

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Barclays MultiManager Portfolio 2 Share Class R Acc EUR (ISIN: LU0553823872), (SEDOL: B5TB495)

a sub-fund of Barclays Portfolios SICAV. Barclays Portfolios SICAV is managed by FundRock Management Company S.A.

Objectives and Investment Policy

The aim is to increase the value of your investment over the medium to long term and to achieve an ongoing source of income by investing mainly in funds with exposure to tradable debt (bonds) and shares and, to a lesser degree, in funds with exposure to other asset classes across various markets.

The Fund is known as a "fund of funds" which means that it invests mainly in other investment funds, as opposed to investing directly in shares or tradable debt. These underlying funds are managed by different managers selected and monitored by Barclays. The Fund may also invest directly in shares of international companies, government and corporate bonds and other transferable securities which will normally be listed or traded on regulated markets in Europe, the US and Japan or other regulated markets.

The Fund may use financial contracts (derivatives) to help achieve its aim and to manage risk, reduce costs and improve results.

The Fund is actively managed. It is not managed in reference to any benchmark.

The Fund adopts a cautious risk investment approach. However, the Fund is not guaranteed and your investment is at risk. You may lose some or all of your investment.

Income is not paid out and is rolled up (accumulated) into the value of your investment.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You may sell your investment on any business day.

The base currency of the Fund is Sterling.

Risk and Reward Profile

This indicator is based on simulated historical data which may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is rated Category 4 due to the nature of the investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

The following risks are materially relevant to the Fund:

The underlying funds into which the Fund invests may invest in less economically developed (known as emerging) markets which can involve greater risks than well developed economies. Amongst other issues, the level of government supervision and market regulation may be less than in more developed economies and could affect the value of your investment. Investment in emerging markets also increases the risk of settlement default.

The Fund may use derivatives for various reasons, including to try to reduce the effect of currency fluctuations between the currency of its assets and the base currency of the Fund, or to reduce the effect of market or interest rate movements (known as hedging). The effectiveness of any hedging strategy is not

guaranteed to succeed and may prevent the Fund from benefitting from an increase in value of a particular currency.

Fluctuations in interest rates may affect the value of your investment.

The Fund may invest a large part of its assets in other funds for which investment decisions are made independently of the Fund. Investments held by other funds may be denominated in a currency other than the currency of the shares in the Fund and/or the currency of your investment. Currency fluctuations may affect the value of your investment. Investment in other funds may also lead to duplication of fees and commissions.

The Fund relies upon the performance of one or more investment managers. If the investment managers perform poorly, the value of your investment is likely to be adversely affected.

Future legal or regulatory change could have a substantial adverse effect on the Fund and your investment.

Bonds are interest rate sensitive, meaning that the range and frequency of price movements may be significant due to various factors, including changes in interest rates, the creditworthiness of the issuer and the ease with which similar investments may be bought or sold (liquidity).

Further information is provided in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over a year	
Ongoing Charges	1.70%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.

The ongoing charges figure is based on expenses for the 12 months ending August 2023. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

For more information about charges, please see section "Fees and Expenses" of the Prospectus.

A switch fee of up to 1.00% may apply if you convert your shares into shares of other funds of Barclays Portfolios SICAV.

Past Performance

Past performance is not a guide to future performance. The Fund's ongoing charges are included in the calculation of past performance. The entry/exit charges are excluded from the calculation of past performance. The Fund was launched in 2006 and the share class was launched in 2015. Past performance has been calculated in EUR.
