GLOSSARY OF INVESTMENT TERMS

We produce a glossary to assist you in case you find any of the investment terms we've used in this factsheet unfamiliar. This is available from our website.

NOTES

¹ Unless otherwise stated, all Fund portfolio figures within this factsheet are as at the end of the month shown at the top of page one. The 'Cash' weight, where applicable, may include cash on deposit, holdings in cash funds, short dated T-Bills (or equivalent), forward FX, income receivable, futures, initial margin and cash backing deposits. Futures are allocated on an economic exposure basis. The valuation data used to calculate asset allocation and top 10 holdings is based on the last published closing price or last traded price where available, and is without any adjustment for swing pricing considerations. Where the portfolio contains illiquid/unquoted securities these have been valued in accordance with the Barings Pricing Policy. Source: Barings/Northern Trust.

² Performance figures are shown net of fees and charges, in Sterling on a NAV per share basis, with gross income reinvested. Source: Morningstar. For data and ratings sourced from Morningstar: © Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

³ The Ongoing Charges Figure ("OCF") reflects the payments and expenses which cover aspects of operating the fund and is deducted from the assets over the period. It includes fees paid for investment management, trustee/custodian, and administration charges.

⁴ The historic yield reflects distributions declared over the past 12 months as a percentage of the mid-market unit price. It does not include any preliminary charge and investors may be subject to tax on their distributions. Yields are not guaranteed. A portion of the Fund's expenses are charged to capital. This has the effect of increasing the distribution(s) for the year by 2.23% (Class A GBP Acc) and constraining the Fund's capital performance to an equivalent extent.
