## Investment strategy

Dexia Equities L Sustainable EMU is an SRI (Sustainable and Responsible Investment) subfund of the Dexia Equities L sicav. This subfund invests in the euro zone stocks of companies with a management strategy which takes into account their responsibility toward society and sustainable development. Those companies which most successfully integrate environmental, social and governance (ESG) concerns into their strategies are selected in each sector. For more information about the sustainability analysis and sustainable selection of the companies, please go to [www.dexia-am.com](http://www.dexia-am.com).

## NAV evolution (absolute value) since 3 years in EUR

Past performances listed in this document are no guarantee of future results, nor are performances guaranteed not to fluctuate over time. The NAVs listed above are supplied by Accounts and take into account any restructuring undergone by the subfund.

## Manager's comment

The comments on this fund are available on the website [www.dexia-am.com](http://www.dexia-am.com).

## Subfund's risk profile

To better understand the fund's risk profile, investors are asked to consider, in addition to their risk category, the risks that are inherent to the investment strategy as described in the prospectus. Investors should be aware that the fund's value may decrease, particularly due to its exposure to the following main risks:

- Equity market risk, i.e., the risk of seeing asset prices influenced by market fluctuations.
- Liquidity risk: certain market conditions may prevent the fund from selling its positions at the valuation prices.
- Derivatives and related risks, such as their sophistication, higher volatility, etc.
