## Notes to the financial statements (continued)

as at 30th June 2022

# Note 7 - Total Expense Ratio ("TER")

The TER disclosed under "Statistical information" of these financial statements is calculated in accordance with the "Guidelines on the calculation and disclosure of the TER of collective investment schemes" issued by the Swiss Funds & Asset Management Association "SFAMA" on 16th May 2008 as modified on 20th April 2015.

The Asset Management Platform (AMP) Switzerland and the Swiss Funds and Asset Management Association SFAMA merged in autumn 2020 to form the Asset Management Association Switzerland.

The TER is calculated for the last 12 months preceding the date of these financial statements. TER % = (Total exploitation charges / Average net assets) x 100

Transaction fees are not taken into account in the calculation of the TER.

If a Fund invests at least 10% of its assets in other funds which publish a TER, a synthetic TER of the fund of funds is calculated as of the closing date of the financial year or the end of the first half of the financial year. This corresponds to the sum of the prorated TER of the individual target fund, weighted on the basis of their proportion in the net fund assets of the Fund as the closing date, the issue and redemption commissions of the target funds actually paid and the TER of the fund of funds minus the retrocessions received from the target funds during the reporting period. The synthetic TER is calculated with the information available at the time of the establishment of the financial statements.
