Source: Insight. Performance is shown for B1p Sterling unless otherwise stated. Total return, including annual management charge, but excluding initial charge, net of performance fees, income reinvested gross of tax, expressed in share class currency. The impact of the initial charge which may be up to 4% can be material on the performance of your investment. Performance figures including the initial charge are available upon request.

**This is not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for the returns to be significantly different than expected.
