Report of the Board of Directors of the Company to the shareholders

For the year ended 31 December 2021

The following pages contain the audited financial report for the year ended 31 December 2021 for the 33 funds that comprise Capital International Fund (CIF).

Global stocks rallied in 2021 for the third year in a row, boosted by massive government stimulus measures and pent-up consumer demand. Market gains were tempered at times by worries about rising inflation, higher interest rates and the spread of coronavirus variants.

Energy stocks generated the largest returns as oil prices rebounded from the pandemic lows of 2020. Information technology stocks also posted impressive gains, but all sectors enjoyed positive returns.

US equities surged to new record highs as the COVID-19 vaccine rollout helped the economy rebound from lockdowns in 2020. Strong corporate earnings and accommodative fiscal and monetary policies supported markets with relatively low volatility.

Global supply chain disruptions contributed to the fastest inflation growth rate in the US since 1982. At its December meeting, the Federal Reserve said it expected to raise rates three times in 2022.

European stocks rallied as vaccine rollouts and government stimulus measures helped lift the eurozone economy out of a pandemic-induced downturn. Information technology and energy stocks led markets higher. Utilities and real estate stocks lagged as rising inflationary pressures weighed on interest-rate sensitive sectors.

Japanese equities lagged other developed markets, in part held back by a weaker yen, but also impacted by supply chain disruptions and the economic impact of COVID-19.

Emerging markets stocks posted their weakest returns since 2018. Inflationary pressures and a stronger US dollar dampened sentiment despite higher commodities prices. A deceleration in Chinese economic growth and increased government intervention weighed on markets. In particular, tighter government regulations in the technology, education and online gaming sectors led to a sharp sell-off in China's equity markets.

Government bonds declined in the face of soaring inflation. US Treasuries lost more than 2% while investment-grade corporates fell about 1%. Late in the year, central banks around the world started taking steps to tighten monetary policy, including the US Federal Reserve, the European Central Bank and the Bank of England. Meanwhile, high-yield and inflation-protected bonds rallied.

In foreign exchange markets, a strong US dollar continued to get stronger, particularly as the Fed indicated it would raise interest rates three times in 2022. For the year, the dollar posted significant gains against the euro, the yen and most other currencies.

In this environment, 19 of the 33 funds under the CIF umbrella in generated positive absolute returns for the full calendar year 2021¹, while 10 posted negative returns. Of the four funds launched during the year, three generated positive absolute returns for the period since their launch, while one fund posted negative returns.

Across all asset classes, the funds' portfolio managers are singularly focused on delivering superior, consistent results using high-conviction portfolios, rigorous research and individual accountability.

¹ All returns for the year to 31 December 2021 are stated net of fees in base currency terms. All returns are in share class C, with the exception of Capital Group American Balanced Fund (LUX), Capital Group EUR Moderate Global Growth Portfolio (LUX), Capital Group EUR Balance Growth and Income Portfolio (LUX), Capital Group EUR Conservative Income and Growth Portfolio (LUX), Capital Group EUR Conservative Income Portfolio (LUX) which are for share class Z in base currency. Capital Group Global Screened Allocation Fund (LUX) uses ZLh-EUR share class in euro.

Capital Group's response to the war in Ukraine

Russia's tragic invasion of Ukraine is having a devastating impact on those caught in the crisis. Our hearts are with the Ukrainian people and all those harmed by this war.

Uncertainty regarding the scope and duration of this war has exacerbated uncertainty around energy prices, which has, in turn, buffeted global stock markets. In addition, a rising number of COVID-19 cases in some parts of the world is adversely affecting economic activity and creating additional supply-chain bottlenecks - particularly in China, which recently saw its worst outbreak in two years. These developments have created a volatile investment environment.

Capital Group is committed to ensuring continuity of business and protecting our shareholders' investments in these volatile times. Capital Group is monitoring the ongoing situation involving Russia and Ukraine, including the potential for more restrictive investment sanctions to be applied in the near future. Capital Group's crisis management, leadership and investment teams have been monitoring developments daily. Capital Group's overall exposure to Russian securities, in both equity and fixed income, represents a very small fraction of our total assets under management. In those portfolios that hold Russian securities, our positions are small. We have suspended purchases of Russian securities across all our investment strategies and implemented controls in support of the sanctions against Russia. Our portfolio management teams are reviewing options to manage our exposure to Russian securities, consistent with available liquidity and our clients' interests.

In the current environment, CIF's funds have been managed in full compliance with all applicable laws and regulations as well as CIF's articles of incorporation and prospectus. NAVs have been issued daily and portfolio securities are priced in line with all applicable policies. Despite the significant volatility, these policies have continued to be appropriate to value our assets and protect our shareholders. We will continue to closely monitor the crisis to understand and respond to potential impacts.

Capital Group is also taking immediate steps to help those in need by charitable contributions of \$1 million to aid organizations working to alleviate the suffering of Ukrainian refugees. Additional giving will be assessed as the crisis unfolds. Additional personal contributions from Capital Group associates will be amplified through the matching gifts program.

As Capital Group has done throughout our 90-year history, we will continue to be guided by our focus on the long term, our unflinching commitment to our clients and associates, and our mission to improve people's lives. We hope for a swift and peaceful end to this terrible conflict.

Assets and cash flow

During the year, CIF's combined total net assets increased to €29.3 billion, up from €20.0 billion. This increase was the result of market movement and net inflows of €5.9 billion, which includes the four new funds launched under the CIF umbrella, detailed above. Changes in the total net assets for each fund are shown in the Historical data table on pages 38 to 53.

The last audited Net Asset Value, and the last day on which prices were calculated for all funds, was 31 December 2021, with the exception of Capital Group Japan Equity Fund (LUX), which was the 29 December 2021 and Capital Group Emerging Markets Local Currency Debt Fund (LUX) which was the 30 December 2021.

The table on pages 19 to 37 gives an overview of the funds' results in their accounting currency. Results in other currencies can be found online on the Management Company's webpage at thecapitalgroup.com/international.

Thank you for your investment and we look forward to reporting to you again in the semi-annual report at the end of June 2022.

	Capital Group Investment Company of America (LUX) (CGICALU)	Capital Group Capital Income Builder (LUX) (CGCIBLU)	Capital Group Global Allocation Fund (LUX) (CGGALU)			
Fund objective	Long-term growth of capital and income by investing primarily in common stocks, most of which have a history of paying dividends. In the selection of these companies, potential for capital growth and future dividends are given more weight than current yield.	To provide a level of current income that exceeds the average yield on U.S. stocks generally and to provide a growing stream of income over the years, expressed in USD.	Balanced accomplishment of three objectives: long-term growth of capital, conservation of principal and current income by investing in equities and bonds as well as other fixed-income securities from around the world.

Why do different share classes have different returns?

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the investment returns for that share class. For example:

- Class A4, A7, A9, A11, A13, A15 & C shares and their equivalent classes, where available, are only available to institutional investors who qualify for the reduced Luxembourg tax of 0.01% (rather than 0.05%).
- Class B¹⁰, BL, N, P, Z and ZL shares and their equivalent classes, where available, are primarily designed for distribution to individual investors. The management fee for class B, N shares and their equivalent classes, where available, is higher than for the other share classes to allow for compensation to distributors and other intermediaries for day-to-day services to investors or similar services in relation to investments made with their assistance.
- Class Y Shares and its equivalent classes are available only to Capital Group Investors, subject to conditions established from time to time by Capital Group, including the entering into of a separate agreement with respect to management fee and/or other fund expenses, which are not deducted from these Shares' Net Asset Value
- The management fee for class C shares and its equivalent classes, where available, is charged to shareholders outside the fund by specific separate agreement. Actual returns to shareholders of class C and its equivalent classes, where available, will be lower than those published.
- In addition, the returns of hedged equivalent classes and dividend distributing hedged equivalent classes are impacted by the passive currency-hedging overlay programme (see note 7 to the financial statements).
- For those funds without a specified reference index, a suitable illustrative index is displayed for context.

¹ Returns are with net dividends reinvested for unhedged share classes. Lifetime returns that relate to a period of less than a year are not annualised.

² Launch date is the date as of which shares are first issued by a fund, and hence the date on which the fund or share class was first priced. Prior results back to the launch of the fund relate to the older share classes, adjusted where necessary to reflect the management fee of the recipient share class.

³ Investment results are shown in the currency referred to in the relevant class's designation. Lifetime returns are from launch date to 31 December 2021.

⁴ Shown for indicative purposes only.

¹ Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

Notes to the financial statements

As at 31 December 2021

1) Capital International Fund (CIF)

a. Legal structure

CIF is an investment company (the “Company”) organised as a Société d’Investissement à Capital Variable (SICAV) in the Grand Duchy of Luxembourg and is established as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the amended law of 17 December 2010. CIF has been converted from a self-managed SICAV into a SICAV managed by a management company, namely Capital International Management Company, Sàrl (the “Management Company”), on 1 February 2013. CIF commenced operations on 30 December 1969.

b. Funds

CIF has adopted a multiple-compartment (or “umbrella”) structure. CIF currently comprises the following funds (the “funds”): Capital Group New Perspective Fund (LUX), Capital Group Global Equity Fund (LUX), Capital Group World Growth and Income (LUX), Capital Group World Dividend Growers (LUX), Capital Group New Economy Fund (LUX), Capital Group New World Fund (LUX), Capital Group Emerging Markets Growth Fund (LUX), Capital Group Asian Horizon Fund (LUX) (launched on 24 March 2021), Capital Group Japan Equity Fund (LUX), Capital Group European Opportunities (LUX) (launched on 22 February 2021), Capital Group European Growth and Income Fund (LUX), Capital Group AMCAP Fund (LUX), Capital Group Investment Company of America (LUX), Capital Group Capital Income Builder (LUX), Capital Group Global Allocation Fund (LUX), Capital Group Global Screened Allocation Fund (LUX) (launched on 1 December 2021), Capital Group American Balanced Fund (LUX) (launched on 27 July 2021), Capital Group Emerging Markets Total Opportunities (LUX), Capital Group Global Bond Fund (LUX), Capital Group Global Intermediate Bond Fund (LUX), Capital Group Global Total Return Bond Fund (LUX), Capital Group Euro Bond Fund (LUX), Capital Group Global Corporate Bond Fund (LUX), Capital Group Euro Corporate Bond Fund (LUX), Capital Group US Corporate Bond Fund (LUX), Capital Group Global High Income Opportunities (LUX), Capital Group US High Yield Fund (LUX), Capital Group Emerging Markets Debt Fund (LUX), Capital Group Emerging Markets Local Currency Debt Fund (LUX), Capital Group EUR Moderate Global Growth Portfolio (LUX), Capital Group EUR Balanced Growth and Income Portfolio (LUX), Capital Group EUR Conservative Income and Growth Portfolio (LUX), Capital Group EUR Conservative Income Portfolio (LUX).

c. Share classes and currencies

Shares of each fund may be divided into class A4, A7, A9, A11, A13, A15, B¹, BL, C, N, P, Y, Z and ZL shares. In addition, some classes of some funds may be further broken down into equivalent classes.

The funds publish net asset values (NAVs) and offer dealing and reporting in various payment currencies, except hedged equivalent and dividend-distributing hedged equivalent classes for which the funds publish NAVs and offer dealing in the currency referred to in the relevant class’s designation only. A detailed list of all active share classes as at 31 December 2021 is disclosed on page 19 to page 37. Furthermore, the list of all active share classes, available payment currencies and other details can be found online on the Management Company’s webpage at capitalgroup.com/international. The reporting currency in which the consolidated financial statements accounts are prepared is Euro. This currency may be different from the reporting currency of each CIF sub-funds which are expressed in Euro, US dollars or Yen.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statement of net assets, the statement of operations and changes in net assets of each fund converted into the Company’s reporting currency using an exchange rate as at 31 December 2021.

¹ Share class T switched into the equivalent B share class on 18 October 2021.

d. Dividend Policy

Class A4, Class A7, Class A9, Class A11, Class A13, Class A15, Class B¹, Class BL, Class C, Class Y, Class N, Class P, Class Z and Class ZL and corresponding Heded Equivalent Classes

It is not at present intended that dividends be distributed to Shareholders of Class A4, Class A7, Class A9, Class A11, Class A13, Class A15, Class B¹, Class BL, Class C, Class Y, Class N, Class P, Class Z, Class ZL and corresponding Heded Equivalent Classes in any Fund.

Dividend-distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes

- **Principle and amount:** The Board of Directors of the Company intends to recommend that dividends be distributed to Shareholders of all Dividend distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes.

Dividend-distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes marked with a “d”.

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net investment income.

Dividend-distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes marked with a “gd”. The dividend will generally represent a substantial part of the gross investment income (i.e., investment income net of withholding taxes but gross of expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, gross investment income. The payment of dividends out of gross investment income implies that all or part of the fees and expenses are charged to capital (i.e. accumulated capital gains or initial investment).

Dividend-distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes marked with an “ad”.

This share class is available only to Capital Group investors, subject to conditions established from time to time by Capital Group. The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net income.

Dividend-distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes marked with a “fd”.

The dividend will generally be fixed and may exceed the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes. The payment of a fixed dividend implies that any payment in excess of the net investment income may include capital gains, as well as partially be paid out of capital.

■ **Dividend-distributing Equivalent Classes and Dividend-distributing Heded Equivalent Classes with an “m” designation:** It is intended that these Classes will distribute dividends monthly.

These are marked by a “m”, i.e. “dm”, “gdm”, “adm”, “fdm” depending on the applicable dividend methodology (see “Dividend Policy” above for details) or “dmh”, “gdmh”, “admh” or “fdmh” for Dividend-distributing Heded Equivalent Classes.

¹ Share class T switched into the equivalent B share class on 18 October 2021.

- **Payment:** Shareholders can elect in writing to have their dividends either reinvested in Shares or paid to them. In the absence of instruction from a Shareholder, the Administrative Manager will automatically reinvest any dividends in Shares promptly upon payment of the dividend. If the Shareholder elects to have dividends paid, the relevant amount will be paid at no charge by bank transfer in the relevant Payment Currency to the bank account designated for this purpose (with all necessary details as specified in the Account Opening Form) by the Shareholder. Upon dividends paid to a Shareholder having been returned to the Company for the second consecutive year, the Administrative Manager will reinvest in Shares the amounts so returned, as well as the amount of any subsequent dividend paid to the same Shareholder until otherwise instructed.

e. Accounting year

The accounting year of CIF begins on 1 January and terminates on 31 December in each year.

2) Significant accounting policies

a. General

These financial statements are prepared in accordance with Luxembourg laws, regulations and practices relating to investment funds. The last audited Net Asset Value, and the last day on which prices were calculated for all funds, was 31 December 2021, with the exception of Capital Group Japan Equity Fund (LUX) and Capital Group Emerging Markets Growth Fund (LUX) which was the 29 December 2021 and 30 December 2021 respectively. Please note that Fund Non-trading dates calendar for the year ongoing is available on CG website at capitalgroup.com/international.

b. Valuation of investments

- i. Except as otherwise provided in (v) below, securities which are listed on an official stock exchange or traded on any other regulated market are valued at the last traded or otherwise available price at the time the NAV is calculated on the principal market on which they are traded, as published by such market or furnished by a pricing service approved by the Board of Directors of the Company; and other securities are valued at prices furnished by, or yield equivalents obtained from, one or more dealers or such pricing service.
- ii. Securities issued by UCITS or UCIs will be valued at their last available NAV on the relevant valuation date; they may be valued in accordance with item (i) above where such securities are listed.
- iii. Money market instruments will be valued at nominal value plus any accrued interest or using an amortised cost method, provided that this method of valuation ensures that such assets will be valued at their fair value as determined in good faith pursuant to the procedure established by the Board of Directors of the Company.
- iv. The liquidating value of OTC derivatives shall be determined based on information provided by pricing services approved by the Board of Directors of the Company.
- v. If a price representative of a security's fair value is not readily available from the pricing sources described under (i) through (iv) above, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is materially affected by events that occur prior to the NAV being calculated, the relevant security or securities will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors.

c. Foreign currencies

- i. Assets and liabilities in currencies other than euros have been translated into euros at the prevailing exchange rates as at 31 December 2021. Transactions during the year in currencies other than euros have been translated at rates prevailing at the time of the transaction. The variation of the net unrealised exchange gains or losses on open forward currency exchange contracts and on other assets and liabilities between 31 December 2020 and 31 December 2021 is disclosed in “net change in unrealised appreciation/(depreciation) on foreign currency transactions”. The net realised gains or losses on exchange, including on open forward currency exchange contracts expired during the year, are disclosed in “net realised gain/(loss) on foreign currency transactions”.

The principal exchange rate applied as at 31 December 2021 is 1 EUR = 130.961655661 YEN and 1 EUR = 1.138500006 USD.

- ii. If a current quote representative of a foreign currency value is not readily available, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is significantly affected by events that occur prior to the NAV being calculated, the relevant foreign currency or currencies will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors.

d. Income

Dividends are taken into income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

Premiums and discounts on convertible bonds, sinkable bonds, sinkable-callable bonds, index-linked assets, inflation linked assets, dirty priced bonds and unitised bonds are amortised using an effective interest rate (EIR) methodology. Premiums and discounts on all other fixed income securities are amortised on a straight-line basis.

e. Realised gain or loss on sale of investments

The realised gain or loss on sale of equities is determined on the average cost basis and the methodology of calculating gains or losses on disposal of fixed income securities is first-in-first-out (FIFO).

f. Unfunded capital commitments

Unfunded capital commitments represent agreements which obligate the Capital Group Emerging Markets Growth Fund (LUX) to meet capital call in the future. Payment would be made when a capital call is requested. Capital calls can only be made if and when certain requirements have been fulfilled; thus, the timing and the amount of such capital calls cannot readily be determined. Unfunded capital commitments are recorded when capital calls are requested. As of 31 December 2021, unfunded capital commitments were US\$4,442,188.

g. Mortgage related securities – To Be Announced securities contracts (TBAs)

TBA contracts are forward contracts on agency mortgage pass-through securities issued by agencies such as Fannie Mae, Freddie Mac and Ginnie Mae. The particular securities (i.e., specified mortgage pools) to be delivered or received are not identified at the trade date, but are “to be announced” on the notification date which is two days before the settlement date. However, securities to be delivered must meet specified criteria, including face value, coupon rate and maturity, and be within industry-accepted “good delivery” standards. TBAs settle once each month based on a calendar published by the Securities Industry and Financial Markets Association.

TBA positions are disclosed in the schedule of investments. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Payable for To Be Announced contracts" in the statement of net assets.

Negative positions in the schedule of investments reflect the fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under "Receivable for To Be Announced contracts" in the statement of net assets.

The realised gain/(loss) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings "Net realised gain/(loss) on sale of investments" and "Net change in unrealised appreciation/(depreciation) on investments".

h. Swing pricing adjustment

A fund may suffer dilution of the net asset value as a result of large subscriptions, redemptions or switches. Such dilution would arise from shareholders buying or selling shares at a net asset value which would not accurately reflect the dealing and other costs incurred when securities are traded to accommodate cash inflows or outflows. In order to counter such dilution impact, the Company adopts a swing pricing mechanism as part of its valuation policy. If on any valuation date, the net aggregate amount of subscriptions or redemptions in shares of a fund exceeds a pre-determined threshold expressed as a percentage of the net asset value of that fund, the net asset value may be adjusted upwards or downwards to reflect the costs attributable to the underlying trade in securities undertaken by the Investment Advisers to accommodate inflows or outflows as the case may be.

Any swing pricing adjustment to such net asset value will be applied systematically and consistently based on predefined factors. The price adjustment may vary from fund to fund and will normally not exceed 2% of the original net asset value. The Company may decide to suspend the application of any swing pricing adjustment to the net asset value of any particular fund or increase this price adjustment limit in exceptional circumstances to protect the interests of shareholders. Such price adjustment is available on the Management Company's webpage at capitalgroup.com/international concomitantly with the publication of the relevant net asset value. The Company, relying on the Management Company and its Conducting Officers' ongoing review, will reassess on a periodic basis the price adjustment factors to reflect an approximation of current dealing and other costs.

As at year end, a swing pricing adjustment has been applied to Capital Group Capital Income Builder (LUX). The official Net Asset Values per share of this fund, following the application of the swing pricing factor, are shown in the following table.

All other financial information stated in this report is shown before any adjustment for swing pricing.

b. Depositary fee, custody fee and fund administration fee

The Company has appointed J.P. Morgan SE (until 22 January 2022: J.P. Morgan Bank Luxembourg S.A.) as Depositary, Custodian and Administrative Manager.

The depositary, custody and fund administration effective fees may vary with the total assets of the funds and, for the custody fee, with the country breakdown in the portfolio. CIF paid fund administration, depositary and custody fees at the approximate effective annual rates specified below. Rates are calculated based on the average net assets during the year:

c. Related party transactions

Professional services in the statement of operations and changes in net assets include an amount of €5,324,688 charged by the Management Company for administrative services rendered during the year ended 31 December 2021.

d. Reimbursement of expenses

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the returns to shareholders. The CIF prospectus, available on the Management Company's webpage at capitalgroup.com/international, explains further the differences between share classes.

The Management Company established a reimbursement threshold so that each fund's total expense ratio (excluding management fee) did not exceed the annual rates specified below:

5) Taxation

a. Taxe d'abonnement

In Luxembourg, CIF is subject only to a tax ("taxe d'abonnement") at the annual rate of 0.05% of the total net assets of each share class in each fund. However, as provided by the relevant Luxembourg laws in respect of share classes wholly held by institutional investors, a reduced rate of 0.01% per annum was applied in respect of class A4, A7, A9, A11, A13, A15, C and equivalent share classes, where available, for the year ended 31 December 2021. It should be noted that there can be no guarantee that the benefit of such reduced rate will not be denied or that, once obtained, it will continue to be available in the future. Such tax is accrued daily, payable quarterly and calculated on the total NAV of each share class at the end of the relevant quarter.

b. Foreign taxes

Capital gains and income on securities may be subject to respectively capital gain taxes and withholding taxes. CIF is not expected to recover such taxes in full, but may have the possibility to reclaim a portion of the withholding taxes in accordance with the tax relief provided for in the double tax treaties in place between Luxembourg and some foreign countries.

It is CIF's policy to accrue for withholding taxes and any other significant liability for foreign capital gain taxes.

Under certain circumstances, CIF may file claims with the tax authorities of some foreign countries, when the tax treatment it has been subject to could be considered as contestable or discriminatory. The nature of these claims is complex and subject to each jurisdiction's local procedural rules and case law. In such cases, in view of the uncertainty of success, and in accordance with the accounting principle of prudence applied in Luxembourg, CIF does not accrue for the potential tax refund. When a claim is successful, any significant withholding tax or capital gain tax reimbursement is recognised as "other income" or "net realised gain on sale of investments" respectively upon notification of the final judgment.

For the year ended 31 December 2021, the total amounts earned by the funds as a result of these claims were as follows:

Capital Group New Perspective Fund (LUX)	USD	160,780
Capital Group Global Equity Fund (LUX)	EUR	11,611
Capital Group World Growth and Income (LUX)	USD	8,337
Capital Group New World Fund (LUX)	USD	77,232

6) Forward currency exchange contracts

In order to achieve the most appropriate currency distribution, the funds enter into forward currency exchange contracts aiming to reduce the risk of the depreciation in the value of specific currencies. The funds do not intend to systematically hedge currency exposures back to any currency, except in the case of hedged equivalent classes, as described in note 7 to the financial statements.

Forward currency exchange contracts are valued on the basis of forward currency exchange rates prevailing on the relevant reporting date and the resulting net change in unrealised gain or loss is included in the statement of operations and changes in net assets.

7) Hedged equivalent classes¹

The hedged equivalent classes seek to limit the exposure of their shareholders to currencies other than the currency referred to in the relevant class's designation, through a systematic passive currency-hedging overlay performed by J.P. Morgan Chase Bank, N.A. on a significant part of the assets of the relevant fund attributable to these classes. In the case of a net asset flow to or from such a class or fluctuation in the net asset value of the class, the passive currency-hedging overlay may not, or not immediately, be adjusted, unless the flow or fluctuation is significant. Passive currency-hedging overlay will not completely eliminate the exposure to currency movements, and proxy hedging may, for instance, be used when the underlying currency is not liquid or is closely linked to another currency. Shareholders of hedged equivalent classes should note that returns of hedged equivalent classes may be significantly different over time than those of unhedged classes and that passive currency-hedging overlay may limit their ability to benefit from the currency diversification undertaken within the portfolio (including partially offsetting the currency hedging undertaken at the level of the fund's portfolio). The cost of passive currency-hedging overlay and gains/losses from hedging transactions are borne by the relevant hedged equivalent class(es).

These classes are marked by a "h" and a reference to the currency being hedged into.

The actual passive currency-hedging overlay methodology varies from fund to fund, as described hereafter.

8) Credit Default Swaps contracts

In order to obtain exposure to a diversified portfolio of credits or to hedge against existing credit risks, the funds may use Credit default swaps ("CDS") or credit default swap indices contracts ("CDXs"). CDS allows the transfer of default risk. This allows investors to effectively buy insurance on a Bond they hold (hedging the investment) in the expectation that the credit will decline in quality. Conversely, where the investment view is that the payments due to decline in credit quality will be less than the coupon payments, protection will be sold by means of entering into a credit default swap. A CDX is based on a portfolio of credit default swaps with similar characteristics, such as credit default swaps on high-yield bonds. In a typical CDS and/or CDX transaction, one party – the protection buyer – is obligated to pay the other party – the protection seller – a stream of periodic payments over the term of the contract. If a credit event, such as a default or restructuring, occurs with respect to any of the underlying reference obligations, the protection seller must pay the protection buyer the loss on those credits. The fund may enter into a CDS and/or CDX transaction as either protection buyer or protection seller.

The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts". Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/(depreciation) on swap contracts".

9) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis which is usually not exchanged.

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts." Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/(depreciation) on swap contracts".

10) Futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instruments at a specific date in the future.

Upon entering into futures contract, the sub-fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised gain/(loss) on future contracts is disclosed in the statement of net assets under "Unrealised gain/(loss) on financial futures contracts". Changes in the market value of open future contracts are recorded as unrealised gain/(loss)

in the statement of operations and changes in net assets under "Net change in unrealised appreciation/(depreciation) on financial futures contracts". Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under "Net realised gain/(loss) on financial futures contracts".

12) Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect

Some funds may invest via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively “Stock Connects”). The Shanghai-Hong Kong Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited (“HKEx”), Shanghai Stock Exchange (“SSE”) and China Securities Depository and Clearing Corporation Limited (“ChinaClear”) and the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing linked program developed by HKEx, Shenzhen Stock Exchange (“SZSE”) and ChinaClear, both aiming to achieve mutual stock market access between the People’s Republic of China (“PRC”) and Hong Kong. Hong Kong Securities Clearing Company Limited (HKSCC), a wholly-owned subsidiary of HKEx, and ChinaClear will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by their respective market participants and/or investors.

The Shanghai-Hong Kong Stock Connect comprises a Northbound Shanghai Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shanghai Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by the Hong Kong Stock Exchange (“SEHK”), may be able to trade eligible China A Shares listed on the SSE by routing orders to SSE. Under the Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect, investors in the PRC will be able to trade certain stocks listed on the SEHK. The Shenzhen-Hong Kong Stock Connect comprises a Northbound Shenzhen Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shenzhen Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible China A Shares listed on the SZSE by routing orders to SZSE. Under the Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect investors in the PRC will be able to trade certain stocks listed on the SEHK.

The trading is subject to rules and regulations issued from time to time. Trading under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are both subject to a daily quota (“Daily Quota”). Northbound Shanghai Trading Link and Southbound Hong Kong Trading Link under the Shanghai-Hong Kong Stock Connect as well as Northbound Shenzhen Trading Link and Southbound Hong Kong Trading Link under the Shenzhen-Hong Kong Stock Connect will be subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of cross boundary trades under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect each day.

13) China Interbank Bond Market

Some funds may invest on the China Interbank Bond Market. Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that a fund transacts in the China Interbank Bond Market, the fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value. Since the relevant filings and account opening for investment in the China Interbank Bond Market have to be carried out via an onshore settlement agent, the relevant fund is subject to the risks of default or errors on the part of the onshore settlement agent.

The China Interbank Bond Market is also subject to regulatory risks. The relevant rules and regulations on investment in the China Interbank Bond Market are subject to change which may have potential retrospective effect. In the event that the relevant Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the funds' ability to invest in the China Interbank Bond Market will be limited and, after exhausting other trading alternatives, the relevant fund may suffer substantial losses as a result.

Reforms or changes in macro-economic policies, such as the monetary and tax policies might affect interest rates. Consequently, the price and the yield of the bonds held in a portfolio would/could also be affected.

14) Bond Connect

Some funds may invest via the Bond Connect. Bond Connect is the historic opening up of China's Interbank Bond Market (CIBM) to global investors through the China-Hong Kong mutual access program. The program allows foreign and Mainland China investors the ability to trade in each other's bond market through a connection between the Mainland and Hong Kong based financial infrastructure institutions.

Bond Connect aims to enhance the efficiency and flexibility of investing in the China Interbank Bond Market. This is accomplished by easing the access requirements to enter the market, the use of the Hong Kong trading infrastructure to connect to China Foreign Exchange Trading System (CFETS), removal of the investment quota and Bond Settlement Agent, all which are required to invest in the CIBM directly.

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

17) Calculation method of the risk exposure

The methodology used by all sub-funds, except for the Capital Group Global Total Return Bond Fund (LUX), in order to calculate the global exposure resulting from the use of financial derivative instruments is the commitment approach in accordance with the CSSF Circular 11/512. The commitment approach calculation converts the financial derivative position into the market value of an equivalent position in the underlying asset of that derivative. When using the commitment approach, the sub-fund may benefit from the effects of netting and hedging arrangements to reduce its global exposure.

For the Capital Group Global Total Return Bond Fund (LUX), the absolute Value-at-Risk ("VaR") approach is used for the purposes of calculating global exposure. The VaR approach seeks to estimate and constrain the potential loss that the sub-fund could experience on a 1-month (20 business days) horizon, 99% confidence interval. A third-party risk system is used to calculate analytical VaR utilising 5 years of weekly historical data with a 2-month half-life to carry out the calculation on a daily basis.

The table below details the sub-fund's highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the absolute VaR regulatory limit of 20%. In addition, the leverage figure is calculated using the gross sum of the notional amounts of the derivatives used by the sub-fund as is required by UCITS regulations and as such does not take into account any netting of the derivatives and hedging arrangements that the sub-fund has in place at any time.

Sub-Fund	Global Exposure Approach	Regulatory VaR limit utilisation (percentage of total VaR limit used)			Gross Sum of Notionals	Observation period
		Lowest	Highest	Average		
Capital Group Global Total Return Bond Fund (LUX)	Absolute VaR	5.21%	10.42%	7.55%	316.05%	4 January 2021 to 31 December 2021

18) Events subsequent to the year-end

a. Provider name change

With effect from 22 January 2022, J.P. Morgan Bank Luxembourg S.A. merged into J.P. Morgan AG which at the same time changed its legal form from a German Stock Corporation (Aktiengesellschaft) to a European Company (SocietasEuropaea), being J.P. Morgan SE.

b. The war in Ukraine

The invasion of Ukraine by Russia on 24 February 2022 has drawn strong global condemnation and resulted in significant economic sanctions on Russia and Belarus. It is uncertain how long the conflict, economic sanctions and the resulting impacts on regional and global financial markets and economic conditions will continue. Securities markets have been volatile, and large uncertainty persists, both as to the contours of current sanctions as well as the likely next government actions. The sanctions and events occurring in Russia/Ukraine are causing volatility in equity and bond markets locally and globally. Capital Group is monitoring the ongoing situation involving Russia and Ukraine, including the potential for more restrictive investment sanctions to be applied in the near future. In the context of this crisis, Capital Group is further watching a number of neighboring nations to Russia and Ukraine which have borne some of the brunt of the market volatility contagion. Capital Group has developed systems and controls that are reasonably designed to ensure that our investment management process complies with relevant sanctions - including divestment requirements where applicable - from various sanctions regulatory bodies, such as the U.S. Treasury's Office of Foreign Assets Control (OFAC), the UK OFSI, the EU, Canada, UN Security Council and other bodies.

Prices are fluctuating quickly in a dynamic environment and use of different independent pricing providers may lead to price differences between the fund and the index. If prices are not deemed representative from these providers, they are fair valued in line with the Management Company's fair value policy. This includes input from our investment professionals and other observable market data points such as broker quotations. Russia, Belarus and Ukraine Fund exposures are also available on the website*.

b. Revised Hong Kong offering documents for compliance with the revised SFC Code

The revised Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission (SFC Code) came into effect on 1 January 2019 with a 12-month transition period for compliance for funds previously authorised by the SFC (including the Sub-Funds authorised in Hong Kong).

During the year ended 31 December 2021, disclosures in the Hong Kong offering documents were amended for compliance with the applicable requirements under the revised SFC Code. Amendments include revised disclosure on transactions with Connected Persons (as defined under the SFC Code) of each Sub-Fund authorised in Hong Kong. For the avoidance of doubt,

*Please refer to <https://www.capitalgroup.com/international> for complementary information and figures.

as a result of the amendments of disclosures for compliance with the revised SFC Code, there will not be (i) any change of the investment objective and policies of the Sub-Funds authorised in Hong Kong; (ii) any material changes to the Sub-Funds authorised in Hong Kong; (iii) any material change or increase in the overall risk profile of the Sub-Funds authorised in Hong Kong; and (iv) any material adverse impact on the rights or interests of the Hong Kong Shareholders.

c. Transactions with Connected Persons for the Sub-Funds distributed in Hong Kong

Connected Persons of the Management Company, the Investment Advisers and the Directors of the Company are those defined in the SFC Code. All transactions entered into during the period between the Authorised Sub-Funds and the Management Company, the Investment Advisers and the Directors of the Company and their respective Connected Persons were carried out at arm's length in the ordinary course of business and on normal commercial terms.

To the best of the knowledge of the Management Company, the Investment Advisers and the Directors of the Company, the Sub-Funds did not have any other transactions with connected persons except for those disclosed below.

Brokerage fees are charged separately for fixed income instruments, therefore the fixed income CIF Sub-Funds and values for fixed income transactions are excluded from this table (for more details, please refer to 'Note 15) Transaction Costs' of the Notes to the financial statements).

Certain Directors of CIF hold shares in one or more of the Sub-Funds. Directors have received profit (realized gain) from his/her transactions in shares of the Sub-funds during the year for a total amount of 54,112 EUR.

The Management Company is entitled to receive management fees from the Sub-Funds as set out in 'Note 3) Fees and expenses' of the Notes to the financial statements.

d. Soft Commissions

No soft commission arrangements were entered into by the Management Company or the Investment Advisers with brokers for the year ended 31 December 2021.

General information

Annual General Meeting

The Annual General Meeting of the shareholders of Capital International Fund (CIF) is held at the registered office of CIF in Luxembourg on the last Tuesday of April in each year at 11:00 am or, if such day is not a Luxembourg business day, on the next business day. Notices of all general meetings are sent to shareholders at their addresses in the register of shareholders by post at least eight days prior to the meeting.

Information available to investors

The Prospectus, Key Investor Information Document (KIID), Articles of Incorporation, audited Annual Report, unaudited Semi-annual Report and a Statement of changes in the investment portfolio for each fund for the year ended 31 December 2021 are made available free of charge at the registered office of CIF or at the authorised representatives of CIF in various jurisdictions in accordance with Luxembourg law and with the laws of all relevant jurisdictions – see Authorised Agents and Country Paying Agents on pages 547 and 548. In addition, for investors in the Federal Republic of Germany, the above documents may be obtained free of charge in paper form from the German paying and information agent.

The net asset value per share can be obtained from the registered office of CIF. In addition, information about the funds is available on the Management Company's webpage at capitalgroup.com/international.

Presentation of results information

■ Pre-merger funds

Some of the funds are a consequence of the merger of pre-existing SICAVs into Capital International Fund. For these funds, lifetime results relate to the pre-existing SICAVs.

■ The euro

The euro came into being on 1 January 1999. Historical results in euros for Capital Group Global Equity Fund (LUX) and Capital Group Global Bond Fund (LUX) relating to time periods prior to 1 January 1999 are calculated using the ECU composite and are shown for illustrative purposes only.

The Investment Adviser disclosure

The Investment Adviser and Affiliates (the "Affiliates") will place trades with brokers who provide certain brokerage and/or investment research services to the Affiliates, but only when in the Affiliates judgement the broker is capable of providing best execution for that transaction. For the year ended 31 December 2021, there were no transactions through connected brokers and hence no commissions were paid to connected brokers since none of the Affiliates operate any brokerage activity. These services permit the Affiliates to supplement their own research and analysis, which contributes to the efficient management of investment portfolios by Affiliates for the benefit of investors. Although Affiliates may enter into arrangements with brokers with the expectation that these services will be provided, Affiliates do not incur any obligation with any broker to pay for research by generating trading commissions. Affiliates also pay cash for certain third-party research they receive. In addition, Affiliates' employees are governed by a global Code of Ethics, which includes rigorous personal investing and gifts and entertainment policies. Affiliates may also provide the Company with other services to support its business development, including, but not limited to, product development, fund registration and any other similar support as may be required, for which they receive a reasonable compensation.

Audit report

To the Shareholders of
CAPITAL INTERNATIONAL FUND

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of CAPITAL INTERNATIONAL FUND (the "Fund") and of each of its sub-funds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets as at 31 December 2021;
- the schedule of investments as at 31 December 2021;
- the combined statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Remuneration related information

The Management Company (“Capital International Management Company”) has implemented a Remuneration Policy that is designed not to encourage taking excessive risks.

The details of the up-to-date Management Company remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on the website https://www.capitalgroup.com/eu/remuneration_policy.

A paper copy of the remuneration policy will be made available free of charge upon request.

As per UCITS V Directive as regards depositary functions, remuneration policies and sanctions, it is confirmed that

- the remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the UCITS that the management company manages;
- the remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the UCITS that it manages and of the Shareholders in such UCITS, and includes measures to avoid conflicts of interest;
- the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the Shareholders of the UCITS managed by the management company in order to ensure that the assessment process is based on the longer-term performance of the UCITS and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The Management Company paid a total of EUR 3.5m to 26 beneficiaries during the year ending 31 December 2021. This figure is comprised of fixed remuneration of EUR 2.5m and variable remuneration of EUR 1m. The total amount paid to senior management was EUR 1.5m and to other members having a material impact on the risk profile of the fund was EUR 0.5m.

The Management Company has contractual delegation arrangements in place with Capital International Sàrl (CISA) and Capital Research and Management Company (CRMC) regarding the accomplishment of portfolio management activities. CISA and CRMC comply with their applicable remuneration regime and apply the same principles as the Management Company.

As remuneration for above mentioned delegations, the Management Company paid EUR 0.5m to CISA and CRMC which was included in the compensation and benefits of 9 beneficiaries having a material impact on the risk profile of the fund during the year ending 31 December 2021. This figure is comprised of fixed remuneration of EUR 0.3m and variable remuneration of EUR 0.1m*.

Fixed remuneration consists of salaries paid, pension contributions and other benefits such as health insurance. Variable remuneration consists of annual bonuses paid in the period in accordance with remuneration policy. For staff that perform roles for other group companies, only the proportion of remuneration that is attributable to the Management Company or the UCITS funds it manages is included in these amounts.

* Figures may not add up to the total due to overhead costs.

Sustainable Finance Disclosure

As at the year end, and throughout the accounting period, the investments underlying the sub-funds did not take into account the EU criteria for environmentally sustainable economic activities.
