

DB Platinum IV Dynamic Cash

Share Class: I1C (ISIN: LU0396265430), (WKN: A0RBYW), (Currency: EUR)

a sub fund of DB Platinum IV. The Fund is managed by Deutsche Asset Management S.A., part of the Deutsche Bank Group.

Objectives & Investment Policy

The aim is for your investment to reflect the performance of the Deutsche Bank Dynamic Cash Index™ (Index). The Index is intended to reflect the rate at which banks in the Euro-zone lend to each other overnight (as calculated by the European Central Bank) (EONIA) and the DBIQ 1-2 year Euro-Sovereign Index™ (sub-index). The sub-index reflects the performance of selected tradeable debt (bonds) denominated in Euros and issued by the three largest government bond issuers in the Euro-zone. In relation to the sub-index the bonds will be repayable within one or two years. The weighting of each of the sub-index and EONIA within the Index may be adjusted, depending on their relative

performance. At each re-weighting, the weighting of the sub-index cannot exceed 10% of the Index but EONIA may comprise 100% of the Index. Certain costs may be deducted from all the indices.

The Fund may be hedged, fully or partially at the discretion of Deutsche Bank against market risks from its exposure to the Index. The costs of the hedging will be borne by Deutsche Bank.

To achieve the aim, the Fund will buy bonds of investment grade and/or invest in cash deposits and enter into financial contract(s) (derivative(s)) with Deutsche Bank relating to the bonds/deposits and the Index, in order to obtain the return on the Index.

No dividends will be paid on your shares.

You may redeem your investment on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 1 because of the low range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund does not invest directly in the components of the Index and its returns may be dependent on the performance of the bonds and/or cash deposits and the performance of the derivatives used.

Deutsche Bank and its related companies may act in several roles in relation to the Fund such as distributor, derivative counterparty, index sponsor and management company which may involve conflicts of interest.

The Fund will enter into a derivative with a counterparty (initially Deutsche Bank). If the counterparty fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.

The Fund may invest in bonds the value of which depends on the issuer being able to make its payments. There is always a risk that the issuer will fail to do so which may result in your investment suffering a loss.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Index provides a notional exposure to the value and/or return of certain interest rates and/or bonds, which may fall. This may result in your investment suffering a loss. Markets in interest rates and bonds may at times become volatile or illiquid. This means that ordinary trading activity may occasionally be disrupted or impossible. The relevant indices may be affected, and your investment may suffer a consequent loss.

The Index follows a rules based strategy which is not capable of being adjusted to take into account changing market circumstances. As a result you might not benefit from any such change, or may be exposed to risks which might have been avoided by an active investment manager.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.
Entry charge	None	
Exit charge	None	
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).		The ongoing charges figure is based on expenses for the year ending October 2015. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.
Charges taken from the Fund over a year		
Ongoing charges	0.13%	
Charges taken from the Fund under certain specific conditions		More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.
Performance fee	None	

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2005 and the share class was launched in 2009.

Past performance has been calculated in EUR.
