### Key Fund Risks

**Credit Risk:** Risk that issuers of bonds held in the Fund may default on their obligations or have their credit rating downgraded, possibly resulting in a temporary or permanent decrease in the value of those bonds. Most bonds in this Fund are rated below investment grade.

**Liquidity Risk:** Risk that the Fund may face difficulties in purchasing or selling its assets, although it endeavors to invest in liquid securities.

**Interest Rate Risk:** Risk that fixed-rate bonds held in the Fund may fall in price with an increase in the prevailing level of interest rates in the economy. This risk usually decreases for bonds of lower rating and shorter duration-to-worst.

**Currency Risk:** Risk that the Fund may invest in multiple currencies or may have investors subscribe in multiple currencies which may fluctuate in value relative to each other. Additionally, the risk that this unit class may be exposed to currencies other than the one in which the unit class is denominated. Although the Manager endeavors to protect the Fund against currency risk, such hedging, achieved through derivative instruments (see "Derivative Risk" below), is at the Manager's discretion and it may not be possible or practical to protect the Fund or individual unit classes against all currency risk.

**Derivative Risk:** Risk that the Fund may use derivative instruments to protect against perceived risks as described under the other headings in this section. Derivative instruments may rise or fall in price or may be subject to risk of non-payment or non-delivery by a counterparty. There is no guarantee that derivatives will provide the anticipated protection.

**Operational Risk:** Risk that operational processes, including those relating to the safekeeping of assets, may fail, resulting in losses.

Additional information about these and other risks may be found in the prospectus and supplement for the Fund, both of which are available at [www.muzinich.com](http://www.muzinich.com).

### Disclaimer

Past performance is not a guide to future performance. The value of investments and the income from them may fall as well as rise and is not guaranteed and investors may not get back the full amount invested. Where references are made to portfolio guidelines or features, these may be subject to change over time and prevailing market conditions. Any research in this document has been obtained and may have been acted on by Muzinich for its own purpose. The results of such research are being made available for information purposes and no assurances are made as to their accuracy. Opinions and statements of financial market trends that are based on market conditions constitute our judgment and this judgment may prove to be wrong. The views and opinions expressed should not be construed as an offer to buy or sell or invitation to engage in any investment activity, they are for information purposes only. The prices of fixed income securities fluctuate in response to perceptions of the issuer's creditworthiness and also tend to vary inversely with market interest rates. The value of such securities is likely to decline in times of rising interest rates. Conversely, when rates fall, the value of these investments is likely to rise. Typically, the longer the time to maturity the greater are such variations. A Fund investing in fixed income securities will be subject to credit risk (i.e. the risk that an issuer of securities will be unable or unwilling to pay principal and interest when due, or that the value of a security will suffer because investors believe the issuer is less able or willing to pay).

Please note that investment is subject to documentation, including but not limited to the Prospectus and Key Investor Information Document (KIID) which contain a comprehensive disclosure of applicable risks. Investors in the UK should also access the Muzinich Supplemental Information Document ('SID') Each of these documents is available in English at [www.muzinich.com](http://www.muzinich.com), together with the Fund's annual and semi-annual reports. KIIDs are available by share class in each language required in the countries in which the share classes are registered. A complete listing of these KIIDs and the KIIDs themselves are also available at [www.muzinich.com](http://www.muzinich.com). Investors should confer with their independent financial, legal or tax advisors. Issued in Europe by Muzinich & Co. Ltd, which is authorised and regulated by the Financial Conduct Authority.
