Melchior European Opportunities Fund - I1 €

(ISIN: LU0289523259)

This Fund is a sub-fund of Melchior Selected Trust the management company of which is Edmond de Rothschild Asset Management (Luxembourg).

Objectives and investment policy

- The objective of the Fund is to achieve capital growth. It invests primarily in shares of companies that are either based, or operate predominantly, in Europe (including the United Kingdom).
- The Fund may use derivatives (financial instruments whose value is linked to the expected future price movements of the underlying assets). This may be to protect the value of the Fund's assets against market and currency fluctuations and/or, in the short-term, to efficiently invest cash flows.
- The Fund is actively managed within its objectives and is not constrained by a benchmark.
- The Fund has no specific target industry or sector.
- You can buy, sell and switch shares in the Fund on any Luxembourg business day. An instruction received before 14:00 CET will be bought/sold at the price on the next dealing day in Luxembourg.
- Any income is reinvested into the Fund.

Risk and reward profile

The risk category is calculated using either historical volatility or the risk limit of the fund, based upon methods set by European Union rules. It may not be a reliable indicator of the fund's future risk profile. It is not a measure of capital gain or loss is not guaranteed and may change over time. The lowest risk number does not mean risk free.

The share class is in the risk category indicated above due to rises and falls of its price or simulated data in the past. Share classes that seek to provide rewards with a low level of

volatility are indicated by a 1-2, whereas a 3-5 indicates a medium level of volatility and 6-7 a high level of volatility.

Volatility is influenced by changes in stock market prices, currencies and interest rates, which can be affected unpredictably by diverse factors including political and economic events. Please note that the value of investments and any income you receive from them may go up as well as down. This means that you may not get back your original investment.

All the risks currently identified as being applicable to the Fund are set out in the "General Risk Considerations" section of the Prospectus.
