NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC DIRECTORS' REPORT AND AUDITED FINANCIAL STATEMENTS

For the year ended 31 December 2009

No subscriptions should be made on the basis of the financial report alone. Subscriptions should only be made on the basis of the current Prospectus supplemented by the latest Annual Report and the latest Semi-Annual Report, if published thereafter.

Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Sub-Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

Background to the Company

Natixis International Funds (Dublin) I plc (the "Company") is structured as an open-ended umbrella investment fund with variable capital and segregated liability between its sub-funds, incorporated under the laws of Ireland on 26 June 1997 as a public limited company pursuant to the Companies Acts, 1963 to 2009. The Company has been authorised by the Financial Regulator as an investment company pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2003 (as amended) (the "UCITS Regulations"). The Company commenced operations on 30 June 1997.

There are currently Redeemable Participating Shares of three Sub-Funds (the "Sub-Funds") in issue, the Loomis Sayles Multisector Income Fund, the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) and the Loomis Sayles Global Opportunistic Bond Fund. At 31 December 2009, the Company offered the following Share Classes in each of the Sub-Funds:

Loomis Sayles Multisector Income Fund

Class I/D (USD) Shares

Class I/A (USD) Shares

Class I/D (GBP) Shares

Each Share Class is being offered to specific targeted investors, i.e., retail investors (Class R Shares and Class C Shares) and institutional investors (Class I Shares, Class S Shares, Class J Shares and Class H Shares). The functional currency of each Sub-Fund is currently U.S. Dollar. The Class I, Class R and Class S Shares are denominated in U.S. Dollar, Sterling and Euro. The Class H Shares are denominated in both Sterling and Euro. The Class C and Class J Shares are denominated in U.S. Dollar. As at 31 December 2009 Class H Shares, Class I Shares, Class R Shares, Class S Shares and Class C Shares were in issue. As at 31 December 2009, there were no Class J Shares in issue. The Class I/D (USD) and the Class R/D (USD) Shares of the Loomis Sayles Multisector Income Fund and the Loomis Sayles Global Opportunistic Bond Fund, as well as the Class I/D (USD) Shares of the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund), are listed on the Irish Stock Exchange.

Investment Objectives

The investment objective of Loomis Sayles Multisector Income Fund (the "Sub-Fund") is to achieve high total investment return through a combination of current income and capital appreciation. The Sub-Fund invests at least 51% of its total assets in bonds and other related fixed income securities issued by issuers having activities in at least three sectors of the economy. Bonds and other related fixed income securities include corporate fixed income securities, fixed income securities issued or guaranteed by the U.S. Government or its authorities, or supranational entities (e.g. the World Bank) as well as zero coupon securities, asset-backed securities and mortgage-backed securities. The Sub-Fund may invest up to 49% of its total assets in cash, money market instruments or securities other than those described above and up to 10% of its net assets in units of undertakings for collective investment. It also may invest any amount of its assets in securities of U.S. and Canadian issuers and up to 35% of its total assets in securities of below investment grade quality.

The investment objective of Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) (the "Sub-Fund") is to achieve high total investment return through a combination of current income and capital appreciation. The Sub-Fund, intended only for institutional investors, invests at least 51% of its total assets in fixed income securities, which are listed or traded on a global basis on the markets. Fixed income securities include corporate securities, securities issued or guaranteed by the U.S. Government or its authorities, or supranational entities (e.g. the World Bank), commercial paper, zero coupon securities, mortgage-backed securities, collateralised mortgage obligations, asset-backed securities, U.S. real estate investment trusts, Regulation S Securities, Rule 144A securities and convertible securities in accordance with the UCITS Regulations. The Sub-Fund may invest up to 49% of its total assets in cash, money market instruments or securities other than those described above and up to 10% of its net assets in units of undertakings for collective investment. The Sub-Fund invests no more than 20% of its total assets in preferred stocks and no more than 10% of its total assets in common stocks.

Background to the Company (Continued)

Investment Objectives (Continued)

The Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) may also invest any portion of its assets in securities of U.S. and Canadian issuers and any portion of its assets in securities of below investment grade quality.

The investment objective of Loomis Sayles Global Opportunistic Bond Fund (the "Sub-Fund") is to achieve high total investment return through a combination of high current income and capital appreciation. The Sub-Fund invests primarily in fixed income securities of issuers located in any country of the world, selected on an opportunistic basis. The Sub-Fund invests at least two-thirds of its total assets in investment grade fixed income securities issued by issuers on a world-wide basis. Fixed income securities include corporate fixed income securities, fixed income securities issued or guaranteed by sovereign governments or public international bodies as well as zero coupon securities, asset-backed securities and mortgage-backed securities. The Sub-Fund may invest up to one-third of its total assets in cash, money market instruments or securities other than those described above, up to 20% of its total assets in securities of below investment grade quality as well as, up to 10% of its net assets in units of undertakings for collective investment. It also may invest no more than 25% of its total assets in convertible bonds and no more than 10 % of its total assets in equities and other equity-type securities such as common stocks, warrants, depositary receipts for any of those equity securities.

Each Sub-Fund may engage in financial derivative instruments for the purposes of efficient portfolio management.

Other Relevant Information

Audited annual reports and unaudited half-yearly reports are available from the administrator at the address listed under "Organisation" on page 1 and are sent to shareholders at their registered addresses. The latest version of the Prospectus is also available from the Administrator at the address listed on page 1.

Delegate Investment Manager's Reports

Loomis Sayles Multisector Income Fund

1 Year Performance	
Loomis Sayles Multisector Income Fund (Class I/D (USD))	39.69%
Barclays Capital U.S. Government/Credit Bond Index TR USD	4.52%

The Fund outperformed its reference index in 2009 as credit markets experienced a stunning technical rally from historic lows at the beginning of the year. Investors sought yield in the low interest rate environment and were rewarded for assuming risk.

Sector allocation was a strong relative positive as yield spreads shrank steadily from historically-wide margins throughout the period and the Fund was well-positioned. This was due to the overweight in investment grade corporate bonds as well as a large underweight to U.S. Treasuries as the reach for yield continued throughout the year, keeping Treasury prices range-bound. Furthermore, the Fund's off-index exposures were beneficial to relative returns including high yield, emerging markets and non-U.S. Dollar denominated securities.

The Fund's high yield industrial positions were the top performers on a relative basis. Specifically, auto credits fared well, as companies were able to renegotiate more beneficial union contracts and roll-out new marketing programs. Health care bonds held by the Fund also performed well due to events surrounding the U.S. universal health care debate, including a health care convertible credit involved in late-stage drug trials.

Generally speaking, convertibles also contributed positively to performance as low equity conversion premiums contributed greatly to convertible credit price appreciation, especially in the auto and health care industries.

Investments in non-U.S. Dollar denominated securities performed well, particularly the Canadian Dollar, British Pound, Brazilian Real and the Euro, as all four currencies experienced strong performance relative to U.S. Dollar throughout the period.

Nearly all sectors contributed positively to the performance of the Fund. Except for a few distressed financial names, there were no notable performance detractors.

Delegate Investment Manager's Reports (Continued)

Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund)

1 Year Performance	
Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income	
Fund) (Class I/D (USD))	58.87%
Barclays Capital U.S. Corporate High-Yield Bond Index TR USD	58.21%

Technical strength, improved maturity profiles and cost-controls among highly-leveraged firms helped the high yield market to post record returns. The Fund outperformed its reference index in 2009 largely due to credit selection within BB- and B-rated bonds.

Convertible bonds were among the top performing sectors in the Fund. Low equity conversion premiums and strong underlying equity market performance fueled the significant contributions.

Although returns from below investment grade finance company bonds were solidly positive, an underweight position dragged on relative performance for the year. The Fund's non-U.S. Dollar denominated holdings trailed the high yield index performance despite strong currency returns from countries rich in commodity exports. While the reopening of the high yield primary market has tempered default expectations, the managers continued to believe that the majority of defaults would come from lower-quality. Therefore, the Fund's underweight allocation to bonds rated CCC and below detracted from relative returns as lower-quality bonds outperformed during 2009.

Delegate Investment Manager's Reports (Continued)

Loomis Sayles Global Opportunistic Bond Fund

1 Year Performance	
Loomis Sayles Global Opportunistic Bond Fund (Class I/D (USD))	17.90%
Barclays Capital Global Aggregate Bond Index TR USD	6.93%

Strong security selection within the corporate sector as well as an overweight to that sector was the primary source of excess return relative to the Fund's reference index in 2009. Generally, many aspects of the Fund's positioning were additive on a relative basis. The Fund's currency allocation was positive as overweight exposures to the British Pound, Norwegian Krone, South Korean Won, Mexican Peso and Uruguay Peso contributed to overall returns. Select emerging market currencies, particularly those linked to commodities also performed well. The Fund's overweight corporate exposure and allocation to high yield and emerging market securities was performance additive as investor risk appetite continued to improve, aided by new issuance within the market.

The longer-than-index spread duration position detracted from absolute performance.

Loomis, Sayles & Company, L.P. February 2010

Please see past performance disclosure on cover page.

Custodian's Report

We have enquired into the conduct of Natixis International Funds (Dublin) I plc (the "Company") for the year ended 31 December 2009, in our capacity as Custodian to the Company.

This report including the opinion has been prepared for, and solely for, the shareholders in the Company as a body, in accordance with the Financial Regulator's UCITS Notice 4, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Custodian

Our duties and responsibilities are outlined in the Financial Regulator's UCITS Notice 4. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2003 as amended (the "UCITS Regulations"). It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Custodian must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Custodian Opinion

The Custodian conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in UCITS Notice 4 and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations; and
- (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association and by the UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association and the UCITS Regulations.

Brown Brothers Harriman Trustee Services (Ireland) Limited Styne House Upper Hatch Street Dublin 2 Ireland

21 April 2010

Directors' Report

The Directors submit their annual report together with the audited financial statements for the year ended 31 December 2009.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and International Financial Reporting Standards.

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping proper books of account which disclose with reasonable accuracy, at any time, the financial position of the Company and to enable them to ensure that the financial statements are prepared in accordance with International Financial Reporting Standards and comply with the Irish Companies Acts, 1963 to 2009, and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2003 (as amended) (the "UCITS Regulations").

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. The measures taken by the Directors to secure compliance with the Company's obligations to keep proper books of account are the use of appropriate systems and procedures and the appointment of experienced administrators and service providers. To this end, the Directors have appointed Brown Brothers Harriman Fund Administration Services (Ireland) Limited to provide fund accounting, fund administration and transfer agency services. The books of account are kept at Brown Brothers Harriman Fund Administration Services (Ireland) Limited, Styne House, Upper Hatch Street, Dublin 2, Ireland.

Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to the Trustee for safe-keeping. In carrying out this duty, the Company has delegated custody of the Company's assets to Brown Brothers Harriman Trustee Services (Ireland) Limited.

Principal Activities

The Company was originally authorised by the Central Bank of Ireland (renamed the Financial Regulator) as an investment company pursuant to Part XIII of the Companies Act, 1990. On 24 August 2000, the Company was granted approval by the Central Bank of Ireland as an investment company pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 1989.

The investment objectives of each Sub-Fund are outlined on pages 3 and 4.

Review of Business and Future Developments

The Net Asset Value of Loomis Sayles Multisector Income Fund increased by USD 324.6 million, a percentage increase of 117%. The Net Asset Value of Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) increased by USD 159.5 million, a percentage increase of 77%. The Net Asset Value of Loomis Sayles Global Opportunistic Bond Fund increased by USD 28.3 million, a percentage increase of 31%. The Investment Manager's Reports on pages 5 to 7 contain a review of the factors which contributed to the performance for the year. The Directors do not anticipate any changes in the structure or investment objectives of the Sub-Funds.

Directors' Report (Continued)

Risk Management - Objectives and Policies

Investment in the Company carries with it a degree of risk including, but not limited to, the risks referred to in Note 11 of these Financial Statements.

Results and Dividends

It is intended that each Sub-Fund will declare and pay dividends on the distributing shares of each Sub-Fund equal to the net operating income of that Sub-Fund. Each Sub-Fund will also distribute the excess of realised capital gains over realised capital losses in respect of investments of the Company.

Details of dividends declared by the Company during the year, together with comparatives for 2008, are disclosed in Note 14 to the Financial Statements.

The results for the year are set out in the Statement of Comprehensive Income on page 18.

Directors

The names of the persons who were Directors at any time during the year ended 31 December 2009 are set out below. Unless otherwise indicated they served as Directors for the entire year.

Eliza Deliyannides (UK)
Mark Doyle (US) (resigned 15 October 2009)
John Gallagher (US)
Daniel Morrissey (Independent) (Irish)
David Shubotham (Independent) (Irish)
Susan McWhan Tobin (US)
Jason Trepanier (US)

Directors' and Secretary's Interests

The Directors and Secretary and their families had no interest in the shares of the Company during the year ended 31 December 2009.

Transactions Involving Directors and Secretary

Apart from the transactions disclosed in Note 10 to the Financial Statements, the Board of Directors is not aware of any other contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Secretary had any interest as defined in the Companies Act, 1990, at any time during the year ended 31 December 2009.

The fees paid to Directors during the year are disclosed in Note 3 to the Financial Statements.

Employees

There were no employees of the Company throughout the year.

Independent Auditors

The independent auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with Section 160 (2) of the Companies Act, 1963.

Directors' Report (Continued)

Events During the Year

A new version of the Company's Prospectus was approved by the Financial Regulator on 17 June 2009. The main amendment to the Prospectus is the possibility for the Loomis Sayles Multisector Income Fund and the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) to invest in supranational entities. The R/A (USD) Share Class was also made available for subscription on the Loomis Sayles Mutlisector Income Fund.

Events After the Year End

A subsequent version of the Company's Prospectus was approved by the Financial Regulator on 13 January 2010. The Prospectus details the amendment to the name of Loomis Sayles Institutional High Income Fund to Loomis Sayles High Income Fund. Additional Share Classes were also made available for subscription.

Natixis Asset Management ceased in their role as distributor to the Company on 13 January 2010.

A new reporting fund regime was introduced by HM Revenue and Customs with effect from 1 December 2009, which will apply in the case of the Company to the accounting year ending 31 December 2010 and subsequent periods. In accordance with the new reporting fund regime, each share class will be viewed as a separate "offshore fund" for UK tax purposes.

The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund" without a requirement to apply for further certification by HM Revenue and Customs.

An application for each distributing Share Class (as defined in the Prospectus) to be treated as a "reporting fund" for the accounting year ending 31 December 2010 was submitted to HM Revenue and Customs on 19 February 2010.

Other than the above, there were no subsequent events after the year end other than those detailed in Note 16.

On behalf of the Board Director Director 21 April 2010

Independent Auditors' Report to the Shareholders of Natixis International Funds (Dublin) I plc (the "Company")

We have audited the Company's financial statements for the year ended 31 December 2009 which comprise the Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, the Statement of Cash Flows, the Schedule of Investments and the related notes. These financial statements have been prepared under the accounting policies set out therein.

Respective responsibilities of Directors and Auditors

The Directors' responsibilities for preparing the Annual Report and the financial statements in accordance with applicable Irish law and International Financial Reporting Standards ("IFRS") as adopted by the European Union are set out in the Statement of Directors' Responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland). This report, including the opinion, has been prepared for and only for the Company's shareholders as a body in accordance with Section 193 of the Companies Act, 1990 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

We report to you our opinion as to whether the financial statements give a true and fair view in accordance with IFRS as adopted by the European Union, and have been properly prepared in accordance with Irish statute comprising the Companies Acts, 1963 to 2009 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2003 (as amended) (the "UCITS Regulations). We state whether we have obtained all the information and explanations we consider necessary for the purposes of our audit, and whether the financial statements are in agreement with the books of account. We also report to you our opinion as to:

- whether the Company has kept proper books of account; and
- whether the Directors' report is consistent with the financial statements.

We also report to you if, in our opinion, any information specified by law regarding Directors' remuneration and Directors' transactions is not disclosed and where practicable, include such information in our report.

We read the other information contained in the Annual Report, and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Independent Auditors' Report to the Shareholders of Natixis International Funds (Dublin) I plc (Continued)

Opinion

In our opinion the financial statements

- give a true and fair view in accordance with IFRS as adopted by the EU, of the state of the Company's affairs at 31 December 2009 and of its results and cashflows for the year then ended; and
- have been properly prepared in accordance with the requirements of the Companies Acts, 1963 to 2009, and the UCITS Regulations.

We have obtained all the information and explanations we consider necessary for the purposes of our audit. In our opinion proper books of account have been kept by the Company. The Company's financial statements are in agreement with the books of account.

In our opinion the information given in the Directors' report is consistent with the financial statements.

^{*}formerly Loomis Sayles Institutional High Income Fund

Notes to the Financial Statements as at 31 December 2009

1. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated in the following text.

a) Basis of Presentation

The financial statements have been prepared in accordance with International Financial Reporting Standards, endorsed by the European Union (EU), IFRIC Interpretations and Irish statute comprising the Companies Acts, 1963 to 2009, and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2003 (as amended). The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of financial statements in conformity with International Financial Reporting Standards requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in 'Investments at fair value' overleaf.

Adoption of New Accounting Standard

The Company has adopted the following amendment: IFRS 7 "Financial Instruments: Disclosure – Improving Disclosures about Financial Instruments". The amendment is effective for annual accounting periods commencing on or after 1 January 2009, with early application permitted. The Company has adopted these amendments for the year ended 31 December 2009.

The amendment to IFRS 7 requires fair value measurement to be disclosed by the source of inputs, using a three level hierarchy:

- (i) Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (ii) Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2);
- (iii) Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Company has elected not to provide comparative information in the current year in accordance with the transitional provisions of the amendment.

The Company has also adopted the revision to International Accounting Standard (IAS) 1: "Presentation of Financial Statements". The revised standard prohibits the presentation of items of income and expense (that is, 'non-owner changes in equity') in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shares. It requires non-owner changes in equity to be presented separately from owner changes in equity. All non-owner changes in equity are required to be shown in a performance statement, but entities can choose whether to present one performance statement (the Statement of Comprehensive Income) or two statements (the Income Statement and Statement of Comprehensive Income). Where entities restate or reclassify comparative information, they are required to present a restated Statement of Financial Position as at the beginning comparative period, in addition to the current requirement to present statements of financial position at the end of the current period and comparative period. The Company has applied IAS 1 (revised) from 1 January 2009, and has elected to present solely a Statement of Comprehensive Income.

The adoption of this revised standard has not resulted in a significant change to the presentation of the Company's performance statement, as the Company has no elements of other comprehensive income.

Notes to the Financial Statements as at 31 December 2009 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Financial Assets and Financial Liabilities at Fair Value

The Company has classified all investments into the 'fair value through profit or loss' category.

The category of financial assets and financial liabilities at fair value through profit or loss comprises two sub-categories: financial assets and liabilities held for trading and those designated by Directors at fair value through profit or loss on initial recognition. Financial assets or liabilities held for trading are acquired and incurred principally for the purpose of selling and repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives (other than forward foreign currency exchange contracts) as hedges in a hedging relationship.

Regular-way purchases and sales of investments are recognised on trade date, the date on which the Sub-Funds commit to purchase or sell the asset. Investments are initially recognised at fair value, and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Funds have transferred substantially all risks and rewards of ownership.

Gains and losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are included in the Statement of Comprehensive Income in the period in which they arise. Interest income from financial assets at fair value through profit or loss is calculated using the effective interest method and presented in the Statement of Comprehensive Income.

c) Investments at Fair Value

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the statement of financial position date. The quoted market price used for financial assets held by the Sub-Funds is the current bid price for fixed income securities and equity securities; the appropriate quoted market price for financial liabilities is the current ask price. When a Sub-Fund holds derivatives with offsetting market risk, it uses mid-market prices as a basis of establishing fair values for the offsetting risk positions and applies the bid or asking price to the net open position, as appropriate. Unlisted securities are valued using external pricing vendors and broker sources.

If the market for a financial instrument is not active, the Directors may establish fair value by using a valuation technique. The Sub-Funds use a variety of methods and make assumptions that are based on market conditions existing at each statement of financial position date. Valuation techniques used include the use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in the actual market. As at 31 December 2009, investments held by the Loomis Sayles Multisector Income Fund and the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) totalling USD 740 and USD 2,904 respectively were priced in this manner. At 31 December 2008, investments held by the Loomis Sayles Mutlisector Income Fund and the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) totalling USD 3,001,315 and USD Nil respectively were priced in this manner. At 31 December 2009 and 31 December 2008, there were no investments held by the Loomis Sayles Global Opportunistic Bond Fund that were priced using valuation techniques as described above.

Investment Funds

The fair value of any investment which is a unit of or participation in an open-ended collective investment scheme/investment fund is the latest available unaudited net asset value of such unit or participation.

Notes to the Financial Statements as at 31 December 2009 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

c) Investments at Fair Value (Continued)

Warrants

The Company may invest in warrants. Warrants which are fully paid up and have a zero strike price, exhibit the identical risk and return characteristics as in the case where the Company had acquired the underlying equity directly. Such warrants are valued at the last bid price for the underlying equity quoted on the stock exchange or principal market on which it is listed or, if the bid price is unavailable or unrepresentative, the last available mid price on such stock exchange or market. All warrants detailed in the Schedule of Investments at 31 December 2009 are fully paid and have a zero strike price.

d) Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts, and open foreign currency exchange spot contracts, is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Net gains or losses on contracts which have been settled are included in the Statement of Comprehensive Income of each relevant Sub-Fund. Gains or losses on open forward foreign currency exchange contracts are reported as financial assets or liabilities at fair value through profit or loss as appropriate in the Statement of Financial Position of each relevant Sub-Fund. Changes in gains or losses at the year end are reported in the Statement of Comprehensive Income of each relevant Sub-Fund. Gains or losses on open foreign currency exchange spot contracts are included in the Statement of Financial Position and changes in gains or losses since the prior year end are reported in the Statement of Comprehensive Income for each relevant Sub-Fund.

e) Interest Income and Expense

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Sub-Fund estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses.

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Income is accounted for gross of any non reclaimable/irrecoverable withholding taxes and net of any tax credits. The withholding tax is shown separately in the Statement of Comprehensive Income. Realised gains and losses on investment transactions are calculated using the average cost method. Realised gains and losses on investments transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

f) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

All cash at bank balances are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit, or directly with a sub-custodian.

g) Foreign Currency Transactions

In accordance with IAS 21, items included in the individual Sub-Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). This is considered to be U.S. Dollar (USD) due to the investment strategy of the individual Sub-Funds.

Notes to the Financial Statements as at 31 December 2009 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Foreign Currency Transactions (Continued)

The individual Sub-Funds have also adopted their functional currency as the presentation currency. Income and expenditure transactions are translated to the functional currency of the relevant Sub-Fund at the rate of exchange ruling on the date of the transaction. Assets and liabilities in foreign currencies are translated into USD at the rates of exchange ruling at the statement of financial position date. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions.

For each relevant Sub-Fund:

- (i) Currency gains and losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Sub-Fund's books and the Sub-Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included, where appropriate, in the dividend and bond income figure in the Sub-Fund's Statement of Comprehensive Income;
- (ii) Currency gains and losses realised on security purchase and sales transactions are included in the Sub-Fund's Statement of Comprehensive Income;
- (iii) The change in unrealised currency gains and losses on securities held at the year end are included in the Sub-Fund's Statement of Comprehensive Income;
- (iv) Monetary assets and liabilities denominated in currencies other than the Sub-Fund's functional currency are translated at the rate of exchange ruling at the close of business on the relevant reporting date and exchange differences are recorded in the Sub-Fund's Statement of Comprehensive Income.

The financial statements are presented in USD. The following exchange rates at 31 December 2009 and 31 December 2008 have been used to translate assets and liabilities held in currencies other than USD:

h) Income Equalisation

The Company utilises the accounting practice known as income equalisation by which a portion of the subscription and redemption price of the Sub-Fund's shares, representing income included in the share price on the date of the share transaction, is credited or charged respectively to income each time there is a relevant subscription or redemption.

Notes to the Financial Statements as at 31 December 2009 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Redeemable Participating Shares

The Sub-Funds issue Redeemable Participating Shares which are redeemable at the shareholder's option and are classified as financial liabilities. The distribution on these Redeemable Participating Shares is recognised in the Statement of Comprehensive Income as a finance cost.

The Redeemable Participating Shares can be put back to the Company on any dealing day for cash equal to a proportionate share of the Company's Net Asset Value. The participating share is carried at the redemption amount that is payable at the statement of financial position date if the Shareholder exercised their right to put the share back to the Company.

Redeemable Participating Shares are issued and redeemed at the shareholders option at prices based on the Sub-Funds Net Asset Value per Share at the time of issue or redemption. The Sub-Funds Net Asset Value per Share is calculated by dividing the Net Assets Attributable to Redeemable Participating Shareholders with the total number of outstanding Redeemable Participating Shares.

j) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

k) Distributions Payable to Holders of Redeemable Participating Shares

The distributions to holders of Redeemable Participating Shares are recognised as finance costs in the Statement of Comprehensive Income.

l) Purchase/Sale of Securities Awaiting Settlement

Amounts due from/to brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered by the end of the year.

Shares in Issue at 31 December 2008	7

The Subscriber Shares are fully paid up to the value of USD 7 and as they do not form part of the Redeemable Participating Shares of the Company, they do not form part of the Net Asset Value of the Company. They are thus disclosed in the financial statements by way of this note only.

In the opinion of the Directors, this disclosure reflects the nature of the Company's investment business as an investment fund.

Share Rights

The holders of the Subscriber Shares are entitled to one vote per holder on a vote taken on a show of hands and on a poll, to one vote per Subscriber Share. The holders of Subscriber Shares are not entitled to any dividends and, in the event of a winding up or dissolution of the Company, shall be entitled to the return of capital, provided sufficient funds exist. The holders of Redeemable Participating Shares are entitled to one vote per holder on a vote taken on a show of hands and, on a poll, to one vote per Redeemable Participating Share. The holders of Redeemable Participating Shares are entitled to such dividends as the Directors may from time to time declare and in the event of a winding up or dissolution of the Company, shall have the entitlements referred to in the Company's Prospectus.

Neither the Subscriber Shares nor the Redeemable Participating Shares carry pre-emption rights.

Notes to the Financial Statements as at 31 December 2009 (Continued)

8. FEES

The Company pays the Investment Manager a monthly fixed fee at an annual rate of 0.75% for each of the Sub-Funds. The Investment Manager received USD 5,999,170 during the year ended 31 December 2009 (31 December 2008: USD 6,016,160), of which USD 694,033 was outstanding at the year end (31 December 2008: USD 385,995).

The Investment Manager reimburses the Sub-Funds for all expenses that exceed 1.00%, 1.50%, 0.60% and 2.25% of the Net Asset Value of the Class I Shares (and Class H-I Shares), the Class R Shares, the Class S Shares (and Class H-S Shares) and the Class C Shares respectively of the Loomis Sayles Multisector Income Fund and the Loomis Sayles Global Opportunistic Bond Fund. For the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund), the Investment Manager reimburses expenses that exceed 0.90% and 0.75% of the Net Asset Value of the Class I Shares (and Class H-I Shares) and the Class S Shares (and Class H-S Shares) respectively.

As shown in Note 3, amounts of USD 190,862, USD 191,672 and USD 382,213 were reimbursed to the Loomis Sayles Multisector Income Fund, the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) and the Loomis Sayles Global Opportunistic Bond Fund respectively, for the year ended 31 December 2009 (31 December 2008: USD Nil, USD 213,039 and USD 263,535 respectively).

The Company pays the Administrator a monthly fee in arrears of 1/12 of the following percentages of the Net Asset Value of each Sub-Fund as at each valuation point: 0.03% on the first USD 75 million; 0.02% on the next USD 75 million; and 0.01% on the balance in excess of USD 150 million (or equivalent), together with VAT (if any). Administration fees accrue daily and are paid monthly in arrears.

The Company pays the Custodian a monthly fee in arrears of 1/12 of 0.01% of the Net Asset Value of each Sub-Fund for trustee fees and between 0.005% and 0.45% of the Net Asset Value of each Sub-Fund for safekeeping fees as at each valuation point. Custodian fees accrue daily and are paid monthly in arrears. Transaction charges apply at normal commercial rates.

Brown Brothers Harriman received an Administration, Custodian and Trustee fee of USD 478,077 for the year ended 31 December 2009 (31 December 2008: USD 458,194), of which USD 86,614 (31 December 2008: USD 48,273) remained outstanding at the year end.

9. TAXATION

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or capital gains. However, Irish tax can arise on the happening of a chargeable event in the Company. A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of shares. No tax will arise on the Company in respect of chargeable events in respect of:

- a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidated Act, 1997 as amended, are held by the Company; and
- b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

There were no chargeable events during the year under review.

Capital gains, dividends, and interest received (if any) by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Notes to the Financial Statements as at 31 December 2009 (Continued)

10. RELATED PARTY DISCLOSURES

Parties are described as related if any one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Company's Directors and Natixis Global Associates, the Company's Investment Manager and Distributor are disclosed on page 1. Amounts expensed in the year to these parties are disclosed in Note 3. Amounts receivable from and payable to the Investment Manager and Distributor are disclosed in Notes 5 and 6 respectively. Details of the Investment Manager's fee are disclosed in Note 8. Loomis, Sayles & Company, L.P. is the Company's Delegate Investment Manager. The Investment Manager is responsible for paying out of its fees certain fees and expenses of the Delegate Investment Manager.

Natixis Global Associates and Loomis, Sayles & Company, L.P. are both subsidiaries of Natixis Global Asset Management Group, an international asset management group based in Paris, France that is ultimately controlled by Natixis, Paris, France.

Mr. Daniel Morrissey, a Director of the Company, is also a partner in William Fry, the Company's legal counsel to whom fees were paid during the year ended 31 December 2009 amounting to EUR 109,519 (31 December 2008: EUR 69,691).

Ms. Susan McWhan Tobin and Mr. Jason Trepanier are Directors of the Company and are also executives of Natixis Global Associates International, a branch of Natixis Global Associates, the latter being one of the Company's distributors during the year. Ms. Eliza Deliyannides is and Mr. Mark Doyle was, until his resignation on 15 October 2009, a Director of the Company and also an executive of Natixis Global Associates U.K. Limited. Mr. John Gallagher is a Director of the Company and also an executive of Loomis, Sayles & Company, L.P., the Delegate Investment Manager.

The ability to direct the financial and operating policy of the Sub-Funds, and hence control, rests with the Shareholders in general meeting. As at 31 December 2009, together with comparative figures for 31 December 2008, the following entities had interests in excess of 20% of the Issued Share Capital of the Share Class:

11. FINANCIAL RISK MANAGEMENT

Strategy in Using Financial Instruments

The Sub-Funds' activities expose them to a variety of financial risks: market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Sub-Funds' financial performance. The Sub-Funds use derivative financial instruments to moderate certain risk exposures. The risk associated with trading derivatives is also addressed overleaf.

The Delegate Investment Manager did not change how market price risk, currency risk, interest rate risk, credit risk and liquidity risk were managed since the prior year end.

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Market Price Risk

The Sub-Funds trade in financial instruments, taking positions in traded and over the counter instruments, including derivatives. At 31 December 2009, the Sub-Funds' only derivatives were forward foreign currency exchange contracts and embedded derivatives within convertible bonds and warrants.

Currently, the Sub-Funds are deemed non-sophisticated and all appropriate controls relevant to the UCITS Regulations and the related risk management using the commitment approach, were implemented in the Charles River Compliance Master System ("CRD¹"). The global exposure through the use of derivatives is limited to 100 percent of the Net Asset Value of the Sub-Fund. Individual position exposure and global exposure are each monitored daily by a dedicated control team. The use of cash settled derivatives will at all times be fully covered with cash or other liquid securities. For any derivative that involves physical delivery, these will be covered by the underlying asset. Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate).

In the case of currency hedging, the portfolio managers and portfolio specialists periodically review the hedged position to determine whether it remains consistent with movements in the underlying assets.

In addition, the Delegate Investment Manager's Derivatives Committee reviews all aspects of proposed derivatives activity, with particular emphasis on risk management, and is responsible for ensuring that all trading, reporting, operations, pricing and legal and compliance issues have been addressed before a new derivative strategy is approved for use by the Risk Management Committee. The Derivatives Committee is made up of representatives from Senior Management, Equity Portfolio Management, Fixed Income Portfolio Management, Trading, Operations, Legal and Compliance, Technology and Client Services. The conclusions are also submitted to the Delegate Investment Manager's Board of Directors for approval.

All securities investments present a risk of loss of capital. The Delegate Investment Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits, as set forth in the Sub-Funds' Prospectus.

The Sub-Funds' overall market positions are (i) monitored on a daily basis by the Delegate Investment Manager; and (ii) reviewed by the Board of Directors at its regular meetings. Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate).

The Sub-Funds' equity securities are susceptible to market price risk arising from uncertainties about future prices of the instruments.

The Sub-Funds' market price risk is managed through diversification of the investment portfolio ratios by exposures. The Delegate Investment Manager's processes for dealing with market price risk entail rigorous security-by-security research by experienced security analysts, intelligence gathered about the market for those securities through a professional securities trading desk and integration of the information (supplied by the analysts and traders) by qualified portfolio managers who make the decisions to buy and sell securities. In addition, the Delegate Investment Manager created a Quantitative Research and Risk Management Group to support the investment decision process by building quantitative tools and models to complement the fundamental economic and market experience.

An integrated and automated compliance management system linked to the Delegate Investment Manager's Charles River Trading System as well as its accounting system, providing pre-trade, post trade and batch compliance monitoring functionality that is used as appropriate for the type of restriction and account being tested.

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Market Price Risk (Continued)

The Delegate Investment Manager's advanced proprietary investment analytics capabilities include several risk management tools. These tools address general risk characteristics, ex-ante tracking error, position risk, performance attribution, top down valuations and performance dispersion.

The primary risk management system that was developed provides comprehensive information including daily constituents, weights, characteristics and statistics. Specifically, the risk tool analyses duration, yield curve, currency, country, sector, quality, industry, prepayment exposure and tracking error.

This risk tool is supplemented by additional market risk tools that calculate ex-ante tracking error, ex-post excess return and return optimisation. Other proprietary risk systems calculate performance attribution through detailed duration, spread duration, quality allocation, sector allocation and security selection analysis. Position risk is monitored through technologies that analyse position size, option adjusted spread ("OAS") versus quality ratings, OAS changes, Loomis Sayles Rating Outlook, liquidity risks, correlation to the market as well as the firm-wide position sizes.

The Delegate Investment Manager uses Bloomberg, Citigroup Yield Book and Barclay's POINT as its analytical providers, and if a security is owned by a benchmark (ie. Merrill Lynch) the analytics are provided by the benchmark sponsor. Priority is on Bloomberg and for mortgage securities, Citigroup Yield Book. The primary benefit of these providers is their ability to provide analytics for all types of securities, mostly securities with embedded options and structured securities.

The Sub-Funds' concentrations in market price exposures at 31 December 2009 and 31 December 2008 are detailed in their Schedules of Investments on pages 74 through 146, the Statement of Financial Position on pages 14 through 17 and in Note 4 on pages 31 and 32.

The primary sensitivities of the Sub-Funds are interest rates and credit spreads on bonds held in the portfolios. The risks associated with these exposures are covered under interest rate risk and credit risk, respectively.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain amounts of the Sub-Funds' assets, liabilities and income are denominated in currencies other than U.S. Dollar, the functional currency. The Sub-Funds are therefore exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. Income denominated in foreign currencies is converted to U.S. Dollar on receipt.

Currency risk is managed by the Delegate Investment Manager, in part, through the use of forward foreign currency exchange contracts for hedging purposes. These contracts obligate the holder to buy or sell the currency at a specified quantity and on a specified future date. They may protect the value of specific portfolio positions and may be used in anticipation of changes in relative values of currencies in which current or future portfolio holdings of the Sub-Funds are denominated. As the Sub-Funds invest in forward foreign currency exchange contracts for hedging purposes only, the exposures on these contracts can be netted against each other, reducing global exposure.

11. FINANCIAL RISK MANAGEMENT (Continued)

Currency Risk (Continued)

The Sub-Funds' concentrations in non-functional currency exposures at 31 December 2009 and 31 December 2008 are detailed in the Schedule of Investments on pages 74 through 146. The following analysis is estimated based on significant non-functional currency exposures that each of the Sub-Funds had as at 31 December 2009 and 31 December 2008. This analysis is intended as a relative estimate of currency risk for each of the Sub-Funds, rather than as precise numbers. Therefore, the amounts presented represent hypothetical outcomes which are not intended to be predictive, as future market conditions could vary significantly from those experienced in the past.

At 31 December 2009, had the exchange rate between the U.S. Dollar and the Canadian Dollar increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Multisector Income Fund would amount to approximately USD 8,737,228 (31 December 2008: USD 2,508,439). At 31 December 2009, had the exchange rate between the U.S. Dollar and the Euro increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Multisector Income Fund would amount to approximately USD 2,806,717 (31 December 2008: USD 937,148). At 31 December 2009, had the exchange rate between the U.S. Dollar and the Norwegian Krone increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Multisector Income Fund would amount to approximately USD 2,671,666 (31 December 2008: USD Nil).

At 31 December 2009, had the exchange rate between the U.S. Dollar and the Euro increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) would amount to approximately USD 834,316 (31 December 2008: USD 1,282,061). At 31 December 2009, had the exchange rate between the U.S. Dollar and the Indonesian Rupiah increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) would amount to approximately USD 616,669 (31 December 2008: USD 311,825). At 31 December 2009, had the exchange rate between the U.S. Dollar and the Norwegian Krone increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) would amount to approximately USD 1,574,319 (31 December 2008: USD Nil).

At 31 December 2009, had the exchange rate between the U.S. Dollar and the Euro increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Global Opportunistic Bond Fund would amount to approximately USD 3,290,975 (31 December 2008: USD 2,546,470). At 31 December 2009, had the exchange rate between the U.S. Dollar and the Japanese Yen increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Global Opportunistic Bond Fund would amount to approximately USD 1,368,224 (31 December 2008: USD 1,780,894). At 31 December 2009, had the exchange rate between the U.S. Dollar and the British Pound increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Global Opportunistic Bond Fund would amount to approximately USD 771,669 (31 December 2008: USD 492,221).

The Sub-Funds' currency positions are (i) monitored on a weekly basis by the Delegate Investment Manager; and (ii) reviewed by the Board of Directors at its regular meetings. Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate).

Interest Rate Risk

The Sub-Funds' interest-bearing financial assets and liabilities expose them to risk associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows.

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Interest Rate Risk (Continued)

Interest rate risk is managed, in part, by the security-selection process of the Delegate Investment Manager, which includes predictions of future events and their impact on interest rates, diversification and duration. The prices of securities held by the Sub-Funds may be sensitive to interest rate fluctuations and unexpected fluctuations in interest rates could cause the corresponding prices of the Sub-Fund's positions to move in directions which were not initially anticipated.

The tables below summarise the Sub-Funds' exposure to interest rate risks. It includes the Sub-Funds' financial assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

^{*}formerly Loomis Sayles Institutional High Income Fund

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Interest Rate Risk (Continued)

The following analysis is estimated based on each of the Sub-Fund's effective duration calculations as at 31 December 2009 and 31 December 2008. This analysis is intended as a relative estimate of interest rate risk for each of the Sub-Funds rather than as precise numbers. Therefore, the amounts presented represent hypothetical outcomes which are not intended to be predictive, as future market conditions could vary significantly from those experienced in the past.

At 31 December 2009, had interest rates been 100 basis points lower or higher, with all other variables remaining constant, the Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Multisector Income Fund would have been higher or lower by approximately USD 36,228,963 (31 December 2008: USD 14,518,119).

At 31 December 2009, had interest rates been 100 basis points lower or higher, with all other variables remaining constant, the Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) would have been higher or lower by approximately USD 16,660,846 (31 December 2008: USD 10,010,019).

At 31 December 2009, had interest rates been 100 basis points lower or higher, with all other variables remaining constant, the Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Global Opportunistic Bond Fund would have been higher or lower by approximately USD 6,140,663 (31 December 2008: USD 5,648,731).

The Sub-Funds' overall interest sensitivity is (i) monitored on a weekly basis by the Delegate Investment Manager and (ii) reviewed by the Board of Directors at its regular meetings. Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate).

Credit Risk

The Company takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Credit risk is managed, in part, by certain of the Sub-Funds' investment restrictions, including that, subject to other provisions set forth in the Sub-Funds' Prospectus, (i) each Sub-Fund may not invest more than 10% of net assets in transferable securities or money market instruments of the same issuer, and (ii) the total value of transferable securities and money market instruments of issuers as to which a Sub-Fund invests more than 5%, must be less than 40%.

Substantially all of the Company's securities are held with the Central Security Depositaries ("CSDs") via the Custodian and sub-custodians (if applicable). The Company's non-cash assets are segregated from the proprietary assets of the Custodian and the sub-custodians, so that in the event of insolvency or bankruptcy those assets should not be subject to the claims of creditors and be protected, which obviates counterparty credit risk. Whether the Company's assets are segregated or not from the statement of financial position of CSDs is a function of local market practice and law: whilst this is a factor beyond the control of the Custodian, CSDs are established to facilitate securities custody and settlement with a view to ensuring smooth functioning of capital markets. On that basis, there are strong public policy reasons for CSDs to ensure protection of client assets.

In circumstances such as the insolvency of a sub-custodian, CSDs or registrar, or retroactive application of legislation, the Company may not, in all cases, be able to establish title to investments made and may suffer delays in recovery of assets or possibly losses as a result. The Company may find it impossible to enforce its rights against third parties.

For cash accounts, funds deposited are liabilities of the banks, creating a debtor-creditor relationship between the bank and the Company. Cash accounts opened on the books of Brown Brothers Harriman & Co. are obligations of Brown Brothers Harriman & Co. while cash accounts opened on the books of a sub-custodian (agency accounts) are obligations of the sub-custodian. Accordingly, while Brown Brothers Harriman & Co. is responsible for exercising reasonable care in the administration of agency cash accounts, it is not liable for their repayment in the event the sub-custodian, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Credit Risk (Continued)

Brown Brothers Harriman & Co. performs both initial and ongoing due diligence on the sub-custodians in its global custody network. Such reviews include an assessment of the sub-custodian's financial strength and general reputation and standing and, at a minimum, meet the due diligence requirements established by applicable law. The financial analysis is focused on the sub-custodian bank's capital adequacy, asset quality, financial flexibility and strength, management expertise, earnings, and liquidity as key indicators of its financial standing in the market. These reviews are not audits.

In addition, as the Company may invest in markets where custodial and/or settlement systems are not fully developed, the assets of the Company which are traded in such markets and which have been entrusted to subcustodians, in the circumstances where the use of such sub-custodians is necessary, may be exposed to risk in circumstances whereby the Custodian will have no liability. While cash held by the sub-custodian is identifiable as belonging to the Company, the Company will be exposed to the credit risk of the financial institution where cash is deposited. In the event of insolvency of the financial institution, the Company will be treated as a general creditor of the financial institution in relation to cash holdings of the Company.

Portfolio by Rating Category

The Sub-Funds' Delegate Investment Manager utilises well-known rating agencies for determining credit quality of the financial assets. For assets that are unrated by these well-known rating agencies, the Delegate Investment Manager assigns a rating using an approach that is consistent with the rating agencies.

Loomis Sayles Multisector Income Fund

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Credit Risk (Continued)

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

In order to minimise credit risk further, the Delegate Investment Manager will normally use the Sub-Funds' Custodian to execute its currency hedges to the extent that competitive rates and execution can be achieved. Additionally, in order to seek competitive pricing, the Delegate Investment Manager will generally buy from, or sell to, large, well-known financial institutions (almost always banks) with high credit ratings. As a result, counterparty risk in currency hedge activities is believed to be negligible.

The Delegate Investment Manager seeks to mitigate counterparty credit risk in the following manner;

- The Delegate Investment Manager has adopted Derivative Counterparty Policies and Procedures to assist it in monitoring, managing and mitigating, where possible, the counterparty risk associated with derivative transactions.
- The Delegate Investment Manager will not execute derivative transactions for the Company with any bank or broker-dealer that is not on its "Approved Derivatives Dealer" list of its trading desk that is responsible for executing trades on behalf of the Sub-Funds.
- In order to be added to the "Approved Derivatives Dealer" list, a counterparty must have a credit rating of A3, A- or C- by Moody's, Standard & Poor's or the Delegate Investment Manager, respectively.
- If a counterparty no longer satisfies the minimum credit rating required as an 'Approved Derivatives Counterparty' or is otherwise deemed to be at risk based on the five year credit default swap spread on the counterparty, the Delegate Investment Manager's Counterparty Risk Committee will determine the appropriate course of action. Such action may include: (i) suspension of trading with the counterparty; (ii) removal of the counterparty from the 'Approved Derivatives Counterparty' List; and/or closing out or assigning unsettled transactions with the counterparty.
- The Counterparty Risk Committee also monitors the aggregate unrealised gains associated with any open derivative contracts with Approved Derivatives Counterparties on a daily basis.

The Delegate Investment Manager's Fixed Income Research Department will periodically review the creditworthiness of all counterparties contained on the Approved Derivatives Counterparty List and notify the head of the relevant trading desk, the Counterparty Risk Committee and the Delegate Investment Manager's Risk Management Committee if any credit issues arise with respect to such counterparties. Separately, the Delegate Investment Manager's Fixed Income Trading Desk provides the Counterparty Risk Committee with daily reports on the spreads of five year credit default swaps on our counterparties, if available. In addition to reviewing the daily counterparty exposure reports, the Counterparty Risk Committee meets at least quarterly and when deemed necessary to evaluate counterparty risk. Any new derivative product proposed to be utilised by the Delegate Investment Manager for a client is thoroughly reviewed by the Delegate Investment Manager's Derivatives Committee.

Credit exposures to the same counterparties will be netted only where a legally enforceable right of offset exists.

In accordance with the Company's policy, the Sub-Funds' credit risk is (i) monitored by the Delegate Investment Manager on a weekly basis, and (ii) reviewed by the Board of Directors at its regular meetings. Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate).

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Sub-Funds are exposed to daily cash redemptions of Redeemable Participating Shares. The Sub-Funds generally retain a certain portion of their assets in cash, which is available to satisfy redemptions. In addition, in accordance with their Prospectus, only a limited portion of the assets of each Sub-Fund is invested in transferable securities or money market instruments that are not readily tradable. Should it be necessary to raise cash quickly, the Sub-Funds are entitled to borrow, on a temporary basis, provided that their individual aggregate borrowings do not exceed 10% of their respective Net Asset Values.

Notes to the Financial Statements as at 31 December 2009 (Continued)

11. FINANCIAL RISK MANAGEMENT (Continued)

Liquidity Risk (Continued)

Liquidity risk is also managed by provisions that authorise the Board of Directors to suspend or otherwise limit redemptions in certain circumstances, including when total redemption requests for a Sub-Fund on a particular day exceed 10% of its total number of Redeemable Participating Shares outstanding. The Board of Directors has not invoked this provision for any Sub-Fund during the year ended 31 December 2009 and the year ended 31 December

The Sub-Funds' liquidity positions are (i) monitored on a daily basis by the Delegate Investment Manager, and (ii) reviewed by the Board of Directors at its regular meetings. Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate). There were no material changes to the Company's policies and processes for liquidity risk and the methods used to measure risk since the prior year end.

Particularly for derivatives, given the nature of the financial derivative instruments used in the Sub-Funds, the currencies involved and the relatively low position sizes, the level of liquidity risk is expected to be low. The tables below summarise the Sub-Funds' exposure to liquidity risk.

11. FINANCIAL RISK MANAGEMENT (Continued)

Fair Value Estimation

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities; US government treasury bills and certain non-US sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-US sovereign obligations, listed equities and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include corporate debt securities. As observable prices are not available for these securities, the Fund has used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors have delegated this task to the Delegate Investment Manager. The Delegate Investment Manager, in consultation with the Administrator, considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables analyse within the fair value hierarchy the Sub-Funds' financial assets and liabilities measured at fair value at 31 December 2009:

At 31 December 2009, for the Loomis Sayles Multisector Income Fund, the level 3 bond amount consists of a single corporate bond position that has been valued using a broker provided quotation that is thought to be indicative of the market price of that security, but has unobservable inputs assumed in that valuation. Also, for the Loomis Sayles Multisector Income Fund, at 31 December 2009, the level 3 warrant amount consists of a single position that has been priced using a fair valuation methodology determined by the Delegate Investment Manager under delegation by the Directors, in consultation with the Administrator. The main inputs into the valuation model for this investment are the closing price of the underlying equity security and the warrant's own exercise price.

At 31 December 2009, for the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund), the level 3 bond amount consists of a single corporate bond position that has been valued using a broker provided quotation that is thought to be indicative of the market price of that security, but has unobservable inputs assumed in that valuation. Also, for the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund), at 31 December 2009, the level 3 warrant amount consists of a single position that has been priced using a fair valuation methodology determined by the Delegate Investment Manager under delegation by the Directors, in consultation with the Administrator. The main inputs into the valuation model for this investment are the closing price of the underlying equity security and the warrant's own exercise price.

At 31 December 2009, for the Loomis Sayles Global Opportunistic Bond Fund, the level 3 bond amount consists of a single corporate bond position that has been valued using a broker provided quotation that is thought to be indicative of the market price of that security, but has unobservable inputs assumed in that valuation.

The following tables present the transfers between levels for securities held at 31 December 2009 and 31 December 2008.

At 31 December 2009, for the Loomis Sayles Multisector Income Fund, the equity securities that transferred from level 1 to level 2 relate to positions for which evaluated bid quotations provided by a third-party security pricing vendor were deemed to be better indicators of what the Sub-Fund would realise in an actual arms length transaction. The bond securities that transferred from level 3 to level 2 were corporate bonds that were thinly traded at 31 December 2008 and were valued with broker provided quotations using significant unobservable inputs. These same corporate bonds were valued at 31 December 2009 using evaluated bid quotations provided by a third-party security pricing vendor that utilises available market information and other observable inputs. The equity securities that transferred from level 3 to level 2 were preferred stocks that were thinly traded at 31 December 2008 and were valued with broker provided quotations using significant unobservable inputs. These same preferred stocks were valued at 31 December 2009 using evaluated bid quotations provided by a third-party security pricing vendor that utilises available market information and other observable inputs.

At 31 December 2009, for the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund), the equity securities that transferred from level 1 to level 2 relate to positions for which evaluated bid quotations provided by a third-party security pricing vendor were deemed to be better indicators of what the Sub-Fund would realise in an actual arms length transaction. The bond securities that transferred from level 3 to level 2 were corporate bonds that were thinly traded at 31 December 2008 and were valued with broker provided quotations using significant unobservable inputs. These same corporate bonds were valued at 31 December 2009 using evaluated bid quotations provided by a third-party securities that transferred from level 3 to level 2 were preferred stocks that were thinly traded at 31 December 2008 and were valued with broker provided quotations using significant unobservable inputs. These same preferred stocks were valued at 31 December 2009 using evaluated bid quotations provided by a third-party security pricing vendor that utilises available market information and other observable inputs.

At 31 December 2009, for the Loomis Sayles Global Opportunistic Bond Fund, the bond securities that transferred from level 3 to level 2 were corporate bonds that were thinly traded at 31 December 2008 and were valued with broker provided quotations using significant unobservable inputs. These same corporate bonds were valued at 31 December 2009 using evaluated bid quotations provided by a third-party security pricing vendor that utilises available market information and other observable inputs.

Notes to the Financial Statements as at 31 December 2009 (Continued)

12. EFFICIENT PORTFOLIO MANAGEMENT

The Company may, for the purposes of efficient portfolio management and hedging of currency risks, engage in financial derivative instruments provided that these transactions may only concern contracts which are traded on a regulated market operating regularly, being organised and open to the public. The Company may also enter into forward purchases and sales of currencies or exchange currencies on the basis of "over the counter" arrangements with highly rated financial institutions specialising in this type of transaction. During the year, the Company entered into forward currency transactions for the purpose of hedging currency risk on investment and cash holdings, to hedge benchmark risk. The Company also entered into forward currency transactions for the purpose of share class hedging. Contracts outstanding at 31 December 2009 and at 31 December 2008 are disclosed in the Schedule of Investments. Realised gains and losses on financial instruments used for efficient portfolio management purposes are included in the Statement of Comprehensive Income.

13. SOFT COMMISSION ARRANGEMENTS

There were no soft commission arrangements entered into by the Investment Manager or the Delegate Investment Manager on behalf of any of the Sub-Funds during the year ended 31 December 2009 (31 December 2008: Nil).

14. DISTRIBUTIONS (FINANCE COSTS)

Each of the Sub-Funds will pay dividends on the distributing shares of each Sub-Fund equal to the net investment income of that Sub-Fund each calendar quarter (and each calendar month in the case of the R/DM (USD) Share Class of the Loomis Sayles Multisector Income Fund), usually four business days following the close of the quarter/month end. The Sub-Funds may also distribute the excess realised capital gains over realised losses from investments of the Sub-Funds, usually four business days following the close of the calendar year.

During the year ended 31 December 2009, the Company declared the following dividends:

15. MATERIAL EVENTS AFFECTING THE COMPANY DURING THE YEAR

A new version of the Company's Prospectus was approved by the Financial Regulator on 17 June 2009. The main amendment to the Prospectus is the possibility for the Loomis Sayles Multisector Income Fund and the Loomis Sayles High Income Fund (formerly Loomis Sayles Institutional High Income Fund) to invest in supranational entities. The R/A (USD) Share Class was also made available for subscription on the Loomis Sayles Mutlisector Income Fund.

There were no other significant events affecting the Company during the year.

16. EVENTS AFTER THE YEAR END

Details of the dividends declared by the Company on 4 January 2010 are as follows:

Loomis Sayles Multisector Income Fund

A subsequent version of the Company's Prospectus was approved by the Financial Regulator on 13 January 2010. The Prospectus details the amendment to the name of Loomis Sayles Institutional High Income Fund to Loomis Sayles High Income Fund. Additional Share Classes were also made available for subscription.

Natixis Asset Management ceased in their role as distributor to the Company on 13 January 2010.

A new reporting fund regime was introduced by HM Revenue and Customs with effect from 1 December 2009, which will apply in the case of the Company to the accounting year ending 31 December 2010 and subsequent periods. In accordance with the new reporting fund regime, each share class will be viewed as a separate "offshore fund" for UK tax purposes.

The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund" without a requirement to apply for further certification by HM Revenue and Customs.

An application for each distributing Share Class (as defined in the Prospectus) to be treated as a "reporting fund" for the accounting year ending 31 December 2010 was submitted to HM Revenue and Customs on 19 February 2010.

There were no other significant events affecting the Company since the year end.

Notes to the Financial Statements as at 31 December 2009 (Continued)

17. DISTRIBUTOR STATUS

The Company is pursuing a distribution policy in respect of its distributing Share Classes so that these share classes will, under the United Kingdom Income Corporation Taxes Act, 1988 and for the purpose of UK taxation, be able to obtain certification as a "distributing fund" in the accounting year ended 31 December 2009.

18. APPROVAL OF THE FINANCIAL STATEMENTS

The Directors approved the financial statements on 21 April 2010.
