Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

JPM US Select Long-Short Equity A (perf) (acc) - USD

a Share Class of JPMorgan Funds – US Select Long-Short Equity Fund

a Sub-Fund of JPMorgan Funds LU0572777000

The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives and Investment Policy

Investment Objective: The Sub-Fund aims to achieve a total return through exposure primarily to US companies and through the use of financial derivative instruments.

Investment Policy: At least 67% of the Sub-Fund's assets (excluding cash and cash equivalents) will be invested, either directly or through the use of financial derivative instruments, in equity securities of companies that are domiciled in, or carrying out the main part of their economic activity in, the US.

The Sub-Fund may also invest in Canadian companies.

The Sub-Fund uses a long-short strategy, buying securities considered undervalued or attractive and selling short securities considered overvalued or less attractive, using financial derivative instruments where appropriate. The Sub-Fund aims to generate positive returns.

The Sub-Fund will normally hold long positions of up to 175% of its net assets and short positions (achieved through the use of financial derivative instruments) of up to 160% of its net assets. The net market exposure of long and short positions will vary depending on market conditions but will normally range from being net short 20% to being net long 50%.

The Sub-Fund uses an investment process that is based on the fundamental analysis of companies and their future earnings and cash flows by a research team of specialist sector analysts.

The Sub-Fund will invest in financial derivative instruments to achieve its investment objective. Such instruments may also be used for the purposes of hedging.

USD is the reference currency of the Sub-Fund but assets may be denominated in other currencies and currency exposure may be hedged.

Redemption and Dealing: Shares of the Sub-Fund may be redeemed on demand, with dealing normally on a daily basis.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

Benchmark: The benchmark of the Share Class is ICE 1 Month USD LIBOR.

The benchmark is a point of reference against which the performance of the Share Class may be measured. The portfolio of the Sub-Fund will be managed without reference to its benchmark.

Distribution Policy: This Share Class will not pay dividends.

Risk and Reward Profile

Lower risk — **Higher risk**

Potentially lower reward — Potentially higher reward

1	2	3	**4**	5	6	7

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 4 because its Net Asset Value has shown medium fluctuations historically.

Other material risks:

- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- There is no guarantee that the use of long and short positions will succeed in limiting the Sub-Fund's volatility.
- The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.
- The single market in which the Sub-Fund invests may be subject to particular political and economic risks, and as a result, the Sub-Fund may be more volatile than more broadly diversified funds.
- The Sub-Fund uses financial derivative instruments for investment purposes. The value of financial derivative instruments can be volatile and may result in gains or losses in excess of the amount required initially to establish a position in the derivative. The Management Company is required to disclose in Appendix III of the Prospectus the sum of the gross notional exposure of the financial derivative instruments used (including those used for hedging or efficient portfolio management) as the expected level of leverage. However, this figure does not take into account whether the instrument increases or decreases investment risk and so may not be representative of the overall level of investment risk in the Sub-Fund.
- Short selling may be subject to changes in regulations and losses from short positions may be unlimited.
- Movements in currency exchange rates can adversely affect the return of your investment. The currency hedging that may be used to minimise the effect of currency fluctuations may not always be successful.
- Further information about risks can be found in "Appendix IV - Risk Factors" of the Prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.50%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from this Share Class over a year

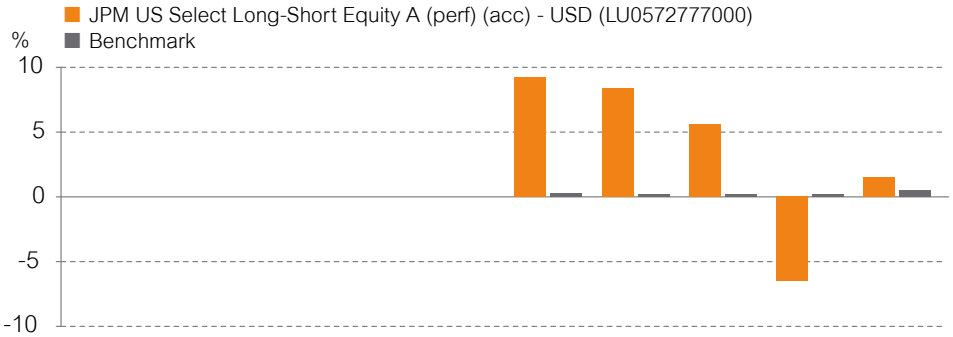

Ongoing charge	1.80%

Charges taken from this Share Class under certain specific conditions

Performance fee	15.00% a year of any returns this Share Class achieves above the benchmark, ICE 1 Month USD LIBOR. In the fund's last financial year the performance fee was 0.00% of this Share Class's Net Asset Value.

- The entry and exit charges are the maximum charge and investors may pay less. Information on charges can be obtained from the investor's financial adviser, distributor or any country specific addendum to the Prospectus.
- A switching charge not exceeding 1% of the Net Asset Value of the shares in the new Share Class may be charged.
- The ongoing charge is based on the last year's expenses to November 2016 and may vary from year to year.
- Charges are used to pay the costs of running this Share Class, including the costs of marketing and distribution. These charges reduce the potential growth of the investment.
- Further information about charges and specifically about the performance fee and how it is calculated can be found in the "Administration Details, Charges and Expenses" section of the Prospectus.

Past Performance

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
						9.2	8.4	5.6	-6.5	1.5
						0.3	0.2	0.2	0.2	0.5

- Past performance is not a guide to future performance.
- Performance data has been calculated including tax, ongoing charges and portfolio transaction costs and excluding entry and exit charges, in USD.
- Where no past performance is shown there was insufficient data available in that year to provide performance.
- Sub-Fund launch date: 2011.
- Share Class launch date: 2011.
