statements.

The Board of Directors has not yet assessed the impact that the adoption of this standard in future periods will have on the financial statements of the Company. This standard will be adopted when it becomes effective.

### b) Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results and the differences could be material. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined below.

(i) Fair value of derivative financial instruments

The Company may, from time to time, hold financial instruments that are not quoted in active markets, such as over-the-counter derivatives. The value of any over-the-counter ("OTC") derivatives contracts shall be valued at least daily at a price obtained from the counterparty or by an alternative valuation provided by a competent person (which may be the Investment Manager) appointed by the Company and approved by the Depositary for such purpose, or by any other means provided the value is approved by the Depositary.

If a derivative instrument is valued in any other way, the Company will follow international best practice and adhere to the principles on valuation of OTC instruments established by bodies such as International Organisation of Securities Commissions ("IOSCO") and Alternative Investment Management Association ("AIMA") and such alternative valuation, provided by a competent person appointed by the Directors and approved for the purpose by the Depositary, shall be reconciled on at least a monthly basis to a valuation provided by the counterparty and any significant difference shall be promptly investigated and explained.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### b) Critical Accounting Estimates and Assumptions (Continued)

### (ii) Fair value of securities not quoted in an active market

The value of any investment which is not quoted, listed or normally dealt in on a regulated market shall be the probable realisable value estimated with care and in good faith by a competent person, firm or association making a market in such investment (approved for the purpose by the Depositary) and/or any other competent person, in the opinion of the Directors (and approved for the purpose by the Depositary).

### c) Critical Judgements: Functional Currency

The Board of Directors considers the U.S. Dollar the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The U.S. Dollar is the currency in which the Company measures its performance and reports its results. This determination also considers the competitive environment in which the Company is compared to other European investment products.

### d) Financial Assets and Financial Liabilities at Fair Value

The Company has classified all investments into the 'fair value through profit or loss' category. The category of financial assets and financial liabilities at fair value through profit or loss comprises two sub-categories: financial assets and liabilities held for trading and those designated by Directors at fair value through profit or loss on initial recognition.

Financial assets or liabilities held for trading are acquired and incurred principally for the purpose of selling and repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives (other than forward foreign currency exchange contracts) as hedges in a hedging relationship.

Regular-way purchases and sales of investments are recognised on trade date, the date on which the Sub-Funds commit to purchase or sell the asset. Investments are initially recognised at fair value, and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Funds have transferred substantially all risks and rewards of ownership.

Gains and losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are included in the Statement of Comprehensive Income in the period in which they arise. Interest income from financial assets at fair value through profit or loss is calculated using the effective interest method and presented in the Statement of Comprehensive Income.

### e) Investments at Fair Value

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the statement of financial position date. The quoted market price used for financial assets held by the Sub-Funds is the current bid price for fixed income securities and equity securities; the appropriate quoted market price for financial liabilities is the current ask price. When a Sub-Fund holds derivatives with offsetting market risk, it uses mid-market prices as a basis of establishing fair values for the offsetting risk positions and applies the bid or asking price to the net open position, as appropriate. Unlisted securities are valued using external pricing vendors, broker quotations or fair valuation methodologies approved by the Investment Manager's Pricing Oversight Committee.

If the market for a financial instrument is not active, the Directors may establish fair value by using a valuation technique. The Sub-Funds use a variety of methods and make assumptions that are based on market conditions existing at each statement of financial position date.

Valuation techniques include the use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in the actual market.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### e) Investments at Fair Value (Continued)

As at 31 December 2017, there were 11 investments held by the Loomis Sayles Multisector Income Fund priced using the valuation techniques described above with a market value of USD 3,667,435 (31 December 2016: eight valued at USD 2,415,351) which is 0.33% (31 December 2016: 0.23%) of Net Asset Value. There were six investments held by the Loomis Sayles High Income Fund priced using the valuation techniques described above with a market value of USD 1,537,831 (31 December 2016: six valued at USD 2,585,790) which is 1.80% (31 December 2016: 2.92%) of Net Asset Value. As at 31 December 2017, there were no investments held by the Loomis Sayles Global Opportunistic Bond Fund priced using valuation techniques as described above (31 December 2016: nil).

### Warrants

The Company may invest in warrants. Warrants which are fully paid up and have a zero strike price exhibit, the identical risk and return characteristics, as in the case where the Company had acquired the underlying equity directly. Such warrants are valued at the last bid price for the underlying equity quoted on the stock exchange or principal market on which it is listed or, if the bid price is unavailable or unrepresentative, the last available mid price on such stock exchange or market. As at 31 December 2017, there were no warrant positions held by the Loomis Sayles Multisector Income Fund (31 December 2016: one warrant with fair value USD 80,031). As at 31 December 2017, there was one warrant position held by the Loomis Sayles High Income Fund with fair value of zero (31 December 2016: one warrant with a fair value USD 10,927). As at 31 December 2017, there were no warrant positions held by the Loomis Sayles Global Opportunistic Bond Fund (31 December 2016: nil).

### To be Announced Securities

The Company may enter into To Be Announced ("TBA") purchase commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalised. The Company holds and maintains until settlement date, cash or high grade debt obligations in an amount sufficient to meet the purchase price, or the Portfolio may enter into offsetting contracts for the forward sale of other securities that they own. Income on the securities will not be earned until settlement date. Unsettled TBA purchase commitments are valued at the current fair value.

The Company may enter into TBA sale commitments to hedge Sub-Fund portfolio positions or to sell owned/held mortgage backed securities under delayed delivery arrangements. Proceeds of TBA sales commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities or an offsetting TBA purchase commitment deliverable on, or before the sale commitment date, are held as "cover" for the transaction. Unsettled TBA sale commitments are valued at current fair value, generally according to the procedures described previously in the accounting policies.

As at 31 December 2017, there was one To Be Announced security held by Loomis Sayles Global Opportunistic Bond Fund with a market value of USD 522,810 (31 December 2016: there were five To Be Announced securities with a market value of USD 2,274,407).

### f) Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts, and open foreign currency exchange spot contracts, is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Net gains or losses on contracts which have been settled are included in the Statement of Comprehensive Income of each relevant Sub-Fund. Gains or losses on open forward foreign currency exchange contracts are reported as financial assets or liabilities at fair value through profit or loss as appropriate in the Statement of Financial Position of each relevant Sub-Fund.

Changes in gains or losses at the financial year end are reported in the Statement of Comprehensive Income of each relevant Sub-Fund. Gains or losses on open foreign currency exchange spot contracts are included in the Statement of Financial Position and changes in gains or losses since the prior financial year end are reported in the Statement of Comprehensive Income for each relevant Sub-Fund. For class level hedges, the gains or losses are allocated solely to the relevant share class.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### g) Futures Contracts

Futures contracts may be used to manage a Sub-fund's exposure to the securities market. Buying futures tends to increase a Sub-Fund's exposure to the underlying instrument. Selling futures tends to decrease a Sub-fund's exposure to the underlying instrument. Upon entering into a futures contract, a Sub-fund is required to deposit with its futures broker, an amount of cash or U.S. government obligations in accordance with the initial margin requirements of the broker or exchange. The Company and the broker agree to exchange an amount of cash equal to the daily fluctuations in the value of the futures contract ("futures margin"). Gains or losses are recognized but not considered realised until the contracts expire or are closed. Futures contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed in the Statement of Financial Position. Losses may arise from the changes in the value of the underlying instrument, if there is an illiquid secondary market for the contracts, or if counterparties do not perform under the contract terms.

Futures contracts are valued at the latest traded price at the valuation point on the dealing day for such instruments on such markets.

Securitized collateral which is pledged to the broker is annotated on the relevant security in the Portfolio of Investments.

### h) Income and Expense

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, the Sub-Fund estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses.

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Income is accounted for gross of any non reclaimable/irrecoverable withholding taxes and net of any tax credits. The withholding tax is shown separately in the Statement of Comprehensive Income. Realised gains and losses on investment transactions are calculated using the first in first out method. Realised gains and losses on investments transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

### i) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

All cash at bank balances are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day. A breakdown of the financial institutions where the cash was deposited at the financial year end is contained in Note 5.

In response to the CBI publishing the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (the "Investor Money Regulations" or "IMR") in March 2015 (effective from 1st July, 2016), the Investment Manager undertook a review together with the Administrator of the way in which subscription, distribution and redemption monies are channelled to and from the Company. As a result of this review, effective from 1st July, 2016, subscription and redemption monies will be channelled through an umbrella cash collection account in the name of the Company.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### j) Foreign Currency Transactions

In accordance with IAS 21, items included in the individual Sub-Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). This is considered to be U.S. Dollar (USD) due to the investment strategy of the individual Sub-Funds.

The individual Sub-Funds have also adopted their functional currency as the presentation currency. Income and expenditure transactions are translated to the functional currency of the relevant Sub-Fund at the rate of exchange ruling on the date of the transaction. Assets and liabilities in foreign currencies are translated into USD at the rates of exchange ruling at the Statement of Financial Position date. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions.

### For each relevant Sub-Fund;

- (i) Currency gains and losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Sub-Fund's books and the Sub-Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included, where appropriate, in the dividend and bond income figure in the Sub-Fund's Statement of Comprehensive Income;
- (ii) Currency gains and losses realised on security purchases and sales transactions are included in the Sub-Fund's Statement of Comprehensive Income;
- (iii) The change in unrealised currency gains and losses on securities held at the financial year end are included in the Sub-Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Sub-Fund's functional currency are translated at the rate of exchange ruling at the close of business on the relevant reporting date and exchange differences are recorded in the Sub-Fund's Statement of Comprehensive Income.

The financial statements are presented in USD. The following exchange rates at 31 December 2017 and 31 December 2016 have been used to translate assets and liabilities held in currencies other than USD:

		31 December 2017	31 December 2016		31 December 2017	31 December 2016
USD 1 =	ARS	18.8250	N/A	KRW	1,070.55	N/A

	JPY	112.6500	116.6350	ZAR	12.3800	13.6750

### k) Income Equalisation

The Company utilises the accounting practice known as income equalisation by which a portion of the subscription and redemption price of the Sub-Fund's shares, representing income included in the share price on the date of the share transaction, is credited or charged respectively to income each time there is a relevant subscription or redemption.

### Notes to the Financial Statements as at 31 December 2017 (Continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 1) Redeemable Participating Shares

The Sub-Funds issue Redeemable Participating Shares which are redeemable at the shareholder's option and are classified as financial liabilities.

The Redeemable Participating Shares can be put back to the Company on any dealing day for cash equal to a proportionate share of the Company's Net Asset Value. The participating share is carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholder exercised its right to put the share back to the Company.

Redeemable Participating Shares are issued and redeemed at the shareholder's option at prices based on the Sub-Fund's Net Asset Value per Share at the time of issue or redemption. The Sub-Fund's Net Asset Value per Share is calculated by dividing the Net Assets Attributable to Redeemable Participating Shareholders by the total number of outstanding Redeemable Participating Shares.

### m) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

### n) Distributions Payable to Holders of Redeemable Participating Shares

The distributions to holders of Redeemable Participating Shares are recognised as finance costs in the Statement of Comprehensive Income.

### o) Purchase/Sale of Securities Awaiting Settlement

Amounts due to/from brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered by the end of the financial year.

### p) Transaction Costs

Transaction costs are the costs incurred in the acquisition, issue or disposal of financial assets and liabilities. Transaction costs include fees and commissions paid to brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. These costs are accounted for as they are incurred and are recognised as an expense for financial reporting purposes in the Statement of Comprehensive Income.

### q) Transfers between Levels of the Fair Value Hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

### 8. SHARE CAPITAL

### Authorised

The authorised share capital of the Company is USD 70,000 divided into 70,000 Subscriber Shares of a par value of USD 1 each and 5,000,000,000 shares of no par value designated as unclassified shares. The unclassified shares are available for issue as Redeemable Participating Shares.

In order to provide for the minimum share capital on incorporation required under Irish law, the Delegate Investment Manager subscribed for 69,993 Subscriber Shares for cash at par fully paid up and a further seven Subscriber Shares have been issued fully paid up for cash at par to nominees. Subsequent to the issue of the participating shares, the Delegate Investment Manager redeemed its 69,993 shares at par and no further Subscriber Shares will be issued.

Shares in Issue at 31 December 2016	7

The Subscriber Shares are fully paid up to the value of USD 7 and as they do not form part of the Redeemable Participating Shares of the Company, they do not form part of the Net Asset Value of the Company. They are thus disclosed in the financial statements by way of this note only.

In the opinion of the Directors, this disclosure reflects the nature of the Company's investment business as an investment fund.

### **Share Rights**

The holders of the Subscriber Shares are entitled to one vote per holder on a vote taken on a show of hands and on a poll, to one vote per Subscriber Share. The holders of Subscriber Shares are not entitled to any dividends and, in the event of a winding up or dissolution of the Company, shall be entitled to the return of capital, provided sufficient funds exist. The holders of Redeemable Participating Shares are entitled to one vote per holder on a vote taken on a show of hands and, on a poll, to one vote per Redeemable Participating Share. The holders of Redeemable Participating Shares are entitled to such dividends as the Directors may from time to time declare and in the event of a winding up or dissolution of the Company, shall have the entitlements referred to in the Company's Prospectus.

Neither the Subscriber Shares nor the Redeemable Participating Shares carry pre-emption rights.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 9. FEES

The Company pays the Investment Manager a monthly fixed fee at an annual rate of 0.75% for each of the Sub-Funds. The Investment Manager received USD 9,304,429 during the financial year ended 31 December 2017 (31 December 2016: USD 10,599,312) of which USD 1,053,532 was outstanding at 31 December 2017 (31 December 2016: USD 644,784).

The Investment Manager reimburses the Sub-Funds for all expenses that exceed the respective percentages of the Net Asset Value of each Sub-Fund as follows:

Share Class	Loomis Sayles Multisector Income Fund	Loomis Sayles High Income Fund	Loomis Sayles Global Opportunistic Bond Fund
Class C	2.25%	N/A	2.25%
Class F	1.25%	N/A	1.25%

Class R	1.50%	1.95%	1.50%
Class RE	1.80%	N/A	N/A
Class S	0.60%	0.75%	0.55%

As shown in Note 3, amounts of USD 805,664, USD 134,256 and USD 320,321 were reimbursed to the Loomis Sayles Multisector Income Fund, the Loomis Sayles High Income Fund and the Loomis Sayles Global Opportunistic Bond Fund, respectively, for the financial year ended 31 December 2017 (31 December 2016: USD 1,258,523, USD 180,802 and USD 483,529 respectively).

The Company pays the Administrator a monthly fee in arrears of 1/12 of the following percentages of the Net Asset Value of each Sub-Fund as at each valuation point: 0.03% on the first USD 75 million; 0.02% on the next USD 75 million; and 0.01% on the balance in excess of USD 150 million (or equivalent), together with VAT (if any). Administration fees accrue daily and are paid monthly in arrears.

The Company pays the Depositary a monthly fee between 0.005% and 0.45% of the Net Asset Value of each Sub-Fund for safekeeping fees as at each valuation point, as well as, transaction charges at normal commercial rates. The Company pays a monthly fee in arrears of 1/12 of 0.012% of the Net Asset Value of each Sub-Fund for trustee fees.

Brown Brothers Harriman Fund Administration Services (Ireland) Limited earned an administration fee of USD 613,345 for the financial year ended 31 December 2017 (31 December 2016: USD 718,031), of which USD 178,707 (31 December 2016: USD 285,219) remained outstanding at the financial year end.

Brown Brothers Harriman Trustee Services (Ireland) Limited earned a safekeeping and transaction fee of USD 165,318 for the financial year ended 31 December 2017 (31 December 2016: 176,900 USD), of which USD 45,041 (31 December 2016: USD 58,028) remained outstanding at the financial year end.

Brown Brothers Harriman Trustee Services (Ireland) Limited earned a trustee fee of USD 149,213 for the financial year ended 31 December 2017 (31 December 2016: USD 166,225), of which USD 38,431 (31 December 2016: USD 50,673) remained outstanding at the financial year end.

Transaction costs are included in Other Expenses in Note 3 and amounted to USD 69,089, USD 4,610 and USD 6,759 (31 December 2016: USD 38,484, USD 16,570 and USD 4,946) for the Loomis Sayles Multisector Income Fund, the Loomis Sayles High Income Fund and the Loomis Sayles Global Opportunistic Bond Fund, respectively, for the financial year ended 31 December 2017.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 10. AUDITORS REMUNERATION FEE

The following tables outline the Auditors' remuneration charged during the financial year ended 31 December 2017 and the financial year ended 31 December 2016.

<sup>\*</sup> Other Non-Audit Fees are included in Operating Expenses in the Statement of Comprehensive Income and refer to Note 3. For the financial year ended 31 December 2017, there were no tax advisory or other assurance services provided by the statutory auditors (2016; same). The above remuneration is inclusive of value added tax.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 11. TAXATION

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax can arise on the happening of a chargeable event. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares. No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997 as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

There were no chargeable events during the financial year under review.

Capital gains, dividends, and interest received (if any, on investments made) by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

The Finance Act, 2010 provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the "equivalent measures". A company wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

### 12. RELATED PARTY DISCLOSURES

Parties are described as related if any one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Company's Directors and Natixis Investment Managers S.A., the Company's Investment Manager and Distributor are disclosed on page 1. Amounts expensed in the financial year to these parties are disclosed in Note 3. Amounts receivable from and payable to the Investment Manager and Distributor are disclosed in Note 6 and Note 7, respectively. Details of the Investment Manager's fee are disclosed in Note 9. Loomis, Sayles & Company, L.P. is the Company's Delegate Investment Manager. The Investment Manager is responsible for paying out of its fees certain fees and expenses of the Delegate Investment Manager.

Natixis Investment Managers S.A. and Loomis, Sayles & Company, L.P. are both subsidiaries of Natixis Investment Managers Group, an international asset management group based in Paris, France that is ultimately controlled by Natixis, Paris, France.

Mr. Daniel Morrissey, a Director of the Company, is also a partner in William Fry, the Company's legal counsel to whom fees were paid during the financial year ended 31 December 2017 amounting to EUR 125,583 (31 December 2016: EUR 96,848). Mr. Jason Trepanier is a Director of the Company and also an executive of Natixis Investment Managers S.A., the Company's Investment Manager and Promoter and Distributor. Mr. John Gallagher (retired) and Mrs. Lynda Wood (Schweitzer) are each a Director of the Company and also an executive of Loomis, Sayles & Company, L.P., the Delegate Investment Manager. Ms. Christine Kenny is a Director of the Company and also an executive of Loomis Sayles Investments Limited, UK (a wholly owned subsidiary of the Delegate Investment Manager).

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 12. RELATED PARTY DISCLOSURES (Continued)

The ability to direct the financial and operating policy of the Sub-Funds, and hence control, rests with the Shareholders in general meeting. As at 31 December 2017, together with comparative figures for 31 December 2016, the entities below had interests in excess of 20% of the issued share capital of the Sub-Fund.

	31 Decemb	31 December 2016 % of Sub-		
Redeemable Participating Shares	No. of Shares	Fund	No. of Shares	Fund
Loomis Sayles High Income Fund				
Nortrust Nominees Limited A/C		100	1,737,491	27%
Caceis	1,118,008	24%	8	-
	31 Decemb		31 December	
Redeemable Participating Shares	31 Decemb	er 2017 % of Sub- Fund	31 December No. of Shares	er 2016 % of Sub- Fund
Redeemable Participating Shares  Loomis Sayles Global Opportunistic Fund		% of Sub-		% of Sub-
		% of Sub-		% of Sub-

For the Loomis Sayles Multisector Income Fund there were no entities which had interests in excess of 20% of the issued share capital of the Sub-Fund as at 31 December 2017 (31 December 2016: same).

### 13. FINANCIAL RISK MANAGEMENT

### Strategy in Using Financial Instruments

The Sub-Funds' activities expose them to a variety of financial risks: market risk (including market price risk, currency risk, interest rate risk and derivatives risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Sub-Funds' financial performance. Both the Investment Manager and the Delegate Investment Manager implement a risk management process of which the activities are described below.

The Investment Manager and the Delegate Investment Manager implement their liquidity risk monitoring by using processes on the correlation between asset and liability liquidity risk to anticipate liquidity issues. Otherwise, both entities did not change how market price risk, currency risk, interest rate risk, credit risk and liquidity risk were managed since the prior financial year end.

The IROC ("Investment Risk Oversight Committee") is the key governance body at the Investment Manager in term of investment risk oversight in the context of the operations of the Sub-Funds.

Market risk activities are overseen at the Investment Manager level as appropriate through the monitoring of the key risk indicators implemented for each sub-fund reviewed by IROC. Additionally, credit risk activities are overseen at the Investment Manager level as appropriate through the monitoring of investment compliance guidelines, the monitoring of approved brokers and counterparties as well as the key risk indicators implemented for each sub-fund. Results of this monitoring may lead the Investment Manager to challenge the Delegate Investment Manager from time to time.

IROC acts as a review and validation body for financial risk management activities and regularly provides reports to the Board of Directors of the Company. In addition, when market, credit or liquidity risk matters give rise to concern, it is escalated to the Board of Directors of the Company as appropriate. Based on the Investment Manager's assessment of Sub-Funds' risk profiles, the Company uses the commitment approach to calculate the global exposure of the Company in accordance with the requirements of the Central Bank of Ireland.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Market Price Risk

All securities investments present a risk of loss of capital.

At a first level of control, the Delegate Investment Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits, as set forth in the Company's Prospectus.

The Sub-Funds' overall market positions are monitored on a daily basis by the Delegate Investment Manager and are periodically reviewed by the Board at its meetings.

The Sub-Funds' equity securities are susceptible to market price risk arising from uncertainties about future prices of the instruments.

The Sub-Funds' market price risk is managed through diversification of the investment portfolio ratios by exposures.

The Delegate Investment Manager's processes for dealing with market price risk entail rigorous security-by-security research by experienced security analysts, intelligence gathered about the market for those securities through a professional securities trading desk and integration of the information (supplied by the analysts and traders) by qualified portfolio managers who make the decisions to buy and sell securities.

In addition, the Delegate Investment Manager created a Quantitative Research and Risk Management Group to support the investment decision process by building quantitative tools and models to complement the fundamental economic and market experience. The Delegate Investment Manager's advanced proprietary investment analytics capabilities include several risk management tools. These tools address general risk characteristics, ex-ante tracking error, position risk, performance attribution, top down valuations and performance dispersion.

The primary risk management system that was developed provides comprehensive information including daily constituents, weights, characteristics and statistics. Specifically, the risk tool analyses duration, yield curve, currency, country, sector, quality, industry, prepayment exposure and tracking error.

This risk tool is supplemented by additional market risk tools that calculate ex-ante tracking error, ex-post excess return and return optimisation. Other proprietary risk systems calculate performance attribution through detailed duration, spread duration, quality allocation, sector allocation and security selection analysis.

Position risk is monitored through technologies that analyse position size, option adjusted spread ("OAS") versus quality ratings, OAS changes, Loomis Sayles Rating Outlook, liquidity risks, correlation to the market as well as the firm-wide position sizes.

The Delegate Investment Manager uses Bloomberg, Citigroup Yield Book and Barclay's POINT as its analytical providers, and if a security is owned by a benchmark (i.e. Merrill Lynch) the analytics are provided by the benchmark sponsor. Priority is on Bloomberg and, for mortgage securities, Citigroup Yield Book. The primary benefit of these providers is their ability to provide analytics for all types of securities, mostly securities with embedded options and structured securities.

At a second level of control, the Investment Manager maintains sufficient oversight over the risks taken by the Sub-Funds.

After defining the risk profile of each Sub-Fund by considering the asset class exposures, the complexity of the investment strategy and the complexity, volume and frequency of the financial derivatives instruments or structured products to be used, the Investment Manager independently monitors the fund's risk specificities. The Investment Manager has selected appropriate key risk indicators ("KRIs") (e.g., VaR, Tracking Error) which are currently monitored through various internal and external systems by dedicated risk teams on a daily basis. The list of KRIs and their associated limits are reviewed for continued relevancy at least once a year and communicated to the Board of Directors.

In addition, the Investment Manager's Pricing Oversight group is responsible for overseeing the pricing of the Sub-Funds and for monitoring compliance with the related pricing policies and procedures.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Market Price Risk (Continued)

The Sub-Funds' concentrations in market price exposures at 31 December 2017 and 31 December 2016 are detailed in their Schedules of Investments on pages 80 through 115, the Statement of Financial Position on pages 22 through 23 and in Note 4 on pages 38 through 39.

### Loomis Sayles Multisector Income Fund

At 31 December 2017, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Multisector Income Fund would amount to approximately USD 6,166,908 (31 December 2016: USD 15,268,440).

### Loomis Sayles High Income Fund

At 31 December 2017, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles High Income Fund would amount to approximately USD 651,434 (31 December 2016: USD 1,368,872).

### Loomis Sayles Global Opportunistic Bond Fund

At 31 December 2017, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Global Opportunistic Bond Fund would amount to approximately USD nil (31 December 2016: nil).

### **Currency Risk**

The primary sensitivities of the Sub-Funds are interest rates and credit spreads on bonds held in the portfolios. The risks associated with these exposures are covered under interest rate risk and credit risk, respectively.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain amounts of the Sub-Funds' assets, liabilities and income are denominated in currencies other than U.S. Dollar, the functional currency. The Sub-Funds are therefore exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. Income denominated in foreign currencies is converted to U.S. Dollar on receipt.

Currency risk is managed by the Delegate Investment Manager, in part, through the use of forward foreign currency exchange contracts for hedging purposes. These contracts obligate the holder to buy or sell the currency at a specified quantity and on a specified future date. They may protect the value of specific portfolio positions and may be used in anticipation of changes in relative values of currencies in which current or future portfolio holdings of the Sub-Funds are denominated. Where the Sub-Funds invest in forward foreign currency exchange contracts for hedging purposes, the exposures on these contracts can be netted against each other, reducing global exposure.

The tables overleaf document the Company's exposure to currency risks as at 31 December 2017 and as at 31 December 2016, including sensitivity analysis.

At 31 December 2016, the majority of the Loomis Sayles Global Opportunistic Bond Fund's liabilities were denominated in U.S. Dollar, the Sub-Fund's functional currency.

The Sub-Funds' currency positions are monitored on a weekly basis by the Delegate Investment Manager. Any significant concerns in these areas are immediately brought to the attention of the Board of Directors, otherwise they are periodically reviewed by the Board at its meetings.

<sup>\*1</sup> Non-monetary assets comprises of financial assets at fair value through profit or loss and short term receivables.

<sup>\*2</sup> Monetary assets comprises of cash at bank.

\*3 The sensitivity analysis reflects an increase/(decrease) in the Net Assets Attributable to Redeemable Participating Shareholders, for each sub-fund, had there been an increase/(decrease) by 10% between the U.S. Dollar and the respective currency.

### Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Interest Rate Risk

The Sub-Funds' interest-bearing financial assets and liabilities expose them to risk associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows.

Interest rate risk is managed, in part, by the security-selection process of the Delegate Investment Manager, which includes predictions of future events and their impact on interest rates, diversification and duration. The prices of securities held by the Sub-Funds may be sensitive to interest rate fluctuations and unexpected fluctuations in interest rates could cause the corresponding prices of the Sub-Funds' positions to move in directions which were not initially anticipated.

The tables below and overleaf summarise the Sub-Funds' exposure to interest rate risks. It includes the Sub-Funds' financial assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

				/E	(487,924)	(487,924)
Sensitivity analysis					-	4,781,051

All other financial assets and financial liabilities are either non-interest bearing or recoverable within one month.

The sensitivity analysis reflects an increase/(decrease) in the Net Assets Attributable to Redeemable Participating Shareholders, for each sub-fund, had there been an increase/(decrease) of 100 basis points in interest rates.

The Sub-Funds' overall interest rate sensitivity is monitored on a weekly basis by the Delegate Investment Manager. Any significant concerns in this area are immediately brought to the attention of the Board of Directors, otherwise it is periodically reviewed by the Board at its meetings.

### **Derivatives Risk**

The Sub-Funds trade in financial instruments, taking positions in traded and over the counter instruments, including derivatives. At 31 December 2017, the Sub-Funds' only derivatives were forward foreign currency exchange contracts, futures and embedded derivatives within convertible bonds.

Currently, the Sub-Funds' global exposure is managed through the use of the "Commitment Approach" method and all appropriate controls relevant to the Central Bank UCITS Regulations and the related risk management using the commitment approach are delegated to BBH using a dedicated in-house system. The global exposure through the use of derivatives is limited to 100 percent of the Net Asset Value of the Sub-Fund. Individual position exposure and global exposure are each monitored daily by a dedicated control team. Results are supervised by the Investment Manager. The use of cash settled derivatives will at all times be fully covered with cash or other liquid securities. For any derivative that involves physical delivery, these will be covered by the underlying asset. Derivatives may be used for hedging and investment purposes.

The amounts of commitments as of 31 December 2017, for Loomis Sayles Multisector Income Fund, Loomis Sayles High Income Fund and Loomis Sayles Global Opportunistic Bond Fund were 1.21%, 2.03% and 30.45%, respectively, of the Total Assets (31 December 2016: 1.37%, 3.64% and 27.31% respectively). Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate). In the case of currency hedging, the portfolio managers and portfolio specialists periodically review the hedged position to determine whether it remains consistent with movements in the underlying assets.

In addition, the Delegate Investment Manager's Derivatives Committee reviews all aspects of proposed derivatives activity, with particular emphasis on risk management, and is responsible for ensuring that all trading, reporting, operations, pricing and legal and compliance issues have been addressed before a new derivative strategy is approved for use by the Risk Management Committee. The Derivatives Committee is made up of representatives from Senior Management, Equity Portfolio Management, Fixed Income Portfolio Management, Trading, Operations, Legal and Compliance, Technology and Client Services. The conclusions are also submitted to the Delegate Investment Manager's Board of Directors for approval.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Credit risk

The Company takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Credit risk is managed, in part, by certain of the Sub-Funds' investment restrictions, including that, subject to other provisions set forth in the Company's Prospectuses, (i) each Sub-Fund may not invest more than 10% of net assets in transferable securities or money market instruments of the same issuer, and (ii) the total value of transferable securities and money market instruments of issuers as to which a Sub-Fund invests more than 5%, must be less than 40%

Cash held via accounts opened on the books of Brown Brothers Harriman & Co. ("BBH") are obligations of BBH while cash held in accounts opened directly on the books of a third party cash correspondent bank, sub-custodian or a broker (collectively, 'agency accounts') are obligations of the agent. Cash held via agency cash accounts are liabilities of the agent, creating a debtor/creditor relationship directly between the agent and the Company.

Accordingly, while BBH is responsible for exercising reasonable care in the administration of such agency cash accounts where it has appointed the agent (i.e., in the case of cash correspondent banks and sub-custodians), it is not liable for their repayment in the event the agent, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

The Sub-Funds' cash is swept on a nightly basis to pre-approved financial institutions. As at 31 December 2017, the institutions where the Sub-Funds' cash was held and their respective credit ratings, at that date, are listed below:

### Institution

### Brown Brothers Harriman & Co. Australia and New Zealand Banking Group, London Banco Bilbao Vizcaya Argentaria, Madrid Banco Santander, Frankfurt Deutsche Bank, Grand Cayman Wells Fargo Bank, N.A, Grand Cayman Skandinaviska Enskilda Banken AB, Stockholm Bank of Tokyo-Mitsubishi UFJ, Ltd.

### **Short Term Credit Indicator**

Upper Medium Grade High Grade Lower Medium Grade Lower Medium Grade Lower Medium Grade High Grade Upper Medium Grade Upper Medium Grade

As at 31 December 2016, the institutions where the Sub-Funds' cash was held and their respective credit ratings, at that date, are listed below:

### Institution

### Brown Brothers Harriman & Co. Australia and New Zealand Banking Group, London Banco Bilbao Vizcaya Argentaria, Madrid Banco Santander, Frankfurt Deutsche Bank, Grand Cayman HSBC Holdings plc, London National Australia Bank, London Nordea Bank Norge, Oslo Sumitomo, Tokyo

### Short Term Credit Indicator

High Grade - an obligor rated High Grade has strong capacity to meet its financial commitments.

Upper Medium Grade - an obligor rated Upper Medium Grade has satisfactory capacity to meet its financial commitments.

Lower Medium Grade – an obligor rated Lower Medium Grade has adequate capacity to meet its financial obligations.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Credit Risk (Continued)

The Depositary must ensure that there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. As Depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited ("BBHTS") must ensure the ownership of each asset and the location of documents of title for each asset.

All securities that BBH holds in depositary (as global sub-custodian for and on behalf of BBHTS for further benefit of its underlying clients) are segregated from BBH's own assets, whether they are held in BBH's vault, in segregated accounts on the books of their sub-custodians, or in an account maintained at a central securities depositary. BBH maintains segregated accounts per client on its own books as well as on the books of the sub-custodian in the local market, where this is possible. As Depositary, BBHTS must also ensure non-cash assets are held on a fiduciary basis through BBH's network of global sub-custodians. BBH's sub-custodians are required by contract with BBH and generally by operation of law to segregate the securities of custody clients from the general banking assets of the sub-custodian.

BBH performs both initial and ongoing due diligence reviews on the sub-custodians within its global custody network through its Network Management group. Such reviews include an assessment of service level standards, management expertise, market information, custody operations, reporting and technology capabilities at the sub-custodian, as well as reviews in relation to their reputation and standing in the market and their ongoing commitment to providing custody services.

Service level agreements are put in place with each sub-custodian, as well as the usual contractual arrangements, and these are reviewed on a regular basis through service review meetings, including on-site due diligence meetings.

Regular financial analysis of all sub-custodians is carried out by BBH's Risk and Credit Group and is focused on the sub-custodian bank's capital adequacy, asset quality, earnings, liquidity and credit ratings as key indicators, amongst others. These reviews form part of BBH's routine assessment of a sub-custodian's financial strength and standing.

In addition, as the Company may invest in markets where custodial and/or settlement systems are not fully developed, the assets of the Company which are traded in such markets and which have been entrusted to subcustodians, in the circumstances where the use of such sub-custodians is necessary, may be exposed to risk in circumstances whereby the Depositary will have no liability. While cash held by the sub-custodian is identifiable as belonging to the Company, the Company will be exposed to the credit risk of the financial institution where cash is deposited. In the event of insolvency of the financial institution, the Company will be treated as a general creditor of the financial institution in relation to cash holdings of the Company.

### Portfolio by Rating Category

The Sub-Funds' Delegate Investment Manager utilises well-known rating agencies for determining credit quality of the financial assets. For assets that are unrated by these well-known rating agencies, the Delegate Investment Manager assigns a rating using an approach that is consistent with the rating agencies.

<sup>\*</sup> Ratings are based solely on Moody's ratings scales and ratings and/or coverage of assets rated by Moody's may change from year to year.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

In order to minimise credit risk further, the Delegate Investment Manager will normally use the Sub-Funds' Depositary to execute its currency hedges to the extent that competitive rates and execution can be achieved. Additionally, in order to seek competitive pricing, the Delegate Investment Manager will generally buy from, or sell to, large, well-known financial institutions (almost always banks) with high credit ratings. As a result, counterparty risk in currency hedge activities is believed to be negligible.

In accordance with the Investment Manager counterparty risk policy principles, the Delegate Investment Manager seeks to mitigate counterparty credit risk in the following manner.

The Delegate Investment Manager has adopted Derivative Counterparty Risk Policies and Procedures to assist
it in monitoring, managing and mitigating, where possible, the counterparty risk associated with Counterparty
Risk Transactions.

<sup>\*\*</sup> Included in "Not Rated" are Cash, Equities and debt securities. In order to monitor the credit quality of the "Not Rated" underlying debt securities, the Delegate Investment Manager, on the basis of internal research, prepares its own shadow ratings for the various debt instruments for which publically available credit ratings are not available. The Delegate Investment Manager reviews the key financial metrics of the issue and structural features of the debt instruments in order to calculate the implied ratings for each of these investments. The majority of unrated debt securities have been assessed by the Delegate Investment Manager to have credit quality consistent with BBB/Baa rated securities. A BBB/Baa rating is the lowest rating that a bond can have and still be considered investment-grade. An investment grade bond is a bond considered to have a relatively low risk of default.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

Credit Risk (Continued)

### Portfolio by Rating Category (continued)

- The Delegate Investment Manager will not execute Counterparty Risk Transactions for an account with any
  counterparty that is not on the Approved Derivatives Counterparty List of the trading desk that is responsible
  for trading the account.
- In order to be added to the Approved Derivatives Counterparty List, a counterparty must have a credit rating of Baa3 and BBB- by Moody's and S&P. If the counterparty is split rated, the lower rating will apply.
- The credit rating of a counterparty is not solely indicative of the risk associated with the counterparty. While a counterparty may satisfy the minimum credit rating requirement, the spread on a 5 year credit default swap ("CDS") on a counterparty, if available, is also a very good measure of the perceived market risk associated with the counterparty. Therefore, if the spread on a 5 year CDS on a counterparty is 350 basis points or more, said counterparty will be considered to be on 'Watch', whereby the Delegate Investor Manager's Derivative Counterparty Risk Committee ("Committee"), will review the process. If the spread on a 5 year CDS on a counterparty is 500 basis points or more, said counterparty will be subject to a formal review by the Committee which will determine what it believes to be the appropriate course of action as discussed below.
- If a counterparty no longer satisfies the minimum credit rating required as an Approved Derivatives Counterparty or is otherwise deemed to be at risk based on the 5 year CDS spread on the counterparty, if available, the Committee will determine the appropriate course of action. Such action may include:
  - Suspension of some or all trading with the counterparty;
  - Removal of the counterparty from the Approved Derivatives Counterparty List; and/or
  - Closing out or assigning unsettled transactions with the counterparty.
- The Committee receives reports on the aggregate unrealised gains associated with any unsettled Counterparty Risk Transactions with Approved Derivatives Counterparties on a daily basis. The Delegate Investment Manager's Fixed Income Research Department will periodically review the creditworthiness of all counterparties contained on the Approved Derivatives Counterparty List and notify the Head of Trading, Chief Compliance Officer and the Committee if any credit issues arise with respect to such counterparties. Separately, the Fixed Income Trading Desk provides the Committee with weekly reports on the spreads of 5 year CDS spread on all Approved Derivates Counterparties, if available. In addition to reviewing the daily counterparty exposure reports, the Committee meets at least quarterly and when deemed necessary to evaluate counterparty risk.
- To further mitigate counterparty risk the Delegate Investment Manager enters into International Swap and Derivatives Association agreements ("ISDAs") with their Approved Derivatives Counterparties on behalf of many of their clients where possible. The ISDAs establish the agreed upon terms and conditions of the transactions effected under an ISDA, and they also provide for the movement of collateral from the Approved Derivatives Counterparty to a client's depositary when Counterparty Risk Transactions are "in-the-money". Conversely, the ISDA requires the movement of collateral from a client's custody account to the Approved Derivatives Counterparty, when the investment is in a loss position. The ISDA also provides that the amounts owed to or payable by one party to the other can be netted to ensure the efficient use of capital. The requirement that a counterparty post collateral with a client's depositary in the amount a contract is in-the-money mitigates the credit risk exposure to such counterparty, since the client will be able to take possession of the collateral in the event of the default of the counterparty.
- The negotiation and execution of ISDAs is a lengthy and difficult process. Not all Counterparties have ISDAs in place, but the Delegate Investment Manager continues to seek to put them in place where it can.
- Finally, requests to add a new derivatives counterparty or changes to existing ones must be pre-approved by
  the Head of Trading and the Chief Compliance Officer at the Delegate Investment Manager through their
  automated broker-dealer approval system and communicated to the Investment Manager as it regards the
  Company.

Activities carried out by the Delegate Investment Manager regarding Credit Risk are reviewed by the Investment Manager during periodic reviews of the Delegate Investment Manager as part of their delegation oversight program.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Sub-Funds are exposed to daily cash redemptions of Redeemable Participating Shares. The Sub-Funds generally retain a certain portion of their assets in cash, which is available to satisfy redemptions. In addition, in accordance with the Prospectus, only a limited portion of the assets of each Sub-Fund is invested in transferable securities or money market instruments that are not readily tradable. Should it be necessary to raise cash quickly, the Sub-Funds are entitled to borrow, on a temporary basis, provided that their individual aggregate borrowings do not exceed 10% of their respective Net Asset Values.

Liquidity risk is also managed by provisions that authorise the Board of Directors to suspend or otherwise limit redemptions in certain circumstances, including when total redemption requests for a Sub-Fund on a particular day exceed 10% of its total number of Redeemable Participating Shares outstanding. The Board of Directors has not invoked this provision for any Sub-Fund since establishment.

The Investment Manager has designed proprietary liquidity management systems and procedures and/or uses industry risk modules to measure the liquidity risk of the Sub-Funds and ensures that the liquidity profile of the Sub-Funds' investments is in line with the obligations and in particular that the Sub-Funds will be in a position to satisfy Unitholders' redemption requests in accordance with the provisions of the Prospectus.

For the Sub-Funds, the liquidity risk indicators are calculated using a highly stress market scenario. By analysing the liquidity profile of the Sub-Funds' investments, the Investment Manager defined some liquidity risk signals. The Investment Manager monitors the liquidity risk indicators on a daily basis.

In addition, the Investment Manager monitors monthly main investors' positions and compares such liquidity needs with the liquidity of the Sub-Funds' holdings in order to confirm that the Sub-Funds have sufficient liquidity to meet such redemptions.

There was one investor holding 24% of the net assets of the Loomis Sayles High Income Fund at 31 December 2017, and two investors holding 33% and 23% of the net assets of the Loomis Sayles Global Opportunistic Bond Fund at 31 December 2017. The Investment Manager is comfortable at this time that if a redemption were to be placed for the full value of either of these accounts, on either of these funds, that there would be no issue with liquidating assets in order to satisfy these positions. Refer to the Note 12 of the financial statements for more details.

When appropriate, a specific liquidity risk process based on a qualitative approach is implemented by the Investment Manager with the Delegate Investment Manager to confirm and evidence the liquidity of specific less liquid assets.

The Sub-Funds' liquidity positions are also monitored on a daily basis by the Delegate Investment Manager. Any significant concerns in these areas are immediately brought to the attention of the Board of Directors, otherwise they are periodically reviewed by the Board as its meetings.

Particularly for derivatives, given the nature of the financial derivative instruments used in the Sub-Funds, the currencies involved and the relatively low position sizes, the level of liquidity risk is expected to be low. The following tables analyse the Sub-Funds' exposure to liquidity risk.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Capital Risk Management

The capital of the Sub-Fund is represented by the net assets attributable to holders of redeemable shares. The amount of net asset attributable to holders of redeemable shares can change significantly on a daily basis, as the Sub-Funds are subject to daily subscriptions and redemptions at the discretion of shareholders, as well as changes resulting from the Sub-Funds' performance. The Sub-Funds' objectives when managing capital are to safeguard the Sub-Funds' abilities to continue as a going concern in order to provide returns for shareholders and maintain a strong capital base to support the development of the investment activities of the Sub-Funds.

In order to maintain the capital structure, the Sub-Funds' policies are to redeem and issue new shares in accordance with the constitutional documents of the Sub-Funds, which include the ability to restrict subscriptions and redemptions.

The Board of Directors and Investment Manager monitor capital on the basis of the value of net assets attributable to redeemable shareholders.

### Fair Value Estimation

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities; U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations, listed equities and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Delegate Investment Manager. The Delegate Investment Manager, in consultation with the Administrator, considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

### Loomis Sayles Multisector Income Fund

The following tables analyse within the fair value hierarchy the Sub-Fund's financial assets and liabilities measured at fair value at 31 December 2017 and 31 December 2016:

Total	122,053,037	856,799,968	9,345,198	988,198,203

<sup>\*</sup> Includes securities with Zero fair value.

At 31 December 2016, for the Loomis Sayles Multisector Income Fund the level 3 amount consisted of 1 preferred stock position (USD 1,330,490) and 10 corporate bond positions (USD 1,121, USD 34,190, USD 38,562, USD 4, USD 5,599,352, USD 1,012,063, USD 179,528, USD 40,238, USD 226,000, USD 883,650) that had each been valued either using a broker provided quotation that was thought to be indicative of their respective market prices, but where each had unobservable inputs assumed in their valuations (USD 2,415,351), or valued based on fair value (USD 6,929,847).

The following tables present the transfers between levels for securities held at 31 December 2017 and 31 December 2016. Transfers between levels of the fair value hierarchy, for purposes of the tables below, are deemed to have occurred at the beginning of the reporting period.

### At 31 December 2017

	Level 1	Level 2	Level 3
Transfers between levels 3 and 2:			
Bonds	_	3,812,515	(3,812,515)
Equities	_	1,619,836	(1,619,836)

At 31 December 2017, for the Loomis Sayles Multisector Income Fund, the net amount disclosed for bond securities that transferred from level 3 to level 2 was the result of 1 corporate bond in the amount of USD 3,812,515 this security was valued using an evaluated bid quotation provided by a third party security pricing vendor, as it was deemed to be a better indicator of what the Sub-Fund would realize in an actual arm's length transaction.

Notes to the Financial Statements as at 31 December 2017 (Continued)

### 13. FINANCIAL RISK MANAGEMENT (Continued)

### Fair Value Estimation (Continued)

### Loomis Sayles Multisector Income Fund (Continued)

### At 31 December 2016

	Level 1	Level 2	Level 3

### Offsetting

None of the financial assets and financial liabilities are offset in the Statement of Financial Position. The disclosures set out in the tables overleaf include financial assets and financial liabilities that are subject to an enforceable ISDA Master Agreement.

The ISDA Master netting arrangements do not meet the criteria for offsetting in the Statement of Financial Position. This is because they create a right of set-off of recognized amounts that is enforceable only following an event of default, insolvency or bankruptcy of the Company or the counterparties. In addition, the Company and its counterparties do not intend to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

#### 14. EFFICIENT PORTFOLIO MANAGEMENT

The Company may, for the purposes of efficient portfolio management and hedging of currency risks, engage in financial derivative instruments to the extent permitted by the investment objectives and policies of the Sub-Funds and subject to the limits set down by the Central Bank of Ireland from time to time and to the provisions of the Prospectus. During the financial year ended 31 December 2017, the Company engaged in efficient portfolio management techniques through the use of interest rates future transactions.

The Company entered into forward currency transactions for the purpose of hedging currency risk on investment and cash holdings, to hedge benchmark risk. The Company also entered into forward currency transactions for the purpose of share class hedging.

Contracts outstanding at 31 December 2017 are disclosed in the Schedule of Investments. Realised gains and losses on financial instruments used for efficient portfolio management purposes are included in the table below.

Fund	Futures Commission Expense	Realized Gain	Unrealized (Loss)
Loomis Sayles Global Opportunistic Bond Fund	5,113	133,475	(48,866)

#### 15. SOFT COMMISSION ARRANGEMENTS

There were 17 soft commission arrangements entered into by the Investment Manager or the Delegate Investment Manager on behalf of the Loomis Sayles Multisector Income Fund amounting to USD 29,495 (31 December 2016: 10 soft commission arrangements amounting to USD 17,703).

There were 10 soft commission arrangements entered into by the Investment Manager or the Delegate Investment Manager on behalf of the Loomis Sayles High Income Fund amounting to USD 1,188 (31 December 2016: 12 soft commission arrangements amounting to USD 9,809).

<sup>1</sup> Net amount represents the net amount due to/ from the counterparty in the event of default.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.
