BBVA EUR CORPORATE BOND FUND, a Sub-Fund of BBVA DURBANA INTERNATIONAL FUND

Class P - LU0412959297

Management Company: BBVA ASSET MANAGEMENT, S.A., S.G.I.I.C., an entity of BBVA Group.

Objetives and Investment Policy

The Sub-Fund is actively managed and compares its performance against the ICE BofA 1-10 Year Euro Large Cap Corporate Index . Therefore, the Investment Manager may freely select the assets, so the composition of the Sub-Fund´s portfolio is not constrained by the composition of the benchmark.

The Sub-fund seeks to achieve positive returns in the form of capital growth by investing in a diversified portfolio of fixed income corporate instruments denominated in Euro.

The investment objective of the Sub-Fund is to invest primarily in corporate bonds issued in Euros by investment grade companies, with a minimum credit quality of BBB-. A maximum of 20% of the net assets of the Sub-Fund may be invested in sub-investment grade securities, whether or not these securities were initially considered investment grade at the time of the investment. The portfolio will have an average duration of less than 5 years. The Sub-Fund may invest in assets denominated in any other currency other than Euro, although this currency exposure will be hedged.

The sub-fund may use financial derivative instruments for hedging or efficient management purposes. The Sub-Fund will not enter into repurchase agreements and reverse repurchase agreements, securities lending and securities borrowings, buy-sell back transactions or sell-buy back transactions, and total return swaps.

The Sub-Fund may hold cash and cash equivalents on an ancillary basis.

The Sub-Fund will not invest more than 10 % of its net assets in units / equities of other UCITS or UCIs, including ETFs, which are in line with this investment strategy.

Dividend Income is not paid out, but it will be reinvested in the Sub-Fund. Shares may be redeemed on demand, on each bank working day in Luxembourg. Recommendation: This sub-fund may not be appropriate for investors who plan to withdraw their money within 2 years.

Risk and Reward Profile

The level of Risk and Reward is due to the nature of the investments and the fluctuations of its returns in the past. The risk and reward indicator was calculated using historical performance data and it may not be a reliable guide of the fund's future risk profile. The risk category shown is not guaranteed and may shift over time. The lowest risk category does not mean a risk free investment.

Risks materially relevant which are not adequately captured by the indicator:

The investments of the Sub-Fund are subject to normal market fluctuation and other risks inherent in investing in securities and there can be no assurance that capital appreciation or distribution payments would occur. The value of investments and income derived from them, and therefore the value of the securities of the Sub-Fund, can and do go down as well as up and an investor may not get back the amount he invests.

Credit risk, a fundamental risk relating to all fixed income securities or debt securities, is the chance that an issuer will fail to make principal and interest payments when due. Sub-investment grade securities: Hold debt instruments which a lower credit quality and may result in large fluctuations of the value of the Sub-Fund.

Interest rate risk: movements in interest rates may have effect negatively a security's value or, in a Sub-Fund's case, its Net Asset Value.

Derivative risk: The value of a derivative contract depends on the performance of an underlying asset, and a small movement in the value of the underlying asset may cause a large movement in the value of the derivative because of the high degree of leverage which is typical for trading in derivative instruments.

As the Sub-Fund may invest in assets denominated in different currencies, the Sub-Fund may be exposed to currency exchange rate fluctuation.

Please refer to the "Risk Factors" section of the prospectus to find a more detailed description of the risk factors applying to this Sub-Fund.
