

## Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

### AMUNDI FUNDS EQUITY INDIA - FU A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU0557865937

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

#### Objectives and Investment Policy

The objective of the Sub-Fund is to seek long-term capital growth by investing at least two thirds of the assets in shares and financial instruments replicating or based on shares ("equity-linked instruments") of companies of India. The Sub-Fund will select a diversified range of shares reflecting the broad spectrum of the Indian economy, based on their potential for earnings growth and their management and financial resources to achieve it.

The Sub-Fund may invest in financial derivative instruments for hedging purpose and for the purpose of efficient portfolio management.

The 10/40 MSCI India index represents the reference indicator of the Sub-Fund. The Sub-Fund does not aim to replicate the reference indicator and may therefore significantly deviate from it.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

#### Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in Indian equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

## Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest
