

## FORTIS L FUND Strategy Growth World

### **The Company**

FORTIS L FUND was established in Luxembourg on 29 November 1989 for an indefinite period as an open-ended investment company (société d'investissement à capital variable - abbreviated to SICAV) with multiple subfunds in accordance with the provisions of Part I of the Law of 30 March 1988 governing collective investment undertakings and subject to the provisions of Part I of the Law of 20 December 2002 governing collective investment undertakings further to the General Shareholders' Meeting of 21 June 2004.

It is governed by European Directive 85/611/EEC as amended by Directives 2001/107/EC and 2001/108/EC.

### **Investment objective**

To provide its investors with the highest possible appreciation of capital invested while offering a broad distribution of risks.

### **Investment policy**

The mission of this subfund is to invest in bond and equity markets, money market instruments, and undertakings for collective investment whose mission, in turn, is to invest primarily in the above-mentioned asset classes and, on an ancillary basis, in cash instruments, in order to achieve maximum profitability for the risk incurred. Emphasis is placed on international diversification of investments.

The risk is closely related to the percentages invested in the different asset classes. Under normal conditions, the manager will align the portfolio's composition to that of the Smart Benchmark - Growth (see Book I of the Full Prospectus). For effective portfolio management, the manager may deviate from this composition based on market conditions and his forecasts.

### **Risk profile**

Seven classes of risk have been defined. Class 0 represents the lowest risk and Class 6 the highest risk.

Class 4
