Schroder International Selection Fund

The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives.

This report covers the year from 1 January 2020 to 31 December 2020. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 31 December 2020, the last working day of the year and 30 December 2020 for Schroder ISF EURO Equity, Schroder ISF European Large Cap, Schroder ISF Italian Equity, Schroder ISF Japanese Equity, Schroder ISF Swiss Equity, Schroder ISF European Alpha Focus, Schroder ISF European Dividend Maximiser, Schroder ISF European Opportunities, Schroder ISF European Smaller Companies, Schroder ISF European Special Situations, Schroder ISF European Sustainable Equity, Schroder ISF Japanese Opportunities, Schroder ISF Japanese Smaller Companies, Schroder ISF Latin American, Schroder ISF Sustainable Swiss Equity, Schroder ISF Swiss Small & Mid Cap Equity and Schroder ISF Japan DGF. At the date of this report, 127 Sub-Funds were available for investment. Please refer to the current prospectus for the investment objectives of the Sub- Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (http://www.schroders.lu).

Hereafter, names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442

For sub-funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Permissions Regime (TPR). This regime allows registered sub-funds to be distributed and marketed in the UK/to UK investors post Brexit.

Corporate Governance

The Company is subject to corporate governance based on:

- 1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
- 2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").
- 3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
- 4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

5. Hard closures

During the year under review, following share classes were hard closed:

16 October 2020 Schroder ISF Global Energy Transition Class E Acc, Class E Acc CHF Hedged, Class E Acc EUR Hedged, Class E Acc GBP Hedged, Class E Dis GBP.

6. Sub-Fund mergers

There were 2 mergers during the year under review.

| Date | Current name | Previous name |
|-----------------|--|--|
| 16 April 2020 | Schroder ISF Asia Pacific Cities Real Estate merged into | o Schroder ISF Global Cities Real Estate |
| 9 December 2020 | Schroder ISF QEP Global Blend merged into Merger in | to Schroder ISF QEP Global ESG |

7. Sub-Fund name changes

During the year under review, the following Sub-Funds changed their names:

| Date | Current name | Previous name |
|------------------|--|---|
| 06 March 2020 | Schroder ISF Short Duration Dynamic Bond | Schroder ISF Global Unconstrained Bond |
| 19 February 2020 | Schroder ISF Sustainable Swiss Equity | Schroder ISF Swiss Equity Opportunities |
| 19 February 2020 | Schroder ISF Inflation Plus | Schroder ISF Wealth Preservation |
| 26 February 2020 | Schroder ISF Global Credit High Income | Schroder ISF Global High Income Bond |

Furthermore, the following changes took effect during the year:

19 February 2020

Schroder ISF Inflation Plus changed its investment objectives and policies as a result of the name change.

Schroder ISF Sustainable Swiss Equity changed their investment objective as a result of the name change and performance fees were no longer applied to the Sub-Fund.

6 March 2020

Schroder ISF Short Duration Dynamic Bond changed their fund name, objectives and policy, base currency, form of distribution and fee reduction as a result of Restructure.

Management Fees decrease for Schroder ISF Short Duration Dynamic Bond Class A Acc, Class A Acc USD Hedged, Class A Dis, Class B Acc and Class B Dis from 1.00% to 0.50%.

Management Fees decrease for Schroder ISF Short Duration Dynamic Bond Class C Acc, Class C Acc USD Hedged and Class IZ Acc USD Hedged from 0.60% to 0.30%.

Management Fees decrease for Schroder ISF Short Duration Dynamic Bond Class E Acc and Class E Acc USD Hedged from 0.30% to 0.25%.

Schroder ISF Short Duration Dynamic Bond Class A Dis and Class B Dis Classes changed the distribution policy from quarterly fixed 3.00% to quarterly variable.

31 March 2020

Schroder ISF Asian Bond Total Return, Schroder ISF Global Diversified Growth, Schroder ISF Euro Credit Conviction, Schroder ISF Euro Corporate Bond, Schroder ISF Euro High Yield, Schroder ISF Emerging Market Bond, Schroder ISF Emerging Multi-Asset Income and Schroder ISF Global Bond changed rates for fixed rate distribution share classes.

1 July 2020

Management fee decrease for Schroder ISF Global Emerging Market Opportunities Class X Acc from 1% to 0.7%

Schroder ISF Euro Corporate Bond, Schroder ISF Euro Credit Conviction, Schroder ISF EURO Credit Absolute Return and Schroder ISF Sustainable EURO Credit changed investment manager from Schroder Investment Management Limited to Schroder Investment Management (Europe) S.A.

1 September 2020

Management Fees decrease for Schroder ISF Emerging Markets Class X3 Acc, Class X3 Acc EUR and Class X3 Acc and Class X3 Acc GBP from 0.61% to 0.58%.

9 December 2020

Management Fees decrease for Schroder ISF QEP Global ESG ex Fossil Fuels Class A Acc and Class A Acc SEK Hedged from 1.30% to 1.25%.

The Board of Directors

Schroder International Selection Fund

31 December 2020

Investment Manager's Report

2020 review

The year was dominated by the dramatic spread of Covid-19 around the world. After the discovery of the virus in China, countries went into lockdown to try to contain what was soon declared a global pandemic. Sectors such as hospitality and travel were particularly badly affected amid restriction of gatherings and stay-at-home orders. Governments and central banks announced measures to support businesses and households, and to reduce borrowing costs.

The pandemic had a severe economic impact. US non-farm payrolls showed 20.5 million jobs were lost in the country in April, with the jobless rate rising to 14.7%. The Federal Reserve (Fed) cut interest rates twice in March, taking rates to 0-0.25%, and announced unlimited quantitative easing (buying bonds). The US Senate also passed a \$2 trillion stimulus package.

Europe was also hit hard by the virus with Italy and Spain among the worst affected countries in the early phase of the pandemic. The European Commission proposed a €750 billion recovery fund to support economies in the wake of the crisis. The European Central Bank expanded its pandemic emergency purchase programme to €1.35 trillion. In the UK, the Bank of England cut interest rates to 0.1%.

Japan saw a far lower level of Covid-19 cases and deaths than most western developed economies. As a result, practical restrictions on social and business activities were far less restrictive than those seen in Europe. However, the pandemic did lead to the postponement of the 2020 Tokyo Olympics. Other Asian nations also weathered the pandemic relatively successfully, with China largely managing to contain the virus after early lockdowns in affected areas. Other emerging markets fared less well, with Brazil and much of the rest of South America suffering highs levels of infections and deaths.

Across Europe and the US, lockdown measures and the arrival of warmer weather allowed lockdown restrictions to start being lifted in the late spring and early summer. This allowed economic activity to pick up, but a renewed increase in infections in the autumn resulted in restrictions being imposed once again. The turbulence for the economic was reflected in growth data, with US GDP plunging by 31.4% in Q2 2020, then advancing 33.4% in Q3. The US economy ended the year 3.5% smaller overall. China saw growth of 2.3% in 2020 and is likely to be the only major economy to avoid contraction as a result of Covid-19.

On the political front, Japan saw a change of prime minister in September after Shinzo Abe stepped down amid health problems. He was replaced by Yoshihide Suga, who was seen as a continuity candidate who may reignite some of Abe's proposed structural reforms once the pandemic is over. In the UK, a Brexit trade deal with the European Union was eventually reached just days before the end of the transition period on 31 December.

However, the major political focus of the year was the US presidential election in November, which saw Democrat Joe Biden defeat incumbent Donald Trump. The election results coincided with news of successful vaccines against Covid-19, sparking hopes that economic stimulus would be agreed and that the vaccines would provide a route towards normal activity resuming once more.

Equity market review

Global equities, as measured by the MSCI World Index, returned 15.9% in 2020 (in US dollar terms). Markets fell sharply in March and April as it became clear that the coronavirus was spreading globally. However, the fiscal and monetary support offered by governments and central banks soon saw shares turn higher.

However, the strong overall gain masked very divergent performance within the market. Growth stocks continue to dominate, with value actually showing a negative return. The MSCI World Growth index returned 33.8% while MSCI World Value returned -1.2% (both in US dollar terms). The year saw the continued dominance of a narrow group of widely held stocks which were already the established market leaders of recent years - Apple, Microsoft and Amazon among them. By contrast, value parts of the market lagged with the energy sector particularly under pressure as oil prices tumbled amid reduced demand.

By region, the US was a strong performer with other in-demand stocks such as Netflix also supporting the market. The S&P 500 returned 18.4% (in US dollar terms) compared to -1.0% (in euros) for the eurozone MSCI EMU index. The UK was a key underperformer with the FTSE All-Share posting a negative return (-9.8%, in sterling) amid Brexit uncertainty and some disappointment regarding the handling of the Covid crisis. Emerging markets performed strongly with the MSCI EM index returning 18.3% while the standout gains were made in Asian shares as the MSCI AC Asia ex Japan index gained 25.0% (both in US dollars).

(Data source: DataStream)

Fixed income review

Government yields fell over the period as the Covid-19 pandemic led investors to seek lower risk assets, with central banks launching further vast supportive policy measures.

The US 10-year yield fell 100 basis points (bps) to 0.91%. The UK 10-year yield was over 60bps lower at 0.20%. Following the Covid crisis, the Bank of England began to discuss the possibility of negative interest rates and Brexit uncertainty resurfaced with a deal between the UK and EU reached only days before the deadline

In Europe, Germany's 10-year fell from -0.19% to -0.57%, Italy's by 90bp to 0.52% and Spain's fell from 0.47% to 0.05%. The EU agree on a pandemic recovery fund which includes the promise of direct grants to countries to aid the recovery from the impact of Covid-19. Italy and Spain stand to be prime beneficiaries.

Corporate bonds sold-off sharply in the Covid crisis but rebounded sharply, delivering positive total returns for the year, outperforming government bonds. Investment grade returned 7.7% (local currency). High yield gained 6.3%, nearly all due to returns from income.

(Data source: ICE BAML)

Outlook

The Schroders economics team forecasts global GDP growth at 5.5% in 2021. The first few months of the year are likely to see weaker activity due to the pandemic and heightened restrictions in a number of countries. However, in the second half of 2021, growth should pick up following the roll-out of vaccines and a return to normality. The vaccines are intended to be distributed to a significant proportion of the population by the third quarter and should revive spending on services. The team also sees the recovery extending into 2022 as fiscal and monetary policy remain loose while activity normalises.

Meanwhile, inflation is forecast to remain relatively contained with only a modest pick-up in response to higher commodity prices. The firmer oil price and stronger activity push our global inflation forecast up slightly to 2.2% in 2021 and 2.4% in 2022. Central banks remain wary of the threat of deflation. The Federal Reserve's new framework means there will need to be a period of 2%-plus inflation to hit the average inflation target. That means zero interest rates and continued quantitative easing (QE). However, the economic recovery will also mean that QE will eventually moderate, although probably not until 2022.

In terms of the investment implications, equity valuations for some markets appear rich relative to history. However, valuations are supported by depressed bond yields. Equities could draw benefit from the fact that opportunities for return in other asset classes, such as credit, are now more limited. Meanwhile, a combination of continued liquidity provided by the central banks, fiscal support, positive news on vaccines and the ongoing cyclical recovery should support equities.

Regionally, emerging market equities are supported by the strength of the recovery in China, attractive valuations and a weaker US dollar. Japan is well positioned to benefit from the recovery in global trade given its exposure to industrials. Despite expensive valuations, relative to history and their peers, US stocks should continue to deliver positive returns. This is aided by the ample liquidity provided by the Fed. For Europe ex UK equities, this region stands to benefit the most from global activity normalising, given the cyclical nature of the stock market. Meanwhile, with the government reaching a Brexit deal with the EU, there is scope for UK equities to catch up to peers.

Investment Manager's Report (continued)

Outlook (continued)

Turning to fixed income, government bond valuations remain very expensive. US Treasuries can be a useful hedge as Covid still has the ability to derail growth in the short term. However, German Bunds offer limited protection against the prospect of a growth disappointment. On corporate credit, the recent tightening in spread levels has made valuations less attractive. However, for the investment grade sector, liquidity support measures from the central banks, particularly buying by the Fed and the ECB, continue to benefit the market. By contrast, fundamentals in the HY sector, particular in the US market, are weak with corporate leverage near highs and interest coverage at record lows.

Commodities should see moderate gains as global economic activity begins to normalise. The recovery in demand plus the OPEC deal should support the oil price. As regards industrial metals, there continues to be a strong recovery in demand from China, particularly in property and infrastructure spending. Meanwhile, ongoing central bank stimulus underpins the low interest rate environment, which should support gold prices.

Audit report

To the Shareholders of Schroder International Selection Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Schroder International Selection Fund (the "Fund") and of each of its sub-funds as at 31 December 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets as at 31 December 2020;
- the schedule of investments as at 31 December 2020;
- the combined statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Schroder ISF QEP Global Equity Market Neutral where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
