INCOMETRIC FUND - European Sectors (EUR) A, EUR

A Sub-Fund of INCOMETRIC FUND, ISIN LU0500924377
This Fund is managed by Adepa Asset Management S.A.

Objectives and Investment Policy

The Sub-Fund is actively managed. The Sub-Fund's investment objective is the capital preservation through an absolute return strategy using a very strict risk monitoring model with the aim of getting returns in any market conditions in the long term in its Reference Currency.

The investment strategy does not follow a specific benchmark, and selects those assets that offer superior risk adjusted returns over time. The Sub-Fund is actively managing a diversified and long only portfolio which mainly invests in equities (qualified as small, mid, or large-caps, issued by companies listed in European markets), but also in liquid assets, (such as deposits, money market instruments (issued or dealt on the Eurozone and other international regulated markets) and in money market UCIs or UCITS) in order to decrease the risk of the portfolio in case of volatility in the markets. The Sub-Fund is managed following a sectorial diversification, taking into account only the most liquid stocks from each sector and based on their sharpe ratio. The Sub-Fund is expected to obtain the majority of the return from European equities.

The Sub-Fund will not invest more than 10% of its net assets in ETFs or other investment funds.

For treasury purposes the Sub-Fund may also invest in liquid instruments according to the criteria of article 41(1) of the 2010 Law such as (but not limited to) money market instruments and money

market funds and bank deposits. The Sub-Fund may hold ancillary liquid assets limited to bank deposits and cash on sight with a maximum of 20% of the net assets of the Sub-Fund in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under article 41(1) of the Law of 2010 or for a period of time strictly necessary in case of unfavorable market conditions. Ancillary liquid assets do not include bank deposits, money market instruments, money market funds and other instruments that meet the criteria of article 41(1) of the 2010 Law.

The Sub-Fund is not managed in reference to a benchmark.

The Sub-Fund will capitalise its entire earnings following an income accumulation policy.

The Share Class's currency is EUR. The Sub-Fund's reference currency is EUR.

The aforementioned investment strategy corresponds for the investors to a high investment risk.

The investment horizon is six years.

The investors are able to redeem their units on a weekly basis.

Risk and Reward Profile

The risk/return indicator shows the correlation between risk and returns. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'.

The risk category of the Sub-Fund is 4 and is calculated from historical data or simulated historical data of the underlying securities when the real data is not sufficient. Past performance is not necessarily a reliable indicator of the Sub-Fund's future risk and reward profile.

The following risks may materially impact the Sub-Fund but are not captured by the indicator:

Credit risk: The default of the issuer of a debt instrument held by the Sub-Fund.

Liquidity risk: Securities in the Sub-Fund may be sold below their

valuation due to insufficient liquidity in the market.

Counterparty risk: A counterpart may fail paying the proceeds related to the sale of securities by the Sub-Fund or may fail delivering the securities purchased by the Sub-Fund. A counterpart of the Sub-Fund in an OTC derivative may fail satisfying its obligations towards the Sub-Fund at any event of the OTC derivative agreement.

Operational risk: Failures or delays in operational processes may negatively affect the Sub-Fund.

Derivatives risk: Derivatives may be used to increase, lower or maintain the risk level of the Sub-Fund. The derivative strategy may fail resulting in significant losses for the Sub-Fund.

Currency risk: Exchange rate fluctuations may negatively affect the value of the Sub-Fund's investments.

Event Risk: The overall value of all types of investments may be affected by devaluations, political and governmental interventions in relevant markets or irregular and sudden market fluctuations.

The above mentioned list of risk factors is not exhaustive. Other factors may influence the pricing of the underlying securities and therefore the value of the Sub-Fund's investments.
