

KEY INVESTOR INFORMATION (KIID)

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Euro Bond, a Sub-Fund of Epsilon Fund

Class Unit: **I (EUR Accumulation, ISIN: LU0278427041)**

This Sub-Fund is managed by Eurizon Capital S.A., a company of Intesa Sanpaolo Group

OBJECTIVES AND INVESTMENT POLICY

Objectives The objective of the Investment Manager, Eurizon Capital SGR S.p.A., is to achieve in the medium term an average return in excess of the return of a portfolio of debt instruments issued by governments of the Eurozone represented by the benchmark.

Benchmark JP Morgan EMU Government Bond Index. *For designing portfolio, measuring performance and calculating performance fee.*

Investment Policy This Sub-Fund's net assets are invested mainly in high and medium quality ("investment grade") debt and debt-related instruments issued by public authorities from any country and denominated in Euro, as well as term deposits with credit institutions.

On an ancillary basis, the Sub-Fund's net assets may be invested in any other instruments, such as but not limited to UCITS (up to 10%) of any kind and cash.

The Sub-Fund may use derivatives financial instruments aiming at hedging risks, ensuring efficient portfolio management and/or investing according to the Investment Policy. The use of derivatives financial instruments for investment purposes may

amplify the up and down fluctuations of the Sub-Fund's Net Asset Value per Unit.

Strategy In actively managing the fund, the investment manager selects securities that appear to offer above average growth and income potential. The majority of the fund's securities will be components of and may have similar weightings to the benchmark depending on the investment manager's strategic or tactical views. Quantitative deviation limitations underlying the investment approach will restrict the extent to which the performance of the fund may deviate from the benchmark. The fund's exposure to securities, and thus its performance, are likely to slightly differ from those of the benchmark.

Redemption You may sell your units on demand at any time. The redemption orders are executed on the basis of the Net Asset Value per Unit of the day when the request is received in Luxembourg before the dealing deadline. The Net Asset Value per Unit is calculated daily.

Distribution Policy This Unit Class is not distributing dividends. Income from investments is reinvested.
