

Anaxis Short Duration

Monthly report - Diversified corporate bond fund
October 2017

Anaxis Short Duration is a UCITS fund regulated by the Autorité des Marchés Financiers. The Fund invests mainly in European corporate bonds through an active and discretionary approach. The Fund maintains a duration between 0 and 3 years at all times. It targets a gross performance 2.15% higher than 12-month interbank rates.

The managers build the portfolio to optimize the expected return with a low risk of default and price volatility. Fund management relies on fundamental credit analysis of corporate bonds as well as the construction of a diversified portfolio. Depending on their analyses, the managers may also decide to hold a portion of the fund's assets in money market instruments or short term government bonds. The rating and sector breakdowns can evolve over time.

Monthly Comment

October was a positive month for European credit, and volatility continued to hover near record lows. The ECB's big meeting this month came with no surprises despite the tapering announcement. Our fund, Anaxis Short Duration, returned +0.15% (I class) while the yield to maturity on the H7PC index* was down 20bps.

In sovereign bond markets, periphery government bond markets actually outperformed core markets. BTPs (+2.0%) and Spanish Bonds (+0.9%) closed with positive low single-digit returns, outperforming the likes of Bunds (+0.6%) and Gilts (+0.3%).

Back to credit markets, performance was relatively consistent from a ratings standpoint, with BBs up +1.1% and Bs up 1%. Once again, duration performed strongly, with 7y+ bonds significantly outperforming the rest of the universe. All sectors returned positive performance, with Energy (+1.7%) and Capital Goods (+1.4%) outperforming as a result of the rally in Oil, with the Brent up +6.7%.

The fund faced several calls throughout the month, including those from Hapag Lloyd (shipping), Techem (meter reading), Level 3 (telco), Interoute (technology), Univision (media), Tegna (media), Trionista (sub metering) and Restaurant Brands (retail food). In the meantime, we gained exposure to numerous credits such as Warner Music (media), Europcar (car rental), AINMTS (telco), Entegris (semi-conductors), Oshkosh (truck manufacturer), Enviva (supplier of wood pellets), Constellium (producer of aluminium) and Coastal Services (cruises).
