DPAM B Equities EMU Behavioral Value

(a sub-fund of DPAM B SA, a public SICAV under Belgian law)

managed by DPAM SA

Classe L - ISIN: BE0948778213

Objectives and investment policy

Objective

- The fund's objective is to obtain as high a return as possible. The fund invests in equities (with no limits as to sectors) listed in EU member states forming part of the EMU. The investment policy is based on the principles of Behavioural Finance, an academic filed which analyses financial markets with the aid of psychology. The investment policy is based on the principles of Behavioural Finance, an academic filed which analyses financial markets with the aid of psychology. The fund will maintain a wide spread of risks, in particular by means of wide diversification of economic sectors. It is an actively managed fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

  The sub-fund does not aim for sustainable investment but promotes environmental and social aspects within the meaning of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

Investment policy

- The fund invests in equities of European companies in the EMU zone (and other analogous transferable securities), warrants, subscription rights and cash and cash equivalents. At least 80% of the fund's gross assets are invested in equities and other equity instruments of companies based in European Union (EU) member states that form part of the European Monetary Union (EMU) or carry on the greater part of their activity in EU countries participating in the EMU. The remaining 20% may be invested in cash and cash equivalents. The sub-fund applies (i) binding investment restrictions in terms of a company's exposure to certain controversial activities and behaviours (portfolio compliance with certain global standards, including the UN Global Compact principles, exclusion of stocks whose activity consists of the manufacture, use and possession of anti-personnel mines, cluster munitions, depleted uranium ammunition and armour) as well as (ii) a non-binding ESG integration investment approach (carbon intensity of the portfolio, ESG risk profile, a company's engagement). More information can be found on the website www.dpamfunds.com.

  Benchmark: MSCI EMU Net Return.
  Use of the benchmark: the benchmark is used to compare performance. The selection and weighting of the assets in the fund's portfolio may differ significantly from the composition of the benchmark.

Subscription/Redemption

- Subscription or redemption requests may be made every business day before 3 p.m. (Belgian time) to Banque Degroof Petercam SA.

Types of Units

- The units of the fund are capitalisation units, issued in the form of shares, which do not give right to a dividend. All income earned by the fund is reinvested.

Derivatives

- The fund may, on an optional basis, use derivatives such as options and/or futures contracts ("futures" and/or "forwards") in order to achieve the investment objectives and/or for hedging purposes (hedging or exposure of/to interest rate and credit risks).

Investment holding period

- This fund may not be appropriate for investors who intend to withdraw their capital within 5 years of the initial investment.

Risk and reward profile

Lower risk ← → Higher risk
Potentially lower returns — Potentially higher returns

1	2	3	4	5	**6**	7

- All investments being risky by nature, the return (performance) is subject to a high degree of uncertainty. The risk and reward profile of your investment is reflected by a synthetic indicator which ranks the fund over a risk/return scale from the lowest (1) to the highest (7) risk category.
- *The computation of this risk/reward profile is based on the portfolio's net asset value fluctuations (volatility) recorded over the past 5 years (or on simulations based on an appropriate benchmark for funds or share classes of less than 5 years). It gives an indication of the fund's potential performance and of your capital risk exposure, but it does not guarantee that the risk/reward profile currently published will remain unchanged.*
- *Historical data, such as those used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the fund.*
- *The lowest risk/return category (level 1) does not mean a risk-free investment.*
- The risk/return profile mentioned herein is essentially due to the presence of equities in the portfolio.
- *The capital invested in this fund is neither guaranteed nor protected. You may therefore lose all or part of your investment.*

Certain risks are not (or not adequately) reflected in the risk and reward profile mentioned herein. Amongst those risks, the following could have a material impact on the risk and reward profile of the fund:

- Concentration risk: as the portfolio is mainly composed of equities issued by companies in the Eurozone, it is likely to be more specifically exposed to economic developments in the Eurozone.
- Sustainability risk: environmental and/or social aspects are not systematically part of the fund's investment selection process. As a result, the fund may have greater exposure to companies that have a negative sustainability impact.

Charges

The charges are used to pay the costs of running the fund (including the marketing and distribution costs thereof). These costs reduce the potential growth of your investment.

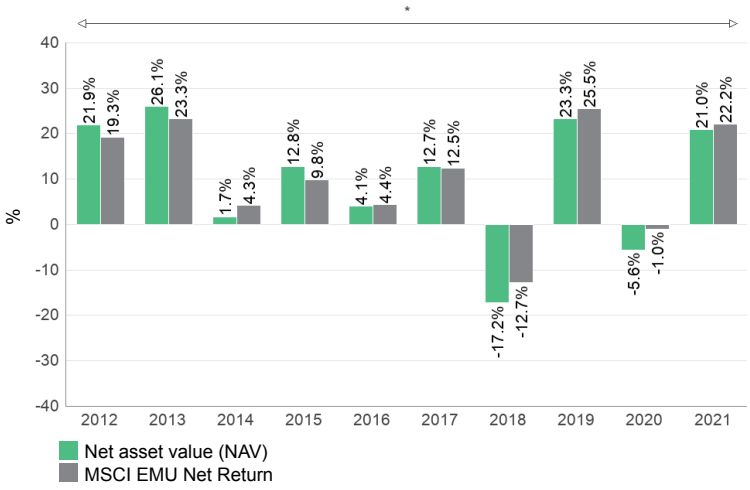

One-off charges taken before or after you invest	
Entry charge	2.00%
Exit charge	N/A.

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year	
Ongoing charges	2.50%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A.

- The entry charges mentioned herein are maximum figures. In certain circumstances, these charges may be lower. Please contact your distributor or usual advisor to obtain the amount of charges effectively applied.
- The amount of ongoing charges mentioned herein is based on an estimate of the total expected annual costs. This amount may vary from quarter to quarter. These charges include transaction fees incurred by the fund when it subscribes to and/or sells units of another fund, but do not include either (i) the fees incurred by the fund when it makes investments other than subscriptions/sales of units of funds or, where applicable, (ii) the performance fee.
- Specific costs may be charged in case of sub-fund conversion.
- For more information on all the charges and the way they are calculated, please refer to the "Fees and costs" section of the prospectus.
