August 2017

INVESTMENT OBJECTIVE

BBVA Global Bond is a flexible fund aiming to maximise returns for investors by actively investing directly or through other funds in a mix of fixed income instruments of varying maturities issued globally by public or private sector entities with a maximum investment of no more than 50% in emerging market debt and high yield instruments. Its active and discretionary management policy has been aiming to generate return in line with the mix of duration, credit and currency exposure and this strategy evolves according to market trends and is based on specific strategic asset allocation with no restriction by geographical area. The Fund may invest without limitation in securities denominated in currencies other than the reference currency (Euro). This is an actively managed fund that is not designed to track any reference index.
