Article 8

## PORTFOLIO MANAGERS

**William Fong, CFA**  
23 years of experience

**Nicola Lai**  
17 years of experience

## JULY 2024 / FACTSHEET

### KEY RISK

During exceptional market conditions there may be insufficient buyers and sellers to allow the Fund to buy and sell investments, which could affect the Fund's ability to meet investors' redemption requests. Losses may occur if an organisation through which we buy an asset fails to meet its obligations. Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care. Fund investments in derivatives are sensitive to changes in the value of the underlying asset on which they are based and their use may result in losses greater than the amount originally invested. Fund investments in overseas assets may lose value due to movements in foreign exchange rates. Fund investments in equities may be subject to significant fluctuations in value. The Fund can hold smaller company shares which can be more difficult to buy and sell and more volatile than those of larger companies. Region specific funds have a narrower focus than those which invest broadly across markets and are therefore more risky. Further information on the Fund's risks can be found in the offering (constitutional) documents.

### OBJECTIVE

The investment objective of the Fund is to seek long-term capital growth primarily through active investment in a diversified portfolio of shares of companies where the predominant part of their income is derived from Hong Kong or China.

### STRATEGY & MARKETING OPPORTUNITY

Identify investment opportunities through a differentiated and innovative investment process using fundamental, bottom-up analysis.

- Large-scale, all-cap Hong Kong China strategy with long history dating back to 1982.
- Flexible investment universe and ability to capture China growth story through a holistic approach by investing in domestic Hong Kong listed, onshore Chinese (A-shares), Taiwanese and multi-national companies with significant exposure to China.
- Investment process tailored for asset class by experienced team.

FUND PERFORMANCE (%)	Class A USD Inc (Gross of Fees)	Class A USD Inc (Net of Fees)	Benchmark <sup>1</sup>

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

Barings Hong Kong China A USD Inc share class was rated against the following numbers of EAA Fund China Equity investments over the following time periods: 800 investments in the last three years, 582 investments in the last five years, and 309 investments in the last ten years. **Past performance is no guarantee of future results.**

Morningstar Rating is for the A share class only; other classes may have different performance characteristics.

Benchmark: The benchmark is currently MSCI China 10/40 (Total Net Return) Index. Previously Hang Seng (Total Gross Return) Index until August 31, 2006, followed by MSCI Zhong Hua (Total Gross Return) Index until January 31, 2008, then MSCI China (Total Gross Return) Index until June 30, 2018, then MSCI China 10/40 (Total Gross Return) Index until December 31, 2019.
