Benefits

The fund draws on the knowledge of proven investment specialists, some of whom have many years' experience in Brazil.

The portfolio's structure may deviate significantly from the reference index in order to increase outperformance potential.

Investors benefit from a global investment platform of UBS Asset Management.

Risks

UBS Emerging Market Funds invest in equities and may therefore be subject to high fluctuations in value. For this reason, an investment horizon of at least five years and corresponding risk tolerance and capacity are required. As these UBS Funds pursue an active management style, each Fund's performance can deviate from that of its reference index. Investors should also be aware of the political and social challenges that emerging markets face. All investments are subject to market fluctuations. Every Fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk).

Please note that additional fees (e.g. entry or exit fees) may be charged. Please refer to your financial adviser for more details. Investors should read the Key Investor Information Document (KIID), Prospectus and any applicable local offering document prior to investing. For a definition of financial terms refer to the glossary available at www.ubs.com/glossary.

For marketing and information purposes by UBS. UBS funds under Luxembourg law. CNMV registration number: UBS (LUX) Equity Sicav 344.
