Notes to the Financial Statements as at 31 December 2020

The Company

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The Company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

Classes of Shares

At the date of this report, twenty seven classes of shares are available within the Funds: A, A1, AX, B, C, CN, CX, D, E, F, I, IA, IB, IC, IE, IZ, J,

K1, R, S, U, X, X1, X2, X3, Y and Z shares.

All Sub-funds offer A, B and C shares, apart from the following Sub-funds:

Schroder ISF Asia Pacific ex-Japan Equity (offers only A, C, F, I & IZ); Schroder ISF Emerging Markets Equity Alpha (offers only A, C, E, I & IZ); Schroder ISF European Alpha Focus (offers only A, C, E, I, IZ, S & Z); Schroder ISF Global Gold (offers only A, A1, C, I, IZ, S & U); Schroder ISF Indian Opportunities (offers only A, A1, C, E, I & IZ); Schroder ISF Japanese Opportunities (offers only A, A1, C & I); Schroder ISF Sustainable Multi-Factor Equity (offers only C, I & IZ); Schroder ISF UK Alpha Income (offers only A, C, IZ & S); Schroder ISF QEP Global Core (offers only C, I, IA, IZ, X & X1); Schroder ISF QEP Global Emerging Markets (offers only A, A1, C, I, IZ, K1 & Z); Schroder ISF QEP Global ESG (offers only A, C, I, IZ & S); Schroder ISF QEP Global ESG ex Fossil Fuels (offers only A, C, I, IE & IZ); Schroder ISF QEP Global Value Plus (offers only A, C, I & IZ); Schroder ISF Alternative Risk Premia (offers only C, I & IZ); Schroder ISF Flexible Retirement (offers only A, A1, C, I & IZ); Schroder ISF Global Target Return (offers only A, A1, C, I, IZ & U); Schroder ISF Japan DGF (offers only C, I, IZ & X); Schroder ISF Hong Kong Dollar Bond (offers only A, A1, C, I & IZ); Schroder ISF China Local Currency Bond (offers only A, C, I & IZ); Schroder ISF Dynamic Indian Income Bond (offers only A, C, I & IZ);

Schroder ISF Global Conservative Convertible Bond (offers only A, C, E, I & IZ);

Schroder ISF Securitised Credit (offers only A, A1, C, E, I & IZ); Schroder ISF Global Managed Growth* (offers only A, C, E, I & IZ).

Shares are generally issued as Accumulation shares. Distribution shares may be issued within any Sub-Fund at the Directors' discretion. A list of available Distribution shares may be obtained upon request at the Management Company.

In accordance with the provisions of the current prospectus, the Directors may also offer classes in multiple currency denominations. The respective Investment Managers have the ability to hedge the shares of such classes in relation to the Sub-Fund currency or in relation to currencies in which the relevant Sub-Fund's underlying assets are denominated. Where hedging of this kind is undertaken, the respective Investment Managers may engage, for the exclusive account of such share class, in currency forwards, currency futures, currency option transactions and swaps in order to preserve the value of the reference currency against the Sub-Fund currency. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of such additional share class. Similarly, any expenses arising from such hedging transactions will be borne by the class in relation to which they have been incurred. The classes of share available for each Sub-Fund are set out in detail in the current prospectus. The Directors may decide from time to time for some or all of the Bond Funds to issue duration hedged share classes. Duration hedged share classes utilise hedging strategies that seek to reduce the share class' sensitivity to changes in interest rate movements. There is no assurance that these hedging strategies will be successful. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the share class. Similarly, any expenses arising from such hedging transactions will be borne by the duration hedged share classes can be issued in relation to any type of available share classes in the Bond Funds depending on interest rate movements. Duration hedged share classes can be issued in relation to any type of available share classes of Bond Funds.

The naming convention used for the share classes is as follows:

A Acc for base currency share class;

A Acc 'CCY' for a multicurrency share class;

A Acc 'CCY' Hedged for a hedged share class.

^{*} Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

Accounting Policies

Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis.

The Sub-Fund Schroder ISF QEP Global Equity Market Neutral is to be liquidated after the year end. Sub-Funds that have been liquidated or are intended to be liquidated after the year end are prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not lead to material adjustments to the Sub-Funds published net asset values.

At the reporting date the cash amounts held at custody for the following liquidated Sub-Funds were – Schroder ISF Korean Equity 676,434 USD, Schroder ISF Global Credit Duration Hedged 37,925 EUR, Schroder ISF Asia Pacific Cities Real Estate 12,468 USD, Schroder ISF QEP Global Blend 828,262 USD, Schroder ISF Multi-Manager Diversity 1,158 GBP, Schroder ISF Multi-Asset PIR Italia 11,995 EUR, Schroder ISF Asian Long Term Value -155,037 USD and Schroder ISF Global Multi-Factor Equity 21,593 USD.

Net Asset Value

Calculation of Net Asset Value per Share

The Net Asset Value ('NAV') per Share of each Class is calculated on each Dealing Day in the currency of the relevant class. It is calculated by dividing the NAV attributable to each Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Class then in issue. The resulting sum is rounded to the nearest four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

Valuation of the Assets of the Company

The value of securities, derivative instruments and assets is determined on the basis of the last available price on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the last available price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Liquid assets and Money Market Instruments will be valued at Mark-to-Market or Mark-to-Model where the use of Mark-to-Market is not possible or the market data is not of sufficient quality.

Units or shares in open-ended undertakings for collective investment are valued on the basis of the latest available reported Net Asset Value.

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures. Any assets or liabilities in currencies other than the base currency of the Sub-Funds are converted using the relevant spot rate quoted by a bank or other responsible financial institution.

The Directors are authorised, to the extent allowed by applicable by law, to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given Share Class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

As of 31 December 2020, fair valuation was applied to the following securities:

| Security Name | Sub-Fund |

Fair Value Pricing

In accordance with the provisions of the current prospectus, fair value pricing may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly, if a Sub-Fund is primarily invested in markets that are closed for business at the time the Sub-Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Sub-Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Sub-Fund's investments at the point of valuation. The level of adjustment is based upon a systematic process involving a multi-factor regression approach that incorporates global, regional and security specific factors up until the point of valuation.

The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds wherever they deem it appropriate.

On 31 December 2020, the last working day of the year under review, the following Sub-Funds were adjusted.

| Sub-Fund | Currency | Total Adjustment |
|--|----------|------------------|
| Schroder ISF Asian Opportunities | USD | (1,339,725) |

Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Directors, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and in normal market conditions is not expected to exceed 2% of the unadjusted Net Asset Value per Share of the relevant Fund on any Dealing Day. However, under unusual or exceptional market conditions (such as significant market volatility, market disruption or significant economic contraction, a terrorist attack or war (or other hostilities), a pandemic or other health crisis, or a natural disaster), the Management Company may decide, on a temporary basis, to adjust the Net Asset Value of a Fund by more than 2% when such a decision is justified as being in the best interests of the shareholders. Any such decision to adjust the Net Asset Value by more than 2% will be published on the following website: www.schroders.lu..

* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

Swing Pricing Adjustment (continued)

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

No Swing Pricing adjustment was required on 31 December 2020, the last working day of the year under review.

Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-Funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract. Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Realised Gains and Losses on Sales of Investments in Securities

Realised gains and losses on sales of investments in securities are determined on the average cost basis and include transactions cost.

Forward Currency Exchange Contracts

Outstanding forward currency exchange contracts are valued at the last available price on 31 December 2020 by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on forward currency exchange contracts'.

Futures Contracts

Futures contracts were valued at the last available price on 31 December 2020. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on financial futures contracts'.

Options Contracts

Options contracts were valued at the last available price on 31 December 2020 and the net market value is shown in the Combined Statement of Net Assets under 'Options purchased and swaptions contracts at market value' for assets and under 'Options written and swaptions contracts at market value' for liabilities.

Inflation Rate Swap Contracts

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued at the last available price on 31 December 2020 at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing date. The result of these revaluations together with any interest receivable/payable in relation to inflation swaps on 31 December 2020 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Interest Rate Swaps Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps. Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price on 31 December 2020 at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 31 December 2020 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Credit Default Swaps

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net change in realised appreciation/ (depreciation) on swap contracts" in the Combined Statement of Operations and Changes in Net Assets.

Total Return Swaps

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with financial institutions specialised in this type of transaction. In addition, the use of total return swaps must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total commitments arising from the use of total return swaps together with the total commitments arising from the use of other derivative instruments may not, at any time, exceed the net assets of the relevant Sub-Fund.

The total return swaps were valued at the last available price on 31 December 2020. The unrealised gain or loss on total return swaps at the year end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Fees and Expenses

Expense Subsidy

The administration fees, custodian fees, distribution fees, management fees and statutory fees are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. These fees were monitored to ensure the total expenses incurred were not deemed to be significant relative to the Net Asset Value of the Sub-Funds (above threshold agreed by the Board of Directors).

The following table shows the share classes whose TER was above the designated CAP as at reporting date.

| Sub-Fund | Classes | TER Cap |

Operating Expenses

The Sub-Funds pay other Operating expenses incurred in the operation of the Company which are composed of statutory fees and are mainly audit, legal and publication fees, please refer to the 'Operating Expenses' shown in the Combined Statement of Operations and Change in Net Assets.

Directors' Fees

For the year under review Daniel de Fernando Garcia received in remuneration the amount of EUR 23,352 per annum, Hugh Mullan received in remuneration the amount of EUR 32,830 per annum. Eric Bertrand, Marie-Jeanne Chevremont-Lorenzini and Bernard Herman each received EUR 54,167 in remuneration per annum.

Directors' Fees (continued)

The remaining directors have waived their remuneration.

Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-funds and are paid monthly. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 31 December 2020, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the table on pages 1073 – 1095. Please refer to the Directors report for changes to the management fees that occurred during the year under review.

Performance Fees

In accordance with the provisions of the current prospectus, performance fees terms were applied to 8 Sub-Funds. Accordingly, the Investment Managers of the relevant Sub-Funds are entitled to receive from the Sub-Funds a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub-Funds over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Sub-Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 15% of the outperformance (except for Schroder ISF European Alpha Focus, Schroder ISF QEP Global Equity Market Neutral, which is set at 10%, and for Schroder ISF European Alpha Absolute Return, Schroder ISF European Equity Absolute Return and Schroder ISF European Market Neutral which is set at 20%) and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Funds in relation to which performance fees were calculated during the year under review as well as details of the relevant Investment Managers and benchmarks are set out in the following table.

| Sub-Funds | Investment Manager | Benchmark |
|---|---|--|
| Schroder ISF European Alpha Focus | Schroder Investment Management Limited | MSCI Europe Net TR |

| Schroder ISF QEP Global Equity Market Neutral | Schroder Investment Management Limited | BBA Libor USD 3 Month Act 360 |

Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' to a rate of 0.05% per annum based on the net asset value of each Sub-Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Sub-Fund which comprises only institutional Investors (within the meaning of article 174 of the Law of 17 December 2010), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

Changes in the Sub-Funds

A list specifying the total purchases and sales for each Sub-Funds, which took place during the year under review, may be obtained free of charge upon request at the Company's registered office.

Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transactions.

Securities Lending

There has been no securities lending activity on the Company's Sub-Funds since December 2012.

Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Custodian transaction costs are not included in this table, please refer to the Depository Fees' shown in the Combined Statement of Operations and Change in Net Assets which includes custody transaction costs that represent fixed rate charges per market levied by the custodian for the servicing of portfolio transactions. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. The transactions costs for the year under review are as follows:

Investing in Russian securities

Those Sub-Funds with an investment objective that allows investment in Russian securities may invest directly in Russian securities that are traded on the Moscow Exchange. Securities traded on the Russian Trading Stock Exchange can be treated as investments in securities dealt in on a Regulated Market.

Investment Restriction

To ensure eligibility for the French Plan d'Epargne en Actions (PEA), Schroder ISF EURO Equity, Schroder ISF European Dividend Maximiser, Schroder ISF European Alpha Focus, Schroder ISF European Large Cap, Schroder ISF UK Alpha Income and Schroder ISF UK Equity will invest at least 75% of their assets in equity securities issued by companies which have their head office in the European Union, or in an EEA state that has signed a tax agreement with France, including a clause on combating fraud and tax avoidance.

Cross sub-fund investment

As at 31 December 2020, the total cross Sub-Fund investment amounts to EUR 1,324,429,881 and therefore, the total combined NAV at the year end without cross Sub-Fund investments would amount to EUR 107,454,209,162. The details of the cross Sub-Fund investments are disclosed in the following table:

| Investment | Sub-Funds Currency | Market Value | % of net assets |
|--|-----------------------|-----------------|-----------------|
| Schroder ISF Asian Opportunities | | | |
| Schroder ISF Asian Smaller Companies - Class I Acc | USD | 214,521,450 | 2.57 |
| Schroder ISF Indian Opportunities - Class I Acc | USD | 187,769,824 | 2.25 |
| | USD | 402,291,274 | 4.82 |

^{*} Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

Method used to calculate global exposure

The following sections indicate whether the UCITS global exposure is managed under a commitment approach, a relative Value at Risk relative VaR) approach or an absolute Value at Risk (absolute VaR) approach.

For Sub-Funds managed under a VaR approach, additional information is provided on the VaR model, the VaR benchmark, the regulatory VaR limit usage and the level of leverage reached.

1. Commitment approach

The approach used for the Sub-Funds with low derivative usage or Sub-Funds which limit their derivatives commitment to 100% or less of their Net Asset Value.

2. Relative VaR approach (continued)

The level of leverage is an indication of the derivative usage and of any leverage generated by the reinvestment of cash received as collateral when using efficient portfolio management techniques. It does not take into account other physical assets directly held in the portfolio of the relevant Sub-Funds. The figure is not representative of the maximum amount that a Sub-Fund could lose, as it includes the derivatives used to protect the Net Asset Value of a Sub-Fund as well as the derivatives backed by risk free assets and derivatives which do not generate any incremental exposure, leverage or market risk from an economic perspective. The reported leverage figure is therefore not a true representation of the economic leverage¹ in the Sub-Fund. The level of leverage disclosed is based on the total notional value² of all financial derivative instruments held by a Sub-Fund and is expressed as a percentage of Sub-Fund's Net Asset Value. For the purpose of this calculation the holdings and offset derivative positions ('long' and 'short' positions) do not cancel each other out and the figure is a sum of the total holdings (except for forwards used for currency hedging purposes).

Information on the VaR limit usage & level of leverage

| | Re | gulation VaR limit | utilisation | |
|---|--------|--------------------|-------------|------------------|
| Sub-Fund | Lowest | Highest | Average | Average leverage |

Country in which counterparties are established

The following table provides details of the country of incorporation of counterparties across all SFTs and Total Return Swaps, as at the reporting date.

| Counterparty | Country of Incorporation |
|---|--------------------------|
| Citigroup Global Markets Ltd. | United States of America |
| HSBC Bank plc | United Kingdom |
| J.P. Morgan Securities plc | United Kingdom |
| Morgan Stanley & Co. International plc London | United Kingdom |
| Standard Chartered Bank | United Kingdom |
| UBS AG London | United Kingdom |

Aggregate transaction data

Settlement and Clearing

The Sub-Fund utilises bi-lateral settlement and clearing with its counterparties for total return swaps.

Data on re use of collateral

Shares of collateral received that is reused and reinvestment return

The Sub-Fund does not reuse or reinvest collaterals received, if any, on total return swaps.

Collateral received

The following table provides an analysis of the amounts held at each custodian as collateral received by the Sub-Funds in respect of SFTs and OTC derivative transactions (including Total Return Swaps), as at the reporting date.

| Custodian | Value |
|---|---------|
| Schroder ISF European Equity Absolute Return | EUR |
| OTC derivative transactions | |
| J.P. Morgan Bank Luxembourg S.A. | 190,000 |
| Total | 190,000 |
| Schroder ISF QEP Global Equity Market Neutral | USD |
| OTC derivative transactions | |
| J.P. Morgan Bank Luxembourg S.A. | 300,000 |
| Total | 300,000 |

Collateral granted

The following table provides an analysis of the amounts held at each custodian as collateral granted by the Sub-Funds in respect of SFTs and OTC derivative transactions (including Total Return Swaps), as at the reporting date.

| Account type | Proportion % | Value |
|---|--------------|-----------|
| Schroder ISF QEP Global Value Plus | | USD |
| OTC derivative transactions | | |
| Segregated | 100.00% | 160,000 |
| Total | | 160,000 |

| OTC derivative transactions | | |
| Segregated | 100.00% | 30,000 |
| Total | | 30,000 |
| Schroder ISF QEP Global Equity Market Neutral | | USD |
| OTC derivative transactions | | |
| Segregated | 100.00% | 2,400,000 |
| Total | | 2,400,000 |
| Schroder ISF Asian Local Currency Bond | | USD |
| OTC derivative transactions | | |
| Segregated | 100.00% | 240,000 |
| Total | | 240,000 |

Return and cost

Total Return Swaps

Return on Total Return Swaps disclosed below are included as part of 'Interest on swaps', 'Net realised gains/(losses) on Swaps contracts' and 'Net change in unrealised appreciation/(depreciation) on Swaps contracts' in the Combined Statement of Operations and Changes in Net Assets". All returns on Total Return Swaps are attributable to these Sub-Funds and are not subject to return sharing agreements.

| | Total Return Swaps - returns for the Sub-Funds |
|---|---|
| Sub-Fund | Absolute - in Sub-Fund currency |
| Schroder ISF QEP Global Value Plus | 4,393,084 |
| Schroder ISF Alternative Risk Premia | 3,328,992 |
| Schroder ISF Global Multi-Asset Balanced | 489,606 |
| Schroder ISF Multi-Asset Total Return | 1,338,177 |
| Schroder ISF European Alpha Absolute Return | 4,915,497 |
| Schroder ISF European Equity Absolute Return | 3,200,502 |
| Schroder ISF European Market Neutral | 871,359 |
| Schroder ISF QEP Global Equity Market Neutral | 13,918,902 |
| Schroder ISF Asian Bond Total Return | 705,357 |
| Schroder ISF Asian Local Currency Bond | 771,918 |

Cost

The costs attributed to total return swaps held during the year were included in the spread.

Appendix III – Remuneration Disclosures (Unaudited)

UCITS remuneration disclosures for Schroder Investment Management Europe S.A. ('SIM Europe') for the year to 31 December 2019

These disclosures form part of the non-audited section of this annual report and accounts and should be read in conjunction with the Schroders plc Remuneration Report on pages 72 to 108 of the 2019 Annual Report & Accounts (available on the Group's website —www.schroders.com/annualreport2019), which provides more information on the activities of our Remuneration Committee and our remuneration principles and policies.

The UCITS Material Risk Takers ('UCITS MRTs') of SIM Europe are individuals whose roles within the Schroders Group can materially affect the risk of SIM Europe or any UCITS fund that it manages. These roles are identified in line with the requirements of the UCITS Directive and guidance issued by the European Securities and Markets Authority.

The Remuneration Committee of Schroders plc has established a remuneration policy to ensure the requirements of the UCITS Directive are met for all UCITS MRTs. The Remuneration Committee and the Board of Schroders plc review remuneration strategy at least annually. The directors of SIM Europe are responsible for the adoption of the remuneration policy, for reviewing its general principles at least annually, for overseeing its implementation and for ensuring compliance with relevant local legislation and regulation. During 2019 the Remuneration Policy was reviewed to ensure compliance with the UCITS/ AIFMD remuneration requirements and no significant changes were made.

The implementation of the remuneration policy is, at least annually, subject to independent internal review for compliance with the policies and procedures for remuneration adopted by the Board of SIM Europe and the Remuneration Committee. The most recent review found no fundamental issues but resulted in a range of more minor recommendations, principally improvements to process and policy documentation.

The total spend on remuneration is determined based on a profit share ratio, measuring variable remuneration charge against pre-bonus profit, and from a total compensation ratio, measuring total remuneration expense against net income. This ensures that the interests of employees are aligned with Schroders financial performance. In determining the remuneration spend each year, the underlying strength and sustainability of the business is taken into account, along with reports on risk, legal, compliance and internal audit matters from the heads of those areas.

The remuneration data that follows reflects amounts paid in respect of performance during 2019.

- The total amount of remuneration paid by SIM Europe to its 339 staff was €46.19 million of which €34.11 million was fixed remuneration (e.g. salaries, benefits in kind) and €12.08 million was variable remuneration (e.g. annual bonus awards or deferred bonus awards). Employees of other Schroders Group entities who serve as Directors of SIM Europe receive no additional fees in respect of their role on the Board of SIM Europe.
- The following disclosures relate to UCITS MRTs of SIM Europe. Most of those UCITS MRTs were employed by and provided services to other Schroders group companies, including as a result of delegation by SIM Europe of investment management or other responsibilities to other Schroders group entities or third parties. Many of those UCITS MRTs provide services to other Schroders group companies and other clients, and as a result, only a portion of remuneration for those individuals is included in the aggregate remuneration figures that follow, based on an objective apportionment to reflect the balance of each role using relevant regulated AUM as a proportion of the total AUM within the scope of each role. The aggregate total remuneration paid to the 241 UCITS MRTs of SIM Europe in respect of the financial year ended 31 December 2019, and attributed to SIM Europe's UCITS management company activities or the UCITS funds that it manages, is €51.17 million, of which €12.29 million was paid to senior management, €36.14 million was paid to MRTs deemed to be taking risk on behalf of SIM Europe or the UCITS funds that it manages and €2.74 million was paid to other UCITS MRTs including control function MRTs. These total remuneration values include amounts paid by delegates where available.
