No subscriptions can be received solely on the basis of this report. Subscriptions are only valid if made on the basis of the current prospectus, the current Key Investor Information Documents, supplemented by the latest audited annual report and, if published thereafter, the latest unaudited semi-annual report.

The current prospectus, the current Key Investor Information Documents, the unaudited semi-annual reports, as well as the audited annual report can be obtained free of charge from the registered office of the SICAV and from local paying agents.

Following a review of the disclosure of Investment Manager(s) within the Prospectus and the current Key Investor Information Documents, the details of the Investment Manager(s) for the individual Sub-Funds will now be available from the Management Company at its registered office, or from www.jpmorganassetmanagement.com.

1. Organisation

JPMorgan Funds (the "SICAV") is an investment company incorporated on 14 April 1969 under the name Multi Trust Fund S.A.. The name of the SICAV was changed to Fleming International Fund on 3 July 1984, to Fleming Flagship Fund on 19 October 1988, to Fleming Funds on 2 June 2000, to JPMorgan Fleming Funds on 19 November 2001 and then to JPMorgan Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as a Société Anonyme qualifying as a "Société d'Investissement à Capital Variable" (SICAV). As at 31 December 2013, it comprises 121 Sub-Funds, each relating to a separate investment portfolio consisting of securities, cash and other instruments.

On 12 September 2005, JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company. The Articles of Incorporation were also modified so the SICAV complies with UCITS III regulations. From 1 July 2011, JPMorgan Asset Management (Europe) S.à r.l. is acting as a Chapter 15 Management Company under the Luxembourg Law of 17 December 2010 and complies with UCITS IV regulations.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 8478.

Each Sub-Fund may contain A, B, C, D, I, J, P, T, X and Y Classes of Shares, which may differ in the minimum subscription amount, minimum holding amount, currency and/or eligibility requirements, the fees and expenses, and the dividend policy applicable to them. In addition, each Sub-Fund may contain Classes of Shares named either "JPM" or "JPM" organ".

Within each Sub-Fund, individual Classes of Shares may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Class of Share is indicated by a suffix on the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment.

a) Investment Valuation

Transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those servities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors.

Securities issued by any open-ended investment funds are valued at the latest available price or net asset value, as reported or provided by such funds or their agents.

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

The Financial Statements are presented on the basis of the net asset value calculated on 31 December 2013, except for JPMorgan Funds - ASEAN Equity Fund, JPMorgan Funds - Brazil Equity Fund, JPMorgan Funds - Emerging Markets Bond Fund, JPMorgan Funds - Emerging Markets Debt Fund, JPMorgan Funds - Emerging Markets Local Currency Debt Fund, JPMorgan Funds - Euro Government Bond Fund, JPMorgan Funds - Euro Aggregate Bond Fund, JPMorgan Funds - Euro Short Duration Bond Fund, JPMorgan Funds - Euro Short Duration Bond Fund, JPMorgan Funds - Europe Equity Plus Fund, JPMorgan Funds - Europe Aggregate Plus Bond Fund, JPMorgan Funds - Europe Dividend Alpha Fund, JPMorgan Funds - Europe Equity Plus Fund, JPMorgan Funds - Europe Strategic Growth Fund, JPMorgan Funds - Europe Technology Fund, JPMorgan Funds - Global Government Short Duration Bond Fund, JPMorgan Funds - Global Government Short Duration Bond Fund, JPMorgan Funds - Global Government Short Duration Bond Fund, JPMorgan Funds - Indonesia Equity Fund, JPMorgan Funds - Latin America Equity Fund, JPMorgan Funds - Pacific Equity Fund, JPMorgan Funds - Systematic Alpha Fund calculated on 30 December 2013 (due to the Management Company's decision to close these funds on 31 December 2013 due to a substantial portion of the portfolios being traded on a closed stock exchange). In accordance with the prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

In managing the daily priced funds, the Board's principle is to ensure that portfolios are appropriately valued to give equal treatment to Shareholders and in this context the Management Company has implemented a Fair Value Committee (FVC) to address any potential valuation concerns. On 31 December 2013, no Fair Value adjustments were made.

b) Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Fund. If on any Valuation Day, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or of downwards to reflect net inflows and net outflows will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds with the exception of IPMorgan Funds - Global Multi Strategy Income Fund, JPMorgan Funds - Highbridge Diversified Commodities Fund, JPMorgan Funds - Highbridge Europe STEEP Fund, JPMorgan Funds - Highbridge Us STEEP Fund and the money market Sub-Funds to extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original Net Asset Value per Share.

The official Net Asset Value per Share as at period end, disclosed in the Statistical Information section of this report may therefore include a Swing Pricing adjustment, which would not be recognised in the Combined Statement of Net Assets or in the Combined Statement of Operations and Changes in Net Assets. As at period end, a Swing Pricing adjustment has been applied to the following Sub-Funds: JPMorgan Funds - Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund II, JPMorgan Funds - High Yield Bond Portfolio Fund I and JPMorgan Funds - High Yield Bond Portfol

The net asset values of JPMorgan Funds - Corporate Bond Portfolio Fund I, JPMorgan Funds - Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund III, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund III, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund III, JPMorgan Funds - High Vield Bond Portfolio Fund III and JPMorgan Funds - High Vield Bond Portfolio Fund III have been adjusted downwards by a swing factor determined by the Management Company under its established procedures, irrespective of redemption flows. The decision to swing downwards is due to the specific nature of the product and the fact that after the initial subscription phase, no further subscriptions will be accepted into the Fund.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

c) Realised and Unrealised Gains and Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains and losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments in included in realised gains and losses on investments. Unrealised gains and losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains and losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains and losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains and losses between trade date and settlement date on securities transactions and forward foreign exchange contracts; and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received.

The resulting gains and losses on translation are included in "Net Realised Gain/(Loss) on Foreign Exchange" in the Combined Statement of Operations and Changes in Net Assets.

The reference currency of the Combined Statements is USD.

The principal exchange rates applied as at 31 December 2013 are as follows:

1 USD = 0.72592121 EUR;

1 USD = 0.60437568 GBP:

1 USD = 104.92000000 JPY.

f) Forward Foreign Exchange Contracts

Unrealised gains or losses on outstanding Forward Foreign Exchange Contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in "Net Change in Unrealised Gain/(Loss) on Forward Foreign Exchange Contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Unrealised Net Gain/(Loss) on Forward Foreign Exchange Contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains and losses by "marking-to-market" to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net Realised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Unrealised Net Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Net Assets.

Daily margin calls are recorded under "Net Realised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract. As of 31 December 2013, certain Sub-Funds had written options contracts outstanding as listed on its Schedule of Investments.

Options purchased are recorded as investments; options written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying futures contracts.

i) Total Return Swaps

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, on a basket of securities, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A Total Return Swap will exchange the total performance on a specific basket of securities, selected by the Investment Manager against a reference rate plus a spread. The total performance will include interests, dividends, gains and losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Derivatives Instruments at Market Value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Derivatives Instruments". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Derivatives Instruments" in the Combined Statement of Operations and Changes in Net Assets.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

JPMorgan Funds - Diversified Risk Fund, JPMorgan Funds - Europe Equity Absolute Alpha Fund, JPMorgan Funds - Europe Equity Plus Fund, JPMorgan Funds -Europe Select Equity Plus Fund, JPMorgan Funds - Global Merger Arbitrage Fund, JPMorgan Funds - Highbridge Europe STEEP Fund, JPMorgan Funds - Japan Market Neutral Fund, JPMorgan Funds - Systematic Alpha Fund, JPMorgan Funds - US Equity Plus Fund, JPMorgan Funds - US Select Equity Plus Fund and JPMorgan Funds - US Select Long-Short Equity Fund have each entered into Total Return Swaps (long/short, together "the Swaps") on a basket of securities with selected counterparties.

i) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Derivatives Instruments at Market Value" in the Combined Statement of Net Assets. The interests on interest rate swaps are recorded under "Net Interest on Swap Transactions" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Derivatives Instruments". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on Derivatives Instruments" in the Combined Statement of Operations and Changes in Net Assets.

k) Credit Default Swaps

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

The market values are recorded under "Derivatives Instruments at Market Value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Derivatives Instruments". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on Derivatives Instruments" in the Combined Statement of Operations and Changes in Net Assets.

I) To Be Announced Securities ("TBA")

TBAs are related to mortgage backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

The Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

The Sub-Funds had TBA Dollar Rolls outstanding as of 31 December 2013, which are included in "Amounts Receivable on Sale of TBAs" and "Amounts Payable on Purchase of TBAs" in the Combined Statement of Net Assets.

m) Commodity Index Swaps

A Commodity Index Swap is a bilateral agreement in which each of the parties agree to exchange the total return of a specified commodity index against money market rate plus fees.

The market values are recorded under "Derivatives Instruments at Market Value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Derivatives Instruments". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on Derivatives Instruments" in the Combined Statement of Operations and Changes in Net Assets.

JPMorgan Funds - Diversified Risk Fund, JPMorgan Funds - Highbridge Diversified Commodities Fund and JPMorgan Funds - Systematic Alpha Fund have entered into Total Return Swaps (long/short, together "the Swaps") on a basket of commodities indexes with selected counterparties.

n) Reverse Repurchase Agreements

The underlying obligations found to be satisfactory by the Investment Manager are transferred to an account of the SICAV as collateral. The securities are marked-to-market daily and maintained at a value at least equal to the principal amount of the reverse repurchase agreement (including accrued interest). Interest received or paid on Reverse Repurchase Agreements are recorded in the interest section of the Combined Statement of Operations and Changes in Net Assets. The Funds' Investment Manager is responsible for determining that the value of the underlying securities remains in accordance with the market value requirements stated above.

Sub-Fund Net Interest USD 598,745

JPMorgan Funds - Managed Reserves Fund

o) Consolidation of Mauritian Subsidiary

All income, expenses, receivables, payables and investments of JPMorgan SICAV Investment Company (Mauritius) Limited (the "Subsidiary"), a wholly-owned subsidiary of JPMorgan Funds, are consolidated into the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets of JPMorgan Funds - India Fund. Securities owned by the Subsidiary are individually disclosed in the Schedule of Investments of JPMorgan Funds - India Fund. Intercompany balances are eliminated on consolidation.

The use of the Mauritius Subsidiary and the tax treatment it is afforded, is based on the law and practice currently in force in the relevant countries, as understood by the Board of Directors. It is subject to any future changes and such changes may adversely affect the returns of the Sub-Fund. This includes any circumstances where the India/Mauritius Double Taxation Treaty may not be applied or ceases to be applied, resulting from, inter alia, any future ruling by the Indian tax authorities. Should the treaty not be applied, or cease to be applied, interest on securities listed on an Indian stock exchange would be subject to tax at a maximum rate of 20%. Capital gains on disposal of such investments would be subject to tax at rates of 0% to 15% from 1 April 2011 in respect of listed securities depending on the length of time the relevant investment has been held.

3. Value of Financial Instruments and Associated Risks

The SICAV entered into forward foreign exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments.

Investment in fixed income securities is subject to interest rate, sector, security and credit risks. High yield bonds are lower-rated securities and will usually offer higher yields to compensate for the reduced creditworthiness or increased risk of default that these securities carry.

Other market and credit risks include the possibility that there may be an illiquid market for the contracts, that a change in the value of the contracts may not directly correlate with changes in the value of the underlying currencies, indices, or securities, or that the counterparty to a contract defaults on its obligation to perform under the terms of the contract.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

In emerging and less developed markets, in which some of the Sub-Funds will invest, the legal, judicial and regulatory infrastructure is still developing but there is much legal uncertainty both for local market participants and their overseas counterparts. Some markets may carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that an investment is suitable as part of their portfolio. In some markets there may be no secure method of delivery against payment which would minimise the exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

4. Distribution Policy

During the period from 1 July 2013 to 31 December 2013, the SICAV paid dividends as follows:

Share Classes with the suffix "(acc)" are accumulation Share Classes and will not normally pay dividends.

Distribution Share Classes will normally pay dividends as described below.

Share Classes suffixed "(dist)" and suffixed "(inc)"

It is intended that all those Share Classes with the suffix "(dist)" will meet the conditions to qualify as "reporting" for the purposes of the United Kingdom tax legislation relating to offshore funds and will, if appropriate, pay dividends which at least meet the greater of the reportable income under that legislation or the taxable earnings from investments in accordance with the German Investment Tax Act. It is intended that those Share Classes with the suffix "(inc)" will, if appropriate, pay dividends equal to or in excess of the taxable earnings from investments in accordance with the German Investment Tax Act. Payment of dividends on these Share Classes will normally be made in September of each year.

Share Classes suffixed "(div)"

Share Classes with the suffix "(div)" will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that "(div)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Annual Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix "(div)" in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed "(mth)"

Share Classes with the suffix "(mth)" will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix "(mth)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield. Investors should be aware that "(mth)" share classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Annual Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month in the currency of the relevant Share Class.

Share Classes suffixed "(fix)"

Share Classes with the suffix "(fix)" will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the prospectus dated December 2013.

Share Classes suffixed "(irc)"

Share Classes with the suffix "(irc)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund's portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for investors in certain countries. Investors should consult their local tax adviser about their own position. Share Classes with the suffix "(div)", "(fix)", "(inc)" and "(mth)" do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

5. Taxation

Under current law and practice, the SICAV is not subject to any taxes in Luxembourg on income or capital gains, nor are dividends distributed by the SICAV liable to any withholding tax. The only tax to which the SICAV in Luxembourg is subject is the subscription tax, ("Taxe d'abonnement") up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as indentified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the Taxe d'abonnement.

No stamp duty or other tax is payable on the issue of shares in the SICAV in the Grand Duchy of Luxembourg. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on its cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

The SICAV has instigated proceedings to reclaim tax withheld by certain Member States of the European Union on dividend payments it has received. The decision to initiate proceedings against any particular Member State is the result of an analysis of the likely costs and potential benefits of doing so. The likelihood of successfully reclaiming such amounts together with the estimated time to complete proceedings varies across Member States. Any costs associated with this decision have been charged to the relevant Sub-Funds and have been included within total costs for the purposes of determining the relevant expense cap or TER and no amount has been recorded in the SICAV for any possible amounts to be received under this action.

Certain Sub-Funds of the SICAV may have invested into Norwegian, Finnish and Polish stocks for which tax reclaim has been successful. As such, amounts have been recorded, where applicable, on a cash basis under Other Income.

Certain Sub-Funds of the SICAV may invest on the Brazilian markets and are consequently subject to a local tax upon purchase of Brazilian Real, the BRL IOF Tax. On 5 June 2013, the BRL IOF tax on foreign exchange inflows relating to the purchase of fixed income instruments was reduced from 6% to 0% on inflows with a trade date of 5 June 2013 and onwards. This tax has been recorded, where applicable, under Sundry Fees.

6. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial period, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV.

7. Fees and Expenses

a) All Sub-Funds - Share Classes A, B, C, D, J and T

The fees and expenses charged to these Classes of shares are set at a fixed percentage of the total net assets of each Class of shares. This fixed percentage covers all fees and expenses connected with the management of these Classes of shares, including Investment Management Fees, Shareholder Servicing Fees and Other Operating and Administrative Expenses, which include but are not limited to Custody, Registrar and Transfer Agent Fees; it does not cover taxes paid on investments, brokerage's expense, the taxe d'abonnement, the interest, extraordinary costs or performance fees, if any.

No other costs are charged to these Classes of shares, and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Classes of shares and the fixed percentage. To the extent that the actual operating costs are less than the fixed percentage, the excess is paid to the Management Company and included within "Management and Advisory Fees". To the extent that actual operating costs exceed the fixed percentage, the amount borne by the Management Company will be separately disclosed as a "Fee Waiver" in the Combined Statement of Operations and Changes in Net Assets.

This fixed annual rate of fees and expenses is categorised as a Total Expense Ratio. The fixed annual rates of fees for each Class of shares are shown in the Appendix.

b) All Sub-Funds - Share Classes I and P

The maximum total fees and expenses to be borne by shareholders on these Classes of shares of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Class. These capped fees and expenses comprise Investment Management Fees plus other Operating and Administrative Expenses including but not limited to Custody, Fiduciary, Accounting, Transfer Agency Fees and Taxes; it does not cover performance fees, if any.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio. The capped annual rates of fees for each Class of shares are shown in the Appendix.

c) All Sub-Funds - Share Classes X and Y

The Annual Management Fee that would normally be payable in respect of the X Share Classes and Y Share Classes are administratively levied and collected by the Global Distributor directly from the shareholder or through the relevant J.P.Morgan Chase & Co entity.

The maximum Operating and Administrative Expenses to be borne by the Class X and Class Y shareholders of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Class, as set out in the Appendix.

Sub-Funds may invest in UCITS and other UCIs managed by the Management Company, the Investment Manager or any other member of JPMorgan Chase & Co. The avoidance of a double-charge of the Annual Management and Advisory Fee on such assets is achieved by either a) excluding the assets from the net assets on which the Annual Management and Advisory Fee is calculated; or b) investing in UCITS or UCIS via classes that do not accrue an Annual Management and Advisory Fee or other equivalent fees payable to the relevant Investment Manager's group; or c) the Annual Management and Advisory Fee being netted off by a rebate to the SICAV or Sub-Fund of the Annual Management and Advisory Fee (or equivalent) charged to the underlying UCITS or UCIs; or d) charging only the difference between the Annual Management and Advisory Fee of the SICAV or Sub-Fund and the Annual Management and Advisory Fee (or equivalent) charged to the underlying UCITS or UCIs.

The Management Company may decide from time to time, in order to protect the interests of the Fund's shareholders, to reduce the fees payable to the Management Company.

From 1 January 2013 by way of an agreement between the Management Company and the Fund dated 20 December 2012, the Structure of the Share Classes Operating and Administrative Expenses have been amended.

The Operating and Administrative Expenses cover:

(i) Expenses directly contracted by the Fund, including but not limited to the Custodian fees, auditing fees and expenses, the Luxembourg taxe d'abonnement, Directors' fees and reasonable out-of-pocket expenses incurred by the Directors.

(ii) A "fund servicing fee" paid to the Management Company for administrative and related services which will be the remaining amount of the Operating and Administrative Expenses after deduction of the expenses detailed under section i) above. The Management Company then bears all expenses incurred in the day to day operation and administration of the Fund, including but not limited to formation expenses such as organisation and registration costs; accounting expenses covering fund accounting and administrative services; transfer agency expenses covering registrar and transfer agency services; the Administrative Agent and Domiciliary Agent services; the fees and reasonable out-of-pocket expenses of the paying agents and representatives; legal fees and expenses; ongoing registration, listing and quotation fees, including translation expenses; the cost of publication of the Share prices and postage, telephone, facsimile transmission and other electronic means of communication; and the costs and expenses of preparing, printing and distributing the Prospectus, Key Investor Information Documents or any offering document, financial reports and other documents made available to Shareholders.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

Operating and Administrative Expenses do not include Transaction Fees and Extraordinary Expenses.

The change in the structure of the Operating and Administrative Expenses does not affect the current fixed percentage level on all Sub-Funds for Share Classes - A, B, C,D, J, T and the I Share Classes of the JPMorgan Funds - Euro Money Market Fund, or the capped Operating and Administrative Expenses level on all other Sub-Funds for Share Classes I not mentioned above and X Share Classes as disclosed in Appendix III of the Prospectus.

d) Performance Fees

Pursuant to the Investment Management Agreement, as set out in the Appendix to the Prospectus, the Investment Manager is entitled to receive from the net assets of certain Sub-Funds or Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in Appendix V and as specified in Appendix III for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the final Performance Fee is payable annually. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Annual Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Class at the rate set out in the Appendix to the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Class.

High Water Mark Method

If the Share Class Return exceeds the Benchmark Return and the cumulative Share Class Return exceeds the High Water Mark Return (as set out in the Appendix to the Prospectus), the Performance Fee accrual is increased by the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. If the Share Class Return does not exceed the Benchmark Return, the Performance Fee accrual is reduced (but not below zero) by the Performance Fee acrual is reduced (but not below zero) by the Performance Fee Rate multiplied by the negative Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. Following a period of negative Excess Return where the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Share Class Return exceeds the greater of the High Water Mark Return and the cumulative Benchmark Return since the beginning of the Company accounting year. The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

Claw-Rack mechanism

The purpose of the Claw-Back Mechanism is to ensure that the Management Company will only become entitled to a Performance Fee when it outperforms the cumulative Benchmark Return (as defined in Appendix V of the prospectus) accrued since the last Valuation Day of the last period in which a Performance Fee was paid.

As at 31 December 2013, the Performance Fee rate and the benchmarks are as follows:

As at 51 becember 2015, the renormance recruite	and the benefittania	are as rono	113.

8. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts and financial futures contracts. The Management Company, Registrar, Global Distributor, Transfer and Domiciliary Agent, Advisory Company, Investment Managers, Custodian, Corporate, Administrative and Paying Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition Elvinger, Hoss & Prussen (of which Mr Jacques Elvinger who is on the Board of the Directors of the SICAV, is a partner) is compensated for legal services to the SICAV.

⁽³⁾ This Sub-Fund was liquidated on 2 August 2013.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

9. Soft Commission Arrangements

The Investment Managers of the Fund may enter into soft commission arrangements with brokers in respect of services used to support investment decision-making for the benefit of the Fund.

The investment related services received under soft commission arrangements comprise:

- research and advisory services:
- economic and political analysis;
- portfolio analysis, including valuation and performance measurement;
- market analysis:
- data and quotation services;
- computer hardware and software incidental to the above goods and services; and
- investment-related publications.

The Investment Managers do not make direct payments for these services, but transact an agreed amount of business with the brokers on behalf of the Fund and commission is paid on these transactions.

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs or risk, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to Undertakings for Collective Investment when they use certain techniques and instruments relating to transferable securities and money market instruments and (iii) any other applicable laws, regulations, circulars or CSSF positions. A significant proportion of the income generated from the securities lending program is credited to participating Sub-Funds, with a portion of the income being paid to IPMorgan Chase Bank, N.A. for its role as securities lending agent for the Fund. Borrowers of securities lending agent for the Fund. Borrowers of securities lending are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. From 1 January 2013, the Management Company has waived the incremental income previously received from the portion of income generated by Securities Lending, for its oversight of the program. From this date, 85% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, with the remaining income payable to the securities lending agent which arranges the transaction. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 31 December 2013, the SICAV valuation of securities on loan is USD 385.455.652, as detailed below and received collateral as security with a market value of USD 401,931,320.

The table below provides the USD valuation of securities on loan at a Sub-Fund level as at 31 December 2013:

Sub-Fund	Market Value	Cash Collateral	Non Cash Collateral*	Lending Income (Gross)	Lending Agent Fee	Lending Income (Net)

14. Significant Events

a) Sub-Fund Launches

During the period, the following new Sub-Funds were launched:

- JPMorgan Funds Global Allocation Fund on 27 September 2013;
- JPMorgan Funds Total Emerging Markets Income Fund on 30 September 2013;
- JPMorgan Funds Europe Equity Absolute Alpha Fund on 19 December 2013.

b) Sub-Fund Liquidations

During the period, the following Sub-Funds were liquidated:

- JPMorgan Funds Highbridge Asia Pacific STEEP Fund on 2 August 2013;
- JPMorgan Funds Global Agriculture Fund on 30 August 2013;
- JPMorgan Funds Global Infrastructure Trends Fund on 30 August 2013;
- JPMorgan Funds Global Mining Fund on 30 August 2013;
- JPMorgan Funds Japan Small Cap Fund on 30 August 2013;
- JPMorgan Funds Pacific Technology Fund on 30 August 2013;
- JPMorgan Funds UK Equity Fund on 30 August 2013.

c) Sub-Fund Mergers

With effect from 13 September 2013, JPMorgan Funds - Asia Pacific ex-Japan Equity Fund merged into JPMorgan Funds - Asia Pacific ex-Japan Behavioural Finance Equity Fund.

The following mergers occurred with effect from 25 October 2013:

- JPMorgan Funds America Large Cap Fund into JPMorgan Investment Funds US Equity Fund;
- JPMorgan Funds Emerging Markets Infrastructure Equity Fund into JPMorgan Funds Emerging Markets Equity Fund;
- JPMorgan Funds Euro AAA Rated Government Bond Fund into JPMorgan Funds EU Government Bond Fund;
- JPMorgan Funds Europe Dynamic Mega Cap Fund into JPMorgan Funds Europe Dynamic Fund;
- JPMorgan Funds Europe Micro Cap Fund into JPMorgan Funds Europe Dynamic Small Cap Fund;
- JPMorgan Funds Global Duration-Hedged Corporate Bond Fund into JPMorgan Funds Global Corporate Bond Fund.

With effect from 29 November 2013, JPMorgan Funds - Europe Balanced Fund (EUR) merged into JPMorgan Investment Funds - Global Balanced Fund (previously JPMorgan Investment Funds - Global Balanced Fund (EUR)).

d) Sub-Fund Currency Changes

With effect from 2 December 2013, the base currency of the Sub-Fund JPMorgan Funds - Japan Equity Fund changed from USD to JPY.

Notes to the Unaudited Financial Statements (continued)

As at 31 December 2013

e) Sub-Fund Name Changes

With effect from 13 September 2013, the following Sub-Funds changed their name as follows:

- JPMorgan Funds Asia Alpha Plus Fund changed its name into JPMorgan Funds Asia Equity Fund;
- JPMorgan Funds Asia Pacific ex-Japan Behavioural Finance Equity Fund changed its name into JPMorgan Funds Asia Pacific Strategic Equity Fund.

f) Other Information

With effect from 1 July 2013, the Management Company has decided to change the performance fee rate of JPMorgan Funds - Emerging Markets Strategic Bond Fund from 20% to 10%.

With effect from 1 July 2013, the Management Company has stopped the accrual of the following Sub-Funds' performance fees:

- JPMorgan Funds Asia Alpha Plus Fund;
- JPMorgan Funds Emerging Markets Corporate Bond Fund;
- JPMorgan Funds Emerging Markets Infrastructure Equity Fund;
- JPMorgan Funds Emerging Markets Local Currency Debt Fund;
- JPMorgan Funds Global Absolute Return Bond Fund;
- JPMorgan Funds Japan Market Neutral Fund (EUR hedged share classes);
- JPMorgan Funds Systematic Alpha Fund.

The SICAV's prospectus was amended to indicate the removal of these performance fees.

From 1 February 2013 to 31 July 2013, the Management and Advisory Fee rate for JPMorgan Funds - Europe Equity Plus Fund has been temporarily amended for the below share classes as follows:

- B Share Classes AMF 0.45% instead of 0.90%:
- C Share Classes AMF 0.40% instead of 0.80%.

15. Events After Period-End

Subsequent to the period-end, the following Sub-Funds were liquidated:

- JPMorgan Funds Highbridge Diversified Commodities Fund on 7 February 2014;
- JPMorgan Funds Emerging Markets Multi-Asset Fund on 26 February 2014.

16. Directors' Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Berndt May and Mr Peter Schwicht.

The total Directors' fees for the period amount to EUR 73,600 of which the Chairman is due EUR 19,534.

17. Transaction Costs

For the period from 1 July 2013 to 31 December 2013, the SICAV incurred transaction costs which have been defined as brokerage fees relating to purchase or sale of transferable securities, derivatives (excepted OTC derivatives) or other eligible assets as follows:

(

Seeks to provide long-term capital growth by investing primarily in technology, media and telecommunications related US companies.

JPMorgan Funds - US Value Fund

Seeks to provide long-term capital growth by investing primarily in a value style biased portfolio of US companies.

3. Performance and Volatility

Performance

Returns for periods greater than one year are annualised. Fund performance includes reinvestment of income and is net of all expenses.

Past performance is no indication of current or future performance.

The performance data does not take into account the commissions and costs incurred on the issue and redemption of units.

Volatility

The standard deviation (D) of the price is calculated on a daily basis throughout each Fund's financial period. The details below relate to the period from 1 July 2013 to 31 December 2013.

If D is equal to or less than 0.1 then volatility will be Low

If D is greater than 0.1 but less or equal to 1.0 then volatility will be Medium

If D is greater than 1.0 but less than or equal to 2.4 then volatility will be High

If D is greater than 2.4 then volatility will be Very High

** No data is applicable for these Share Classes as they were launched or reactivated less than 3 months before the period end.

4. Interest Rate Received/(Charged) on Bank Accounts

Basis for Bank Interest Rates

JPM Aggregate Bond I (acc) - EUR (hedged)

JPM Aggregate Bond I (acc) - USD

The rates are based on the JPMorgan Chase Treasury rates and consequently may change on a daily basis. The bank interest amount is posted to each of the Fund's bank accounts on a monthly basis on the first business day of the subsequent month based on the bank balances from the prior month.

5. Sub-Fund Share Classes Subject to Taxe d'abonnement Rate of 0.01%

6. Portfolio Turnover Ratio

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy. The Portfolio Turnover Ratio is calculated in accordance with the guidelines dated 16 May 2008 issued by the Swiss Funds & Asset Management Association as outlined below:

(Total securities' purchases and sales - total subscriptions and redemptions of Sub-Fund shares)

Average net Sub-Fund assets in Sub-Fund currency

The Portfolio Turnover Ratio is expressed as a percentage and in the case the outcome of the calculation is negative, a zero value has been	published.
Sub-Fund	Portfolio Turnover Ratio (%)
