

SEXTANT TECH SUBFUND OF SICAV SEXTANT MANAGED BY AMIRAL GESTION

Key Investor Information Document

This document provides essential information for investors in this subfund. It is not marketing material. The information it contains is required by law, to help you understand the nature of an investment in this subfund and the risks entailed in it. You are advised to read this document so that you can make an informed decision whether to invest in the subfund or not.

• Objectives and investment policy

Management objective: SEXTANT TECH is a dynamic sub-fund that seeks to outperform its benchmark index (50% Dow Jones Stoxx 600 Euro + 50% MSCI ACWI index) via a selection of technology-sector or technology-related stocks that are largely European but may be global. Performance is calculated net of management fees.

Benchmark indicator: investors should note that as the management style (see below) is discretionary, the portfolio composition will never seek to replicate, either geographically or in sector terms, the composition of a benchmark. However, the Dow Jones Stoxx 600 Euro Index reinvested net dividends and the MSCI ACWI will be considered an ex-post performance indicator.

The Dow Jones Stoxx 600 Euro Index comprises 600 stocks representing 80% of the European market capitalisation. The MSCI ACWI (All Country World Index) is a global stock-market index that covers most of the world's large and mid-caps in 24 developing and 23 developed countries.

Classification : "International equities".

Investment policy: the strategy to achieve the investment objective of the SEXTANT TECH Subfund is based on a highly disciplined stock picking approach, after a fundamental multiple-criteria analysis specific to the investment management company, notably including environmental, social and governance criteria. These securities are technology-related (innovative companies such as video games, robotisation, IT/AI, fintech, internet, e-commerce and industry 4.0). The Sub-fund invests at least 75% of net assets in global equities (developing markets account for up to 50% of net assets), but with a high weighting of stocks issued in Europe or those of companies headquartered in Europe, without no constraints in terms of market capitalisation. The Sub-fund may invest up to 10% of net assets in companies listed in

non-organised or unregulated markets. The Subfund reserves the right to invest up to at most 25% in money market instruments and fixed-income securities giving access to the capital of the issuer irrespective of creditworthiness. The Subfund may invest up to 10% of its assets in securities of other French and/or European coordinated UCITS, in particular to invest cash holdings. Exposure to forex risks for currencies other than those of the euro zone may present up to 75% of the portfolio's net assets. Futures and securities that include derivatives may be used to expose the subfund to a favourable trend – or for partial coverage against an unfavourable trend – in equities, interest rates, indices or forex. There will be no excessive exposure of the portfolio to equity or credit risk.

OTHER INFORMATION Environmental, Social and Governance (ESG) criteria contribute to the manager's decision making but are not a decisive factor. The sub-fund is classified as Article 8 within the meaning of Regulation (EU) 2019/2088, "SFDR"

Redemption of shares: investors may obtain redemption of their shares on request each business day except public holidays in France. Subscription and redemption orders are centralised each valuation day before 11 a.m. with our transfer agent CACEIS BANK and are executed at the NAV calculated on the closing prices on the day of centralisation.

Appropriation of profit : Capitalisation of income.

Recommended minimum investment period : The recommended investment period is more than 5 years. This Subfund might not be suitable for investors who plan to withdraw their investment within 5 years.

• Risk / Reward profile

For a lower risk For a higher risk

← →

a potentially lower return a potentially higher return

1	2	3	4	5	6	7
---	---	---	---	---	---	---

MEANING OF RISK INDICATOR: This indicator represents the annual historical volatility of the subfund over a 5-year period. The historical data used to calculate this indicator might not be a reliable indication of the future risk profile of the subfund. It is not certain that the risk category will remain unchanged, and the UCITS' classification could therefore change over time. Category 1 is not synonymous with a risk-free investment.

Why is of the subfund in this category?

It invests in the markets and/or uses techniques or instruments whose value may rise or fall, entailing gains or losses. The Subfund's risk indicator is representative of its exposure to equity markets. This exposure to equity markets accounts for of the subfund's presence in this category.

Its exposure to equity markets explains the subfunds classification in category 6.

The subfund's capital is not guaranteed.

MAJOR RISKS NOT TAKEN INTO ACCOUNT IN THE INDICATOR :

- **Credit risk :** the subfund may be exposed to credit risk. In the event of a deterioration in the creditworthiness or the default of an issuer, the net asset value will fall.
- **Liquidity risk :** Since the subfund can invest in small and mid-cap equities for which market trading volumes are low, any purchase or sale of these equities may cause significant price changes, up or down. The net asset value of the subfund may therefore behave similarly.

For fuller information on the risk/reward profile, you may refer to the prospectus available on the www.amiralgestion.com website or contact Amiral Gestion, 103 rue de Grenelle - 75007 Paris

• Charges

The charges and fees paid cover the operating costs of the subfund, including the costs of marketing and distributing shares. These charges reduce the potential growth of the investment.

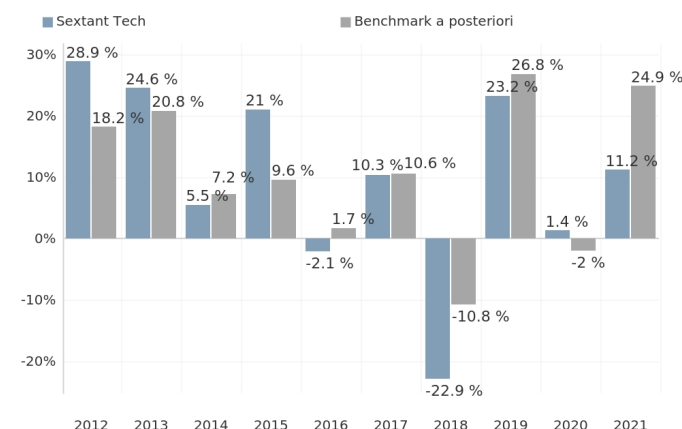

ONE-OFF CHARGES LEVIED BEFORE OR AFTER YOU INVEST	
ENTRY CHARGE	2% including tax maximum
EXIT CHARGE	1% including tax maximum
<i>The percentage indicated is the maximum that can be levied on your capital before it has been invested, on the subscription value of the unit of the subfund. In some cases, investors may pay less. Investors can obtain the actual amount of entry and exit charges from their adviser or distributor.</i>	
CHARGES LEVIED BY THE SUBFUND OVER ONE YEAR	
ONGOING CHARGES*	1.03%
CHARGES LEVIED BY THE SUBFUND IN CERTAIN CIRCUMSTANCES	
PERFORMANCE FEE	15%, incl. taxes of the subfund's perf. beyond the perf. of the DJ STOXX 600 (reinvested dividends) index, on the condition that its performance is positive
Charges levied (*)	0.00% of net assets

(*) Investors should note that the figure for "ongoing charges" and performance fees is based on the charges for the previous financial year, ended on 30/06/2021. These charges may vary from one year to another.

For more information on charges, please refer to the prospectus of the SICAV SEXTANT available on the website www.amiralgestion.com.

Ongoing charges do not include performance fees and intermediation costs except in the case of entry or exit charges paid by the subfund when it buys or sells units or shares of other collective management vehicles.
