

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

DB Platinum IV Systematic Alpha

Share Class: R1C-G (ISIN: LU0462955013), (WKN: A0YDD1), (Currency: GBP)

a sub fund of DB Platinum IV. The Fund is managed by DWS Investment S.A., part of the DWS Group.

Objectives & Investment Policy

The aim of the Fund is to achieve long-term capital appreciation by gaining exposure to a range of financial instruments (derivatives) in accordance with a computer-based trading strategy (Strategy) designed by Winton Capital Management Limited (Winton). Such investments may include derivatives linked to commodities (including energy, metals and crops), share indices, tradeable debt (bonds), interest rates and currencies.

In particular, the Fund may invest in (i) agreements where one party agrees to buy or sell eligible assets in the future at a particular price within a fixed term (futures contracts) and agreements where one party has the option to buy or sell future contracts at a particular price within a fixed term (options), traded on recognised exchanges, (ii) foreign currency contracts, (iii) over-the-counter derivatives giving exposure to financial indices and/or eligible assets (together, Derivatives Portfolio). Winton will manage the Derivatives Portfolio.

In addition, the Fund will make investments in transferable securities, including eligible commodity linked transferable

securities, as are required in order that the Fund's investments in the Derivatives Portfolio and transferable securities together give effect to the Strategy. State Street Global Advisors Limited will manage the transferrable securities.

The Fund will use cash to satisfy the obligations to provide assets as a form of security as well as settlement obligations owed by the Fund in connection with the Derivatives Portfolio.

The Fund will seek to place surplus cash on deposit and/or make investments in cash instruments.

The Fund, which is calculated in US dollars, may use hedging to try to reduce the effect of foreign exchange rate fluctuations where investments are denominated in currencies other than US Dollars.

No dividends will be paid on your shares.

You may redeem your investment on demand on a weekly basis on three business days' notice with proceeds being settled within five business days.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 4 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund may enter into one or more derivatives with a number of swap counterparties. If any of the counterparties fail to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.

DWS entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund may have increased exposure to particular investments known as leverage. A fall in value of such

investments can result in a proportionately greater loss to the Fund.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Fund has been designed for investors who are looking for long term capital growth through exposure to alternative investment strategies. As the Fund may therefore employ sophisticated strategies (including the use of derivatives), it is intended only for knowledgeable and experienced investors who are able to understand and evaluate both the investment strategy and its inherent risks (such understanding and evaluation may be gained through advice from a professional advisor).

The Fund relies upon the performance of Winton and the Strategy. If the Strategy performs poorly the value of your investment is likely to be adversely affected.

The Fund may use derivatives to try to reduce movements in currency exchange rates. This may not always be successful and may result in greater fluctuations in the value of the Fund. This may negatively affect the value of the Fund and your investment.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	2.00%
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over a year	
Ongoing charges	1.91%
Charges taken from the Fund under certain specific conditions	
Performance fee	
18% of the amount, negative or positive, that the NAV (net asset value after deduction of fees of 1.00% but not performance fee) exceeds the highest NAV at any previous quarter-end, accrued daily and paid quarterly. In the last financial year 0.28% of daily average value of the share class was charged as performance fee.	

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.

The ongoing charges figure is based on expenses for the year ending October 2018. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2010 and the share class was launched in 2010.

Past performance has been calculated in GBP.

■ Fund
■ Index

--- During the course of 2013 the Fund changed from tracking the dbX Systematic Alpha Index to investing in shares in accordance with the Strategy. No performance has been shown for the dbX Systematic Alpha Index from 2013 onwards.
